

*Division of Environmental Quality*  
*Monthly Air Pollution Control Program Summary Report*

For ALL REGIONS - 04/16/2013 to 05/15/2013

---

*Number of Complaints Received RE:*

<i>Asbestos</i>	10
<i>Burning</i>	30
<i>Fugitive Dust</i>	8
<i>Odors</i>	20
<i>Particulate</i>	8
<i>Toxics</i>	3
<i>Other</i>	8

*Of the above, 16 complaints involved multiple emissions.*

*Total of Complaints Received:.* 69

*Number of Investigations of Complaints:*

<i>Received during report period.</i>	47
<i>Received prior to report period.</i>	6

*Total number of investigations completed:* 53

*Number of formal notices of violation issued:* 4

## Monthly Air Pollution Control Program Detail Report

*note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

| Recvd Date >= 04/16/2013 | Recvd Date <= 05/15/2013 | Investigation Date >= 04/16/2013 | Investigation Date <= 05/15/2013 | Program=Air Pollution Contr

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	INSP Initials	NOV
KCRO	2013-04-17	2013-03-13	Mike Zinevich	Smithville	Clay	Other	SN	
<b>Comments</b> No further actions								
<b>Comp. No.</b> 14680 <b>Comp. Info.</b> Mike Zinevich builds cars and the CP claims that he does not have a paint booth for his auto body painting. CP alleges that he does not maintain the proper licenses. CP would like to be contacted to hear the results.								
KCRO	2013-04-29	2013-04-04	Martin Marietta Greenwood Quar	Greenwood		Fugitive Dust	SN	
<b>Comments</b> A letter of warning will be issued because the facility needs to do a better job of paying attention to when the haul roads become dried out and begin producing the dust that the concerned party was calling about. The quarry is also in the process of using oil as a dust suppressant so they are trying to mitigate the nuisance dust.								
<b>Comp. No.</b> 14961 <b>Comp. Info.</b> The caller said that the quarry has been producing a lot more dust than they normally do. This has been going on for over two days. It starts around noon and ends after they stop working for the day.								
KCRO	2013-04-19	2013-04-08	Helen Haggard	Ladue	Henry	Burning	SN	
<b>Comments</b> No action is needed because there was no evidence that the homeowner violated the Open Burning Requirements, but I stressed to her the importance of not burning prohibited items. Also I am going to talk to solid waste to see if anything can be done with the tires and the fill she was using in the drainage ditch.								
<b>Comp. No.</b> 14964 <b>Comp. Info.</b> Caller said possible illegal burning happened this past weekend. He noticed four truck loads of old lumber, shingles, styrofoams, etc. (torn down from an old house) were in a pile to be burned. Caller contacted the Henry County Sheriff on Saturday. The Deputy told them to separate the piles and could only burn the lumber. Caller said they burned the pile this weekend but wasn't sure if they just burned the lumber. Caller didn't know if they buried or burned the styrofoams and shingles.								
KCRO	2013-04-16	2013-04-16	Aaron & Sashia Pittman	Kansas City	Jackson	Asbestos	MC	
<b>Comments</b> Concern has been referred to Kansas City Health Department's Air Quality Program for investigation.								
<b>Comp. No.</b> 15085 <b>Comp. Info.</b> Residential house being used as a business: Pittman & Hall Moving. The enclosed front porch is being used as a child's bedroom. The house shingles exposed to asbestos porch/bedroom are the asbestos type; and the children in the "bedroom" are being exposed to asbestos. Family is running a business out of this house: Pittman & Hall Moving.								
KCRO	2013-05-13	2013-04-18	Ed Holden	Amsterdam	Bates	Open Dumps / Burning	JH	
<b>Comments</b> No violations (at this time) for the stock piling and burning of railroad ties in a wood stove.								
<b>Comp. No.</b> 15316 <b>Comp. Info.</b> Fire Chief reports that the responsible party has received about 500 railroad ties from teh KC Southern Railway company and has them stored or dumped on his property. He reports that the RP has indicated the he plans to burn them in his home wood stove.								

