

Division of Environmental Quality
Monthly Air Pollution Control Program Summary Report

For ALL REGIONS - 06/16/2013 to 07/15/2013

Number of Complaints Received RE:

<i>Asbestos</i>	10
<i>Burning</i>	30
<i>Fugitive Dust</i>	13
<i>Odors</i>	23
<i>Particulate</i>	6
<i>Toxics</i>	1
<i>Other</i>	11

Of the above, 18 complaints involved multiple emissions.

Total of Complaints Received: 74

Number of Investigations of Complaints:

<i>Received during report period.</i>	59
<i>Received prior to report period.</i>	11

Total number of investigations completed: 70

Number of formal notices of violation issued: 4

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

| Recvd Date >= 06/16/2013 | Recvd Date <= 07/15/2013 | Investigation Date >= 06/16/2013 | Investigation Date <= 07/15/2013 | Program=Air Pollution Contr

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	INSP Initials	NOV
KCRO	2013-07-01	2013-06-06	Terry L. Wegeng	Excelsior Springs	Clay	Burning	DG	
Comments	Mr. Wegeng did burn a hot tub, which is a prohibited item. Since the incident, Mr. Wegeng has been cooperative in complying with the open burning regulations; he has agreed not to burn prohibited items and has applied for a permit for open burning of vegetation only. Because of Mr. Wegeng's willingness to comply and no records of prior noncompliance were found, a letter of warning was issued and he was instructed to cease burning prohibited items							
Comp. No.	15682	Comp. Info.	The Air Pollution Unit received an e-mail June 6 from Paul Tribble, Deputy Chief of Excelsior Springs Fire Dept. He approached a column of black smoke and tracked it to the residence, which sits in a remote location and there was an aggressive loose dog at the residence. The resident first stated he was burning brush but then admitted it was an old hot tub, and agreed to follow the local authorities' instructions to extinguish the fire.					
KCRO	2013-07-01	2013-06-10	Blue River Wastewater Treatme	Kansas City	Jackson	Air Odors	SN	
Comments	I contacted the plant to let them know of the recent concerns from Union Pacific.							
Comp. No.	15613	Comp. Info.	Aaron Campbell of Union Pacific Railroad called in a concern about a foul odor coming from the Big Blue River Waste Water Treatment Facility. The odor was on June 7, 2013, at 2200 hours.					
KCRO	2013-06-19	2013-06-10	AutoLand	Raytown	Jackson	Fugitive Dust	DG	
Comments	Advised business owner of the following: •No particulate matter and odors shall cross the property lines from the business; •How to limit emissions during cleaning of paint spray guns; •Federal regulation NESHAP Subpart HHHHHH applies to this business Mailed him an informative letter with relevant fact sheets.							
Comp. No.	15614	Comp. Info.	Concerned citizen has a used car lot next door to him and recently they have been painting cars and car parts. They don't have any ventilation or other appropriate procedures.					
KCRO	2013-07-01	2013-06-11	Blue River Treatment Plant City	Kansas City	Jackson	Air Odors	SN	
Comments	I contacted the plant to let them know of the recent concerns from Union Pacific							
Comp. No.	15623	Comp. Info.	Jim Miller of Union Pacific Railroad has asked that we investigate the Blue River Wastewater Treatment Plant for sewage odor.					
KCRO	2013-07-01	2013-06-12		Smithville	Clay	Air Odors / Fugitive Dust	SN	
Comments	No violations observed							
Comp. No.	15612	Comp. Info.	Cynthia Sans of EPA received a telephone call from a concerned citizen stating the resident(s) at this home are running a boat repair business out of their house. They are conducting fiberglass work/repair, engine repair, painting (no booth, but do put up a tarp) and other miscellaneous work. They are working on all kinds of boats and personal watercrafts. There is a water way at the back of the property, but they are not sure if anything is running off the property into the water.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	INSP Initials	NOV
KCRO	2013-06-26	2013-06-18	Korn Harvesting and Hauling, LL	Amoret	Bates	Air Odors	SN	
<p>Comments An NOEE will be issued for the violation of 10 CSR 10-6.165 Restriction of Emission of Odors, which states "No person may cause, permit, or allow the emission of odorous matter in concentrations and frequencies or for durations that odor can be perceived when one (1) volume of odorous air is diluted with seven (7) volumes of odor-free air for two (2) separate trials not less than fifteen (15) minutes apart within the period of one (1) hour. This odor evaluation shall be taken at a location outside of the installation's property boundary." An exception does include "the odorous matter from the feeding, breeding and management of livestock or domestic animals or fowl" but this lagoon would not meet that definition because it is waste from an industrial plant.</p> <p>Comp. No. 15733 Comp. Info. Concerned party states that the odors from the A. F. Stanfill Lagoon are still very strong. Odors are constant.</p>								
KCRO		2013-06-19	Cale Seymour	Knob Noster	Johnson	Fugitive Dust	SN	
<p>Comments</p> <p>Comp. No. 15737 Comp. Info. Concerned party states that the facility had excessive dust emissions this morning. Dust was seen being emitted between the truck and discharge chute during loading. This dust was not as bad as other times, but the dust was still leaving the west side of the property.</p>								
KCRO	2013-06-21	2013-06-20	Bruce Britz	Maysville	Dekalb	Asbestos	MC	
<p>Comments The asbestos requirements do not apply to this project because it is an isolated single-family residence. Information was provided on solid waste requirements, open burning, and dust.</p> <p>Comp. No. 15732 Comp. Info. Caller is concerned about a house that was set for demolition that has recently been purchased by an individual. She is concerned that rehabilitation of the house may lead to lead paint and asbestos contamination.</p> <p>Caller also stated that no work has begun at this time.</p>								
KCRO	2013-07-02	2013-06-24	Future Grade School	St. Joseph	Buchanan	Particulate	CW	
<p>Comments No violations observed. No further action warranted at this time.</p> <p>Comp. No. 15734 Comp. Info. A new grade school is being constructed. The construction company has removed all the vegetation of the 24 acre site. When the site is dry the dust coming off the property goes into the neighborhood.</p>

