

*Division of Environmental Quality*  
*Monthly Air Pollution Control Program Summary Report*

For ALL REGIONS - 05/01/2014 to 06/15/2014

---

*Number of Concerns Received RE:*

<i>Asbestos</i>	18
<i>Burning</i>	54
<i>Fugitive Dust</i>	17
<i>Odors</i>	33
<i>Particulate</i>	9
<i>Toxics</i>	2
<i>Other</i>	16

*Of the above, 33 concerns involved multiple emissions.*

*Total of Concerns Received: 114*

*Number of Investigations of Concerns:*

<i>Received during report period.</i>	81
<i>Received prior to report period.</i>	11

*Total number of investigations completed: 92*

*Number of formal notices of violation issued: 7*

*Please note, the information provided in this report reflects all concerns received during the reporting period as well as all inspection activities that occurred during the reporting period regardless of the date in which the original concern was received.*

## Monthly Air Pollution Control Program Detail Report

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO		2014-05-02	Trager Limestone – Gallatin Qua	Gallatin	Daviess	Fugitive Dust / Blasting	SN	
<b>Concern No.</b>	18707	<b>Concern Info</b>	Dust is bad around the quarry and across the CP's fields and property. CP owns land that adjoins the quarry as well as an RV repair center. The dust is affecting breathing. The roads have not been kept watered. In addition, he has been blasting.					
<b>Comments</b>	CP said several times that he is fed up with the problems and is considering hiring an attorney.							
KCRO	2014-05-07	2014-05-07	Pink Hill Acres Demolition Landfi	Blue Springs	Jackson	Fugitive Dust	CW	
<b>Concern No.</b>	19105	<b>Concern Info</b>	The wind is causing dust to come onto the concerned party's property today.					
<b>Comments</b>	Violation of 10 CSR 10-6.170 Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin was observed during the investigation. KCRO will issue NOEE #KCR2014052113364896 to Pink Hill Acres Demolition Landfill for the observed violation.							
KCRO	2014-05-14	2014-05-12	Sisk Mobile Home Service and T	Clarksdale	Dekalb	Burning / Asbestos	SN	
<b>Concern No.</b>	18708	<b>Concern Info</b>	The place where all the trailers are has been burning them at night. Party drove by a few nights ago around 8:30 – 9:30 pm and saw a very large fire. He went to check it out and saw they were burning some trailers. (I asked which day this was but he did not remember.) A friend of his said he got sick from breathing the fumes from that same fire.					
<b>Comments</b>	I pulled up a map and specifically asked for directions. He was not able to give the exact location, but said there are so many trailers that it is obvious. The trailers are located at the burn site, and are visible from Highway 6; two miles North of Clarksdale.							
<b>Comments</b>	I asked if he knew who was doing the burning and he stated he did not know who it is. I advised him to contact the local Fire Department and/or Sheriff's office if he sees them doing that again. He stated that he will do so.							
<b>Comments</b>	No evidence was found to indicate that Mr. Sisk has burned since he was found in violation in August 2013.							
KCRO		2014-05-12	Platte County Water #1	Parkville	Platte	Fugitive Dust / Particulate	SN	
<b>Concern No.</b>	18709	<b>Concern Info</b>	The CP called ESP Friday and reported that the local #1 Platte County tower near her home has been sandblasted over the past few weeks with no protective cover, causing objectionable particulate matter to cross into her property. In addition, overspray from spray painting the tower has caused objectionable odors and health and environmental concerns. She would like something to be done about it.					
<b>Comments</b>								
KCRO		2014-05-13	Stewart Family (Travis)	Waverly	Lafayette	Burning		
<b>Concern No.</b>	18752	<b>Concern Info</b>	They are scrapping out vehicles, tires, wheels and have been seen burning tires. There was a very large pile of tires in the yard a couple weeks ago which they burned. They have moved in 2 houses and 2 trailers and have 2 sites where they burn; one about 25 feet off the gravel road, the other near the house.					
<b>Comments</b>								

## Monthly Air Pollution Control Program Detail Report

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO		2014-05-13	Stewart Family (Travis)	Waverly	Lafayette	Scrap Tire Dump	MG	
<b>Concern No.</b>	18774	<b>Concern Info</b>	They are scrapping out vehicles, tires, wheels and have been seen burning tires. There was a very large pile of tires in the yard a couple weeks ago which they burned. They have moved in 2 houses and 2 trailers and have 2 sites where they burn; one about 25 feet off the gravel road, the other near the house.					
<b>Comments</b>								
KCRO		2014-05-14	Hideaway Lakes	Polo	Caldwell	Burning / Asbestos	SW	
<b>Concern No.</b>	18757	<b>Concern Info</b>	A trailer was demolished after the resident of the trailer passed away. The demolition debris was pushed into two piles and one was burned about a week ago. The remaining pile of waste has not been burned yet. Items in the pile include furniture, mattresses, and the demo debris from the trailer. The pile of waste is reportedly 3 feet high by 8 feet in diameter. The smoke from the first pile was very noxious.					
<b>Comments</b>								
KCRO	2014-05-20	2014-05-15	Martin Marietta – Greenwood Qu	Greenwood	Cass	Fugitive Dust	DH	
<b>Concern No.</b>	18830	<b>Concern Info</b>	Dust from quarry southwest of the concerned party is covering property, vehicles, and anything outside. When a southwest wind blows dust from production it creates a fog that is hard to see through or be in. The concerned party feels that this is a health risk as well as a nuisance to surrounding property owners.					
<b>Comments</b> No fugitive emissions were observed leaving the property during the investigation.								
KCRO		2014-05-19	Dennis Pemberton	Kingsville	Johnson	Burning	SN	
<b>Concern No.</b>	18831	<b>Concern Info</b>	Open burning of tires and carpet.					
<b>Comments</b>								
KCRO	2014-05-19	2014-05-19	Pink Hill Acres Demolition Landfi	Blue Springs	Jackson	Fugitive Dust	CW	
<b>Concern No.</b>	18883	<b>Concern Info</b>	Concern received by e-mail.					
<p>"Dust is covering my farm today. It is burning my eyes, it is covering my pastures, it is all over my house and yard, my horses are breathing it and we don't even know what the dust is made of.</p> <p>I still have trash in my trees. DNR told me to take photos to document and I did. Then DNR told me they could not use the photos, that DNR had to take them.</p> <p>If the Pink Hill Acres Landfill has been told not to allow the dust to come over, why does it continue. I was told over a month ago that a plan was being laid out by DNR, but I have seen no change in behaviors and we still have trash in our trees and on our ground."</p>								
<b>Comments</b> KCRO staff did not conduct an onsite investigation into this report because the landfill ceased operations for the day. KCRO will investigate additional concerns that are received.								

