42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

.Interior contains unique cantilevered stairs, hand-carved in 3.891. Front gabled roof with gables to each side over bay windows. Decorative verge boards at corner of house. Wood octagon shingles used to separate first and second stories wrapped around house. Stone wall in front of house from local quarry with iron fence.

PHOTO MUST BE PROVIDED

43. HISTORY AN5 SIGNIFICANCE

Built in 1891 by John Archibald Phillips. It was used in 1912 as a meeting place for Evangelical Lutheran Church. It survived the 1927 tornado with loss of the roof and the front porch. Excellent example of Victorian architecture in early Poplar Bluff history,

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

The building is situated just north of downtown.

42. Further Description of Important Features: One and one-half story frame, 4 bay, T-plan residence built ca. 1895-1901.. The house has a brick and concrete foundation, hipped roof of asphalt shingles, interior brick chimneys and exterior weatherboard and shiplap siding. On the main (N)facade is a one-story porch with ca. 1920 concrete piers and a railing with square balusters. The main entrance has an original single light glass and wood door with a single light transom and two light sidelights. On the east facade is a recessed bay containing an original single light glass and wood door. Windows are original 1/1 rectangular wood sash.In the gable field on the main facade is a multi-light window and also on the main facade is a shed dormer with multi-light casement windows. The eaves have vergeboard decoration.

43. History and Significance: This residence is a good example of a turn of the century T-plan residence.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. Further Description of Important Features: One-story frame, four bay, ca. 1900 Pyramidal Roof form residence. The house has a concrete foundation, pyramidal roof of asphalt shingles, interior brick chimney, and exterior of weatherboard siding. On the main (N) facade is a partial width shed porch with original Tuscan columns and railing with square balusters. The main facade has two primary entrances both of which retain original single light glass and wood doors. Windows are original 1/1 rectangular wood sash. At the roofline of the main facade is a high pitched gable dormer with a plain fascia board.

43. History and Significance: This residence is a fine example of a turn of the century Pyramidal Roof plan structure and it retains its original design and detailing.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

This house has a front gabled roof with exposed rafters in the eaves. A dormer exists on the roof along with a center chimney. Supporting brackets are present in the eaves on the front of the house. An open porch is present with supporting columns of brick and then wooden posts. Modern storm windows have been added along with a rear room.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE This house was built in 1927 by Ralph Funke. In 1970, Mrs. Funke sold the house to Mary E. Ford. In 1974, Paul and Susan Patterson purchased the house. Part of the significance of this home is found in the fact that several older homes exist in the area making it possible for a historic district to be considered.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

This house is located in a residential area of Cole Street on a center lot.

Address: **510** Cynthia Street

42. Further Description of Important Features: Two-story frame, 2 bay, Queen Anne influenced T-plan residence built ca. 1895. The house has a concrete foundation, gable roof of asphalt shingles, interior brick chimney, and exterior of shiplap siding. On the main (N) and east facades is a one-story shed porch with original Tuscan columns. The main entrance has an original glass and wood door and a single light rectangular transom. Windows are original 1/1 and 2/2 rectangular wood sash. On the projecting bay of the main facade is a shed roof bay window with two **1/1** sash windows, bracketed eaves, and rectangular inset panels. In the gable field on the main facade are hexagonal wood shingles. At the eaves are large eave brackets.

43. History and Significance: This residence is a good example of a Queen Anne influenced two-story T-plan residence. The house has not been significantly altered.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Polar Bluff.

42. Further Description of Important Features: Two-story brick, four bay Colonial Revival influenced duplex built before 1924. The house has a concrete foundation, gable roof of asphalt shingles, and exterior of stretcher bond brick. On the main facade are two primary entrances and over each are gable entry porches with Tuscan columns resting on brick piers. Both entrances have original single light glass and wood doors and eight light sidelights. Over the doors are soldier course lintels. Windows are 1/1 rectangular wood sash with brick sills and soldier course lintels. On the second story central bays is a large cantilevered bay window with knee brace brackets and four 1/1 sash windows in each bay. At the roofline of the central bays are gable dormers with rectangular single light attic windows.