## Monthly Air Pollution Control Program Detail Report

*note: "Comp. Info" refers to complainant information. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

| Recvd Date >= 04/16/2013 | Recvd Date <= 05/15/2013 | Investigation Date >= 04/16/2013 | Investigation Date <= 05/15/2013 | Program=Air Pollution Contr

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	INSP Initials	NOV
KCRO	2013-04-19	2013-04-19	Possible Renter	Kansas City	Jackson	Burning	MC	
<b>Comments</b> Concern will be forwarded to the Kansas City Health Department Air Quality Program for initial investigation and appropriate enforcement.								
<b>Comp. No.</b> 15217 <b>Comp. Info.</b> Property owner(s) are bringing in junk and putting it into a dumpster. They then proceed to burn the junk/litter/debris in the afternoons and at night. They have been called into the KCMO Health Dept. on numerous occasions. Residents are tired of breathing in the smoke and having the junk all over the place. Incidents have been logged into the 311 Action Center.								
The dumpster is along the side of the house. The people who reside in the home may be renters based upon parcel search through Jackson County. Caller chooses not to leave name due to possible repercussions.								
KCRO	2013-04-25	2013-04-22	Missouri Department of Transpor	Kansas City	Jackson	Fugitive Dust	MC	
<b>Comments</b> Referred to Kansas City Health Department Air Quality Program.								
<b>Comp. No.</b> 15125 <b>Comp. Info.</b> Concrete dust I-35 bridge, dust is dropping slowly with huge dust blooms.								
KCRO	2013-05-01	2013-04-26	Bill Beeson	Warsaw	Benton	Burning	SN	
<b>Comments</b> Since no one responded to me at the property and there was no indication of illegal burning at the time of the inspection, no further action is required from the air pollution unit. There may be some storage and disposal issues, which will be investigated by the solid and hazardous waste unit.								
<b>Comp. No.</b> 15496 <b>Comp. Info.</b> RP is collecting lots of junk. He sometimes burns it. His house burned down a few months ago and tires were burned at that time. It has been reported that he had received an old x-ray machine from someone and dumped the oil from the transformer out on the ground when taking it apart. He is taking over the property next door (owner lives in KC), building roads and placing trash on it.								
KCRO	2013-05-01	2013-04-30	Missouri Organic	Liberty	Clay	Air Odors	DG	
<b>Comments</b> Though wind and weather conditions were favorable, the odors were not detected using the Nasal Ranger.								
<b>Comp. No.</b> 15176 <b>Comp. Info.</b> Caller reports that the odors from Missouri Organic's composting facility are getting worse and worse. The odor is especially pungent today.								

### Monthly Air Pollution Control Program Detail Report

*note: "Comp. Info" refers to complainant information. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

| Recvd Date >= 04/16/2013 | Recvd Date <= 05/15/2013 | Investigation Date >= 04/16/2013 | Investigation Date <= 05/15/2013 | Program=Air Pollution Contr