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	INSP Initials	NOV
KCRO	2013-06-26	2013-06-24	Agency - Future City Hall Site	Agency	Buchanan	Burning	SN	
Comments	Some of the material in the fire was demolition waste but since Mr. Brushwood used the fire recreationally as well, I am going to issue him a Letter of Warning. I explained to him the Open Burning Regulations and indicated that he was in violation of it. He understood and indicated he would make sure any future recreational burns will have only untreated wood in it. A Letter of Warning will also be issued to the Village of Agency because the burn occurred on their property. They need to make sure they are doing a better job of controlling what happens on their property. I have a meeting scheduled with the city on July 11th, 2013, to better explain the Open Burning Regulations.							
Comp. No.	15735	Comp. Info.	This is the old gas station in town that the city just purchased in order to make a new city hall. They took bids on the lumber that was left and sold it all to a couple guys. Those guys took it all and then piled up and burned the rest of the scrap. This is maybe 20 yards from the gas pumps (there is no gas but still not exactly safe) and the ground is owned by the city. The city board did not actually start the fire, but they are responsible for the property.					
			I'm not sure who actually started the fire on June 21. A couple years ago there was a gas station on the concrete pad. It burned and the owners started to rebuild it. They got the complete frame up, then abandoned it. It sat for over a year until it finally collapsed. The city purchased the land and put an ad in the paper taking bids on the lumber. They got one bid and gave them a month to get it all cleaned up. They cut out everything good and piled up and burned what was left.					
KCRO	2013-07-02	2013-06-24	Missouri Organic Recycling	Liberty	Clay	Air Odors / Storm Water	CW	
Comments	No violations observed. No further action warranted at this time.							
Comp. No.	15736	Comp. Info.	The concerned party lives north of the facility on Raines Road. He said that Missouri Organic has a very bad odor this year and there are rats running around the compost. He is concerned about the odor and the possible diseases the vectors may carry.					
KCRO	2013-07-05	2013-06-26	Call Center	Kansas City	Jackson	Air Odors	MC	
Comments	Indoor air quality is not regulated by the Department. Referred to OSHA.							
Comp. No.	15840	Comp. Info.	Concerned party states that they work at a call center in an old building at 601 East 63rd Street in Kansas City. The concerned party assumes that the building management is laying tar or something. The office smells of gas and the fumes are really strong. The concerned party states that the employees are feeling slightly dizzy and light headed but their concerns are dismissed.					
KCRO	2013-07-10	2013-06-27	Korn Harvesting and Hauling, LL	Amoret	Bates	Air Odors	SN	
Comments	A NOEE will be issued for the violation of 10 CSR 10-6.165 Restriction of Emission of Odors, which states "No person may cause, permit, or allow the emission of odorous matter in concentrations and frequencies or for durations that odor can be perceived when one (1) volume of odorous air is diluted with seven (7) volumes of odor-free air for two (2) separate trials not less than fifteen (15) minutes apart within the period of one (1) hour. This odor evaluation shall be taken at a location outside of the installation's property boundary." An exception does include "the odorous matter from the feeding, breeding and management of livestock or domestic animals or fowl" but this lagoon would not meet that definition because it is waste from an industrial plant							
Comp. No.	15792	Comp. Info.	Concerned party states that the odors from the A. F. Stanfill Lagoon are still very strong. Odors are constant.