43. History and Significance: This residence was built as a duplex and retains its original design and form.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

Address: 621 Cynthia Street

42. Further Description of Important Features: Two-story frame, 3 bay, Queen Anne/Colonial Revival residence built ca. 1905. The house has a foundation of hollow core concrete block, hipped roof of asphalt shingles, interior brick chimneys, and exterior of weatherboard siding. On the main (S) and east facades is a one-story shed porch with original fluted Ionic columns and a railing with turned balusters. On the main facade is a primary and secondary entrance. The primary entrance has an original six paneled door with a single light rectangular transom. In the west bay of the facade is the secondary entrance which has a ca. 1920 glass and wood door. Windows are original 1/1 rectangular wood sash with frame cornices and sills. On the second story of the main facade is a projecting bay which originally contained an open balcony. This balcony has been enclosed ca. 1940 with wood siding and 2/2 horizontal sash windows. The original fluted Ionic columns remain. In the gable field of this projecting gable are hexagonal wood shingles and an oval wood panel with a sunburst design and wood keystones and shoulders. At the roofline of the main block is a gable dormer at the roofline with hexagonal wood shingles and an elliptical attic vent window.

43. History and Significance: This residence was built ca. 1905 and despite the enclosure of the second story porch it retains much of its original design and character.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

This house has a complex cross gable roof with a side dormer. An open porch is present. It is constructed of brick with iron supporting columns. Modern storm windows have been added. A rear room has been added. The interior floorplan has been only minimally altered.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE

This house was built in 1907 for Willard and Bessie Nance. The house was purchased in 1976 by the present owner, Mildred Lunsford. This house is significant in part due to the fact that it is located in an area with several older homes. This grouping may support the creation of a historic district.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

This building is located on a corner lot in a residential area.

Address: 923 Cynthia Street

42. Further Description of Important Features: One and one- half story, frame, two-bay rectangular plan residence built ca. 1925. The house has a concrete foundation, a gable roof with asphalt shingles, aluminum siding and an exterior end chimney. There are exposed rafters under the eaves in the front gable. The original windows have been replaced by nine -light ca. 1960 picture windows. The open porch has wrought iron supports and balustrade and a hipped roof that extends over the carport. There is a shed dormer on the east side of the roof.

43. History and Significance: This house represents the popular Craftsman bungalow style in the early part of the twentieth century.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of the city.

45. Sources of Information: Abstract search, Sanborn maps.

42. Further Description of Important Features: One-story frame, 3 bay, T-plan residence built ca. 1917-1924. The residence has a concrete foundation, gable roof of asphalt shingles, interior brick chimney, and exterior of shiplap siding. On the main (S) facade is a one-story porch with original milled columns and a frieze with rectangular open weave wood panels. The main entrance ha an original glass and wood door. Windows are original 1/1 rectangular wood sash. On the projecting bay of the main facade is a bay window with a shed roof of fish scale wood shingles. This bay window has wood support brackets, recessed wood panels, and eave brackets. In the gale field of the main facade are hexagonal wood shingles and eave vergeboard.

43. History and Significance: This residence is a good example of a T-plan design of the turn of the century.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. Further Description of Important Features: Nine-bay, two-story, brick school building designed by Bonsack and Pearce, Inc. and built in 1928 by J.J. Miller. The building was constructed with extended bays on the main facade. The building has a flat roof of rolled roofing and a concrete foundation. The main entrance has ca. 1970 metal and glass doors. The surround is of concrete with pilasters nd a dentilled cornice. Windows are ca. 1970 1/1 and three-light horizontal design metal replacements. Windows have concrete sills and soldier course lintels with concrete keystones. At the corners of the building are concrete quoins. At the roofline is a stepped parapet with concrete coping. The north and south facades have nine bays with similar windows and secondary entrances are located in extended bays. There is also a dentilled cornice and quions and metal doors. In front of the building is a concrete retaining wall and concrete staircase.

43. History and Significance: The school is a good example of early twentieth century school buildings.

44. Description of Environment and Outbuildings: The school occupies a rectangular urban lot in a residential area of Poplar Bluff.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

This house has a cross gable roof with slight eaves. Modern storm windows have been added along with a front porch. The building is in only fair shape due to lack of care. The interior has been only slightly modified.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE

This building was built around 1920. It survived the tornado of 1927 without serious damage. Its significance lies in the fact that it is one of several older homes in the immediate area. These houses represent the economic development of Poplar Bluff in the 1920's. A historic district potential exists.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

This building is located on a corner lot in a residential area.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

This house has a side gable roof with supporting brackets in the eaves. The front porch has been enclosed at a later date. A side room has been added onto the structure. Siding has been added to a portion of the building. The interior has been minimally altered.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE

This house was built around 1925. It survived the tornado of 1927 and was in an area of farmhouses at the time. The significance of this house lies primarily in that it is one of several older houses in the area thus producing a cluster of similar homes. A historic district potential exists.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

This building is located on a center lot in a residential area.