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	INSP Initials	NOV
KCRO	2013-05-01	2013-04-30	Louise Wilson	Albany	Gentry	Burning	SN	
<p><b>Comments</b> The original LOW that was issued in regards to this matter should suffice as long as Mrs. Wilson removes the demolition debris by the date stated in the LOW. Information about open burning regulations was also sent with the LOW. Evidence of future illegal burning will result in a Notice of Violation. Concerned party was advised to report any future illegal burning to this office and the local fire department.</p> <p><b>Comp. No.</b> 15203      <b>Comp. Info.</b> Caller claims that a house that burned down in March that is owned by Louise Wilson has not been cleared and the rubble and debris remains onsite. There is an open foundation that remains as well as an open drinking water well. Caller is concerned that children could be in danger of falling in the open structures or being exposed to hazardous materials.</p> <p>The house burning incident was investigated previously by Seth Norcross of the KCRO office on 3/25/13 (ACE ID #14835). Ms Wilson was issued a LOW with a deadline of 4/26/13, to properly dispose of the debris at a sanitary landfill.</p> <p>According to the caller this has not occurred and the issue persists.</p> <p>Caller would like to be contacted by Mr. Norcross upon follow up or further investigation.</p>								
KCRO	2013-05-10	2013-05-02	Pettit Salvage (Owned by Pettit	Jamesport	Daviess	Toxics	MC	
<p><b>Comments</b> Concern has been forwarded to US EPA Region 7. Further investigation and enforcement will be at the discretion of US EPA.</p> <p><b>Comp. No.</b> 15310      <b>Comp. Info.</b> Complainant states that Pettit Salvage accepts small appliances and is not properly managing ozone depleting substances.</p>								
KCRO	2013-05-13	2013-05-06	Royer Funeral Home	Oak Grove	Jackson	Particulate / Air Odors	DG	
<p><b>Comments</b> No odors were detected at a 1:1 ratio on May 13, 2013. Winds were calm.</p> <p><b>Comp. No.</b> 15241      <b>Comp. Info.</b> Royer Funeral Home in Oak Grove, MO has a crematorium at their location on 15th Street. Lately they have been "burning" where it has created very unpleasant odors throughout the neighborhood both at night and in the daytime. On one occasion in the last few weeks the smoke overtook the whole neighborhood and the smell was horrible. As a neighborhood, do we have any rights or are there any laws to prevent against this. We cannot even use our attic fans as it brings the smell into our homes. The smell is already present inside when they burn. Please advise.</p>								
KCRO		2013-05-06	E and S Quarries	Holden	Johnson	Fugitive Dust	SN	
<p><b>Comments</b></p> <p><b>Comp. No.</b> 15242      <b>Comp. Info.</b> Dust is causing issues with air quality. Concerned party stated when the wind blows out of the NW it causes a large amount of dust to be left on his property.</p>

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	INSP Initials	NOV
KCRO		2013-05-07	Southside Red E Mix	Knob Noster	Johnson	Fugitive Dust	SN	
<b>Comments</b>								
<b>Comp. No.</b>	15243	<b>Comp. Info.</b> Concrete dust from the plant is leaving the site and on to the adjoining areas. Caller stated it looks like the facility loaded a truck without a truck being there.						
KCRO		2013-05-07	Heath Roark	Cole Camp	Benton	Asbestos	DG	
<b>Comments</b>								
<b>Comp. No.</b>	15277	<b>Comp. Info.</b> There was a house in town with asbestos siding. (Location on Butterfield Trail across from the city park). The house was knocked down with backhoe by Craig's Excavating, then carried out to the country and burned. Shingles and siding were burned the afternoon of May 7. Some lumber was salvaged. At 4:45 pm on May 7, DNR Air Pollution Unit contacted the Benton County 911 Dispatch and informed them that people were burning prohibited items and the smoke was crossing the road, requesting that local officials go to the scene. I informed the dispatcher that no life-threatening emergency had been reported.						
Directions to site of demolition: Right on State Route F, then 2 blocks. Head South on curve, then 3 blocks.								
KCRO	2013-05-13	2013-05-07	Korn Harvesting and Haling, LLC	Amoret	Bates	Air Odors	SN	
<b>Comments</b> An NOEE will be issued for the violation of 10 CSR 10-6.165 Restriction of Emission of Odors, which states "No person may cause, permit, or allow the emission of odorous matter in concentrations and frequencies or for durations that odor can be perceived when one (1) volume of odorous air is diluted with seven (7) volumes of odor-free air for two (2) separate trials not less than fifteen (15) minutes apart within the period of one (1) hour. This odor evaluation shall be taken at a location outside of the installation's property boundary." An exception does include "the odorous matter from the feeding, breeding and management of livestock or domestic animals or fowl" but this lagoon would not meet that definition because it is waste from an industrial plant.								
<b>Comp. No.</b>	15302	<b>Comp. Info.</b> Wayne Korn of Kron Harvesting and Hauling, LLC has a contract with a Mr. Stanfill to use his former hog lagoon as holding basin for clarifier sludge that he hauls from Triumph Foods (pork processing facility) in St. Joseph. He is authorized to operate the lagoon and land apply the sludge under NPDES permit #MO-G822214. Residents downwind from the lagoon have been concerned with the odors from the sludge since he began hauling to it. The current call states that the odor has been excessive this week and is concerned that as the weather gets warmer it will get worse.						
KCRO		2013-05-10	Jack Longfinger	Excelsior Springs	Clay	Air Odors	DG	
<b>Comments</b>								
<b>Comp. No.</b>	15303	<b>Comp. Info.</b> Odor from a carbon cleaning company.						
Concern came from Mr. Larry Murry who works for codes enforcement for the city of Excelsior Springs