KCRO	2013-07-09	2013-07-02	Debra Galloway	Freeman	Cass	Burning	CW	
Comments	Violations of the MSWML and Clean Air Conservation Commission Regulations were observed during the investigation. Cease dumping or allowing the dumping of regulated waste onto the surface of the ground. Cease burning residential household waste. Obtain an open burning permit from the Department of Natural Resources prior to burning any vegetative wastes on the property.							
	KCRO will issue a Letter of Warning to Ms. Debra Galloway and Mr. Dave Stephens for the violations observed.							
Comp. No.	15866	Comp. Info. The concern is that Mr. Denny Fisher burns scrap metals in the middle of the night and disposes of trash on a 5 acre property.						
KCRO	2013-07-09	2013-07-02	Mark Stout	Pleasant Hill	Cass	Burning	CW	
Comments	Violations of the open burning requirements 10 CSR 10-6.045 were observed during the investigation. KCRO will issue a Letter of Warning for the observed violations.							
Comp. No.	15867	Comp. Info. Person saw the flames and detected the odors from burning of prohibited items, and they believe the items included tires and furniture. The burning occurred in a residential area Saturday, June 29 at 9 pm and was still smoldering the following morning. The burn pile is behind the barn. The CP stated that the metal tire rims and other metal parts from the prohibited items will still be visible in the ashes.						
	Additionally, the CP stated that brush was burned within 200 yards of nearby residences, that the burning of brush is prohibited at night, and it was alleged that the person had been overheard saying they were going to dispose of some tires by burning.							
KCRO	2013-07-10	2013-07-05	Korn Harvesting and Hauling, LL	Amoret	Bates	Air Odors	SN	
Comments	A NOEE will be issued for the violation of 10 CSR 10-6.165 Restriction of Emission of Odors, which states "No person may cause, permit, or allow the emission of odorous matter in concentrations and frequencies or for durations that odor can be perceived when one (1) volume of odorous air is diluted with seven (7) volumes of odor-free air for two (2) separate trials not less than fifteen (15) minutes apart within the period of one (1) hour. This odor evaluation shall be taken at a location outside of the installation's property boundary." An exception does include "the odorous matter from the feeding, breeding and management of livestock or domestic animals or fowl" but this lagoon would not meet that definition because it is waste from an industrial plant							
Comp. No.	15862	Comp. Info. Concerned party states that the odors from the A. F. Stanfill Lagoon are very strong. The odors are persistent and never go away.

NERO	2013-06-18	2013-06-13	Seth Gamble	Marshall	Saline	Air Odors	PM	
Comments No violation of the Missouri Air Conservation Commission regulations.								
Comp. No. 15649 Comp. Info. Caller states pungent odor coming from hole in ground next to his house. He has noticed odor since March of 2013. When he covers up the hole the odor comes through vents in the house and it is awful. So, he keeps the hole open. His family has not noticed any changes in health; however, youngest child is having bad dreams. The odor can be smelled on pillows. He has lived in rental house for almost one year. He has complained to property owner but property owner thinks it is a skunk that has died. Caller states the property owner is elderly and doesn't really understand and won't take him serious. Caller does not think it is natural gas leak; however, that was his initial reaction. But the natural gas line comes in on the opposite side of the house. He stated MFA provides his natural gas. I recommended he contact MFA to ensure it is not a natural gas leak. The pungent odor can be smelled inside and outside the home.