## Monthly Air Pollution Control Program Detail Report

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2014-05-20	2014-05-20	Pink Hill Acres Demolition Landfi	Blue Springs	Jackson	Fugitive Dust	CW	
<b>Concern No.</b>	18885	<b>Concern Info</b>	Dust from the landfill if blowing onto the property. The dust irritates the eyes and throat and is blowing where the concerned party's horses graze.					
<b>Comments</b>	Violation of 10 CSR 10-6.170 Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin was observed during the investigation. KCRO will issue NOEE #KCR2014052113374902 to Pink Hill Acres Demolition Landfill for the observed violation.							
KCRO		2014-05-27	E & S Rock	Holden	Johnson	Fugitive Dust / Blasting	SN	
<b>Concern No.</b>	18938	<b>Concern Info</b>	Caller reports that he is getting dusted out. The quarry is blasting, and the dust is coming onto his property.					
<b>Comments</b>								
KCRO	2014-05-29	2014-05-28	Beverly Gilland	Craig	Holt	Burning	DH	
<b>Concern No.</b>	18936	<b>Concern Info</b>	Individual digs a hole on the property, fills it with household waste and other waste. After it is burned the hole gets covered up. Sometimes there are huge amounts of waste put in the hole (200 bags). The pile was burned yesterday with black smoke and a horrible smell. Today the pile is still smoldering. The caller stated that this person is a hoarder and has "stuff" everywhere inside and out.					
<b>Comments</b>	Based on the conversation with the concerned party, the household waste being burned on the owner's property is in compliance with open burn regulations.							
KCRO		2014-05-28	Dan Gray	Lone Jack	Jackson	Burning	CW	
<b>Concern No.</b>	18937	<b>Concern Info</b>	While processing burn permits Mr. Gray was contacted to get additional burn site information. During the conversation Mr. Gray told staff that he was going to burn untreated lumber from a demolished wood shed. The telephone call was then cut off. When Mr. Gray was called back staff told him that in order to burn untreated lumber staff would need to inspect the pile to ensure that it was truly untreated. Mr. Gray became angry and told staff that he was going to burn the waste anyway. Mr. Gray hung up and ended the conversation. Mr. Gray was denied the open burn permit. Lieutenant Nally with the Lone Jack Fire Department called and told us they had responded to a fire that Mr. Gray set. Lieutenant Nally said that there was lumber and furniture in the burn pile.					
<b>Comments</b>	Note: Lone Jack FD will be providing an incident report.							
KCRO	2014-06-06	2014-05-30	Unknown	Kansas City	Jackson	Air Odors	MC	
<b>Concern No.</b>	19042	<b>Concern Info</b>	CP called to complain about a very strong car exhaust odor in the air which started Monday May 26, 2014 and has continued. It has grown in intensity the last three days. The CP first stated that it was a carbon monoxide odor but then stated it was a very strong car exhaust odor. The CP still smelled the odor in his home with the house closed up and the AC on. The CP could still smell it when driving about 1 mile east of his home.					
<b>Comments</b>	Referred to Kansas City's Air Quality Program for investigation.							
KCRO	2014-06-09	2014-06-03	Unknown	Amoret	Bates	Burning	DH	
<b>Concern No.</b>	19023	<b>Concern Info</b>	The caller reports an unknown couple are burning tires, wiring, and other items. The property owner is Ernie Schmidt who is in prison. There is a camper in the back yard of the property where the burning is taking place.					
<b>Comments</b>	No evidence of open burning could be found during the investigation.