<b>Comp. No.</b> 15469 <b>Comp. Info.</b> Excessive odors coming from a lagoon on Highway F, northwest of Butler, Missouri.								
KCRO		2013-05-14	City of Gower-City Hall	Gower	Clinton	Fugitive Dust	SN	
<b>Comments</b>								
<b>Comp. No.</b> 15440 <b>Comp. Info.</b> Concerned party called in a concern about a year ago for dust which was blowing from the town ballfield to his home on 3rd Street. Unit Chief at the time, Richard Vani, had sent a letter to the City to have them apply a chemical dust suppressant. Mr. Vani said to call the Department if this problem arises again. Since the opening of baseball season two weeks ago, the dust problem has begun again.								
KCRO	2013-05-17	2013-05-15	Georgetown South Apartment	Belton	Cass	Asbestos	MC	
<b>Comments</b> Georgetown South Apartments failed to inspect for asbestos prior to removing a section of ceiling. Since the project involves less than the threshold amount of suspect materials, the facility was advised to sample the ceiling and submit a copy of the results. No further actions are required.								
<b>Comp. No.</b> 15373 <b>Comp. Info.</b> Caller is concerned of asbestos in her townhome because the maintenance man is removing a portion of the ceiling. She thinks it may contain asbestos because the townhome was built in the late 60s or early 70s. She asked them if they did any testing before removing the ceiling but she didn't get a response. She also contacted the City of Belton and they said they couldn't help her.								
KCRO	2013-05-17	2013-05-15	APAC - Hilty - Adrian Quarry	Adrian	Bates	Fugitive Dust	SN	
<b>Comments</b> A letter of warning will be issued because this facility needs to do a better job of watering its haul roads to keep the dust down. Also when they are blasting, or doing any other kind of activities in the rock quarry, they need to make sure that they do not have any fugitive dust emissions leave their property.								
<b>Comp. No.</b> 15379 <b>Comp. Info.</b> Caller informed the DNR that Adrian Quarry, operated by APAC, conducted a blast yesterday at 3:38 pm and created a huge dust plume that went off their property. Caller said the dust plume lasted for a couple of minutes and he recorded the plume. The dust plume crossed the back corner of his property. Caller emailed the recorded video to the DNR.

NERO		2013-04-18	Unknown	Columbia	Boone	Air Odors	DB	
<b>Comments</b>								
<b>Comp. No.</b>	15070		<b>Comp. Info.</b>	From Email: Monday through Friday, I commute on I-70. Going eastbound, at mile marker 128.7 (in Columbia), that area always smells toxic-like aerosol paint. This seems to occur during working hours, and I have noticed it for months. I would be surprised if this release of fumes was allowed by law. That area is also a small valley, so I imagine the fumes are concentrated there. Date observed: Nov 2012 - Apr 2013  Concerned party wants to be notified when investigation is complete.				
NERO	2013-04-19	2013-04-18	Performance Abatement Service	Clifton Hill	Randolph	Asbestos	SB	
<b>Comments</b>								
<b>Comp. No.</b>	15077		<b>Comp. Info.</b>	Conducted an abatement inspection of project. Project was in violation of Asbestos NESHAPs for failure to remove all friable asbestos containing materials from a facility being renovated before any activity begins that would disturb the material. Also, the project was in violation for failing to amend the project end date.  Multiple asbestos concerns at Thomas Hill Energy Center, (THEC) Unit 1. Caller states they are using glove bags on 1000 degree steam lines. The bags melt and drop TSI on the floor. Also, inadequate wetting of RACM when packaged for disposal. Company named Margam, Inc. is supplying the labor for the project; all properly certified workers. Since Margam is not a registered contractor they hire PCI to supervise the project. Significant safety issues reported.  The project data table shows 2 current project notices for THEC. A5975-2012 is O&M notice for maintenance work throughout the year. A6052-2013 is a project to remove 120 cuft ACM pipe insulation and is scheduled to run from 3/24/13 to 4/20/13. However, according to the project entry, Performance Abatement Services is the contractor.