Comments	All complaints are logged and reviewed for development of an effective investigation strategy. Staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the condition noted by the complainant.							
Comp. No.	15669	Comp. Info.	Email stated the following: Last night (Sunday) at 8.45 pm, we had very strong hog odors here at the house. Winds from the South, light, Valley View.					
NERO	2013-06-18	2013-06-17	Don W Sapp	Ashland	Boone	Burning / Open Dumps	DB	NER0931342
Comments	Violation of 10 CSR 10-6.045 Open Burning Requirements. Mr. Sapp burned a house as a means of disposal. A Notice of Violation is being issued.							
Comp. No.	15670	Comp. Info.	Call received by EER duty officer Brad Harris on 6/13/13, 12:16 PM Report Origin: Private - Citizen Additional Information: The caller reports a house has been bulldozed and is being burned. In talking with the caller I explained that if he felt there was a threat to life or property that he should contact the fire department. Beyond that if he contacted the local sheriff's department they could respond and document the incident and DNR could conduct follow-up enforcement action. The caller explained the Boone County Sheriff's Department was unresponsive.					
NERO		2013-06-18	Unknown	Unionville	Putnam	Open Dumps / Burning	MH	
Comments								
Comp. No.	15676	Comp. Info.	While in Unionville, I was approached by a person who provided the following: Mattresses, furniture and other wastes are routinely dumped and burned off of 300th Road at the eastern edge of Unionville on 300th Road. More wastes were dumped there yesterday. Wastes are clearly visible from 300th. Dump area is on the left side of the road approximately 1/4 mile before the WWTP. Dump area is beyond a red gate that has a lock on it.

Comments Referred to EPA Region VII								
Comp. No.	15744	Comp. Info. Caller reports that Larry Mikel, a board member at Linn Senior Housing, is improperly disposing of old air conditioners (window units) and releasing the coolant into the air. Caller states that he has been instructed by the owners of the housing complex to discontinue this practice and he has ignored them and made threatening statements. States that the air conditioners at the complex were recently upgraded and Mr. Mikel has been offering to dispose of the units for the residents, who then give him the units. He then breaks them up to obtain scrap and then places/buries the unwanted remains of the units in the bottom of a dumpster at the complex so the trash hauler will not see them. States that he has processed at least ten units in the last two weeks. Caller advises investigator to speak with John Barber, Mr. Mikel's neighbor, or Debby Nehmert, Manager, for additional information. Caller stated that Mr. Mikel has made several threatening statements to people who have asked him to stop. Caller stated that Mr. Mikel has recently purchased a handgun.

Comments								
Comp. No. 15826 Comp. Info. Adair County Central dispatch called ESP on July 7 at 12:50 p.m. to report that the Novinger Northern Fire Department was fighting a fire of demolition waste, including shingles, in rural Adair county. The debris area covers 100' by 25' and includes about 6 truck loads of shingles. It is thought that the fire has been burning for 2 days.								
NERO	2013-07-12	2013-07-08	Elks Lodge	Mexico	Audrain	Burning	CB	
Comments No violation was observed. A letter will be sent to the Elks Lodge with direction on how to manage a 'land clearing operation' in case they decide to clear out trees from their property.								
Comp. No. 15844 Comp. Info. The Elks Lodge has bulldozed a house and pole barn along with numerous very large trees. Since Friday night, they have been burning and the smoke is very black and noxious. Caller is concerned something other than vegetative waste is being burned.								
There is not always someone at the Lodge. Bulldozers are onsite today. Caller does not know the name of the contractor.								
NERO	2013-07-09	2013-07-09	Todd Haneisch	Fulton	Callaway	Asbestos	SB	
Comments Refer asbestos removal issue to OSHA. Asbestos removal from a single family house is not regulated under NESHAPs. Informed the source about disposal requirements for the asbestos waste.								
Comp. No. 15874 Comp. Info. The caller reports that a single family house with asbestos siding is being prepared for demolition. Over the last month, a crew has come in and removed the slate siding. Then, a few days before July 4th, three teens were observed over a period of 3 or 4 days pounding the slate siding into small pieces and placing it in trash bags. It created a dust cloud in the area where this was taking place. The asbestos is still sitting in trash bags in the front of the house. The property owner lives in Kansas City and reportedly was wanting to salvage the siding under the asbestos from the house, but it appears that it is in poor condition and not in any shape to be salvaged. Caller is concerned about the health of the two boys and one girl who crushed the siding.

