Comments	<p>On June 17 at the time of the report, winds were calm, 88% humidity. Winds had been out of the southeast earlier in the day. On June 13 in the morning at 8:55 a.m., winds were east at 12.7 mph, humidity was 77%. On May 27, at 8:55 a.m., winds were ESE at 11.5 mph, 77% humidity. On May 29, at 7:15 p.m., winds were calm and 79% humidity. Winds had earlier been from SE. All complaints are logged and reviewed for development of an effective investigation strategy. Staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.</p>								
Comp. No.	9348	Comp. Info	On Friday, June 17, 2011, the following reports of odors were filed on PSF Whitetail, "I want to report a terrible hog odor. I went out the door to let the dog in and it hit me like a ton of bricks. The date is June 17, 2011 and the time is 10 p.m. It is relatively quiet out tonight. I know this is late, but we also had the odor on May 27, 2011 in the morning and May 29, 2011 in the evening. Also, when we went to town on June 13, in the morning and as we went by Fred Torrey's residence, the odor was awful. It always comes in the vehicle whether you have the windows down or not."

NERO	6/21/2011	6/21/2011	PSF Whitetail	Unionville	Putnam	Air Odors	The Torrey Family	SB	
Comments	On June 16, the Centerville, Iowa weather station reported that winds were calm and blowing from the south for most of the day. At 5:55 p.m. winds were ESE at 3.5 mph and at 6:55 p.m., winds were from the east at 4.6 mph. On June 19, winds were calm for most of the day and then began blowing from the SE starting at 6:15 p.m. and then out of the east starting at 8:15 p.m. Winds were under 10 mph. Skies were clear during the day but it clouded up and began to rain at 11:35 p.m. On June 20, winds were variable throughout the day, blowing from a northerly direction in the morning and then from a more southerly direction during the afternoon. During the evening, starting at 8:15 p.m., winds blew consistently from the ESE at 6 to 8 mph. There was rain off and on during the day. All complaints are logged and reviewed for development of an effective investigation strategy. Staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	9350	Comp. Info	On June 21, 2011, three reports of odors from PSF Whitetail were filed. It was reported for June 16 and 19 that odors were present at the complainants' house to the extent that they were forced to go inside. On June 20, the report states that odors were present at their house off and on most of the day and especially toward evening. The report stated that odors have been present at their house for 11 out of the past 20 days and that the state is not making the company control their odors. The report also states that when they drive by the company's property there has been an increase of strong gassy odors coming from their property that makes it difficult to breathe.

KCRO	7/19/2011	7/14/2011	Kim Reed and Joshua Stark	Bates City	Johnson	Burning / Scrap Tire Dump	Anonymous	MC	KCR2
Comments	Open burning of several tires occurred on the property located at 951 Northwest 1621State Road, Bates City. The tires are a trade waste originating from an automotive service company. The burning was conducted by Joshua Stark and the property is owned by Kimberly Reed. Open burning of tires and trade waste is a violation of 10 CSR 10-6.045. Open Burning Requirements. A Notice of Violation (NOV) was issued to Mr. Stark for conducting open burning of tires and trade waste, and a NOV was issued to Ms. Reed for allowing the open burning of tires and trade waste on her property. KCRO's Solid Waste Unit will conduct an investigation of Ace Auto Towing & Recovery. If the investigation concludes that the tires came from Ace Auto Towing & Recovery, a Notice of Violation will also be issued to this facility.								
Comp. No.	9681	Comp. Info	Tires are being collected from ACE Auto in Grain Valley and disposed of on property owned by Ms. Kim Reed. Her son Joshua Stark allegedly gets paid by Ace Auto to remove the tires from Ace Auto. According to the complainant the tires are then burned. This has been going on for about 5 years.

