Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	INSP Initials	NOV
KCRO	2013-08-19	2013-07-16	E and S Quarries	Holden	Johnson	Fugitive Dust	SN	
<p>Comments I arrived at the site and since it had not rained in over a week I was looking for indications of fugitive dust on the vegetation and trees. No dust was noticed on any vegetation on or off the property. I then went and talked to the operator of the quarry. They had all of their required documentation. I also told him the day we received the complaint and according to records they were crushing road grade rock that day. He said that when they make that stuff he is positive no dust is leaving the property. They were not crushing rock the day I was there and no emissions were observed.</p> <p>No further actions required.</p>								
Comp. No.	16216	Comp. Info. Concerned party states that the dust has not improved since the last investigation. It is so bad, that he has to wear a dust mask to mow. Seems to happen about every day from 7am to 4pm. The dust appears to be coming from the crusher. The dust can be seen from the road, but it is easier to observe from the east while driving west						
KCRO	2013-08-19	2013-08-12	Southside Red E Mix	Knob Noster	Johnson	Fugitive Dust	SN	
<p>Comments I have just recently done a full inspection on this site. They received an NOEE and NOV. I arrived at the site and no one was there. The plant was not operating and no emissions were observed</p> <p>I called the operator to let them know of the recent concern. No further actions</p>								
Comp. No.	16217	Comp. Info. Caller states that the dust continues to be bad from the plant and is either causing or aggravating health issues. Facility releases dust whenever they feel like. Caller believes situation will not improve as long as the plant is in business.						
KCRO	2013-08-19	2013-08-15	Korn Harvesting & Hauling – A.	Amoret	Bates	Air Odors	SN	
<p>Comments A NOEE will be issued for the violation of 10 CSR 10-6.165 Restriction of Emission of Odors, which states “No person may cause, permit, or allow the emission of odorous matter in concentrations and frequencies or for durations that odor can be perceived when one (1) volume of odorous air is diluted with seven (7) volumes of odor-free air for two (2) separate trials not less than fifteen (15) minutes apart within the period of one (1) hour. This odor evaluation shall be taken at a location outside of the installation’s property boundary.” An exception does include “the odorous matter from the feeding, breeding and management of livestock or domestic animals or fowl,” but this lagoon would not meet that definition because it is waste from an industrial plant.</p>								
Comp. No.	16304	Comp. Info. Concerned party states that the odors from the A. F. Stanfill Lagoon are still very strong. Odors are constant. The odors are especially strong today according to the CP. He lives 200 yards east of the lagoon and this is the first time he has complained and believes it is time for him to get the odors in control. He cannot go into his yard without being overwhelmed by the odors.						
KCRO		2013-08-19		Clarksdale	Dekalb	Burning / Asbestos	SN	
<p>Comments</p>								
Comp. No.	16305	Comp. Info. Multiple trailers (3) are being scrapped out and then burned. This occurred Saturday. They have many more trailers that they are going to do this to. The Clarksdale Fire Protection district responded to the fire. They are currently working on the report and will send it to us when they have it finished but it may be a while. They also have a hole dug next to where they were burning. He thinks that they are burying the stuff after it is burned.

Comments								
Comp. No.	16438	Comp. Info. The concerned party is concerned about odors that smell like spray paint coming from a barn or shed owned by the city of Bethany, MO. The CP lives near the barn and believes that there may be health hazards associated with the odors. The CP stated that the odors smell sweet like spray paint. CP works from 4pm to 8pm daily.						
KCRO		2013-09-03	Hot Mx Materials Inc	Kansas City	Jackson	Particulate	DG	
Comments								
Comp. No.	16439	Comp. Info. The asphalt plant next to our office is emitting some type of material that is sticking to our vehicles and anything else that is downwind from it. It has been going on for some time. We have contacted them several times but cannot be told what the substance is. Several of us are concerned that it might be affecting our health. We think it is coming out of the smoke stack they are running when they make the asphalt. We would appreciate someone from the EPA looking into this, identifying the substance, and telling us if it is harmful.						