Comp. No. 15934 Comp. Info. On July 14, 2013, at 4:24 p.m., the following report of odors was filed on the Murphy Brown Whitetail facility, "The odors have been bad at our house every evening for the last week. Someone needs to get up here and enforce the odor rules."								
SERO	2013-06-19	2013-06-03	Harry Crumb	Kennett	Dunklin	Open Dumps	GG	
Comments I went to the site and could not enter the property because the owner was not there. I photographed piles of dumped materials from the road right of way. According to the Recorder of Deeds office, this property belongs to Kenneth Crum, 509 King Street, Kennett, MO 63857. I was unable to get in contact with Kenneth Crum or Harry Crum at the time of investigation. The concerned party said that wastes are hauled in all the time and burned. I contacted Deputy Pointer with the Dunklin County Sheriff's Office. He said he knew Harry Crum and how to contact him and he will take action to stop the dumping. This assistance is appreciated. Further action will be taken with the results of the Dunklin County Sheriff's Office investigation.								
Comp. No. 15498 Comp. Info. RP owns the property and is letting everyone dump trash, furniture, tires and shingles on the property and someone is then setting the pile on fire. It is unsafe for the children in the area because of the smoke and the gravel road is unsafe because the people doing the dumping drive too fast and are losing part of their load on the road. This is also causing problems for the residents in the area who are having to repair the tires on their cars weekly.

SERO	2013-06-18	2013-06-18	Fronabarger Concrete	Cape Girardeau	Cape Girardeau	Fugitive Dust	AW	
Comments	Observed a crusher where facility had been breaking up slabs of concrete and crushing to rock size (small). No one on site and not operating at time of investigation. A track hoe with rock breaker was being used to bust large pieces prior to introduction to crusher. It is apparent that dust could be an issue since the crushing unit did not appear to have a water line spray for control. Close to 100 yards to nearest home.							
Comp. No.	15675	Comp. Info. Dust from a portable unit is fogging the highway. They have a water truck on site, but caller doesn't think it even has water in it.						
SERO	2013-06-27	2013-06-19	Billy Castile	Jackson	Cape Girardeau	Asbestos	TR	
Comments	The property involved was a single residence being renovated to expedite sale. Because only a single structure is involved, the project is therefore, not a covered abatement under Title 40 Code of Federal Regulations Part 61 Supart M: National Emission Standard for Asbestos, except for the disposal of any suspect asbestos-containing materials. Mr. Billy Castile is the owner and is interested in changing neighborhoods. While he was aware of the disposal requirements for suspect asbestos-containing wastes, I sent him a copy of the fact sheets entitled: "Asbestos Requirements for Demolition and Renovation Projects" and "Facts on Open Burning Under Missouri Regulations." I also asked that he contact me if he has any questions in the future. Mr. Castile has had various material remediation and abatement trainings when attached to the US Marine Corp.							
Comp. No.	15689	Comp. Info. CP stated Billy Kastel is tearing down a house with asbestos siding. He told CP that he was a certified asbestos contractor but he is not taking any safety measures. CP stated he can see the asbestos blowing in the air. He called the city planning commission and they told him they couldn't do anything about it so he called us. CP requested several times that we call the police and have them stop since it would be over an hour before we could get there.						
SERO	2013-06-21	2013-06-20	Fronabarger	Cape Girardeau	Cape Girardeau	Fugitive Dust / Particulate	JD	
Comments	The facility was not operating during the investigation. I called David McMullian with Fronabarger Concreters, Inc. David stated that they would not be operating the crushing facility this week but hoped to start it again the first week of July. I ask David to call me the day before they were planning to operate so I can observe the operation.							
	No violations observed. Will observe the operation during the next time it is operational. If an issue is found then it will be addressed at that time.							
Comp. No.	15693	Comp. Info. Caller reports a company is operating a concrete crusher over the noon hour at the referenced location, which is emitting a lot of fugitive dust that is impacting residents. The caller relayed this company had fugitive dust issues all of last summer as well.