<b>Concern No.</b>	19024	<b>Concern Info</b>	The caller reports an unknown couple are burning tires, wiring, and other items. The property owner is Ernie Schmidt who is in prison. There is a camper in the back yard of the property where the burning is taking place.					
<b>Comments</b>	No evidence of open burning could be found during the investigation.							
KCRO		2014-06-04	B&P Excavating	Sedalia	Pettis	Burning	SN	
<b>Concern No.</b>	19044	<b>Concern Info</b>	Local fire department emailed me photos of an open burning violation. The email stated that the responsible party was B&P Excavating.					
<b>Comments</b>								
KCRO		2014-06-06	Episcopal Church	Blue Springs	Jackson	Air Odors	SN	
<b>Concern No.</b>	19043	<b>Concern Info</b>	Odor from parking lot sealing activities on RP property. Also, concerned about potential runoff of sealer.					
<b>Comments</b>								
KCRO		2014-06-12	Bob Elliot	Clinton	Benton	Burning	DH	
<b>Concern No.</b>	19093	<b>Concern Info</b>	Concerned party has a neighbor who is burning scrap wire and then selling it to a scrapper. This has been an ongoing problem.					
<b>Comments</b>								
KCRO		2014-06-12	Unknown	Warsaw	Benton	Burning	DH	
<b>Concern No.</b>	19094	<b>Concern Info</b>	Responsible party is burning prohibited items. Last time he burned he burnt the shingles off of his old roof about a year ago. He currently has a pile of furniture, trash, plastics and other prohibited items that looks like he is going to burn again soon.					
<b>Comments</b>								
NERO	2014-06-05	2014-04-11	Unknown	Wakenda	Carroll	Burning	CB	
<b>Concern No.</b>	18928	<b>Concern Info</b>	A local ag producer and excavating company has had a massive plume of black smoke persisting for several days throughout red flag burning period. Looks to be burning hazardous/illegal material.					
<b>Comments</b>	No violation was found.							
NERO	2014-05-07	2014-04-22	Stewart Johnson	Brunswick	Chariton	Open Dumps	BS	
<b>Concern No.</b>	18514	<b>Concern Info</b>	Caller states a building has been demolished in Brunswick and looks like it is being prepared to be set on fire. A few people do the right thing and pay more because of it but most people are sneaky and get away with it. It was claimed the department does not show fairness when enforcing the law.					
<b>Comments</b>	Violations of the Missouri Solid Waste Management Law were determined. NERO will issue a Letter of Warning to Stewart Johnson as a result of the violations observed. The Letter of Warning will require all regulated solid waste dumped or deposited on the property be removed and taken for proper disposal. Receipts demonstrating proof of proper disposal are to be submitted to the NERO.BS

<b>Concern No.</b>	18553	<b>Concern Info</b>	Caller reports that tires were burned by the county today for about 4 hours.					
<b>Comments</b>	Violation of 10 CSR 10-6.045 Open Burning Requirements. A Letter of Warning will be issued.							
NERO	2014-05-15	2014-04-28	Alec Craig	Galt	Grundy	Burning	DB	
<b>Concern No.</b>	18593	<b>Concern Info</b>	Incident Date: 4/27/2014 3:00:00 PM Report Origin: Local - Law Enforcement Additional Information: The caller has warned this subject concerning burning insulation off copper wire for recycling in the past and it was reported that it happened again on 4/27/14.					
<b>Comments</b>	Violation of 10 CSR 10-6.045 Open Burning Requirements. A Letter of Warning is being issued.							
NERO	2014-05-09	2014-04-28	Raymond Eckler	Ladonia	Audrain	Burning	CB	
<b>Concern No.</b>	18594	<b>Concern Info</b>	Chris Johnson, Audrain County Sheriff's Deputy, called and stated he responded to an incident of a man burning tires. Deputy Johnson told the man to extinguish the fire and he thought he understood but man kept burning.  Deputy Johnson will fax the official report to NERO this week.					
<b>Comments</b>	A Letter of Warning will be issued to Raymond Eckler requiring a signed Air Pollution Response Letter.							
NERO	2014-05-15	2014-04-29	Richard Vencill	Galt	Grundy	Burning	DB	
<b>Concern No.</b>	18597	<b>Concern Info</b>	Caller states a man is burning shingles and the neighborhood is very upset. The Grundy County Sheriff's Department has been called and a deputy is enroute. The caller told the man that the law had been called and he is trying to put out the fire.					
<b>Comments</b>	Violation of 10 CSR 10-6.045 Open Burning Requirements. A letter of Warning is being issued.							
NERO	2014-05-01	2014-04-30	City of Linn	Linn	Osage	Fugitive Dust / Other	PM	
<b>Concern No.</b>	18603	<b>Concern Info</b>	The caller reports that someone is sand blasting today on a water tower in Linn, MO. Dust from the work has blown beyond the property boundary by several hundred yards. They have been sand blasting for about a week and may be almost finished. Several complaints have made to the city about dust and nothing has been done about it.					
<b>Comments</b>	Violation of Missouri Air Conservation Commission Regulation 10 CSR 10-6.170, Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin.  On May 9, 2014, issued Notice of Excess Emissions (NOEE) #NER 20140506 20417446 to the City of Linn, Missouri, as Owner and NOEE #NER 20140506 21057590 issued to Maguire Iron, Inc, as Contractor.