<b>Comments</b> Violation of the Missouri Air Conservation Commission regulation, 10 CSR 10-6.080, Emission Standards for Hazardous Air Pollutants, Letter of Warning is being issued to Mr. Wolken, Owner, for permitting or allowing to permit the open burning of construction waste and other non-household wastes.									
Provided copies: 1. Open Burning, PUB 2047 2. Missouri Open Burning Requirements, 10 CSR 10-6.045									
NERO SWMP notified of tile debris placed on land in violation of the Missouri Solid Waste Management Law Section 260.210.1.(1).									
<b>Comp. No.</b>	15129		<b>Comp. Info.</b>	Email states Mr. Gabriel Wolken is refurbishing home and burning demo waste in two piles next to the Osage River. Wastes frequently consists of plastics, PVC pipe, wire, insulation, sheetrock, wood, ceramic floor tile, and other typical debris from renovation work. The work is typically performed by Mr. Wolken in the evenings and weekends and he usually burns on the weekends when it is dry. He burned last weekend (April 13-14). Mr. Wolken works for the Missouri Department of Transportation and lives in New Bloomfield. According to tax records, the home being renovated is owned by Gabriel and Kim Wolken. It used to be owned by Mr. Dwain Manley. Wolken may be the son-in-law. Their residence is 3021 State Road TT, New Bloomfield, MO 65063. Mr. Wolken's work telephone number at MoDOT is 573-526-4804.					
NERO		2013-04-19	Jack Montoria	Millersburg	Callaway	Burning	DB		
<b>Comments</b>									
<b>Comp. No.</b>	15121		<b>Comp. Info.</b>	Caller states that a man often burns trash, tires, and couches. Trash is all over yard. Looks awful. Many burn piles on property.					
NERO	2013-04-30	2013-04-19	Fred and Ginger Bass	Gorin	Scotland	Burning / Open Dumps / Littering	DB		
<b>Comments</b> Violation of 10 CSR 10-6.045 Open Burning Requirements. A Letter of Warning is being issued to Fred and Ginger Bass and Arthur and Candy Bass. Required clean-up and response letter within 30 days.									
<b>Comp. No.</b>	15122		<b>Comp. Info.</b>	Caller reports that at least four families are dumping and burning at an old slew or reservoir in a place dozed out of the side of the bank. Pickup loads and trailer loads have been observed, caller believes one of those participating in dumping is the Mayor of Gorin. Trash blows and is carried by birds to other properties. Observed trash includes paper, furniture, carpets, and wood. Observed burning produces variable emissions- sometimes white smoke, sometimes black, sometimes has noxious odor. Activity usually takes place during the weekend. The four people observed had last names Bass, Bass, Barry, and Sears. Caller states that the Sheriff has been notified and chose to take no action. Caller states that the site may be visible from Highway A, but is almost impossible to miss from the dirt road.

SERO	2013-04-17	2013-04-16	Mine Lamont School	Fredericktown	Madison	Asbestos	TR	
<b>Comments</b> There has been little change to the school since the tornado struck Mine La Motte several years ago. No demo activity was noted. Fact sheets were sent to the property owner, Mr. Dwayne Tilk, to inform him of the asbestos and disposal requirements for demo projects in case he should choose to demolish at some future date. During recent years, there has been US EPA sponsored lead clean up of many of the properties in Madison County including the Mine La Motte school yard.								
<b>Comp. No.</b>	15009	<b>Comp. Info.</b> HVMC – Commissioner Aull called yesterday and asked if anyone had any information on the demolition of the Mine Lamont (sp?) School, located in Madison County, NE of Fredericktown, somewhere near Farmington. She was unsure if it was on Highway O or Highway 72. She advised that she had heard in the past that it was not being demolished due to asbestos contamination, and then saw that it was being demolished when she was in the area the other day. She advised that it did not appear that any precautions were being taken if asbestos was present. She was enroute to a County Extension Service meeting in the area at the time and did ask someone from the Extension Service, who advised her that no asbestos was in the building and that is why they had gone ahead and tore it down. She was pretty sure that it sat in disrepair for awhile, because of the asbestos issue, but had no firm information and just wanted to know if anyone knew of the location or had any information about if it was actually asbestos free.