SERO	2013-06-11	2013-06-24	Joe Leon Harris, Jr.	Willow Springs	Howell	Burning / Open Dumps	GG	19278se

Comments The building burned the night of June 4-5. I spoke by telephone with Mr. Mike Ward, (417) 855-0006, Volunteer Fireman for the city of Willow Springs today. He responded about midnight on the night of the fire and he lives behind the property. He saw that the large building had been knocked down with a trackhoe and pushed into the foundation and "pyramided" up. He saw that it was burning all over, meaning that it had been lit all around. He could smell diesel fuel and saw a trailer with a tank of diesel fuel nearby. He wasn't sure if diesel was used as an accelerant. The equipment had been pulled away from the fire. He estimated the building at 40' x 60'. He said he could not be sure if Mr. Harris set the fire, but it probably saved him paying for the disposal of 10 loads of demolition waste.

I spoke with Doug Cunningham, (870) 371-0571, 1035 Republican Road, Salem, AR, 72576 on Tuesday June 11th at the site and he said that he did not burn or demolish the building. The wastes were still burning (see photos). In the second photo there is a large tree trunk in the burning debris. Why would that be there? Mr. Cunningham said that it was arson and that the building was probably 80' x 35' single story. He said he was hired to repair and upgrade a metal building on the site. That appeared to be what he was doing. He asked me to contact Mr. Joe Harris, 4335 Co. Rd. 7200, West Plains, MO 65775, the property owner.

I met with Mr. Harris (417)257-0844 or (417) 257-5128 (cell) the same day and he adamantly denied burning the building and named two individuals with vendettas that he said were at the burn site on Tuesday. He said his equipment was parked too close to the building and he was lucky that they weren't damaged or destroyed by the fire. He said that he intended to haul the building to the transfer station, but now he will have to deal with nails that could ruin expensive tires on his equipment. He plans to put in another salvage yard at that location. He owns several, including West 160 Salvage near West Plains. His property address is 3768 Private Road 1271. The property is owned by Joe Leon Harris, Jr. and Jennifer Lynn Harris and they are/were(?) buying it from Noble Grogan and Chari Lynn Groigan 108 West 10th Street, Willow Springs, MO as a contract for deed. Mr. Harris said the building was once a school and was later used as a flea market.

I called Hillbilly Junction and left a message for the owner to call me on 6-12-13. To date he has not called me back. The manager said that they knew it would be burned and that the owner had discussed with her that he was concerned the ash would land on the roof of his business and start a fire. I suspect that the owner of Hillbilly Junction is the anonymous concerned party. This person adamantly did not want me to know who he was, so if I am correct, I doubt he will call me back.

NOTE: Tony Kerley took a photo of a Cunningham Construction Co. truck at the site on Thursday 6-6-2013.

Comp. No. 15701 **Comp. Info.** On June 4-5 the building behind Hillbilly Junction (at the junction of Highway 60 and 63 South) burned.

