Methodist classes were held in Savannah as early as 1841. As the Civil War drew near the Methodist organization split into those whose sympathies were with the South and those who were Union supporters. The first Methodist Church was at 1st & Main. Between 1866-71 the Methodist Episcopal Church built at 6th and Main and the South Church remained at 1st & Main. This group built the church structure at 4th & Main in 1898. In 1938 the two congregations reunited and began using this edifice.

Dry goods merchant J.S. Hardy bought this frontage in 1875 and apparently built the building in 1875. One of the storefronts was his place of business and the second floor was a public hall. In 1887 Hardy who was now a resident of St. Joseph leased the north storefront to William S. Wells founder and Cashier of the State Bank of Savannah. Wells and his borther T.J. were lumber dealers in Savannah and Bolckow. In 1895 Hardy sold the first floor to the bank and the second floor to the Masonic Blue Lodge. In 1914 the first floor was bought by the Wells-Hine Trust Company successor to the bank and in 1930 the Masonic Temple Association bought the 1st floor from the Bank Commissioner after the Trust Company had been closed. In 1945 the first floor was bought by George Schmitt who had previously owned and operated a grocery store on the north side of the square. It remained a grocery until 1968. Andrew County Council on Aging bought the first floor in 1987 and the second floor in 1990.

When the State Bank of Savannah bought the first floor of the brick building on the corner they also bought this 16.75' and built a 1 story building which they leased to the U.S. Post Office. The post office remained here until 1912 when the government leased space from William Limerick on the south side of the square. In 1916 the Masonic Lodge which owned the 2nd floor of the building on the north wished to enlarge their quarters and added the second floor. In 1930 after the Wells-Hine Trust Company was closed the Masonic Temple Association acquired the 1st floor as well. The Andrew County Council on Aging bought in 1990. Tenants have been varied.

Paul Steps, a native of Saxony Germany, emmigrated to the United States in 1892, having already learned the baker's trade. He was employed in Kansas City and St. Joseph (where he married Lena Pollman) before coming to Savannah in 1902. He and his wife bought a building from the Keeve family and opened a bakery which they called the Delmonico. In 1908 Taylor Nicholas moved to Savannah and began working here. He would eventually succeed Steps and operate the bakery until the mid 1940's. The Steps built this building in 1912 and the family owned until 1935 when the Nicholases bought. Andrew County Farm Bureua bought in 1989.

1.	This building was built to house the Andrew County Mutual Telephone office in 1915. The telephone exchange had previously been on the second floor of 116 S. 5th. Andrew County Mutual Telephone was an amalgam of two earlier companies and was formed in about 1910 - In 1957 the company and building were bought by G.T.E. In 1958 the system was switched to dial and today this building houses nothing but equipment. Installers and repair personnel for the area work out of here.

Gambia Breckenridge, born in 1855 in Jefferson Twsp, married John Morton of Doniphan County in 1878 and was living there in 1890. In 1891 she had returned to Andrew County and that year bought the building at 120 S. 5th. In 1894 she bought this frontage and had this building (one of three in a row with 1894 date plates on the cornice) built. It remained in her possession until her death in 1937. Tenants have included grocers, appliance dealers, music stores and even a "pinball palace". Today it is a real estate office.

Paul Arthur a native of Paris, France, who came to the United States with his parents at age 4 in 1860, came to Savannah in 1879 where he established a tonsorial parlor. The Arthurs' had this building built, on of three in a row, all very similar and all with 1894 dates. Jessie Hardin Arthur died that same year but Arthur remained here until retirement and the building remained in the family until 1933. The south starefront is a barber shop even today. The north portion was for many years occupied by a restaurant.

The 1900 census identifies William Conn as a merchant and the 1900 Sanborn map shows this as a "Racket Store". Conn sold the building in 1908 to Fred Terhune, an early day mortician who apparently ran his business here. In the mid-teens this was a shoe store and mens clothing. From about 1920 to about 1960 there was a drug store here.

Apparently Wm. Lilibridge and Andrew Smith built this double structure about 1895. Early tenants were Theodore Myers who had a restaurant and the Howards who were butchers. In 1900 salesman Charles Turbune Bought the building and in 1907 he borrowed $6500.00 which may be the date when he converted the 2nd floor into Terbune Hall. In 1909 Turbune, now a resident of Kansas City, sold the building to his brother John. John, a furniture dealer, rented "Terbune Hall" to the newly organized Savannah American Legion Post between 1920 and 1926. In 1937 restauranteur Claire Farris bought the structure and for a number of years had a restaurant in the south side. The building remains in the Farris family.

Willis Roberts and Jesse Pearce, then residents of Boone County, bought this frontage in 1877 and apparently had this building built. They operated a store selling groceries and queensware. In 1892 Roberts sold his interest to Thomas Lillibridge whom the 1900 census identifies as a pant manufacturer. In 1899 Pearce sold his interest to David Bryant. Bryant bought out Lillibridge in 1902. Bryant was a physician as was his father W.H. and probably had his office upstairs, but the store remained a grocery. Attorney Isaac Williams bought in 1912 and it remained in that family until 1936. For many years it was a restaurant.

Edward Russell purchased this frontage in 1864 and apparently had this building built soon thereafter. His sons Wakefield and Joseph are listed as retail merchants in the 1870 census. In 1891 the building was bought by Gambia Morton and it remained in her ownership until her death. In 1914 Fred Hartley converted the building into a movie house, naming it the Globe Theatre. It remained a theatre until C1937. After this, Ray Bucy opened the first self-service grocery store in Savannah here.

Eli Alderman bought this frontage in 1865 and apparently had this building which is very similar to the one next door N built shortly thereafter. Alderman and his son Marion were dry goods merchants. The storefront remained in the Alderman family until 1912 when Hannah Rhoads bought it. Between about 1916 and 1939 Harvey Cobb had a grocery store here which was followed by Kline Clark's restaurant. Since that time there have been various uses.

T. SIGNIFICANCE

This part of this block was location of the first Methodist (North) Church built in Savannah. When the congregation built a new church to the north of this they also built this house for a parsonage. The house remained the property of the church until 1946 when John Aebersold bought. In 1972 the home was sold by Aebersold's heris.

This is the only residence left in a block which once had a number of them.