42. Further Description of Important Features: Two-story frame, three bay, rectangular plan I-House built in 1884. The house has a concrete foundation, gable roof of asphalt shingles, and exterior shiplap siding. On the main (E), south and west facades is an elliptical one-story porch which has original milled columns, brackets, a railing with square balusters, and a spindled frieze. The main facade has two primary entrances which contain original single light glass and wood doors. Windows are 1/1 rectangular wood sash. In the gable fields are vergeboard, milled panels, and drop pendants.

43. History and Significance: This residence appears to have been a rural estate of the late 19th century. The house is sited on a large lot and faces towards N. Main Street which is a half block east. The house possesses one of the largest original porches in Poplar Bluff.

44. Description of Environment and Outbuildings: This house occupies a rectangular urban lot in a residential section of Poplar Bluff. To the east of the house is a one-story carport and ca. 1930 frame and stucco shed.

42. Further Description of Important Features: One-story brick, 10 bay, industrial building constructed ca. 1910-1917. This rectangular plan building has a concrete foundation, hipped and flat roof of clay tile shingles and rolled roofing, and exterior of stretcher bond brick. The building has four primary entrances on the main (w) facade, two of which retain original glass and wood doors. The other two entrances have ca. 1970 sliding overhead doors. The north five bay section is taller than the south wing. The north section has original 56 light metal casement windows above and below each other in each bay. These windows have concrete sills. Windows in the south section are arched multi-light casement design with each arch containing three courses of brick relief arching and concrete shoulders and keystones. Each bay of the building is separated by brick pilasters. At the roofline of the south section is an octagonal vent window. The building continues to be used by the city.

43. History and Significance: This building was constructed ca. 1910-1917 to serve as a power plant and waterworks for the city. The building retains much of its original design and continues to be used by the city.

44. Description of Environment and Outbuildings: The waterworks building is located adjacent to the Black River in an industrial area to the north of the commercial section. To the north of the waterworks building is a one-story brick, four bay, ca. 1915 garage with ca. 1950 hinged doors, casement metal windows, and a hipped roof.

42. Further Description of Important Features: Two-story, brick, 7 bay industrial building constructed after 1928. The building has a concrete foundation, flat roof of rolled roofing, and exterior of stretcher bond wire brick. The building's main entrances contain ca. 1970 metal and glass doors. The primary entrance on the main (E) facade has a surround of soldier and sailor brick coursing. This decorative brick coursing is also found on the window surrounds. Windows are ca. 1970 metal casement design and have original surrounds and concrete sills. On the main facade are rectangular bands of decorative brick and concrete panels laid in soldier and sailor brick coursing. At the roofline is a flat parapet with concrete coping.

43. History and Significance: This building was constructed after 1928 a part of the city's waterworks plant. This building appears to have been used as offices of the plant and it continues to be used by the city.

44. Description of Environment and Outbuildings: This building is located adjacent to the city's main water works plant on Johnson Street in and industrial area adjacent to the Black River.

42. Further Description of Important Features: One-story frame, T-plan residence of three bays built ca. 1892-1895. The house has a brick foundation, gable roof of asphalt shingles, interior brick chimneys, and exterior of wide shiplap siding. The house retains an impressive collection of milled exterior decoration. On the main (N) facade is a projecting partial width gable porch with original milled columns. The columns now rest on a ca. 1940 solid brick railing. In the gable field of the porch are hexagonal wood shingles and at the eaves are fluted and paneled valences. Below the wood shingles is also a paneled frieze board. The main entrance has an original single light glass and wood door. Windows are rectangular 1/1 wood sash. In the projecting gable on the main facade are hexagonal wood shingles in the gable field, fluted and paneled valence boards and paneled frieze boards. Also in the gable field is a circular or bulls eye attic window.

43. History and Significance: This residence was built ca. 1892-1895 and retains its original exterior milled decoration.