KCRO	7/27/2011	7/15/2011	Lee's Summit Hickory Pit	Lee's Summit	Jackson	Particulate	Brad McDowell	RV	
Comments	At the time of the investigation the opacity of the plume was approximately 15 percent. Emissions were coming out of the roof vent.								
Comp. No.	9686	Comp. Info	Caller reports an excessive amount of smoke coming from the stack of a BBQ restaurant, making it difficult for caller to breathe.						
NERO	7/7/2011	7/5/2011	PSF Whitetail	Unionville	Putnam	Air Odors	MelodyTorrey	SB	
Comments	No violation found of odor regulation during on-site investigation.								
Comp. No.	9456	Comp. Info	On July 5, 2011 at 7:54 a.m., a call reported very strong odors from PSF Whitetail at the caller's house all day on July 4, 2011. Also, it was reported that it still stank pretty bad early this morning and will probably smell the rest of the day.						
NERO	7/5/2011	7/5/2011	Lake Nehai Property Owners Associat	Keytesville	Chariton	Burning	Anonymous	SB	
Comments	Contacted Dale Brockman, General Manager, by phone and asked if they were burning brush today. Mr. Brockman said that they were burning brush that lake property owners had brought to the maintenance shed. I asked if any mattresses were on the pile. He said that sometimes trash does get into the pile and he offered to go and check and pull out anything besides brush that is burning. I told him that he needs to apply for a burn permit to have permission to burn brush collected at a central location. This is a requirement for cities also. I mailed him a copy.								
Comp. No.	9463	Comp. Info	The caller stated that the Lake Nehai Property Owners Association is burning brush today and they have a couple of mattresses on the pile that are being burned also. They set it on fire and leave it unattended. The smoke is terrible.						
NERO	7/7/2011	7/5/2011	Columbia Veterinary Hospital	Columbia	Boone	Air Odors / Particulate	Sheila M. Christen	PM	
Comments	No violation of opacity rule or odor rule observed at the time of inspections.								
Comp. No.	9464	Comp. Info	I just wanted to give you a quick email to let you know that right now Columbia Pet Hospital is blowing excessive black smoke from their pet crematory smoke stack. The air in the neighborhood is foul, and the black smoke was blowing across the road. Just a few minutes ago the wind shifted and is blowing towards Hickman High School and the restaurants on business loop.						
NERO	7/6/2011	7/6/2011	PSF Whitetail	Unionville	Putnam	Air Odors	The Torrey Family	SB	
Comments	The weather station reported that winds were calm with temperatures in the upper 60s and 100 percent humidity at the times mentioned in the report. All complaints are logged and reviewed for development of an effective investigation strategy. Staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	9482	Comp. Info	At 4:52 a.m. on July 6, 2011, the caller reported odors from PSF Whitetail at their house. Odors were present at 3 a.m. and again at 4:00 and 4:30 a.m..						
NERO	7/8/2011	7/8/2011	PSF Somerset	Powersville	Mercer	Air Odors	Conrad Eurom	SB	
Comments	Winds were from the North at 5 mph, 100% humidity and fog at the time of the report. All complaints are logged and reviewed for development of an effective investigation strategy. Staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	9486	Comp. Info	The caller reports having a very rank odor at his house this morning starting at 5:30 a.m. Odors were not strong as much as they were just rank. It was reported to be a sewer odor, not a pig odor. Weather conditions were foggy. There was a rain yesterday.

NERO	7/12/2011	7/8/2011	Clark MFA Exchange	Clark	Randolph	Fugitive Dust	Donald Ridgeway	SB	
Comments No violation of construction permit or fugitive dust rules found during on-site investigation.									
Comp. No.	9492	Comp. Info The caller reports that dust has been bad during past harvest season from the Clark MFA. Now they are installing new grain bins after bins were blown down last spring. The concern is that proper air quality practices are not going to be installed for these new structures.							
NERO	7/12/2011	7/8/2011	Tina-Avalon School District	Tina	Carroll	Asbestos	Anonymous	SB	
Comments Contacted Superintendent Dave Garber at the school. He said that two layers of 39 square feet of floor tile was replaced under the dishwasher unit in the kitchen at the school. The replacement (total of 78 square feet) took place before they checked the asbestos inspection report. When the report was checked, it was discovered that the floor tile contained asbestos. Their inspector was contacted and it was confirmed. In response, the school hired a company to conduct air sampling of the kitchen area where the asbestos removal took place. The air sampling results came back with no asbestos fibers found. Floor tiles were kept mostly intact during removal, but some were broken up into pieces. Summer student help was potentially exposed to asbestos fibers and they and their parents were notified. No violation of asbestos NESHAPs found during investigation.									
Comp. No.	9499	Comp. Info Renovation work is being conducted at the Tina-Avalon School. The school had students removing ACM floor tile from the kitchen of the school using hand tools. They were ripping it out and did not have respirators or masks. They did not wet down the work area and the central air was running. The waste was not bagged up and was tossed into a dumpster outside the school. The work took place during the week of June 20 or 27. Caller is not sure whether evidence of the work is still at the school. Air sampling was done after the work, either on 6/28 or 6/9. The superintendent, David Garber, called the students into his office after the work was completed and told them that they had been exposed to asbestos.