KCRO	2013-09-05	2013-09-05	Unknown	Kansas City	Jackson	Air Odors	MC	
Comments Referred to Kansas City Air Quality.								
Comp. No.	16436	Comp. Info. EPA received a call this morning regarding a horrible smell in the Hospital Hill area from approximately the river south to 31st Street. The caller reported a strong chemical odor mixed with a sewer gas smell around 9 am this morning. She reported it to the city who told her to call EPA. The caller would appreciate a follow up call.

Comments								
Comp. No.	16600	Comp. Info. At 4:50 pm on September 11th, I was driving on 470 West. A large smoke plume at that location was observed. The gate was locked, and the smoke appeared to be coming from the City of Kansas City Leaves and Brush Collection site. The smoke was coming from the 50-acres being cleared and burned for the Little Blue Valley Sewer District Sewage Lagoons. The City of Kansas City Air Quality Division had issued a burn permit to the site.

Comments No violation found. Letters will be sent to Brian Paulsen, Director of EHS, and to Melody Torrey, Complainant, explaining the findings of the investigation.								
Comp. No.	16456	Comp. Info. Caller states Murphy-Brown Whitetail was stinking bad on September 8, 2013. Odors were strong in the morning and are again strong at 7 p.m. in the evening.						
NERO	2013-09-09	2013-09-09	Worldwide Recycling Equipment	Moberly	Randolph	Toxics / Storm Water	PM	
Comments On that day I observed the plant from off-site for approximately 25 minutes witnessing no visible opacity from the plant or haul roads. On September 12th, I returned to the installation to perform the air pollution compliance inspection. Mr. Jeff Sayre, General Operations Manager and Mr. Nico Sheeres, Environmental Solutions Engineer were my principal contacts. I determined that the proprietary kiln dust metal recovery operation being conducted at Worldwide Recycling Equipment Sales, LLC incorporates a closed loop vapor system. Exhaust air is routed through two baghouses so no vaporized mercury can be emitted to ambient air.								
Comp. No.	16459	Comp. Info. It is reported that Worldwide Recycling Equipment Sales is heating & vaporizing mercury into the environment. They are located at 1414 Riley Industrial Dr, Moberly, MO. They are supposed to start running the system again in a couple of weeks.						
NERO		2013-09-11	Kayce McClure	New Bloomfield	Callaway	Burning	CB	
Comments								
Comp. No.	16495	Comp. Info. Caller reports that a property owner pushed a house into a pit and burned it. This occurred about 2 months ago. He states that a nearby resident informed the owner that it was illegal to burn a house. The burn pit is still smoldering and only about half burned. He said the owner has refused to cover or extinguish burning material despite requests from at least two nearby residents. He said that one owner's name is Kayce McClure. He stated that Kevin Rackers dug the hole. A nearby resident Randy Wilson (white house) may have additional information.

SERO	2013-08-21	2013-08-05	Cel T Properties		Pulaski	Open Dumps	MO	
Comments	Investigator was unable to investigate environmental concern until above date, due to local flooding of the Gasconade River and unable to travel I-44 to get to St. Robert. On 08/13/2013, investigator met with Pulaski Co. PWS #2's Chief Operator Mr. Mark Tallent to verify where abandoned/plugged wells were located in this area, because the District now services the drinking water in this area. Approximate locations were verified with the District and with the department's Well head Unit. (Please see Photo #1) Investigator could not find any evidence of an abandoned well on 22945 Herman Drive. Investigator observed large trash bags on property from road right-of-way, however no one was on property at the time of this investigation and county court house was still closed due to local flooding, to obtain property owner's contact information. On 08/21/2013, investigator obtained property owner contact information from the Pulaski County Assessor's Office and contacted Ms. Giuffrida at 13:35, by telephone. Ms. Giuffrida informed investigator that this property is a rental property and would have her son contact the department in regards to the details occurring on said property. Mr. Al Giuffrida contacted investigator at 14:06, and informed investigator that they recently evicted a tenant and are currently cleaning up the property for rental. Mr. Giuffrida admitted that brush and some untreated lumber had been burned on property, but other demolition waste, household waste, etc. have been taken to the St. Robert transfer station for proper disposal and that he could provide receipts of said disposal. Both Mr. and Ms. Giuffrida verified that there is no abandoned well on property.							