NERO	2014-05-01	2014-05-01	Strobel Farms	Russellville	Cole	Air Odors	CB	
<p><b>Concern No.</b> 18623      <b>Concern Info</b> Caller states odor from a neighboring hog barn is hindering his family's ability to enjoy their property. Caller states the odor is worse than ever and wonders if they (hog barn owners) are operating it correctly. Caller is concerned with hog waste operation and odor.</p> <p><b>Comments</b> During the call, I informed the caller of CAFO odor regulations. The caller did not think the hog farm was large enough to be regulated. I stated I would inquire with the Water Pollution Unit regarding the waste issue. I also stated I would send the caller a fact sheet, Guide to Animal Feeding Operations, for his information. CDB</p> <p>The Missouri Air Conservation Commission Odor Regulation does not apply to CAFO's smaller than a Class 1A size. The Strobel facility is smaller than a Class 1A size and is not subject to 10 CSR 10-6.165. CDB</p>								
NERO	2014-05-15	2014-05-07	Patricia (Patty) Townsend	Baring	Knox	Burning	DB	
<p><b>Concern No.</b> 18678      <b>Concern Info</b> Caller states woman burns trash in a barrel next to the highway and causes nuisance for vehicular traffic. Caller states woman may be burning more than just household trash. Woman owns a shop on property and may be burning trade waste. Caller wants the burning to stop and to move barrel away from the highway.</p> <p><b>Comments</b> No violation observed at the time of investigation. An informational letter will be issued.</p>

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
NERO		2014-05-19	Unknown	Otterville	Cooper	Burning	DB	
<b>Concern No.</b>	18814	<b>Concern Info</b>	MEERTS Incident Number: 1405171255KAH Call Date: 5/17/2014 Call Time: 12:55:00 PM The caller is complaining that a neighbor is burning an old building with asbestos shingles on it. He stated that it appears he is going to burn the old house next to the barn also. The Duty officer informed the caller to contact the fire department and County Sheriff.					
<b>Comments</b>								
NERO	2014-06-02	2014-05-19	Herbert Bossaller	Jefferson City	Cole	Burning	BS	
<b>Concern No.</b>	18817	<b>Concern Info</b>	"I got an anonymous complaint regarding burning tires at 6001 Loesch Rd., Jefferson City, MO. The property owner's name is Herbert Bossaller. The complainant states the there is a shop/area behind the house (that is not visible from the road) where the burning occurs/occurred."					
<b>Comments</b>	Violations of the MSWML and Air Conservation Commission Regulations were determined. NERO will issue a LOW to Herbert Bossaller as a result of the violations observed. The LOW will require remaining solid waste and ash be removed and properly disposed at a permitted facility. In addition, the LOW will require receipts along with a signed air pollution response letter be submitted to NERO. BS							
NERO		2014-05-19	Ricketts Farm Service, Inc	Cairo	Randolph	Chemical Fertilizer/Pesticide	SB	
<b>Concern No.</b>	18946	<b>Concern Info</b>	SEMA received a report about a new ammonium nitrate fertilizer facility being built in Cairo, Mo. Caller states she has contacted EPA, DNR, Department of Agriculture and SEMA. She next plans to contact her State Senator or Representative. To the best of her knowledge, the facility is being constructed of concrete to hold ammonium nitrate January – July. Facility sits next to the Cairo School bus barn containing diesel and gasoline. On the other corner is the school K-12. Her home is directly behind that. According to her, the facility sits within the city limits of Cairo, which required a permit, however the facility failed to obtain one. She believes the Cairo city attorney will not enforce it or require them to obtain one.					
<b>Comments</b>								
NERO	2014-05-21	2014-05-21	Jimmie Woodhurst	Perry	Ralls	Burning / Asbestos	CB	10393834
<b>Concern No.</b>	18838	<b>Concern Info</b>	Last Saturday night, a house was burned on Roosevelt Drive near Perry, MO.					
<b>Comments</b>	On May 17, 2014, James (Jimmie) H. Woodhurst burned a residential structure and its contents for purpose of disposal. A Notice of Violation will be issued to James (Jimmie) H. Woodhurst for violating Missouri Air Conservation Commission Regulation 10CSR 10-6.045 Open Burning Requirement.							
NERO	2014-05-21	2014-05-21	Murphy Brown Whitetail	Unionville	Putnam	Air Odors	CB	
<b>Concern No.</b>	19033	<b>Concern Info</b>	At 7:26 AM on May 21, 2014, caller reported strong hog manure odor coming from Murphy Brown Whitetail on the following dates: Evening of May 17, 2014. Evening of May 19, 2014. Morning of May 20, 2014.					
<b>Comments</b>	No current inspection conducted with regard to this specific concern; however, all concerns are logged and reviewed for development of an effective investigation strategy. Staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.

NERO	2014-05-28	2014-05-23	Clear Creek Farms	Atlanta	Macon	Land Disturbance / Asbestos	DB	08463156
<b>Concern No.</b>	18898	<b>Concern Info</b>	<p>Laurel Curry called the northeast regional office to find out if Clear Creek Farms has a land disturbance permit. She said that a building had been demolished and that a new one was being built. She stated the building going in will be for Hog confinement. Mrs. Curry said that the area can be seen from the road and confirmed that the disturbed area is larger than an acre. She was unsure about when the previous building had been demolished and when construction had began and she provided Diana Scott's telephone number for further questions.</p> <p>Diana Scott stated that she and a neighbor noticed that a building on site had been torn down about year ago around the same time they noticed that a new building had gone up. She said that the facility had cleaned up most of the demolition but that some piles with plastic tubing and other materials still remained (near a cement wall on site). When asked about the land disturbance area she also confirmed that the area was well over an acre. She estimated that it was near 10 acres but said she wasn't certain.</p>					
<b>Comments</b>	Violation of 10 CSR 10-6.080 Emission Standards for Hazardous Air Pollutants referencing 40 CFR Part 61.145 A Notice of Violation is being issued.