SERO	7/13/2011	6/22/2011	City of West Plains	West Plains	Howell	Burning / Air Odors	Anonymous	AW	
Comments	Spoke with Royce Fugate (City Administrator). The City of West Plains has a burn permit for vegetative waste until August 1, 2011. All departments bring waste to be burned. He said they do not put unauthorized waste on the pile. Sometimes when start up of burn considerable smoke is generated. No heavy smoke on investigation day. One lady came to City and complained about smoke. City Administrator said he would make sure that proper waste is being burned. Also check to see if smoke is irritating surrounding neighbors. Wind changes is a major factor.								
Comp. No.	9351	Comp. Info	The caller reports that the City of West Plains is open burning vegetative wastes and causing a nuisance situation. The caller reports that the wood smoke smell is strong between 2:00 am and 7:00 am.						
SERO	7/13/2011	6/23/2011	UNKNOWN	Alton	Oregon	Burning	Anonymous	AW	
Comments	Observed old saw mill site. Sawdust pile was not burning or smoldering. It appeared to have been burning at some time. Not an active site. Mill not present. Very little saw dust. No smoking. No fire observed. Mill not an active mill. Evidence of burn, but little sawdust left. No-one available as a contact.								
Comp. No.	9359	Comp. Info	Unknown RP has a sawdust pile and it is smoldering. Smoke is crossing property boundary and irritating neighbors.						
SERO	7/6/2011	6/29/2011	Strack Stone Quarry	Cape Girardeau	Cape Girardeau	Fugitive Dust / Particulate	DANIEL A. STATLER	JD	
Comments	The facility blasted recently. The blasting video did not indicate any dust crossing the property boundary. After several hours one employee stayed late and dropped large shot rock over the high wall edge. This activity should not cause any dust issued. Video at the site was not taken nor were still pictures. No violations observed. NFA.								
Comp. No.	9420	Comp. Info	When CP was coming home from work yesterday at 5:45 p.m., there was a large cloud of dust covering the entire quarry area and billowing over into the Dalhousie development as well as other adjoining property.						
SERO		7/8/2011	Proppant Specialists	Perryville	Perry	Fugitive Dust / Particulate	Keith Schremp	JD	
Comments	Facility is working to cover the waste sand pile with soil and is currently seeding for stability. The waste sand pile is almost completely covered with soil and grass. This is most grass coverage I have seen at the plant waste sand pile.								
	No violations observed, no action required. Continue to cover and seed the waste sand.								
Comp. No.	9502	Comp. Info	Mr. Keith Schremp of Perryville has some serious concerns about the above facility. He stated that they are in violation of many permit conditions (he has reviewed permit #122006-003)--he stated that they are in violation of blasting requirements he said he has cracked floors and brick & his brother who lives 6 miles away can feel the blasting. Fugitive dust (sand is blowing off the property and imbedding in keyholes and covering cars) and they are not using proper erosion controls. He said that any time that an inspector visits, they clean up (i.e. capping the sand) but only for a few days until the inspector leaves.						
SERO	7/14/2011	7/11/2011	Strack Excavating	Cape Girardeau	Cape Girardeau	Fugitive Dust / Particulate	S. Aaron Dombrowski	JD	
Comments	Facility is watering as required. Parking areas adequately wet. The equipment is down in the pit. Dust is not leaving the pit area of the quarry. No violations observed. NFA.								
Comp. No.	9524	Comp. Info	CP stated there is a lot of dust coming from Strack Quarry today. It has been coming over strong since around 10:00.

Comments	The facility blasted yesterday and the equipment was shut down. The blasting video did not indicate any dust crossing the property boundary. After several hours one employee stayed and dropped large shot rock over the high wall edge. This activity should not cause any dust issues. Video at the site was not taken nor were still pictures.								
	No violations found. No further action at this time.								
Comp. No.	9527	Comp. Info	CP in Dalhousie stated the past 2 afternoons have been heavy on dust, Yesterday, Monday, it was really billowing over into our neighborhood. Today, Tuesday, isn't as bad but still there is a decent cloud coming up.						
SERO	7/14/2011	7/12/2011	Strack Excavating	Cape Girardeau	Cape Girardeau	Fugitive Dust / Particulate	Daniel Statler	JD	
Comments	The facility blasted yesterday and the equipment was shut down. The blasting video did not indicate any dust crossing the property boundary. After several hours, one employee stayed last and dropped large shot rock over the high wall edge. This activity should not cause any dust issues. Video at the site was not taken nor were still pictures. No violations observed. NFA.								
Comp. No.	9528	Comp. Info	I'm writing you today because yesterday, as well as today, have been pretty dusty. What appears to be clouds of dust coming from the Strack Quarry on Highway 74 in Cape Girardeau County is spilling over onto my property as well as adjoining property owners. I personally observed dust clouds coming from the quarry yesterday around 5:30 p.m. and today around 12:30 p.m. As you may recall, I live at 6120 Cardrona Drive, Cape Girardeau, MO. I'm not sure what if anything resulted from your investigation referencing my last email to you regarding dust coming from the quarry. Nevertheless, I wanted to let you know, the problem, at this point, is ongoing in nature. Please let me know if you find out any new information. I thank you in advance for your time and consideration.						
SERO	7/18/2011	7/14/2011	Current River Pole	Licking	Texas	Particulate	Ed McElfresh	JD	
Comments	Boiler and kilns were working within the permit limits. The facility stated that they had a cold start on the day of the issue. Also, they had a weather related issue with the smoke from the cold start staying low to the ground and drifting toward South Central Correctional Center. Discussed issue and the company is investigating further. An excess emission report will follow once the investigation is completed within a few days.								
Comp. No.	9541	Comp. Info	Black smoke causing breathing issues and ash plugging up filters.