	Investigation has determined that there are no abandoned/plugged wells located at 22945 Herman Drive, St. Robert and owners appear to be complying with solid waste and air pollution regulations/laws at this time. No further action required by investigator on this investigation at this time.							
Comp. No.	16093	Comp. Info.	He is reporting an abandoned and open deep well that is being neglected and potentially harming the aquifer. He states that there are burn piles all around it and is a big environmental hazard.					
SERO	2013-08-21	2013-08-19	David Phelps, Larry Lehnhoff, Ji	Doolittle	Phelps	Burning	MO	
Comments	On 08/21/2013, investigator visited the area known as "Sporhaven Recreation Club" on Private Drive 8496, Newburg, Phelps County. Investigator observed multiple homes with flood/water damage along the river and WCA roll-off dumpsters at various homes/locations along Private Drive 8496 (Photo 3). Investigator did observe an open burn location on the "common area" near the boat ramp and a WCA roll-off dumpster next to the open burn location (Photo 4).							
	Since investigator was unable to verify/determine the responsible party or the items burned, an informational letter with enclosed technical bulletins for Facts on Open Burning Under Missouri Regulations and Managing Construction and Demolition Waste will be mailed on 08/29/2013, to the individuals listed on Page 1 of this form or the individuals with similar last names. Names and mailing addresses can be found in Additional Comments. Body of informational letter can also be found in Additional Comments. No further action required by investigator on this investigation at this time.							
Comp. No.	16230	Comp. Info.	Concerned party states people are burning flood waste since yesterday (08/15/13) morning including construction demolition waste and furniture.					
SERO	2013-08-21	2013-08-19	Pamela Powell-Morrison	Miner	Scott	Animal Waste	RP	
Comments	The department does not have the regulatory authority to require the owner of a damaged building to tear it down and haul it and the destroyed contents to a permitted solid waste disposal area.							
	The issue of dead animals left in this house was referred to the Scott County Health Department for resolving this local health issue.							
Comp. No.	16236	Comp. Info.	RP's house caught on fire and burned with 9 dogs in it over a week ago. The house only burned partially. So parts of the dogs are still there and the smell is horrible. CP cannot sit outside or enjoy their pool. CP's air conditioner is pulling the stench into their house.

Comments Referred to Department of Agriculture.								
Comp. No.	16321	Comp. Info. RP is a farmer that farms 30 ft. from CP's house. He sprays the grass, trees and his wife. The trees and grass have died. CP is concerned about the hazards. CP has talked to RP and he doesn't want to do anything about it. CP is also concerned about the irrigation flowing onto the Highway. He has contacted the Highway Patrol, but they aren't going to do anything.						
SERO	2013-09-05	2013-08-29	Mark Palmer	Cabool	Texas	Burning / Littering	RP	
Comments I met with Mark Palmer's father who also lived at this residence. He gave me permission to observe the wastes that they periodically have.								
The wastes appeared to be only residential wastes. However, the pile of wastes were down wind from the concerned party and the size of the pile would cause it to smolder for long periods of time.								
9-9-11: I talked with Mark Palmer by telephone and explained to him that the location of his burn pile would cause a problem for his neighbor. He agreed to cease burning on this pile and properly dispose of the waste pile as soon as possible. He stated that he would place a burn barrel in the Southeast corner of his property to double the distance from the neighbor. The burn barrel would also lessen the amount of wastes being burned at one time and would reduce the smoldering affects of burning in the open.								
No further action is necessary at this time.								