SERO	2013-06-26	2013-06-25	Patricia Baker	Dixon	Pulaski	Asbestos	SBV		
Comments	<p>On June 25, 2013, Investigator stopped along the side of the road to the property and took pictures of mobile homes visible from Highway 28. Computer hard drives and miscellaneous parts were in large wooden totes next to one of the dismantled trailers. (See attached photo). Computer monitors were also piled up on the property along with a couple other mobile home trailers and miscellaneous debris. The property was located on a sharp curve of a busy highway as it was hard to photograph more than can be seen in the attached pictures. No open burning was taking place and a burn pile or burn residue was not visible from the highway.</p> <p>Investigator called and spoke with the concerned party (CP) on June 26, 2013, about any burning taking place on the property. CP said that no burning has taken place as of yet, but was told by one individual recently on the property that the plan was to burn the debris and/or dig a hole and bury it as he had been informed from the owner of the property.</p> <p>Investigator gave CP her contact information if any burning or burying of the debris takes place to his knowledge.</p>								
Comp. No.	15708	Comp. Info.	Mr. Baker called in about a property adjacent to his property in Pulaski County 4 miles south of Dixon on Highway 28, approximately 1 mile south of Highway D/Highway 28 intersection. The property is being managed by Patricia Baker and her children. This was investigated 11-28-13. According to Mr. Eddie Baker, Ms. Patricia Baker is demolishing mobile homes (trailers) and piling the demolition waste on top of the computer parts in preparation for open burning.						
SERO	2013-07-05	2013-06-26	Auto Repair	Summersville	Texas	Burning	SBV		
Comments	<p>On June 25, 2013, Investigator visited with Mr. Ron Scott at his Auto Repair Shop in regards to the open burning concern. Mr. Scott stated that a guy was scraping out an old motor home for him and there may have been a tire or two in with the debris when the man did some burning. Mr. Scott stated that he did not intentionally burn any tires and that he knows better than that. Investigator gave Mr. Scott a copy of PUB002047 Facts on Open Burning Under Missouri Regulations.</p> <p>No further investigation required by this investigator on this concern at this time.</p>								
Comp. No.	15721	Comp. Info.	A large truck tire was burnt at an Auto Repair owned by Ron Scott at the corner of Highway JJ & 106. Caller said he flagged a police officer down and the officer apparently told him that one tire was okay to burn.

Comments	<p>Observed the area where trash was said to have been burned. Saw some wood waste at burn site. A couple of trailers of material, metal, etc. by site. The pond had been drained and there was not any signs of trash or burnt material in pond at location of burn site. Tenant living on property said "Tim", property owner, cleans up houses for banks and rental units. Owner has a home nearby but spends time in Illinois. An Illinois truck and trailer was at owners home.</p> <p>No sign of trash in pond, which has been drained. Only wood waste in burn area. Owner works at cleaning up houses for bank repossession, also rental units. No trash piled around pond or burn area. Tenant said he burned but never saw owner push anything in pond.</p>							
Comp. No.	15748	Comp. Info. RP is burning trailer loads of trash and pushing the burned trash into this pond.						
SERO	2013-07-05	2013-07-01	Jadwin Sawmill	Salem	Dent	Fugitive Dust	SBV	
Comments	<p>On July 3, 2013, Investigator visited Jadwin Sawmill about the dust concern. Jadwin's has a cyclone dust collection system that was installed on their circle mill approximately four years ago. They also have another cyclone system on-site ready to be installed on their bandsaw mill that has just been operating since this spring. The sawmill has been at the location for 30+ years. They do not have an enclosure around the sawdust pile, however they sell the sawdust and it comes and goes on a regular basis.</p> <p>Investigator recommended to use wet methods as much as possible on the sawdust and haul roads at the facility to help control the dust.</p> <p>No further investigation required by this investigator on this concern at this time.</p>							
Comp. No.	15781	Comp. Info. Dust from the sawmill is getting on RP's property and into his house. It is the worst when there is a south wind.

SERO	2013-07-09	2013-07-08	Mr. Walker	Farmington	St. Francois	Burning	AW	
Comments Observed burn pile where waste had been burned. No burning on investigation date. The owner was not available. Spoke with tenant who helped burn. Owner has four mobile homes and apartments in other cities. It was said to have been transported to site. Informed RP that trade waste may not be burned. Only household waste.								
Comp. No. 15843 Comp. Info. RP is burning furniture, rugs, plastics & etc. like a big bonfire. He brings it in from his rental properties and burns it at a local trailer court. CP is concerned about this getting into his well water, the air & asbestos. RP has been doing this for about a year.								
SERO		2013-07-09	Kenny Foeste - Fronabarger Co	Cape Girardeau	Cape Girardeau	Fugitive Dust		
Comments								
Comp. No. 15857 Comp. Info. They are crushing concrete and blowing dust everywhere.								
SERO	2013-07-09	2013-07-09	James Walker	Farmington	St. Francois	Burning	AW	
Comments Observed burn pile. No burning on date of investigation. Owner, James Walker has four mobile homes and apartments in other cities. Some waste was hauled to site and burned.								
Requested tenant inform owner/(non-resident) that burning of trade waste is not permitted.								
Comp. No. 15859 Comp. Info. Neighbor owns 5 trailers and maybe some apartments in town. He brings truck loads of junk out and burns it, sometimes at night. The ash and smoke are really bad. He burns dressers, mattresses, plastic toys and all kinds of junk. Caller is also worried about the roaches and bugs from all the trash.								
SERO		2013-07-10	Fronabarger Concreters, Inc.	Cape Girardeau	Cape Girardeau	Fugitive Dust		
Comments								
Comp. No. 15876 Comp. Info. CP reports that Fronabarger Concreters is causing dust and noise problems.								
SERO	2013-07-23	2013-07-15	UNKNOWN	Caruthersville	Pemiscot	Burning / Asbestos	RP	
Comments There was no evidence of demolition burning in the 1200 block of Truman. There was no evidence that 2 homes were demolished on Truman Street.								
Pemiscot County does not have a County Road 360 where the alleged illegal demolition waste disposal was occurring.								
No further action.								
Comp. No. 15899 Comp. Info. Burning 2 houses with shingles and siding on them. Left message on voice mail.