The Farmers Bank of Andrew County was organized in 1862 with S.S. Garrett as President and Benjamin Childs as cashier. In 1872 the bank bought this frontage and had this building built. In 1897 the bank was succeeded by the Commercial Bank and in 1901 by First National. In 1905, the First National had built their new facility at the NW corner of the square and sold this to attorney Peter Breit, Breit sold to Frank Kline of Cosby, who sold to Ellen Roach in 1923. Mabel Petree inherited in 1944. Tenants have included the Elite Theatre, a photographer, a cleaner and a succession of florists.

Gottfried Kolbrenner, a boot & shoe merchant, bought the W 15' of Lot 8 in 1868 and established his business there. An 1898 fire apparently damaged his store as well as neighboring ones and he bought the E 10 ft. of Lot 7, and built a larger store. His daughter Louise Allison, who had inherited the frontage, built this new storefront in 1915, as did pharmacist J.P. Cooper and Joseph Meade. Tenants have included dry goods and appliance and hardware merchants.

Pharmacist J.P. Cooper who had purchased the E 20' Lot 7 in 1883 was burned out in 1898. He bought the W 20' E 20' then sold the E 10' to his neighbor a Boot & Shoe merchant Gottfried Kathrenner and the W 5' E 2 to Joseph and Rachel Meade. He apparently then built a building here to house his drug-store. In 1915 he built this new store, probably inspired by his neighbor Louise Allison. Cooper and his son Walter remained in business until the end of the 1920's. In 1931 the building was bought by Harry Brant who operated a dry goods business here for many years.

Hardware merchant William Clasbey bought this frontage from Joseph Meade in 1916. The two storefronts to the east were built toward the end of 1915 and apparently Clasbey had this built to match. Clasbey was a bachelor and the building was inherited by his spinster sisters. The building was sold out of the family in 1967. It remained a hardware/plumbing store until recent years.

Ida Limerick, wife of pharmacist Wm. Limerick, bought this frontage in 1916 at a price which suggests the building may have been started by previous owner Kate Williams but probably was not completed. It remained in her ownership until 1940 when abstractor Harry Latham bought it, it has been an abstract company since.

In 1937 Ida Abbott Limerick bought this frontage and had a movie theatre built. She was in competition with M.B. Presley who had an established business across the street west. In 1941 Presley bought the building, named it the New Globe and moved his movie house from 120 S. 5th. In 1943 fire damaged the theatre and Presley leased the old Methodist Church until he could make repairs. After the repairs the movies reopened in this building and continued in operation until the late 1950's. In 1962 the building was sold by Presley's heirs. The lobby area and an extended front wall converted into a doctors office, although the auditorium remains in the rear of the building.

A hotel has been on this site since the St. Paul, Chicago & KC RR was built through the county in 1887. Adjacent to the depot it served railroad workers and traveling men. Henry Selecman apparently added the front portion to the earlier building soon after buying the hotel in 1893. The Selecman family owned until 1907. Ownership has changed frequently although J.W. Schildknecht owned from 1927 - 1943. Through the last several years this has been a rooming house rather than a hotel.

Although this is functionally one building, ownership has always been divided with one owner owning the E22.5' S100' Lot 8 and another the W22.75' E45.25' Lot 8. The original configuration was Clothing in the E^2 and Groceries in the W^2. Husband and wife Sloan and Mary J. Young were owners at the time of date on facade. He was an agricultural implement dealer whose business was not on the square. Mr. Young sold the E^2 to Gambia Jenkins in 1907 and it remained in her ownership until her death in 1937. This half has been a clothing store continuously since the turn of the centruy. The W^2 was a grocery store until the mid 1930's. Mary Young sold to W.C. Henderson in 1907. Later owners were William Beagler, C.c. Schmitt and R.M. Cross.

Druggist Paul Limerick bought this frontage in 1899 and apparently built this drug store which had, according to local history, a wonderful soda fountain. The building was bought in 1926 by J.C. Hosher, MD who was also a pharmacist. From 1937 - 1948 the pharmacy was owned and operated by John Hosher, his son. After Hosher's retirement, Fallis Pharmacy was here until moving to the building on the west end of the block. The building is now vacant.

When first built, this storefront housed a restaurant. Between 1905 and 1949 it was the location of three successive banks. The first two failed and the third Home Bank moved to the former First National Bank building. After the bank vacated in 1949, attorneys, abstractors and insurance/real estate brokers have been located here.

Woodford Martin a native of Andrew County who became a physician after the death of his first wife returned to Savannah to practice in the early 1870's and remained a physician for nearly 60 years. In 1889 he bought this frontage and apparently built this building. His first tenant was probably A. Doersom, a boot and shoe man. Doersom was followed by several jewelers. Dr. Martin's granddaughter Alma had a beauty shop upstairs where her grandfather's office had been. Miss Martin remains the owner.

J.O. Pearce and Emery Norris were ready to build the first floor of this building when the I.O.O.F. secured permission from them to add the second floor as a Lodge Hall. The Lodge met here until it was disbanded in 1971. The storefront was a clothing store until the early 1930's when it became a grocery store. Among the tenants was Swansons' Grocery beginning in 1941. In 1953 Swanson's left the square to occupy a former tractor company which had been remodeled into a super market. After Swanson's left, this storefront was occupied by Fallis Drugs which had been in the Limerick building and later Poirier Pharmacy.

First National Bank was the 1899 successor to the Commerce Bank which was the 1896 successor to the Farmers State Bank of Andrew County (see form). In 1903 First National bought this frontage and had this building built. The second floor housed professional offices and the basement level had a community room and services such as beauty shops and shoe repair. The bank closed in 1928 and the property was bought by L.A. Abersold. The banking floor became the law offices of Peter Breit, (who during a long career served in a number of county and state offices) and J.W. Roberts and of various city officials. In 1949 the Home Bank, whose President was Harold James, bought this building and moved here. It remains the only bank on the square.

This frontage was purchased by attorney/real estate man Willis Hine in 1909 who apparently had this storefront built shortly thereafter. Local lare identifies this as location of a monument dealer until the late 1920's or early 1930's since which time it has been a dry cleaning establishment. The Hine fmaily owned until 1956.

Use of rusticated concrete block was popular during the first quarter of the 20th Century.

By 1900 it had returned to the east side of the square where it remained until 1912 when it moved to the south side. It remained in that location until this facility was built. Charles Townsend bought Lots 10 & 11, Block 14 in 1910 and apparently had this home built, selling to mail carrier Glenn Neely in 1915. Neely owned until 1922, selling to O.P.M. Roland. The property was bought in 1927 by Mack Fuller, proprietor of the Farmers Exchange Grocery Store. (In 1925, Glen Neely had bought the house at the corner of 7th & Richardson built by Fuller's mother and stepfather, the John Brewers). Fuller died of a heart attack in 1936 and Mrs. Fuller sold the home to James Kneale who owned 1937-51. C.N. Mitchell owned 1951-89 when the present owner bought.