44. Description of Environment and Outbuildings: This house occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. Further Description of Important Features: One-story frame, three bay, asymmetrical plan vernacular residence built ca. 1892-1895. The house has a brick foundation, hipped roof of asphalt shingles, interior brick chimneys, and exterior of shiplap siding. On the main (S) and east facades is a one-story porch which appears to have been added ca. 1910. The porch has paired Tuscan columns which rest on solid wood piers. Between the columns is a railing with milled balusters. The porch has a projecting gale over the entrance bay which contains a wood cartouche and garland and swag designs. The main entrance has an original single light glass and woo door. Windows are original 1/1 and 2/2 rectangular wood sash. On the main facade is a bay window with rectangular wood panels, eave brackets, and three 1/1 sash windows. In the gable field'on the main facade are hexagonal wood shingles and vergeboard at the eaves. Over the window in the west bay is a small shed canopy with eave brackets and a wood shingle roof. In the gable field on the main facade is an elliptical single light attic window.

43. History and Significance: This residence appears to have been built ca. 1892-1895 and retains much of its turn of the century design.

44. Description of Environment and Outbuildings: This house occupies a rectangular urban lot in a residential section of Poplar Bluff.

Address: 803 Kinzer Street

42. Further Description of Important Features: One-and- one-half story frame, three bay, asymmetrical plan residence built ca. 1900. The house has a hipped roof and gablet of asphalt shingles, interior brick chimneys, concrete foundation, and exterior of aluminum siding. On the main (S) and west facades is a one-story shed porch with original Tuscan columns. On the main facade are two primary entrances with ca. 1980 paneled wood doors. Windows are original 1/1 rectangular wood sash and 3/1 vertical wood sash added ca. 1925. On the main facade at the roofline is a single light window with a wood cornice. In the gable field of the gablet are paired louvered vent windows and wood or plaster decoration in an urn and garland design.

43. History and Significance: Built ca. 1900, this residence has been altered but retains its original form and plan an interesting roofline.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

This house has an unusual roof with hipped cross gabled styles. A front, side and rear porch is present. The house has a center chimney. The interior of the house has been altered to accommodate several apartments. Outside wooden stairways have been added to the structure to facilitate entrance.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE

This house was built for Ed and Lilie B. Whitworth by A.W. Greer around 1936. Today, the house has been divided into apartments. This structure is significant in that it retains much of its original form and is part of a sesction of town with several other similar houses. The potential for a district exists.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

This house is located on a corner lot in a residential area of Kinzer.

Address: 808 Kinzer Street

42. Further Description of Important Features: Two-story frame, T-plan residence with three bays built ca. 1900. The house has a concrete and concrete block foundation, hipped roof of asphalt shingles, interior brick chimney, and exterior of weatherboard siding. On the main (N) and east facades is a one-story shed porch with original square columns with Doric motif capitals. Between the columns is a railing with original square balusters. The main entrance has an original oval single light glass and wood door and rectangular single light transom. Windows are original 1/1 rectangular wood sash. In the gable field on the main facade is an elliptical vent window.

43. History and Significance: Built ca. 1900, this two-story residence is a good example of a Colonial Revival influenced T-plan house of the early 20th century. The residence has not been altered. Known as the Bushman House, the house was built by Mr. Bushman who owned a grocery store downtown. Ownership of the house was passed to his daughter, Octabel Maddox.

44. Description of Environment and Outbuildings: This house occupies a rectangular urban lot in a residential section of Poplar Bluff.

Address: 835 Kinzer Street

42. Further Description of Important Features: One-story frame, three-bay, gable front "Prow" house form built ca. 1900. The house was built with a central projecting gable front bay on the main facade which has been termed a Prow House plan. The house has a gable roof of asphalt shingles, interior brick chimney, concrete foundation, and exterior of shiplap siding. On the main (S), east and west facades is a one-story porch with original Tuscan columns. The main entrance has a ca. 1960 glass and wood door. Windows are original 1/1 rectangular wood sash. In the gable filed of the main facade are sawtooth wood shingles.

43. History and Significance: This residence is a good example of a pure T shaped residence which has also been denoted as a Prow House. This house plan is rare in Poplar Bluff and this is a good example from the turn of the century.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

This house has a cross gabled roof with exposed rafters. There are two side chimneys and side day porch. This building remains unaltered and retains original floorplan. The front porch is screened and constructed of brick.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE

This house was built around 1916 by Charles Tetwiler. The original owners were Mr and Mrs. Cline Owen. Today, it is owned by Ms. Fanny Fuqoa. This house is an excellent example of a Craftsman type house in Poplar Bluff. It is also one house in an area with several other similar style and period houses. A historic district may be a possibility.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

This house is located on a corner lot in a residential area.