<b>Comments</b>								
<b>Comp. No.</b>	15036	<b>Comp. Info.</b> Caller is reporting that over the last month or so, the cotton processing mill has been accepting truckloads of cotton and consequently, the air has become filled with a brownish-green tint with an oily base substance. It is collecting on vehicles and homes and causing breathing difficulties of sensitive individuals. He stated that about 10 or 12 years ago, DNR investigated the facility, then called "Kennett Oil Mill" (he doesn't know what it is currently called and couldn't find a phone number), He said that as a result of the previous investigation, the facility was fined and he believes they stopped producing for a while. Caller would be happy to answer any other questions the investigator has.						
SERO	2013-04-25	2013-04-23	Kingsford Charcoal	Belle	Maries	Air Odors	SBV	
<b>Comments</b> On April 25, 2013, Investigator visited with Kingsford representatives with the nature of this concern. There was nothing out of the ordinary taking place at Kingsford at the time of investigation and no changes/malfunctions/etc. had taken place recently at the facility. All air information is reported monthly to the APCP in Jefferson City. Every three weeks, a down day takes place in which a small amount of opacity will be observed on-site, ranging from 10-20%. There has been no detectable odor from the facility, the sawdust pile is wetted as needed and they have not had any trouble with sawdust or charcoal like dust leaving the property as this is a very clean facility for a charcoal plant.								
No further investigation required by this investigator on this facility at this time.								
<b>Comp. No.</b>	15094	<b>Comp. Info.</b> The caller is/has been experiencing strong odors from some distance away and it has been going on for "all winter." He also states he has asthma and can sometimes taste the smell and see a sooty haze in the air. He believes it is coming from Kingsford Charcoal.

SERO	2013-04-29	2013-04-23	Royal Oak	Summersville	Texas	Fugitive Dust	SBV	
<b>Comments</b>	<p>On April 24, 2013, Investigator arrived at Royal Oak to follow up with this concern and to perform an air compliance inspection of the facility as the last inspection was in March of 2009. Investigator met with Mr. Gary Weaver, plant manager, about the reason for the visit. Mr. Weaver stated that the concerned party (CP) called on April 19th about the charcoal dust all over her carpet and then came to Royal Oak on April 22nd with a sample of the black charcoal like material from her carpet. Mr. Weaver stated that he plans to have the sample analyzed to determine if it is charcoal dust from Royal Oak. The CP lives approx. a mile southeast of the plant. Mr. Weaver also stated that the Conservation Department has been doing some land clearing burning in the area adjacent to the property for the past 2-3 weeks. Mr. Weaver stated that adjacent neighbors to the property have never complained of charcoal dust. No visible charcoal dust was observed during the concern investigation or compliance inspection.</p> <p>The facility is in compliance with their Basic Operating Permit and has kept up with all record keeping requirements including PM10 and NOx emissions, charcoal production records and propane usage. The only observed and reported incident was an afterburner that was broke down as of April 18th. At 9:30 a.m., the power was off to Afterburner #4, at 10:45 a.m. micro switches and a control box were replaced along with a silenoid on a gas valve. At 5:00 p.m. on April 19th the afterburner was back on.</p> <p>CP contacted SERO on April 26th about the concern investigation. Investigator spoke with CP on April 29th of the findings at Royal Oak. CP stated that they have lived at this place of residence for a year and this is the first time that an incident like this has occurred. Investigator stated that a copy of this report would be copied to her and also gave a name of a contact at the West Plains Royal Oak facility that the Summersville facility reports to.</p>							
<b>Comp. No.</b>	15095	<b>Comp. Info.</b> All last week, starting on Sunday (4/14), the charcoal dust was very bad. It was hard to breath and ruined her carpet.