Alfred S. Dodds came to Bolckow shortly after the RR had been built through the area and began practicing medicine, continuing until his death in 1900. This home may well have been under construction at that time although the lots had been owned by the family since 1872. Mrs. Margaret Dodds out-lived her husband by almost 40 years living here with an unmarried son and daughter. The youngest daughter, Irene married Logan Woods a Bolckow physician and the couple lived here. Irene and Logan's son Wallace sold the house to North Andrew High School principle Jay Edwards in 1974.

A Baptist congregation was formed in Bolckow in 1872. The group built a frame church on this lot. In 1908 the congregation had outgrown the first church and built this brick structure at the cost of $9000.00. After World War II, membership dwindled and the congregation was disbanded in 1966. In 1970 the structure was bought by the United Methodist Church.

The Cosby State Bank bought a 40'x115' tract from Jacob Heinz in 1901 and had this bank building built. In December 1928 the building was sold to Arthur Williams by Bank Commissioners. The building housed several businesses until 1961 when it was bought by Wes Mandler, who had been named Postmaster. He moved the Post Office to this location. After Mandler's death, his widow converted the building to a residence which it remains today. Mrs. Mandler sold in 1979.

The newly organized Platte Valley Bank of Cosby bought a tract 40'X134' in the NW corner of Lot 4, Fords Addition, from hardware merchant James Anderson in 1910 and had this structure built. The post office was in the south part of the building. The bank became insolvent in 1930 and the building was bought by William McKee. The north portion of the building became a locker plant and store, under various owners. In 1982 the Public Water District purchased and the office remains here.

Methodist Circuit Riders were active all through northern Andrew County as soon as settlement began. As early as 1851, the Methodist Church North built a church structure at the other corner of this block. In 1881 they replaced the early building with this structure at a cost of $1200. In 1939 when the Methodist Episcopal North and Methodist Episcopal South Churches reunited, this became the surviving structure. The congregation was disbanded in about 1983.

In 1856 the Old School Presbyterian trustees bought a tract 148.5' E & W and 115' N & S at the N end of Lot 16, Chamber's Addition, and had this building built. In 1886, the Presbyterian congregation having diminished, a Christian congregation which had been worshipping South of town, bought the structure. The building was damaged by the 1941 tornado and the congregation rebuilt, and in 1948 the building was enlarged. In the 1970's the Baptist and Christian congregations joined, meeting in this structure in the winter and in the Baptist church in the summer, the group now meets only here.

A tent revival was held in Fillmore in September 1935. Hosea Burns who had been instigator of the revival was so pleased with the results, gave town lots and money for construction of the Church. In 1941 a tornado almost demolished the Church, but the congregation rebuilt. By the 1970's this congregation and the Christian congregation had combined and were meeting in the Christian structure in the winter and here in the summer. About 5 years ago, the combined group began meeting all of the time in the Christian Church.

George Huffman bought 5 lots from Wilson Kennedy in 1866 and probably had this home built. At his death he willed the property which mentions a house, to his niece Mary Alexander and her children. They sold the property to James Clark in 1879 and he owned until selling to Caroline Spicer in 1890. In 1908 Delbert Spicer bought the lot the house is on from his aunt, owning it until 1915. In 1925 and after several transactions, the home was bought by C. Fred Lemmon whose family owned until 1967. Between 1967 and 1985 the house was owned by Roberta and Ernest McChesney.

One of the earliest church congregations in Andrew County was the Christian Church of Lincoln Creek, this group began meeting at a schoolhouse in Section 17 in the mid 1840's. In 1866 the congregation built a stone church at the NW corner of the SW4Section 20. When a school district was formed in 1879 it was called Stone Church. In 1886, the congregation bought the former Presbyterian Church in Fillmore where they held alternating services with the Country Church. After all church activities were moved into town, the school remained. When the school closed, the 1892 building was bought, moved into town and converted to this residence.

In 1919 Dentist George Hibbard sold the E 22' Lot 76 and N 32'W44' Lot 77 to the Farmers Bank of Fillmore, a corporation whose officers were N.H. Gregory, Jr., T.V. Praisewater, Fitz King, Fred Doersam, and Roscoe Hare. The bank was short lived, selling out to Round Prairie Bank in 1922. The Round Prairie Bank sold property to Oscar Shores, a local builder, at a price which suggests the building was already there.

These lots were the location of a private school built in the 1850's by the Southern Methodists, which later was purchased and used by the Fillmore School District until the first section of the present school was built in the 1890's. The school lots were bought by N.H. Gregory, Jr. in 1909 and he had this home built soon thereafter. Gregory was the second generation to own and operate the store in the Masonic Lodge building. The home remained in the Gregory family until 1982 when the present owner bought.

In 1886 Hardin Messick who owned considerable property in Jackson Twsp and Fillmore bought a sizeable tract of land near the east edge of town. There may or may not have been a residence. In 1889 Messick deeded this property to his daughter and son-in-law Medora and C.W. Spicer, Jr. The couple apparently lived here until after the imposing home to the east had been built. The property remained in the Spicer family until 1943 when barber G.O. Shineman bought. His widow still owns.

Retired farmer/capitalist Hardin Messick bought a 107 acre tract in the SW^4 8, 60N 36W in 1883. In November 1889 he deeded the tract to his youngest daughter Louella who would marry Samuel Franklin Dysart in 1891. It is unknown whether this was a prenuptial gift. Louella and Frank sold the tract to Bryant Robertson in 1906 and moved to Savannah. This property remained in the Robertson family until 1971. The property was owned until 1975 by Frank Modica who sold the 10 acre house tract to Ronald Wermel Skirchen.

R.A. Irwin sold the tract to Ray Birch in 1906 who apparently built this on speculation, selling to L.W. Nichols in 1907, who sold again less than 1 year later. Ownership changed several times before Dr. E.H. Carpenter bought in 1916, owning until 1939. There were four changes in ownership before the home was bought in 1964 by Delmar Hunt. The Hunt heirs sold to the present owner in 1989.

The Helena congregation grew out of an ecumencial church in Rochester. The Methodist built the center part of this structure in 1886. A small group of Baptists also met here until they were able to build in 1905. The first addition to this building was the wing on the west (left) and the church has had several additions since.