Address: 907 Kinzer Street

42. Further Description of Important Features: One-story, three bay, stone veneer, ca. 1925 Bungalow. The house has a concrete foundation, gable roof of asphalt shingles, exterior brick chimney and stone veneer wall surface. On the main (S) facade is a partial width shed porch with ca. 1960 added wrought iron posts. At the porch's central bay is an elliptical roofline and this entry bay has original tapered frame columns. The main entrance has an original multi-light glass and wood door. Windows are 3/1 vertical light sash. At the eaves are knee brace brackets and exposed rafters. At the roofline on the main facade are small eyebrow dormers with louvered vents. On the west facade the porch extends to form a porte-cochere.

43. History and Significance: This residence is a good example of an early 20th century stone veneer Bungalow. Although the porch has been altered, the house retains much of its original design and detailing.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

Address: 995 Kinzer Street

42. Further Description of Important Features: One-story frame and stucco, three bay, rectangular plan Bungalow built ca. 1925. The house has a concrete foundation, gable roof of asphalt shingles, exterior brick and stucco chimney, and exterior stucco wall surface. On the main facade is a gable roof porch with square frame and stucco piers on a solid wood and stucco railing. The porch has added screen panels. The main entrance has a ca. 1960 glass and wood door and original single light sidelights. Windows are 5/1 vertical light sash. At the eaves are exposed eave rafters and knee brace brackets.

43. History and Significance: This residence is a good example of an early 20th century frame and stucco Bungalow.

44. Description of Environment and Outbuildings: This house occupies a rectangular urban lot in a residential section of Poplar Bluff. To the east of the house is a ca. 1960 frame garage.

42. Further Description of Important Features: Two-story, frame, two-bay irregular plan residence built ca. 1890. The house has a concrete foundation and a full basement. The many roof styles include a gambrel roof, a shed roof addition over a hip-roofed porch, a two-tier shed-roofed porch and a square tower with a pyramidal roof. The original form of the house is hidden by its many additions, although the additions look to be historic. On the main facade, thee is a two-bay milled porch with turned columns, balustrade and frieze. In the frieze are decorative fan-hike corner brackets. There is a shed roof addition above the porch. A modern porch of somewhat temporary construction has been added to the west side of the house. The porch is supported by square columns and has a plywood balustrade. The corner tower is two stories tall and has a two-over-two sash window with decorative surrounds on both exterior walls. The pyram dal roof is supported by ornate scroll brackets. There are decorative shingles and a carved decorative band below the brackets. There is a hipped dormer on the east side with another two-over-two window with a decorative surround. There is also a corner bay adjoining the tower in the basement and on the first floor with Italianate brackets and windows.

43. History and Significance: This house represents a variety of Victorian styles including Italianate, Queen Anne and Eastlake. J.J. Greer lived in the house in the early twentieth century. Although he lived in town, he farmed outside the city limits.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of the city.

45. Sources of Information: Abstract search, Sanborn maps; Francis Hamblin, interview.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

This house has a cross hipped roof with a front dormer. A front bay extends on first and second floors. Fishscale woodwork exists in the eaves. Front and side porches exist. The interior of the house is almost completely unaltered. Original woodwork remains and stain glass windows.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE

This house was built in 1899 by Mr. Moore. Mr. Moore was a prominent contractor in Poplar Bluff at the turn of the century. The house remained in the family until 1974 when it was willed to the First Methodist Church. It was sold to Thomas and Margerette Swindle. This house is one of the better examples of Victorian architecture in Poplar Bluff. The house is in an area that my qualify as a historic district.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

This building is located on a center lot in a residential area.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

The interior of this house retains original woodwork and flooring. It has, however, been altered to a three apartment building. These changes have taken away from the original plan. The building has the original front porch but also has other entrances added. A rear roan has been added.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE

The house was originally built for George Babcock in 1919. That year it was acquired by W.O. Sharp who, in turn, sold it to Emmitt I. Griffing in 1920. Griffing sold the house to George and Myrtle Allison in 1927. In 1980, John C. Shewman bought the house. He sold it to Larry Kearbey in September, 1983. Kearbey then sold the house in November, 1983 to James Purcell who declared bankruptcy and the Commerce Bank took possession in 1984. In 1985, the building was bought by Jerome Zazzera.