SERO	2013-06-07	2013-05-07	Fronabarger Concreters Inc.	Cape Girardeau	Cape Girardeau	Fugitive Dust / Particulate	TR	
<b>Comments</b>	At the time of my investigation in the morning from 10:17 to 11:18 a.m., there was no activity observed at the site. Clean fill materials at the site included concrete, asphalt, soil, gravel, masonry, and a little rebar. Concrete culvert and pipe were also present at the site. Equipment on site included the portable crusher. I returned in the afternoon period of June 4, 2013, at 2:38 p.m. The State Route 177 was flooded and no activity was noted at the site.							
<b>Comp. No.</b>	15284	<b>Comp. Info.</b> Fronabarger Concreters is moving its crushing equipment back to a site that has generated dust complaints in the past. Caller wants us to check it again.						
SERO	2013-05-14	2013-05-09	Eckhoff Auto Body	Potosi	Washington	Air Odors	SBV	
<b>Comments</b>	On May 14, 2013, Investigator visited with Mr. Eckhoff at Eckhoff Auto Body located at 1106 North Missouri Street in Potosi, MO about the concern. Mr. Eckhoff stated that he has spoken with the restaurant and has since put up plastic in the spray booth closest to the restaurant along the walls and ceiling to help seal the walls between the businesses. He has also painted later in the day, after other business hours to minimize any exposure of paint fumes. He mentioned that the business in between the body shop and the restaurant stated that they haven't smelled any fumes. He has been at this location since the First of February. Mr. Eckhoff did not have the MSDS sheets for the products used on-site but has mailed them to the investigator to review. Copy of concern and MSDS sheets have been emailed to Mr. Joe Terriquez with EPA to determine whether the paint being used has HAP's per 6H. Mr. Terriquez will be contacting Eckhoff Auto Body for further information.							
<b>Comp. No.</b>	15279	<b>Comp. Info.</b> Paint fumes from an auto body shop are so bad that they can't serve food in the back part of the restaurant.  Please send Joe Terriquez at EPA a copy of the complaint (terriquez.joe@epa.gov). He would like us to note if the paint being used has HAPs or not, per 6H, and if so refer this issue back to him if we don't regulate it otherwise.						
SERO	2013-05-13	2013-05-10	Bruce Nation	Park Hills	St. Francois	Burning / Air Odors	AW	
<b>Comments</b>	Observed a lot of construction type material in and around the property. Did not see any burn area. Could not access all areas due to locked gate. No odors detected. Not able to personally speak with owner, but could observe property from a distance. No sign of burning. Neighbors said he burned a dead horse. Proper disposal of dead animals are burning or burial. He may have done both. Left message on owner's telephone. Explained open burning requirements concerning construction waste, etc.							
<b>Comp. No.</b>	15292	<b>Comp. Info.</b> RP has a sub contracting business and he brings his waste (shingles & etc) to his property and burns it. Then what doesn't burn he buries it.