Comp. No.	16363	Comp. Info. RP gathers & stacks trash, garbage, plastics & etc. for 2 to 3 weeks. Then he burns it. It blows right into the neighbors house. All her windows are open because she doesn't run the air conditioner. She is an elderly woman. (Erdie Bell)

SERO	2013-09-02	2013-08-30	TIM SMITH	Cabool	Texas	Burning / Asbestos	AB		
Comments	Contacted the Cabool Fire Department. Chief Eric Wilson was not aware of any continued burning at the site. Chief Wilson said he would drive out and look at the property. Chief Wilson called back to say that he did not observe any burning and that it did not look like any recent burning had been occurring.								
	No violations, no further action. Responded to Adrienne Greenlee, EPA, by email.								
Comp. No.	16374	Comp. Info.	On 08/20/13, at 1:56pm and 08/23/13, at 8:30am, I received a call from Kenneth Pugh. He is a resident of Texas County, MO and is concerned about the practices of specific businesses when disposing of solid waste. Apparently he has evidence of business practices in which a company or companies burn ANY material to dispose of it. He also mentioned he has contacted MDNR but, after letter of warnings from the department, the companies tend to dispose of the material during the weekend when regulatory oversight is minimum. He understands that these companies are violating the law and would like federal agencies to enforce. He can be reached at 417-962-2034 during the morning. If he can't answer, he has requested a message on the telephone with a number to call because telephone reception in the area is not reliable.						
	I originally referred this complaint to the EPA Region 7 Air program but Mr. Pugh insists these operations are done with knowledge of the environmental regulations and request me to contact your office. (EPA-Neftali Hernandez) I spoke with Kenneth Pugh and his wife this afternoon regarding their complaint against a neighbor who has been openly burning a trailer on the property next to them. According to the Pughs, the owner, Tim Smith, has been burning a trailer every Sunday for the last six to seven weeks as a way of demolition. The local police suspected arson, but nothing has been done about it. The Pughs say tires and vinyl flooring were burned and are now worried about environmental contamination. I'm hoping someone from your region can visit the site to appease the Pughs.								
	Could you please let me know what (if any) environmental violations are found? Thanks. (EPA-Adrienne Greenlee)								
SERO	2013-09-13	2013-09-05	Rolla National Airport	Vichy	Maries	Asbestos	TR		
Comments	This work has already taken place and some of the buildings involved have been demolished. I spoke with Mr. Terris L. Cates, Professional Engineer with Integrity Engineering and Mr. Gary Heavin, Assistant Public Works Director with the City of Rolla in regards to these issues. While it is true that the City of Rolla used workers from their Sewer Department, it is not the case that the City of Rolla failed to notify. A courtesy project notification was made but not required. Since the transite being removed was in good condition, it was not a violation to use non-certified personnel to remove the material. Mr. Heavin stated that respirators were made available to workers and that the material was wetted using both a fire hydrant and a jet vac machine as water sources. Crow bars and other non-mechanical means were employed for removal and the transite was taken to the Jefferson City Landfill, LLC. Mr. Cates sent a copy of the disposal receipts. Other portions of the airport abatement project were performed by a state-certified asbestos contractor, Schemel-Tarrillion, Inc. I spoke with Mr. Richard Schemel, President of Schemel-Tarrillion and with Mr. Mark Bonney, Air Sampling Professional with Trutest Environmental Solutions, LLC. Both men described their involvement with this project and I have received the written Asbestos Post-Notification as well as the air sampling report electronically. Ms. Sara Veasman, Environmental Specialist III, with the Rolla Satellite Office of Missouri Department of Natural Resources, Southeast Regional Office inspected the project. Ms. Veasman is both a state-certified asbestos project supervisor and an asbestos inspector. No violations were indicated from any part of this investigation.								