In 1905, merchant - banker R.A. Irwin bought that part of the SW^4 Section 19 south of the town and west of the RR from town proprietor H.C. Webster, who had moved to Iowa. He deeded a tract at the east side to the Baptist Church trustees and apparently had this home built. In 1908 Irwin platted the area between the church and his home as Irwin's Addition and sold the remaining part of the quarter to Harry McEllwain, reserving an acreage around his home. In 1916 Irwin sold this tract to Alice Patton who owned until 1920. In 1921 G.A. Thomann who had bought the Helena Bank bought this home. Thomann owned until 1954 selling to Leroy Fite, who sold to the present owner in 1957.

In late 1889 Zachary Wells, early day lumberman in Rea, bought the $W^2E^2NE^4$ Section 29 and apparently had this home built. In 1905 he sold the tract to Fred Hartley. In 1908 the property was bought by former Fillmore businessman Franz Cole, who had moved to Rea because of its railroad location. Cole was killed in a farming accident in 1909, but his widow and children remained here and the home is still owned by the Cole estate.

In 1911 Cornelius Pittman, who had platted his addition to Rea, sold Lot 2, Block 1 to Ollie Haines. Haines apparently built this home on speculation selling to John & Marry Miller. The Miller's sold to Alonzo Redkey in 1917 and in 1925 the home was purchased by W.S. Vandeventer, owner of the lumber-yard. This home was sold to Cecil & Herbert Richardson with the lumberyard, by the Vandeventer estate. In 1945 the Richardson's sold to Claude Kent and that family owned until 1984. The present owner bought in 1992.

The construction of the Chicago, St. Paul & KC RR gave birth to several businesses, among them, the Rea lumberyard. This property was first owned by Zachary Wells and Bafford Lewellen. In 1904 Cory Pettijohn bought, selling to his cousin Asa in 1914, who immediately sold to the J.C. Jones Lumber Company. In 1921, the business was bought by W.S. Vandeventer who owned until 1938, when Forest Citian's (Holt Co.) Cecil & Herbert Richardson bought. The Richardson family owned until 1956 when Savannah lumberman Dwight Hall bought. Rea Grain & Feed has owned the property since 1964 and the only use is limited storage.

In 1891 Louis Holt apparently donated 2 lots in Block 5 of his recently platted town of Rea for the purpose of a Union Church, where all denominations could worship together. The structure was built for $1,000 from donations of $.50 to $50.00. There is no deed of record until 1924 when Holt's heirs deeded the lots. Although the town of Rea has dwindled precipitously since removal of the railroad, this church remains active.

This was one of several Cumberland Presbyterian congregations organized in Southern Andrew County during the settlement period. This structure is the only one of that group still standing and still functioning. In 1860 four denominations met in a log structure. The Christians would move west to Long Branch, the Methodists moved to Helena and the Baptists transferred to Bethel. In 1874 the Presbyterian's built this structure at a cost of $3000.00, on land donated by Henry Thompson.

One of the earliest trails into the Platte Purchase area forded the Platte River at this natural rock out cropping, and there was settlement at this site as soon as the country was open to European settlement. By the 1840's a grist mill had been established here, using the water power from the river. Today the Conservation Commission maintains a popular camping and fishing site.

William Worley purchased a tract of land 125'x140' in 1895 and another 10' in 1897. He apparently had this home built shortly thereafter, selling to Frederick Lee in 1899. Lee sold to Edward Burrows in 1903 and that family owned until 1937 when Ray Belcher purchased. The home remains in that family.

The Rosendale Theatre Company had built an "opera house" on this tract of land in 1918. In 1925, the building was almost totally destroyed by fire. The Rosendale Community Theatre, apparently a citizens group, borrowed money from the Masonic Temple Association to rebuild. In 1931, the Village of Rosendale bought the property from the Masons and the town still owns. Through the years, the building hosted school graduations and traveling and local stage productions and the storefronts were active. By the early 1960's. The building was basically unused and now stands vacant and derelict.

Although this home was apparently built by a Maggie Townsend who owned the property from 1915 - 1920 and subsequently owned by S.A. Pendry who sold to the Christian Church trustees in 1928, its primary identification is as the parsonage. It was after purchase of this property that the congregation first attracted a full-time clergy person.

Hezekiah and James Watson bought Lot 2, fractional quarter 4 from Hannah Boham in 1894. The next year they platted their addition to Rosendale. Apparently the home was built during the Watson ownership. The Watsons' sold the house tract to Perrin Kent in 1902 and he sold a part of the acreage and house to Luther Barrow in 1907. Barrow's sons sold to Arthur Pearce in 1915. Pearce sold to Albert Ferguson in 1918. Ferguson sold to William Wachtel in 1929. The Wachtel family were by far the longest owners, not selling until 1970. The present owner bought in 1976.

The Rosendale Presbyterian Church was organized in 1869, the year the town was platted. The first church structure was a frame building which was moved from the corner, 2 lots south when this structure was built in 1907. The frame church was later moved to Lake street and converted into a home. In 1935 the Presbyterian congregation disbanded and in 1936 the church was purchased by a Baptist congregation which had been meeting here since its organization in 1935. The church family is still active.

Dillon Bales bought Lots 10 & 11, Block 2 in 1892 and had this 2 story commercial building built the next year. He and his son had a hardware business on the first floor, while an IOOF Lodge occupied the second. In 1898, Dillon Bales sold the property to his son George and Orizon Cummins. Cummins sold his half interest in 1903, and became involved in a general mercantile firm. Otis Beecher became a partner in 1907. George Bales died unexpectedly in 1917, but the family owned the 1st floor until 1940 when the estate sold to Ernest Alldredge, who operated a creamery. The IOOF Lodge also sold the 2nd floor to Alldredge. In the 1960's, Lloyd Atkins returned the buildings use to hardware. The present owner bought in 1981 and the building is vacant and derelect.

The Rosendale Christian Church was established in 1890 and almost immediately built what is now the center part of the structure at a cost of $1,287.80. Additions have been built in 1904, 1925 and 1949. The church didn't have a resident clergy person until 1930. This church is still very lively, attracting worshippers from a wide area.

This tract was bought by Reuben Beall in 1882 and the home was apparently built during the next decade. The home remained in the Beall/Lewellen family until 1929. Marcellus Brewer owned until 1932, selling to Daniel Hartley. In 1942 Hiram Alldredge bought from Hartley's widow and the home remains in that family.