SLRO	2013-04-29	2013-04-24	BLASTCO INC	Wentzville	St. Charles	Particulate	LZ	
<b>Comments</b> No violations were observed at the time of inspection.								
<b>Comp. No.</b> 15265 <b>Comp. Info.</b> Complainant alleged the company sandblasts equipment in a building not equipped with appropriate control equipment. Blasting residue is vented outside of the building and allowed to fall onto the ground where it is visible. Painting operation is conducted in a similar manner.								
SLRO	2013-05-06	2013-05-02	DARIJO LEBIC	Lemay	St. Louis	Burning	KA	
<b>Comments</b> Copy of Facts on Open Burning Under Missouri Regulations mailed 5/6/13 to the source. NFAN.								
<b>Comp. No.</b> 15223 <b>Comp. Info.</b> Neighbor(source)to complainant routinely burns brush and tree trimmings. Source recently burned off his lawn (zoyALLEN STUBESia grass). Burning was conducted after the DNR stipulated allowed vegetation burning period ending date of April 14.								
SLRO	2013-05-30	2013-05-07	CASH'S SCRAP METAL RIVER	St. Louis	St. Louis City	Air Odors	SW	
<b>Comments</b> Performed air pollution compliance inspection to determine regulatory and permit status. Supplied open burning and fugitive dust information to Cash's. Complainants to call again if future problems occur. NFAN.								
<b>Comp. No.</b> 15568 <b>Comp. Info.</b> APCP Complainant alleged that the facility has had an ongoing fire for the past week. Burning is being conducted in a roll off type trash container. Wood pallets are being burned with other various waste items including insulation. After the burning a magnet is lowered into the container and metal scrap is removed. This operation also releases dust/ashes which leave the site and settle upon surrounding properties. HWMP. Complainant alleged this facility scrapes up contaminated soil. Some of the contamination was indicated to be metal wastes and burned residue from the above mentioned operation. This soil is taken to and dumped into the Mississippi River for disposal.								
SWRO	2013-04-22	2013-04-09	Les and Robin Coomer	Cassville	Barry	Asbestos	DA	
<b>Comments</b> I observed shingles and plaster in and near a swimming pool on the property. I sent a letter asking that the shingles and plaster be removed and properly disposed or recycled.								
<b>Comp. No.</b> 14935 <b>Comp. Info.</b> Rainbow motel (individual units). Tearing down a house and placing material sheet rock in pool and asbestos shingles around the pool and afraid they are going to bury in the pool.								
SWRO	2013-04-16	2013-04-15	Shawn Cochrane	Strafford	Greene	Burning	RB	
<b>Comments</b> Evidence of open burning consisted of one three foot piece of 1x6 untreated lumber in a burn barrel. LOW.								
<b>Comp. No.</b> 14981 <b>Comp. Info.</b> Individual disposing of lumber and/or commercial debris in a burn barrel. Complainant observed burning Saturday and Sunday (April 13 & 14). Caller saw black smoke coming from the burn barrel and believes there were auto parts being burned. This activity was reported and investigated by DNR and City of Strafford less than a year ago (same RP). See attached emails for further details.

SWRO		2013-04-16		Shell Knob	Barry	Burning		
<b>Comments</b>								
<b>Comp. No.</b>	15014		<b>Comp. Info.</b>	Burning remodeling and construction debris including bathtubs, and using an ignition source which produces very black smoke. Burning is currently happening at the time of the call 4/16/13, at noon.				
SWRO		2013-04-16	unknown	Lebanon	Laclede	Burning		
<b>Comments</b>								
<b>Comp. No.</b>	15535		<b>Comp. Info.</b>	Jess Stokes of Lebanon Fire Protection district called to say that a property owner having 6 mobile homes, was burning them just outside Lebanon City Limits. Two have already burned and 4 more were about to be ignited. He wasn't sure about this practice but especially since he noticed that the water used to control the blaze was carrying residue into a stream. However, it seems that the mobile homes have objects in them including the tires on them that are of greater concern than the WPCP issue right now.				
SWRO		2013-04-29	Springfield City Utilities	Springfield	Greene	Fugitive Dust		
<b>Comments</b>								
<b>Comp. No.</b>	15156		<b>Comp. Info.</b>	Uncontrolled fly ash from power plant and ash pile. See attached letter for details of allegation.				
SWRO	2013-05-09	2013-05-07	City of Granby & Residents	Granby	Newton	Burning	CG	
<b>Comments</b> I spoke with Ms. Linton and explained the open burning regulations. I asked her to contact our office in the future with questions or with concerns. No further action at this time.								
<b>Comp. No.</b>	15245		<b>Comp. Info.</b>	Caller is concerned about burning of tires, foam and other plastics in the City of Granby. Caller stated that residents that do not have trash service are burning tires, plastic lawn equipment, etc. Caller has sent several e-mails to DNR with no response. Please see attached emails. Please contact Ms. Linton with results of findings.