<b>Concern No.</b>	18622	<b>Concern Info</b>	<p>Pile of burning carpet in front of shed near highway. I also saw several large cardboard rolls on the pile that appeared to have been used for vinyl flooring.</p>					
<b>Comments</b>	<p>On May 2, 2014, Investigator stopped by Larry &amp; Son Tile Co. in regards to the open burning concern. Owner stated that he did burn a few cardboard centers of cardboard rolls because his dumpster was overflowing. He does have trash service at the place of business. Investigator discussed the open burning requirements and gave the responsible party an open burning fact sheet. There was no open burning at the time of investigation.</p> <p>No further investigation required by this investigator on this concern at this time.</p>							

## Monthly Air Pollution Control Program Detail Report

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2014-05-09	2014-05-05	Greg Casey	Sikeston	Scott	Burning	JD	
<b>Concern No.</b>	18649	<b>Concern Info</b>	Hauling in pallets and burning them. He hauled a truck load in today.					
<b>Comments</b>	Greg and Kari Casey had a catastrophic fire that destroyed a large quantity of the raw materials used at their pallet reclaim shop. The raw material is untreated wood product. They ask to move the ruined raw product to their farm (200 yards from occupied structures) and obtain an open burning permit. We are allowing them to do this.							
	During the investigation I did not observe open burning occurring. Mr. and Mrs. Casey and I discussed the process for obtaining an open burning permit they are proceeding to collect the information so they can apply.							
	Will monitor when in the area when the open burning is occurring.							
SERO	2014-05-07	2014-05-07	Zachary ?	Campbell	Dunklin	Burning	RP	
<b>Concern No.</b>	18669	<b>Concern Info</b>	RP was burning trash and put some copper wiring in there to burn it off so he could sell it. The smoke was bad for hours.					
<b>Comments</b>	This concern involves violations of the City of Campbell Code of Ordinances for solid waste disposal and public nuisances. This matter is being referred to the City of Campbell for investigation and enforcement of their Ordinances.							
	No further action necessary by the Southeast Regional Office.							
SERO	2014-05-12	2014-05-07	Lowe's Landscaping	Cuba	Crawford	Burning / Fugitive Dust	SBV	
<b>Concern No.</b>	18684	<b>Concern Info</b>	The nursery next door creates dust that gets in her pool and they can't set outside. The dust comes from the mulch piles and whenever they move the mulch or whenever they move their rock piles around. Everything gets covered in dust.					
	The nursery burns wood, tree limbs, plastic and cardboard. The burn pile is right next to her property. The nursery has bags and cups that blow off site and onto her property.							
	The nursery has dug a ditch through their property and when it rains it causes it to flood her property.							
<b>Comments</b>	On May 12, 2014, Investigator visited with Mr. Mike Lowe and Mr. Eric Lowe, father and son owners of Lowe's Landscaping/Planted in Stone businesses. Investigator was informed that they took ownership of the property in February 2013. They stated that the property prior to them was all weeds, trash, piles of metal and stacks of tires. The adjacent business, My Place Tires took ownership of the tires and cleaned up the back property of trash and miscellaneous by open burning pallets, wood, and some trash last year. Mr. Mike Lowe informed investigator that the only burning on the property was during this cleanup by My Place Tires. He stated that they recycled a bunch of metal and have cleaned up the property in great detail from its previous state. Pictures of the property's prior condition were shown to investigator.							
	No dust/mulch was being blown around on or off the property at the time of investigation and there was some good wind at the time. There were no signs of burning on the property, however there was a pile of pallets and wood scraps and some misc. trash that Mr. Lowe stated he takes to his own personal property to burn when enough is collected. See attached photo. Investigator gave an open burning fact sheet to Mr. Lowe and discussed open burning regulations with him from places of business. There was a burn barrel observed behind the adjacent My Place Tires building that could have contributed to the recent open burning concern. In regards to trash blowing off the property, Mr. Lowe stated that recently some trash blew off the trash service truck and they picked up the debris along the highway and in front of their place of business. The nursery has also dug a small drainage ditch for storm water runoff to avoid rain in their building. See attached photos.							
	There were no observed violations at the time of investigation. The place of business is very clean and well maintained from the road and behind the building where their dirt and mulch is stored. Their dirt pile is covered with a tarp. See photo. The only recommendation was to build a tall fence behind the mulch piles or to apply a dust suppressant type of product to contain the mulch from blowing into neighboring yards without saturating their product. Note there is a tall fence on the West side of the property next to an adjoining residential neighborhood, but not on the back/North side of the property behind the mulch piles.