Comp. No.	16417	Comp. Info.	This information was given second hand. The City of Rolla used their sewage crew to remove a large quantity of asbestos from the hangers and facilities at the Rolla Regional Airport to save money. This was done to improve the facility and an attempt to lure local manufacturers to construct buildings near the airport for growth. It was said the City employees will not say anything in fear of their position with the City of Rolla being terminated. It was also said the City did not obtain a permit for this abatement and the employees were not properly trained in the abatement of asbestos.

Comp. No. 16285 Comp. Info. Burning drift wood with a rubber backed carpet square and a piece of dock foam.								
SWRO		2013-08-23	Brandon Goring	Montreal	Camden	Burning		
Comments								
Comp. No. 16294 Comp. Info. The responsible party owns a tree trimming business. He hauls all of the waste onto his property and burns it. The concerned party said the activity has been conducted daily for several months. The concerned party also said the burning occurs less than 150 feet from his residence. His home and vehicle are constantly covered in ash.								
SWRO	2013-09-06	2013-08-27	Unknown	Highlandville	Christian	Burning	RB	
Comments Highlandville Fire Chief and he reported that he found a brush pile with a "couple of tires". The Chief told the responsible party that burning tires was illegal and if he burned anything more than brush the MDNR would be contacted. No further action will be required.								
Comp. No. 16333 Comp. Info. Highlandville FD responded to a fire where a man was burning brush and tires.								
SWRO	2013-08-30	2013-08-28	MFA Bio Mass Plant	Aurora	Lawrence	Fugitive Dust	RB	
Comments The facility was not operating at the time of investigation and no fugitive particulate emission violations were seen. Surveillance will continue when in the area.								
Comp. No. 16340 Comp. Info. Dust from the Aurora MFA Bio Mass Plant- the dust is all over the concernants vehicle, inside his house, and he breathes it when he is outside. The concernant stated that the dust is worse at sundown.								
SWRO	2013-08-30	2013-08-28	MFA	Aurora	Lawrence	Fugitive Dust	RB	
Comments The facility was not operating at the time of investigaton and no fugitive particulate emission violations were seen. Surveillance will continue when in the area.								
Comp. No. 16342 Comp. Info. Dust from the MFA at Aurora.

SWRO	2013-08-29	2013-08-29	MFA Oil Biomass	Aurora	Lawrence	Fugitive Dust	RB	
Comments The facility was not operating at the time of the investigation and no fugitive particulate emission violations were seen. Surveillance will continue when in the area.								
Comp. No. 16360 Comp. Info. Fugitive dust from MFA Oil Biomass causing major concerns in neighborhood.								
SWRO	2013-09-04	2013-08-29	MFA Milling Co or MFA Oil Biom	Aurora	Lawrence	Toxics	CG	
Comments No violations. Contacted by the City of Aurora and they said they had sprayed for mosquitoes but it was an approved method/chemical and that the hazard of the actual mosquitoes was more dangerous.								
Comp. No. 16530 Comp. Info. Anonymous letter states that people are sick either from the city spraying for mosquitoes or from MFA Biomass milling moldy grass for pellets. No other details were given about the type of problem that the mill is having. There is a MFA Oil Biomass, which doesn't sound like it would do milling. There is also a MFA Milling Co in Aurora. Information on both provided. The Dept. of Agriculture has been emailed the information on the pesticide portion of concern.								
SWRO		2013-08-30	Krops Farm	Everton	Dade	Air Odors		
Comments								
Comp. No. 16377 Comp. Info. Odor coming off the turkey farm has been obnoxious smell since they started. But it has gotten to the point that they cannot enjoy their own property. This year they had to cancel July 4th event due to strong odor and this Labor Day weekend the same thing. The complainant would like to make sure they are following their permit.								
SWRO	2013-09-05	2013-08-30	Bryan Barclay	Buffalo	Dallas	Burning	RB	
Comments Investigation found illegal open burning of mattresses and other regulated solid waste had been occurring on property. Issue LOW for illegal open burning.								