Address: 703 Lester Street

42. Further Description of Important Features: Two-story frame, T-plan, three bay Queen Anne influenced residence built ca. 1900. The house has a foundation of rock faced hollow core concrete blocks, gable roof of asphalt shingles, interior brick chimneys, and exterior of weatherboard siding. On the main (S) facade is a partial width one-story shed porch with original Tuscan columns. The east section of the porch has been enclosed with screen panels. The main facade has two primary entrances which each have ca. 1920 multi- light glass and wood doors. Windows are original 1/1 rectangular wood sash. On the east facade is a one-story bay window. On the second story of the main facade is also a bay window with a shed roof and three small 4/4 sash windows. In the gable field on the main and east facades are square wood shingles and a Palladian motif attic window with fixed single lights.

43. History and Significance: This residence was built ca. 1900 and retains much of its original design.

44. Description of Environment and Outbuildings: This house occupies a rectangular urban lot and has not been significantly altered.

42. Further Description of Important Features: Two-story frame, two bay, rectangular plan vernacular residence built ca. 1905. The house has a cross gable roof of asphalt shingles, foundation of rock faced hollow core concrete blocks, interior brick chimney, and exterior of weatherboard siding. On the main (S) facade is a full width shed porch with square columns and a solid wood railing. The porch was enclosed ca. 1940 with screen panels. The main entrance ha an original glass and wood door. Windows are original 1/1 rectangular wood sash. One the second story of the main facade is a ca. 1940 frame shed roof bay with 1/1 sash windows. In the east and west bays of the second story are small circular or bulls eye windows. At the gable are square wood shingles and multi-light attic windows.

43. History and Significance: This residence is one of three identical plan houses built at 721, 725, and 729 Lester Street. While some alterations have taken place to each residence, much of their original form is apparent.

44. Description of Environment and outbuildings: This house occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. Further Description of Important Features: One-story, three bay, T-plan Bungalow built of hollow core tiles ca. 1925. The house has a concrete foundation, gable roof of asphalt shingles, and exterior of hollow core glazed tiles. On the main (S) facade is a partial width shed porch with a frame and stucco column on a brick foundation. The porch has an open weave brick railing. The main entrance has an original vertical light glass and wood door. Windows are 3/1 vertical light sash with brick sills. At the corners of the house are soldier and sailor brick coursing laid in a quioning pattern. At the roofline are large knee brace brackets.

43. History and Significance: This residence is a good example of hollow core tile construction of the 1920s. This building material is rare in Poplar Bluff and this residence is one of the few identified of this material.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. Further Description of Important Features: One-story frame, four bay, T-plan residence built ca. 1900. The house has a concrete foundation, gable roof of asphalt shingles, interior brick chimney, and weatherboard siding. On the main (N) facade is a partial width shed porch with original milled columns and a solid wood railing. Between the columns are added screen panels. The main entrance has a single light glass and wood door. Windows are 2/1 rectangular wood sash. In the gable field on the main facade is a two light attic window.

43. History and Significance: This residence is a good example of a turn of the century T-plan residence and retains its original design and detailing.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff. 1

42. Further Description of Important Features: One-story frame, T-plan, four bay residence built ca. 1900. The house has a foundation of rock faced hollow core concrete blocks, hipped and gable roof of asphalt shingles, interior brick chimneys, and weatherboard siding. On the main (N) facade is a full width shed porch with original Tuscan columns and railing with square balusters. On the main facade are two primary entrances with original oval single light glass and wood doors and rectangular single light transoms. Windows are original 1/1 rectangular wood sash. In the gable field on the main facade is a square single light attic window.

43. History and Significance: The residences at 848 and 858 Lester Street are identical plan frame T-plan residences of the early 20th century. The house at 848 retains much of its original character and design.

44. Description of Environment and Outbuildings: This residence occupies a rectangular urban lot in a residential section of Poplar Bluff.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

This house has a hipped roof with front and side cross gables. The house has an open front porch. A rear room has been added to the house. The front door, with oval glass is original. The house retains the basic original floorplan.

PHOTO MUST BE PROVIDED

43. HISTORY AND SIGNIFICANCE

The house was built in 1910 by AW. Greer for James and Mary McCabe. In 1911, Dr. Harrison bought the house. He was a local doctor of some reputation. It was later owned by Henry Harrison. The house is presently owned by Joyce Beck. This house is part of a grouping of similar houses. A historical district potential may exist.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

This building is located on a corner lot in residential area.