W.B. Wood, who had recently bought the Rosendale lumber yard, bought this tract in 1911 and "showed off" lumber yard products when he built this home. In 1920, he and his wife built the "modern" bungalow across the street from the school, selling this property to W.D. Coffman. The Coffman family owned until 1943. Joseph Jenkins bought in 1958 and in 1968 his heirs sold to Mable Lemmon who moved into town after the death of her husband. The home remains in the family.

Hardin Messick of Fillmore bought this corner tract in 1893 and apparently had this home built. In 1904, Harrison Farrow bought the property from Messick's heirs and that family owned until 1916 when Lewis Graff bought. A trust deed was foreclosed in 1929 and Ray Blair bought on the Court House steps. Blair sold to mail carrier Henry Sweigart in 1935. Sweigart's estate sold the home to John Shurg in 1974 and the present owner bought 2 years later.

In 1895, nine residents of the Rosendale area - Jordan Denney, R.M. Stevenson, J.A. Agee, A.G. Beckett, W.W. Weeks, A.A. Hopkins, A.L. Lewellen, H.B. Watson, and W.H. Beattie formed a corporation to establish the Rosendale Bank. Jordon was President and Hopkins, Cashier. In a 1921 reorganization, the bank's name became Farmers State Bank. The bank is the only one now operating in the county other then in Savannah and Country Club Village. This tract was bought by Mary Ward in 1901 and she and her husband Ephraim apparently had this home built. In 1912, Ephraim deeded the property to Sara Reece "the beloved daughter of my late wife, Mary" and the home remained in the family until Calvin Shores bought. Shores had a thriving construction business in Fillmore and the area. There have been a number of owners since the mid 1940's.

Dr. John Hoshor, a graduate of the University of Kentucky medical school, bought this tract in 1911 and had this double commercial building built. Dr. Hoshor's office was in the East portion and Frank Barnes pharmacy occupied the west storefront. When Horshor moved to Savannah in 1919, he sold the building to Barnes. Barnes moved to St. Joseph in 1925, selling the building to C.K. Beall who operated a sundries store here and was agent for the Baker products. In 1946 Bolckow native, Jim Dougan bought the building and business, operating it until retiring in the 1970's. The present owner bought in 1991. The Post Office has been in the east storefront since 1958. Dr. V.R. Wilson occupied the East portion during his long professional life in this community.

T. SIGNIFICANCE

In 1913 George Bales and O.H. Beecher, owners of the hardware store immediately to the west, bought this tract from Joseph Porterfield who had owned since 1906. Since Porterfield owned a brick yard it is probable that the building was built during his ownership. This became a part of the Bales/Beecher business. After the business was dissolved, this building housed a cafe under a succession of owners between the late 1930's and the late 1980's.

Louis Lance purchased Lots 4-5, Block 7 in 1898 and in 1904 borrowed $1,000.00 which is suggestive that that is the year of construction. The Lance family owned until 1921. There were several transactions before Alice Miller purchased in 1928, owning until 1967. Woody Fulks bought that year and his family owned until 1978. The present owner purchased in 1985.

Marion Buis, whose wife was a semi-invalid, had this home built in an octagon - like mode so that sun would be shining in at least one window at any time of the day. In 1910 the home and the lot on the E^2, Block 12 were bought by Gerry Boham whose father and mother lived across the street. The house remained in that family until 1943. In 1951 Hadley Lanning bought the house, owning until 1987 when the present owner bought.

This house has what appears to be a "builders signature": the bracketed eaves on this otherwise plain and functional home. The house tract was purchased in 1901 by John Richards who apparently had this home built. In 1908 Charles Townsend bought and it remained in that family until 1934 when William Beattie bought. The present owner bought in 1977 from Beattie's widow.

T. SIGNIFICANCE

During the settlement days of Andrew County, a Baptist Congregation began meeting at a schoolhouse NW of Whitesville. In 1861 the group bought a tract at the east edge of the Whitesville settlement and had a church structure built. By 1883 they had outgrown the first structure and bought this tract on which they built the first part of this building. They in turn sold their old building to a Christian Congregation. At least part of the cemetery to the N & E of the church had already been dedicated as a public burial ground. The church is still active today.

1.	This is the only inhabited structure still standing in that part of town which was the original 1848, 17 lot plat laid out by Messrs Lyman Hunt & John D. White. Hunt & White were operators of one of the early grist mills powered by the water of the Platte River. The community was one of those which remained viable until World War II, even though the RR never served it.

There has been a school at Whitesville since the very early days of the settlement. There is no record of when this brick structure replaced an earlier frame one on the same site. In 1931 the school was offering 2 years of high school. In the 1956 county reorganization, the student's west of the Platte River were assigned to Andrew R-VI and those east of the river to DeKalb/ Andrew R-1. The building is vacant and derelict.

T. SIGNIFICANCE

This school house is one of the few tangible remnants of one of the county's turn of the century crossroads communities. At this corner were a post office, general store, butcher, smithy and several homes, as well as the school. Area farmers were identified as living near Parker. One acre in the SW corner SE 4 Section 6 was deeded to the Township Board of Education by J.P. Hall in 1857. Hall's stone is one of the earliest in Frazee/Antioch Cemetery. This is a second or third generation school house. Parker school remained open until reorganization.

In 1875, George Washington and Samuel Crowley bought the W2 of Section 6 and in 1881 the brothers sold the 2 quarters to W.C. Dysart, G.W. Crowley's brother-in-law, and he had this house built. W.C. Dysart moved to Bolckow, probably at about the time his son Reed married in 1899, moving to the farm. Reed Dysart's daughter Adaline Nuckols now owns.

Farmer/entrepreneur Sam Crowley, owner of the SE^4 Section 6 and much other land, bought a 4.66 acre tract at Parker Corner in 1909. In 1916 he sold the tract to Warren Stanton at a price which indicates the house had been built. The present owner remembers the house being built and thought about 1913. The home remained in the Stanton family until 1957 when the present owners bought.

In 1907 Charles Kennedy bought this half quarter and had this home built by Fillmore builder Oscar Shores. He had seen the fabled "House of Seven Gables" and set out to have such a show place himself. However, he spent so much money on the house that he had to sell it 2 years later to John Shores. In 1930 Equitable Life foreclosed on a mortgage and in 1933 Tom & Ethyl Young bought from the insurance company. Kathleen Young Lance now owns.

