RE: Class 1 Permit Modification Without Prior Director's Approval  
Contingency Plan Updates  
Heritage Environmental Services, LLC, Kansas City, Missouri  
EPA ID# MOD981505555

Dear Mr. Ferrill:

The Missouri Department of Natural Resources (Department) received Heritage Environmental Services, LLC's (Heritage) Class 1 Permit Modification notice, dated October 17, 2013. The notification was to update the following items in the contingency plan.

- Update the permit issuance date from December 1992 to September 2006.
- Update Table 1, *Summary of Permanent Real-Time Monitors*, to reflect the addition of fire/smoke detectors, which was approved as a Class 1 Permit Modification on December 18, 2012.
- Update contact and telephone numbers for medical and emergency response services.
- Update the emergency coordinators list.

The Department agrees with Heritage that this is a Class 1 Permit Modification not requiring prior director approval per the Code of Federal Regulations (40 CFR 270.42 Appendix I, A.1, and B.6.d), incorporated by reference in Code of State Regulations (10 CSR 25-7.270(1)). Heritage already sent a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, as outlined in Code of Federal Regulations (40 CFR 270.42(a)(1)(ii)), incorporated by reference in Code of State Regulations (10 CSR 25-7.270(1)). On October 21, 2013, the Department received a copy of the notice, dated October 17, 2013.