SLRO	2013-06-17	2013-06-07	SEPTAGON CONSTRUCTION	Elsberry	Lincoln	Asbestos	SW	SLR1338490
Comments	The Elsberry R-II School District and their renovation project manager Septagon Construction Co failed to notify prior to removing regulated quantities of ACM during renovation of classrooms The district and Construction company also failed to inspect the areas to be impacted by the renovation instead relying on their AHERA documentation and architects drawings to erroneously conclude no ACM would be impacted the construction company also failed to retain certified asbestos workers and contractors to remove the asbestos containing ceiling tiles and failed to adequately wet the tiles and place them into leak tight wrapping and properly labeled containers Upon becoming aware of their error during review of the plan documents the general contractor(Septagon)reportedly notified the school district and acted to contain the problem and obtain services of asbestos professionals All parties have cooperated with the inspector An NOV will be issued for the violations							
Comp. No.	15853	Comp. Info. Suspected asbestos containing materials (ACM) being removed from Elsberry High School while students are in the school						
SLRO	2013-06-20	2013-06-14	MARIE JENSEN	Spanish Lake	St. Louis	Burning	KA	
Comments	Informed Mr. Jensen of the open burning requirements and provided him a copy of the applicable technical bulletin. He was asked to curtail any open burning of regulated materials if the allegation is true. NFAN.							
Comp. No.	15713	Comp. Info. The anonymous caller stated that his neighbor is burning garbage. The area is Spanish Lake an unincorporated area in St. Louis County. In addition to taking his concern, I suggested that the caller notify the fire department when they notice burning.						
SLRO	2013-06-20	2013-06-19	UNKNOWN	Spanish Lake	St. Louis	Particulate	KA	
Comments	It was suggested to Mrs. Pointer the physical ailments indicated shown in her children and husband may be caused by poison ivy particulates being made airborne during mowing of this section of the yard. It was recommended the mowing of this section be curtailed until the poison ivy is removed or the children should remain indoors during lawn mowing. Mr. Pointer should consider using a face mask and proper clothing while mowing to reduce his risk of exposure.							
Comp. No.	15712	Comp. Info. Complainant has been having an issue with an unknown material dispersed within his lawn. While cutting the lawn in one particular section his children and he begin having an allergic type reaction with burning eyes and respiratory distress. While cutting the rest of the lawn they do not experience any symptoms. This section of the lawn does not appear any different from the rest of the yard. There is no visible difference of the soil or grass color. There is no discernable odor in that section. The issue has been ongoing for several years and he has contacted numerous agencies but without success.						
SLRO	2013-06-24	2013-06-20	UNKNOWN AT THIS TIME	St. Louis	St. Louis City	Air Odors	KA	
Comments	Unable to validate the complaint at this time.							
Comp. No.	15709	Comp. Info. Complainant is working temporarily in the vicinity of Grand Boulevard and Chouteau in St. Louis City. For the past 2 weeks he has noted a strong odor of rotting trash. Sometimes the odor is reminiscent of a dead animal. He contacted the City of St. Louis Health Department and was referred to DNR. Complainant was not aware of any probable source for the odor.
