RE: Class 1 Permit Modification with Prior Director's Approval
Lone Star Industries, Cape Girardeau, Missouri
EPA ID# MOD981127319

Dear Mr. Meyr:

This letter is to notify you that the Missouri Department of Natural Resources (Department) reviewed Lone Star Industries' Class 1 Permit Modification Request dated April 15, 2008. The request was to remove the *Resource Conservation and Recovery Act* Startup Shutdown and Malfunction Plan (SSMP) required under 40 CFR 270.22 after Lone Star Industries documented compliance with the National Emission Standards for Hazardous Air Pollutants from Hazardous Waste Combustors required under 40 CFR Part 63 Subpart EEE for the Clean Air Act (CAA). Acceptance of Lone Star Industries' SSMP under the CAA by the Air Pollution Control Program was given on September 12, 2011, (see enclosed).

The Department agrees with Lone Star Industries that this is a Class 1 Permit Modification requiring prior director approval. We are approving the modification request. Also enclosed is the U.S. Environmental Protection Agency's approved Class 1 Permit Modification to the Hazardous and Solid Waste Amendments Part II Permit.

Lone Star Industries must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this letter, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1). Lone Star Industries must send a copy of the notice to the Department.

Mr. Bradley Meyr