SERO	2014-05-12	2014-05-09	Jadwin Sawmill	Salem	Dent	Saw Dust	JD	
<b>Concern No.</b>	18681	<b>Concern Info</b>	The sawdust problem with Jadwin Sawmill is as bad as ever. I don't know how long you wanted to give them to do something. It is getting really old this week with the south winds. I wanted to let you know.					
<b>Comments</b>	Jadwin Sawmill is actively removing the saw dust as we ask during the previous investigation. They are removing approximately 50,000 tons of saw dust per month. If they can continue at this pace they are hoping to have a majority of the dust removed within the next year. They are also planning to do fall planting to aid in high wind conditions for the future. A cyclone has been purchased for the other mill and they are working with the contractor to get it installed.							
No further action at this time will review in the future during routine inspections.								
SERO	2014-05-12	2014-05-12	Joe & Anita Chapman	Bourbon	Crawford	Burning / Asbestos	AB	
<b>Concern No.</b>	18698	<b>Concern Info</b>	RP is burning old trailers there is lots of black smoke making it hard to breathe. CP stated they have been in trouble before for burning. CP also said they let the oil run out on the ground when they change it in their truck.					
<b>Comments</b>	Referred to Michael Parris, SWMP.							
SERO	2014-05-03	2014-05-12	Unknown	Hayti Heights	Pemiscot	Burning / Asbestos	RP	
<b>Concern No.</b>	18706	<b>Concern Info</b>	RP is burning materials from a house that is being torn down. They have 2 huge fires going now. One is in the front (east) and one is on the south side. CP has 2 health issues that the smoke will make it worse.					
<b>Comments</b>	This concern involves violations of the city's Solid Waste and Public Nuisance Ordinances. This matter will be referred to the City of Hayti Heights for investigation and enforcement of their Ordinances.							
No further action necessary by the Southeast Regional Office.								
SERO	2014-05-15	2014-05-14	MO-SCI	Rolla	Phelps	Particulate	SBV	
<b>Concern No.</b>	18750	<b>Concern Info</b>	For the past several months the new facility has been spewing a cloud of inorganic particles into the air and on to the ground. The facility and the owner has been contacted several times and no action has been taken to stop the release. The facility makes glass and ceramic some of which is known to be bio-active. The fact that the particles stay as a cloud suggest a small particle size damaging to the lungs and environment. The location of the facility puts it into an untreated watershed area so it is unclear where the material goes after a rain.					
<b>Comments</b>	Investigator visited with Mr. Ted Day, president of MO-SCI on May 19, 2014, about this concern. The new MO-SCI building just East of the main building is the source of the concern. Mr. Day escorted investigator to the new building where raw materials, pharmaceutical grade tubing is crushed and milled. The current dust collection system is exhausting excess dust particles. MO-SCI already has a new Downflo II Model Dust Collection System on order and will be installed immediately. The new system will be all self-contained and will pull through ambient air.							
Facility previously had some air sampling performed and found that there are no harmful effects of the material. No respirators are required.								
Facility is underway to correct the problem and has verified that there are no harmful effects of the material in the meantime. Investigator is going to follow-up at the facility once the new dust collection system has been installed.								

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2014-05-16	2014-05-14	Cliff Brown Jr.	Salem	Dent	Burning	SBV	
<b>Concern No.</b>	18755	<b>Concern Info</b>	RP is burning something in his outside wood furnace and it is filling the air with big clouds of black smoke and a little white smoke. CP knows he burns the stuff off of copper wiring to get the money for the copper, but she isn't sure what he is burning today. It blows down into other fields where there are horses. CO is concerned about the livestock that is in the nearby fields and the people that can't go outside when this is going on. CP says that RP said no one can stop him from doing anything he wants.					
<b>Comments</b>	Investigator visited Brown's Heating and Cooling on Friday, May 16, 2014. Investigator told the facility representative the reason of concern for the visit and she immediately stated that the concerned party can talk with her lawyer, that he's already called several times and walked off from the investigator.							
	The outside wood furnace was observed by the investigator with a pile of wood pieces on the ground. The furnace appeared to be operating as normal and was blowing some white smoke across the highway.							
	The attached google earth photo is incorrect. The place of concern is approximately 3/4 mile from Highway U on the left.							
	No further investigation on this concern by this investigator at this time.							
SERO	2014-05-16	2014-05-15	Unknown	Edgar Springs	Phelps	Burning	SBV	
<b>Concern No.</b>	18758	<b>Concern Info</b>	A neighbor burning in a burn barrel right next to her fence line, which is within 20 ft. to her home. She said a couple and two small children just moved a mobile home trailer in a couple weeks ago to the adjacent property from her and she knows that they have no utilities, no running water, etc. at the place. She has turned them in to family services for the sake of the two young children and in the past couple days, the man has started burning a lot of plastics and misc. trash in the burn barrel that could have been placed anywhere but has been put directly between them. She says the smoke blows directly into her yard and also back through their trailer with the small children inside. The owner of the property is a convicted felon, that lives in another trailer on the property, she's not sure who these people are, but they have been belligerent and vulgar to her since they moved in 16 days ago.					
<b>Comments</b>	There was no open burning at the time of investigation. No one was at the place of concern. Investigator stopped in and visited with the concerned party, Ms. Letha Mathis and discussed the open burning regulations and requirements. An open burning fact sheet was left with Ms. Mathis. She also told investigator that a large sink hole is also on the responsible party's property that has turned into a large trash dump. Her grandfather owned the property years before and has known about the sink hole. Information was given to Ms. Mathis to contact DGLS about sink hole locations.							
	No further investigation by this inspector on this concern at this time.							