The committee organized by this meeting chose land offered by George Lambright in the SE corner NE^4 Section 18. The church structure was completed in the summer of 1893. This is one of the ever decreasing number of rural churches in Andrew County and is the most intact architecturally despite the aluminum siding.

The oldest stone remaining in this cemetery is that of 9 year old Mary Hiatt, who died in January 1860. Mary's parents had patented the NW4 Section 17, 61N, 36W in the 1850's. There are 2 other 1860's stones and perhaps other early graves. In 1880, DeLoss Frazee, who had purchased the SE4 Section 18, 61, 36 in 1874, knowing that the graves were in the corner of his land, deeded 1 acre to Andrew County for a Public Cemetery. He himself was buried here in 1884, as were 2 female members of his family. The cemetery is popularly called Antioch Cemetery because of the church across the road north.

The NW^4 Section 29 was patented by Isaac Lance who sold the S^2 to Adam Lance in 1848. The property remained in that family until Adam's death in 1894, when Cary Wardlow bought at a partition sale. The 1½ story portion of the house probably dates to the Lance ownership. It is probable that Cary Wardlow's son Thomas added the 2 story portion after he succeeded to ownership in 1906. Thomas's wife was Edith Lincoln whose great grandfather was a brother of Abraham Lincoln's grandfather, The home remained in the Wardlow family until Allen Praisewater bought in 1987. The Lance, Wardlow and Praisewater families have intermarried several times.

In 1865 Tennesean Samuel Neese bought the E^2 Section 25 and a part of the E^2 Section 36, 61N 37W from Albert Hollister. Neese probably built at least part of this home. When Neese died, his holdings were partitioned into lots with each of his children receiving their portion. In 1881, George Praisewater, son of Samuel N. and Susan Neese Praisewater bought Lots 2 & 3 from her uncle William Neese and took up residence here. In 1920 George's son Ralph inherited the homeplace and their grandson now owns, and great grandchildren occupy.

In 1866 Samuel Warner bought 388 acres in this vicinity and apparently had this home built. In 1876 his estate sold to August Schuster and John McClain, Savannah bankers and 4 years later they sold to Caroline Spicer. During the latter 2 decades of the 19th Century, Mrs. Spicer acquired so much property that in 1904 she was identified as perhaps the largest tax payer in the county. The tract remained Spicer property until 1914. In the next 6 years ownership changed 5 times until Charles Watson bought in 1920 and the property remains in that family.

T. SIGNIFICANCE

In 1892 a group of Methodists led by G.W. Praisewater, having organized a congregation, bought a 1 acre tract in the SW4 Section 24 and had a church structure built. With the passage of time the congregation became too small to remain viable and the church structure was moved to the SE4 and converted into a granary with side machinery sheds. Parts of the original front facade and the apse remain to indicate the building's first use.

1.	R.D. Fleming bought this quarter in 1903 from Claude Petree and apparently had this home built in about 1920. The sister of the present owner has identified it as a precut home - almost certainly Gordon - Van Tyne. Fleming sold to Samuel Russell in 1920 and Russell sold to John C. Fleming in 1923. After several financial mishaps the farm was sold to Robert Lee Edwards and remains in that family.

Early day settler David Lilly, who was a trustee of both the Gravel Wall Cemetery and North Prairie Baptist Church, bought the quarter in 1857 and 58 from patentees George Morris and John Pew. He probably built this home about 1870. In 1887 he sold to Isaac McCallon whose family owned until 1956 when they sold to the present owner.

The conversion of farm structures from one use to another is common, but less common is that in which a residence is converted into a barn or granary. The Hurst family owned 1882-1900 when it was bought by John Wheeler. The present owners bought in 1978. The house originally may have been elsewhere on the farm.

W. H. Ferguson bought this quarter in 1904 and probably built the barn, and a house which burned in 1921. In response to the fire Ferguson built this home which is of load bearing ceramic block, so that it would be fire retardant. The farm was bought in 1945 by Sheldon Weaver who sold to the present owner in 1964.

Miller, John Gressley ... had owned and operated a mill on the 102 river. The mill was destroyed a second time by lightning in 1890 and Gressley moved here apparently building this home. In 1903 his son Homer inherited the farm and reportedly moved the house from a position nearer the barn. In 1943 Eugene and John Gressley, who are a third generation of the family, bought and it remains in their name.

James Miller bought 78 acres in the S^2NE^4 Section 26 in 1870 and probably built this home. In 1872 Christian Young bought the farm and later added the N^2 SE^4. The farm remained in the Young family until 1892 when John Burns bought from Cornelius Young. In 1923 Adolph Ueligger bought from the Burns' estate and it remained in that family until 1976. For a number of years tenants have occupied this farm. The Gravel Wall cemetery is in this half quarter.

Adolph Uelliger, a Swiss native, who had come to this country at age 6 with his parents had lived in Lincoln Township prior to buying this Clay Twsp farm in 1923. In 1927 he had this dairy/stable barn built. A split level clay tile portion housed the dairy operation on the west and draft and pleasure horses on the east. Above these was a very large hay loft.

The NW^4 Section 1 & NE^4 Section 2, were bought in 1859 by Henry Nevins of Illinois who may never have resided in the county. At his death in 1895, his two heirs, daughters Augusta Balance and Margaret Thompson of Peoria, IL shared his estate, with Margaret receiving these 2 quarters. She and her husband leased the land to Samuel and George Smith of Nodaway County and in 1914 she sold the property to these leasees. In 1919 John Drydale bought and that family owned until 1959 when the present owner bought.

William McMurray bought the NE^4 in 1865 and apparently built at least a part of this home soon thereafter. In 1901 his daughter, Addie Belle inherited this as her share of the estate. She later married Frank Craig. Frank and Belle had bought part of the S^2 of the quarter in 1917, and in 1919 sold this to his brother, June Craig, whose daughter and son-in-law now own.

In 1875 this tract was bought by Samuel Roberts and it remained in his family until 1917 when Mariah Roberts sold to Frank Craig, the son of Leonidas and Mary Craig. Frank's wife was Belle McMurry, who owned the NE^4 of the section, having inherited it from her parents. Ownership passed from Frank & Belle to two of his sisters, Mary (Mrs. Wm.) Dodd and later to Laurinda (Mrs. Walter) Fraser. It was not until 1993 that ownership passed out of that family, although for most of that time, relatives of the owners lived here and farmed the land.

The cellar is an important facet of the rural homestead both as a place for food preservation and as a place of refuge from violent storms. This form with an entryway structure is less usual than that with a slanted double or single leaf hatch and reflects the importance of the house.

