

[DRAFT] Data Sheet E – Results of Internal Review Committee

Date of Review/Recommendation: March 6, 2009

Water Body Under Evaluation:

Water Body ID #: 3691
Name: Ketchum Hollow (Class C)
Length of Segment: 1.9 miles
County (ies): Barry

Use Attainability Analysis (UAA) Study:

UAA ID #: 0923
Submitter: Olsson Associates
Date(s) Conducted: April 3, 2008
Date Received: June 3, 2008
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- 1-Natural Pollutant Sources.
- 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- 3-Non-Remedial, Human Caused Condition.
- 4-Hydrologic Modifications.
- 5-Natural Physical Features.
- 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? Yes No Unknown

Comments: The UAA survey was conducted in April 2008 and no evidence of WBCR was observed. This classified segment flows through Roaring River State Park with multiple hiking trails and footpaths/prints indicating likely secondary contact recreation (SCR) use. No interviews were conducted.

Is the evaluated use attainable? Yes No

Comments: The stream did not meet the maximum depth or median depth criteria. Since the depth criteria were not met, the committee recommends that the WBCR use be removed. Due to evidence of SCR use, the committee recommends that the SCR use be assigned.

Committee Recommendation: Add Use Retain Use Remove Use
 Modify Use Inconclusive