## Monthly Air Pollution Control Program Detail Report

SERO	2014-05-16	2014-05-15	Unknown	Fruitland	Cape Girardeau	Burning	JD	
<b>Concern No.</b>	18764	<b>Concern Info</b>	Open burning construction waste.					
<b>Comments</b>	Did not observe open burning at the time of the investigation nor did I find any evidence of open burning.							
	This is the second open burning investigation at this property. The first time was February 9, 2014. Open burning was occurring at that time. A verbal warning was given to Mr. Wren and he stated that he would never burn again.							
	Mr. Wren stated today that after the previous warning he has not open burned at any of his developments including warming fires for his employees during cold weather. He said he takes loads of construction waste to the transfer station on Sprig Street in Cape Girardeau.							
	Mr. Wren, Owner/Developer stated that the neighbor and him are in a dispute concerning the development of the property.							
	No further action at this time.							
SERO	2014-05-20	2014-05-16	Seminole Ag Lime Quarry	Scott City	Scott	Air Odors	TR	
<b>Concern No.</b>	18765	<b>Concern Info</b>	An asphalt plant quarry close to the city limits fired up this week. The odor is a very strong pungent odor. It has a heavy petroleum smell. It smells very bad. All the people that live close by cannot go outside and do anything. CP wants to know if their emissions can be checked. CP would like to be contacted with the results.					
<b>Comments</b>	C.B. Asphalt is the asphalt plant owner and is on site to finish a Missouri Department of Transportation job. The job is almost complete. The asphalt plant is producing the equivalent of two dump trucks per day. This plant is expecting to move in early June of 2014. C.B. Asphalt is permitted to operate this portable hot asphalt batch plant at this location near Scott County Road 304 and Rock Levee Road through September 15, 2014. No problems were noted at the time of this investigation on May 20, 2014. Records were reviewed, baghouse filters were on hand, no odors were noted off site and on site odors were not unusual for an asphalt plant. No visible emissions problems were noted.							
	No further action is needed at this time.							
SERO	2014-05-20	2014-05-16	Cunningham Inc	Park Hills	St. Francois	Particulate / Fugitive Dust	AW	
<b>Concern No.</b>	18769	<b>Concern Info</b>	St. Francois Co. Water District #2 is sandblasting a water tower with no containment. It is about 1/4 to 1/2 mile straight line from CPs house. CP has COPD and Emphysema. He says there are other people that lives in the area that have breathing problems also. CP would like this checked to minimize the dust & particles blowing in the air.					
<b>Comments</b>	Observed that Cunningham, Inc was sandblasting the water tower near Wortham. The company did not have any type of containment for the dust particles. The foreman stopped the project at his request, until contacting his superior (Steve Vailes) field manager. I informed the company they needed some type of containment for a dry blast. On Friday, 05/23/2014, Steve Vailes contacted this office indicating to me that they did not have the bag containment due to high cost. He said they would do a wet blast. I informed him, he must collect all media released from the process. He said plastic would be used to collect solid material and very little if any liquid would be generated.							
	Steve Vailes said they would go to a wet blast collect waste on plastic. I told him if any liquid was generated it also must be contained. Steven Vailes is the Field Manager for Cunningham Inc out of Riverton, Kansas.

Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2014-05-16	2014-05-19	Harding Enterprises	Poplar Bluff	Butler	Burning	AB	19396SE
<b>Concern No.</b> 18802			<b>Concern Info</b> RP has been burning about a week. Part of the time it is white smoke, but it also has black smoke and it smells like plastic burning. When this happens you can't stand to be outside the smell is so bad it makes your clothes smell.					
<b>Comments</b> This issue was previously investigated on May 16, 2014. At that time the burning of 4 large piles of debris was observed. The owner was contacted and agreed to put the fires out a Notice of Violation was issued.  Issued NOV #19396SE								
SERO	2014-05-16	2014-05-19	Harding Enterprises	Poplar Bluff	Butler	Burning	AB	19396SE
<b>Concern No.</b> 18803			<b>Concern Info</b> I received a call from Jason Morgan (PB Police Dept) regarding a complaint to him about smoke that has been occurring for the last two days at/near the old Libla Industries Building on the eastside of Highway 67 before the Highway 60 interchange. He provided a picture (attached) and hoped somebody could conduct a site visit to determine the cause. He stated that it appears a construction company has moved onto the site. He saw the name "Harding Enterprises", potentially company name. He asked to be called if any potential criminal issues were of notice.					
<b>Comments</b> Amy Baker and Jan Chronister visited the site on May 16, 2014. We observed 4 piles of material on fire and 2 other piles that had not yet burned. We spoke with an employee on site who told us that the material was stuff they had cleaned up out of the old Brown Shoe Company building located in Piedmont. The material appeared to be waste from an out of business picture frame company. We could observe plastic and cardboard in the waste piles. Mr. Greg Harding, owner of Harding Enterprises was contacted by telephone. Mr. Harding thought that he was allowed to burn his waste on his own property. I explained the regulations and that burning of trade waste was different from burning of household waste. Mr. Harding was very cooperative and worked to put the fires out.  NOV #19396 issued on May 29, 2014.

