Denise, the application was complete on August 22, so the comment deadline is September 20. I hope this helps. Please share this information with other who are interested. Thanks.

Hi John and Greg,

Thanks for both of your willingness to help me figure out the confusion about the comment period deadline.

As you probably know, neighbors of the proposed facility received notice letters on May 13th, July 14th, and August 7th all indicating that MDNR will accept comments 30 days from the date of the (respective) letters. Does that mean September 6th is the deadline?

However, a resident called MDNR earlier this week and was told that the deadline is August 30th, but that they'd be willing to accept comments "a few days later." Given that Monday is a holiday, does that mean Tuesday, September 2nd is the deadline?

Adding to our confusion, I had a chat with John this morning who was under the understanding that the public comment period has not even started yet for this facility. There's a lot of conflicting information out there!

Any help you could give us in clearing this up would be greatly appreciated.

Thanks so much,

Denise