This farm is situated at the end of the Round Prairie Trail. The Round Prairie, located in Sections 20 & 21, Twsp 61N Range 36W was a hunting ground known to Indian tribes as far east as Ohio and Indiana. William Debord, a Kentuckian who settled in Andrew County in 1852, owned most of the W^2 of this section by 1877. He probably built this barn in the 1880's. In 1903 the farm was bought by Frank Kneale from Debord's heirs. In 1909 Hosea Burns bought the farm which remains in the Burn's family.

Richard Pixler bought this quarter in 1875. When he wrote his will in 1899, he was a resident of Kansas City and owner of property not only in Andrew County but also Nodaway and Holt. This quarter was willed to his daughter Radie and remained in her name until 1928 when William Gregory acquired. Gregory, who owned considerable land, probably did not live here but had it as a tenant home. In 1947, P.H. Edwards bought and it remains in that family.

John A. Berry bought the SE^4 Section 7, Twsp 61N, Range 36N in 1864 and apparently built this home soon after. He sold the quarter to Samuel Hazlett of Nodaway County in 1878. This may be a part of "hidden mortgage", since in 1880 Hazlett still of Nodaway, sold the W^{2}DE^4 to Nannie Brown, also of Nodaway County. In 1882 the half quarter was bought by Harrison Dysart. In 1910 J.F. Dysart, now a resident of Maitland in Holt County, sold the house to William Hurst. The farm sold several times before William Logan Dysart bought in 1930. The farm remains in the Dysart family.

As early as 1877 the E^2 of Section 15 was owned by Jackson Smith. In 1915 Samuel Smith inherited the W^2 & NE^4 NE^4 (200 acres). Smith's daughter married Leonard Mendenhall and the couple lived here. Mrs. Mendenhall died in the 1918-19 flue epidemic and when the family home burned in 1920 or 21, he built this fireproof structure. In the late 1930's John Hancock Insurance Company foreclosed on a mortgage and in 1942 sold the property to William Bogard who owned until 1963. Edward Dick bought then and it remained in that family until 1988.

R. SIGNIFICANT PERSON(S)	T. SIGNIFICANCE
1.	W.L. & J.B. Dysart bought all of Section 16 and other land in 1850 when they arrived in Andrew County. In the next several months, the section was divided among the family, this quarter going to Josiah. It is probable that his son John F. built this home in 1887, selling it then to his cousin Louise Carson. The quarter remained in the Dysart/Carson family until 1902 when it was purchased by Pleasant Lightle whose son now owns.

T. SIGNIFICANCE

Joseph Denney bought the E 72 acres of SW^4 Section 7 in 1883, at which time, he was serving as a County judge. After the death of his wife, Denney sold the tract to his son, Edwin, and it was probably he who had this home built. The farm remained in the family until 1989 when the present owners bought.

John T. Barr bought the W^2SW^4 Section 10 in 1884. In 1911 he sold to Thomas Lightle at a price which suggests the presence of new improvements. Lightle sold to Elmer Pennington in 1916. In 1919 Benjamin Wilson bought from William Westcott who had owned less than a year and the Wilson's owned until 1930. Bruce Miles bought that year and that family owned until 1979. The owner bought the house tract in 1980

Union School district was formed prior to 1867. The first school was 1 mile south, but moved to this location that year. In 1868 a Sunday School was formed here which eventually became the Wesley Chapel Church in Benton Twsp. In 1911 the district school became graded. This school building which was built about 1920 was converted into a residence after the 1956 reorganization which combined this district, Rosendale, Bolckow and Rea, forming North Andrew R-VI.

John Mathias Hoshor bought the S^2SE^4 in 1857 and the N^2 in 1864. In 1893 his son Perry acquired the N^2 by Sherrif's deed in partition and he probably built this barn. In 1923, Hoshor sold the half quarter to Otto Brand and the farm was in that family until the 1980s. The present owner bought in 1988.

The Ueliger brothers who were members of St. John's Evangelical Church in Amazonia, donated land and a church structure soon after buying the SW^4SW^4 Section 32. The church which came to be known as the State Road Union Church, served the area along US 59. After the church closed in the early 1940's, the Martin family bought the building, tore it down and used the material to build this garage/house, the upper floor even has the pressed tin ceiling from the church.

Shelton Duff, Angus cattleman, had this barn built in about 1928, to provide for his increasingly large operation. The barn housed both the purebred cattle and the draft horses needed for operating the farm. The farm was inherited by Duff's great nephew, Kenneth Gillispie, and remains in that family.

1.	In 1909 Richard Brand bought this tract from Alfred Hurst and apparently had this barn built. By 1926 Otto Brand was living here. The farm remained in the family until the present owner bought in 1987 from Richard Brands granddaughter Cora Keller. There is no home here but the barn which sits high on a hill can be seen for miles.

J.M. Bohart, member of an early day Andrew County family, bought land in the SE4 adjacent to land already held in the NE4 in 1889-94, although by 1894 he was a resident of Arkansas. The home was apparently built as a tenant home. In 1915 Frank Polk bought 100 acres from heirs and owned until 1945 when he sold to Ruth Goodloe. Goodloe sold to Harold Brunner in 1963, and H.W. Nease bought in 1879. Randy Praisewater bought the 1.4 acre house tract in 1985, selling to the present owner in 1991.

The NE4 was bought by E.J. Blakeslee in 1891 and the 1897 Atlas shows a home here. In 1936 a sheriff's deed in partition was given to Harry Nelson Blakeslee who may have modernized the family home or built new on the old foundation. In 1946 the quarter was bought by Earl Landess from Blakeslee. Robert Spoonemore bought the 2 acre house tract in 1990.

T. SIGNIFICANCE

In 1884, G.W. Davis bought this alf quarter from John L. Jackson. He, his wife and two sons had this home built, moving here from a rude log cabin on the banks of Lincoln Creek. The two sons, Ed T. and Charles inherited this farm and land in Section 28, then added the E2SW4 & W2SE4 Section 33, farming together. The land remains in the family although the farmstead is vacant and deteriated.

This quarter was patented by David Jackson and in 1865 his brother John L. bought and apparently built this home by the mid 1870's. In 1887 J.L. Jackson sold the W^2 to his son Martin who sold to Gottlieb Steeby. In 1903 the half quarter was bought by E.T. Davis whose family home was on the E^2 of the quarter. The land remains in the family although the farmstead is unoccupied and derelict.