Comp. No. 16378 Comp. Info. Mr. Kevin Sharp, a Commissioner for Dallas County had a constituent call and tell him that a business on Highway 64 is collecting and burning old mattresses. There are about 60 mattresses there now. Residents cannot keep windows open. It has been going on about a month.								
SWRO	2013-09-05	2013-09-03	301 West Third Street	Bolivar	Polk	Burning	RB	
Comments On September 2, 2013, the Polk County Sheriff's Department observed illegal open burning and provided documentation to the Southwest Regional office. LOW issued.								
Comp. No. 16380 Comp. Info. Fire/explosion. The caller reports a resident burning waste shingles as part of a remodeling project on the property. The Polk Co. Sheriff's office has visited the site and observed the burning debris.

SWRO		2013-09-03	Mike Russel	Springfield	Greene	Burning		
Comments								
Comp. No.	16381	Comp. Info. Received a call from Lee Nelson and Jim Bergman asking to re-visit this location as they have continued burning. They referenced concern SW16989 and asked for Matt Knight as he had taken the previous concern. I have left the previous conclusion info in the observation box below. Here is the complaint info from the previous concern: "this concern was called in by telephone so for additional details please call Mr. James Burgman at information below. Caller states neighbor is burning everything he can possible bring onto his property from tires to mattresses. The burning is almost an everyday occurrence."						
SWRO	2013-09-05	2013-09-03	Bryan Barclay	Tunas	Dallas	Burning	RB	
Comments Investigation found illegal open burning of mattresses and other regulated solid waste had been occurring on property. Issue LOW for illegal open burning.								
Comp. No.	16393	Comp. Info. Caller said that responsible party is hauling in mattresses and other large trash items and burning the mattresses and may be burning other stuff. Not sure what he is doing with the stuff he is not burning. Caller says the smoke is making his wife (with health issues) sick.						
SWRO	2013-09-13	2013-09-04	Simmons Foods	Southwest City	McDonald	Air Odors	CG	
Comments No violations. No odor leaving site at time of investigation.								
Comp. No.	16394	Comp. Info. Very strong odor at night (Sept 3, 2013). Caller said they to shut their windows it was so bad.						
SWRO		2013-09-06	Purdy Mobile Home Park	Purdy	Barry	Burning		
Comments								
Comp. No.	16472	Comp. Info. Open burning at Purdy Mobile Home Park.						
SWRO	2013-09-19	2013-09-10	Unknown	Springfield	Greene	Burning / Asbestos	RB	
Comments There was very little demo waste mixed in the soil at the site. I spoke with the Pleasant View fire Department (very close by). They were on the site 9-9-2013, and the owner was burning a large brush pile. They saw no demo waste in the pile. They said the house had been removed before the fire. No violations observed.								
Comp. No.	16474	Comp. Info. Burning and burying an old house. Burned yesterday and burying today.						
SWRO		2013-09-12	Unknown	Everton	Dade	Air Odors		
Comments								
Comp. No.	16489	Comp. Info. Odors coming from a turkey farm. It makes it very unpleasant to be outside. Sometimes it smells like something dead.

SWRO	2013-09-17	2013-09-12	American Rock Quarry	Branson	Taney	Fugitive Dust	RB	
<i>Comments</i> Observed facility on September 17, and again on September 25, no violations seen. Random surveillance will continue.								
<i>Comp. No.</i> 16491 <i>Comp. Info.</i> Dust is coming from American Rock Quarry and or the concrete plant at the same site. Driving down Bucannon Road to the school, the dust was thick and visibility was impaired.								
SWRO	2013-09-18	2013-09-13	Unknown	Phelps City	Lawrence	Asbestos	CG	
<i>Comments</i> No violations found. Upon further investigation, a commercial building (old gas station) did stand at this intersection in the past. The gas station was demolished without an asbestos inspection and notification as far as I can tell. Referred to Asbestos unit.								
<i>Comp. No.</i> 16504 <i>Comp. Info.</i> His neighbor is burning asbestos and pushing it onto his property. He is concerned because there is a creek nearby. Received from email.