1.	Moses Tucker bought the W^2SW^4 in 1851. When he sold to Edmund Wright in 1869 the price had increases sufficiently to suggest farm improvements. The tract was bought by Sarah Smith in 1883 and the Smith family owned until 1924 when Addie & Samuel French bought. In 1951 Frank Sego bought from the French heirs. Sego sold to R.E.Davison in 1971. Davison still owns land but sold off house tract in 1985. The present owners bought just this year, 1993.

Mary Ann Jeffries who patented this quarter sold it to James Jeffries in 1855. When Jeffries sold to Thomas Mann in 1865, the price suggests that improvements had already been made. Mann's estate sold in 1907 with Samuel and Addie purchasing later the same month. The French family owned until 1949 when Charles Harris bought. Ralph Darnell owned from 1957 to 1974. The present owner bought in 1977.

In 1858, Mexican War veteran Reuben Tipton bought the NW4SW4. On this quarter quarter was a free flowing spring, a landmark of the Round Prairie Trail. Tipton built a well which served the neighborhood and travelers for many years. In about 1915 Cleatus Tipton built this home on the family farm. In 1969 neighbor Henry Chandler bought, selling in 1977 to Orvis Tipton. Ron Landess bought the quarter quarter in 1981 and sold the house tract in 1993.

The NW^4 Section 30 had been owned by the Thorburn family since the 1880's. In 1894 Wilson Thorburn married and moved into a new home near the SW corner of his father's farm which he bought in 1898. In 1921 his daughter married Francis Fothergill, cashier of the Round Prairie Bank of Fillmore. Francis and his wife Lois, moved to her parent's after her mother's death and Mrs. Fothergill remained there even after her husband's death. The farm remains in the family.

James McCreary bought this 19 acre tract and other land in 1864 and apparently built this home shortly thereafter. In 1878 he sold to Aaron Dodge, a resident of Fillmore who had been that town's first assessor. This was a tenant home for a part of Dodge's large land holdings. In 1920 Henry Floyd bought and added a kitchen wing on the rear. The farm remains in that family.

David Brock patented this quarter section and this home was probably built in the 1860's. Brock died in 1880 but the family owned until 1912 when James Patterson bought. That family owned until 1950 when Charles and Ruby McMullin bought. McMullins sold to Frank Reynolds in 1973 who owned until 1985 when the Reynolds Trust sold to American National Bank. The present owners bought in 1990.

In 1891 Sarah & John Kramer bought the SE^4 Section 24 and apparently had this home built, which is very similar to one built by Wm. Watts in the NE^4 Section 12 in the same time period. In 1903, the Kramers, now residents of Buchanan County sold to James Williams. In 1909 Swiss native Gotlieb Yenni bought and the farm remained in that family until 1960 when David Shreve bought. The present owner bought in 1987.

Henry Westcott bought the $W^2E^2NW^4$ Section 15 in 1884 and apparently built this home soon after. He later acquired the $E^2E^2W^4$ owning the 80 acres until 1928 when he sold to Lloyd Todd. Todd owned until 1945 selling to Warren Aebersold. In 1983 Aebersold sold the 2.7 acre house tract which was bought by the present owners in 1986.

In 1890 Caroline Spicer, Fillmore widow who in 1904 would be identified as Andrew County's largest taxpayer, bought this quarter from the estate of John Fritchman who had bought in 1866. Mrs. Spicer held the farm until 1912, probably having built all or part of this home in the mid 1890's. Sherman Moran who bought in 1912 owned until selling in 1947. Frank Bisig bought in 1950 and his heirs sold to the present owners in 1980.

1.	It is probable that this home was built in 1918 when the quarter was divided into east and west halves. The Adkins family who bought in 1918 owned until 1923. The home would then change ownership about every five years until purchased by J.W. Brandon who owned from 1958 to 1978. The present owner bought the 4.5 acre house tract in 1982.

Valentine Groff bought the SE4 in 1851 and in 1866 deeded the W 25 ac. to his son John and the E 135 ac. to his son Henry. This home was probably built around 1900 by Henry who sold the acreage to Louis Groff. In 1932, St. Joseph banker Beverly Pitts bought at a trustee's sale, owning until 1969. Mr. Pitts may well have made substantial alterations to the home. The present owners bought the 20 acre house tract in 1978.

The W^2SE^4 & E^2 SW^4 were those patented by John Lincoln, cousin of the President, who was one of the earliest settlers in this area. The free flowing creek to the north, the Masonic Lodge in Fillmore and the political township to the south all bear the name Lincoln. The land remained in the Lincoln family until 1885. The land was then owned by a succession of bankers before Caroline Spicer bought in 1892. In 1913 she sold to Henry Chandler who built this home shortly thereafter. In 1929 Ernest Ueligger bought and the farm remained in that family until the present owner bought in 1974.

Civil War veteran S.S. Bealle bought 150+ of the acres of SW^4 in 1866. The previous owner had sold a one acre tract on the S line of this quarter to the Christian Church of Lincoln Creek for a public burial ground and Fillmore founder Kenyon owned a strip in the NE corner. Beale probably built this house in the mid 1870's. In 1884 Bealle sold to John W. Burns. Burns owned until 1907 selling to Robert Thorburn. In 1952 Lewis Spicer, whose wife was Angie Thorburn, bought, owning until 1971 when the present owner bought. The Christian Church of Lincoln Creek would later be known as Stone Church from the large structure the group built in Section 20.

In 1916 C.W. Spicer, who was Caroline Spicer's executor, sold the NW4NW4 to his brother Winfield who was a carpenter/builder. The quarter quarter remained in the Spicer family until 1935 when Jobe Spicer's heirs defaulted on a mortgage by NW Mutual Life. In 1937 Dale Tipton bought and that family owned until 1972 when Tipton's widow sold to Jesse Shunk. In 1985 another mortgage was defaulted on and in 1987 Raymond Hughes bought. He has since sold the house tract.

In 1916, Jasper Bradford bought the N^2SW^4 which adjoined his own land, and had this home built for his newly married son, Clyde. Caroline Spicer acquired the NW^4 in 1879 and her estate held well into the 20th Century. Caroline's executor, her nephew C.W., sold the SW^{4}NW^4 to Mable Westcott in 1912. In 1933 she sold to Wilson Thorburn who in turn sold to Nellie Spicer in 1940. In 1946 W.J. Simmons bought the S^{2}NW^4 from Nellie and sold to Jesse Shunk 3 years later. The home remains in the Shunk family.