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2014-05-28	2014-05-26	Dale Wands	Rolla	Phelps	Asbestos	SBV	19402SE
<b>Concern No.</b>	18877	<b>Concern Info</b>	This message was left on answering machine by unknown caller on 5/26 at 2:19pm. At 401 17th St. in Rolla, asbestos is being removed by two teenage boys. Owner of the property is a Dale Watts? The caller left no other information.					
<b>Comments</b>	<p>On May 28, 2014, Investigator went to the address of concern and witnessed two workers removing transite siding from a house. They were using wet methods and had plastic sheeting on the ground. They were double bagging the material and were unaware of where it would then be disposed of by the owner, Mr. Dale Wands. (573) 308-8388</p> <p>On June 3, 2014, Investigator contacted Mr. Wands about the removal and was told that there were two houses to be demolished for residential housing. Investigator then informed Mr. Wands of the asbestos inspection and demolition notification requirements and emailed Mr. Wands the notification application, a list of asbestos inspectors and an asbestos fact sheet on demolition requirements. Mr. Wands was also informed not to proceed with demolition activities until having an asbestos inspection performed and contacting the APCP.</p> <p>Investigator contacted the APCP and discovered that Mr. Wands has an enforcement history with failing to inspect for asbestos containing materials. Therefore an NOV is being issued for failure to inspect and notify since the project is regulated with two houses involved.</p> <p>On June 5, 2014, Investigator drove by the site to check the status of the houses and take photos and observed that the house had been demolished. (See photos below.) The white house behind the demolished house is the other house deemed for demo per the building contractor.</p> <p>On June 6, 2014, Investigator returned a call to Mr. Brady Wilson with the City of Rolla whom Mr. Wands had contacted about the disposal of asbestos containing materials. Mr. Wands was informing on whether the city would haul the materials for disposal.</p> <p>Mr. Wands has taken proper precautions on the removal of the asbestos containing materials by using wet methods, double bagging and inquiring on the disposal of the waste. However, Mr. Wands did fail to have an asbestos inspection and failed to contact the APCP prior to demolition activities.</p> <p>Therefore, NOV#19402SE has been issued on June 11, 2014, for failure to inspect for asbestos containing materials and failure to notify the APCP at least ten working days prior to demolition.</p>							
SERO	2014-05-30	2014-05-29	Jerry Hall	West Plains	Howell	Fugitive Dust	SBV	
<b>Concern No.</b>	18910	<b>Concern Info</b>	There is dust coming from the worksite, where they are tearing down the old Ramada Inn. The dust gets in the houses locally and it is horrible. It is even worse for people with allergies. CP is not sure of what construction company is working on this now. Jerry Hall is the owner of the New Holiday Inn Express that is going in place of the old building.					
<b>Comments</b>	<p>On May 30, 2014, Investigator drove by the site of concern and only observed minimal dust in the air at the demolition site. Only clean fill remains at the location. Scrap material was being loaded into a dump truck at the time of investigation.</p> <p>This site had been previously notified for abatement project #A6370-2014 and demolition project #D6486-2014 respectively.</p> <p>No further investigation required by this inspector on this concern at this time.</p>

SERO	2014-06-27	2014-06-02	KMJ (Keith Tharpe)	Birch Tree	Shannon	Saw Dust	JD	
<b>Concern No.</b>	18945	<b>Concern Info</b>	There is a sawdust mill nearby and you cannot go outside without breathing sawdust. It gets in your eyes and it burns, and the smoke is so bad you cannot even breathe. Everything close by is covered in sawdust. There is sawdust flying in the air all the time. It is all over the cars. It's horrible. The noise is also bad.					
<b>Comments</b>	Wind speed 2-9 mph, gusty to 13 mph from the South Southwest, Temperature 93°F. I observed the facility for 30 minutes of operation. I did not observe any sawdust crossing the property boundary.							
	There is a large pile of old sawdust on the premises that is crusted on top and a pile of fresh sawdust behind it. The fresh pile is moist.							
	On site a small amount of dust was in the air but not leaving the premises.							
	No violations observed, no further action at this time. Will continue to monitor when in the area.							
SERO	2014-06-06	2014-06-06	SEMO Ready Mix	Poplar Bluff	Butler	Particulate / Fugitive Dust	TR	
<b>Concern No.</b>	19034	<b>Concern Info</b>	There is dust blowing everywhere from a concrete plant.					
<b>Comments</b>	Facility had some dust blowing from the yard back on to the property and the electric right-of-way. No violation was observed. I discussed with Mr. Klein that they need to do what they can to prevent having dust leave the property and go on to other neighboring properties.							
	No further action is required.							
SERO	2014-06-24	2014-06-09	Jr. Vires	Morehouse	New Madrid	Air Odors / Burning	GG	
<b>Concern No.</b>	19048	<b>Concern Info</b>	RP picks up junk (plastic, copper, & trash), he brings it home and sorts through it. Then he burns the junk that is no use to him. He burns the coating off the copper and makes money from the copper. He burns late in the evenings. They also have big hogs that stink.					
<b>Comments</b>	I went to the residence and Mr. Vires was not at home. I left a copy of our fact sheet on open burning and a business card. I observed a burn area from the porch of the residence, but no burned debris was there. As of 6-30-2014 I have not received a call from Mr. Vires.							
	No further action at present.							
SERO	2014-06-24	2014-06-11	Unknown	Cape Girardeau	Cape Girardeau	Burning	GG	
<b>Concern No.</b>	19066	<b>Concern Info</b>	CP seen RP burning over the weekend, it was huge rolls of black smoke. CP thinks he was burning shingles and maybe siding too. CP would like someone to check it out. Because he thinks it is illegal. RP was burning in a ravine behind 2 silos on the property.					
<b>Comments</b>	I went to the property and no one was home. I could not observe any illegal open burning from the driveway. I left a copy of our fact sheet on open burning and a business card in the door of the residence. As of 6-30-2014, I have not received a call.							
	No further action at present.

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SLRO	2014-05-12	2014-05-02	UNKNOWN	Villa Ridge	Franklin	Air Odors / Particulate	SH	
<b>Concern No.</b>	18658	<b>Concern Info</b>	Outdoor painting of cars in yard. Complainant concerned about lack of filters to control paint fumes. Complainant drives by daily and has noticed painting activity has increased since late summer or early fall of 2013.					
<b>Comments</b>	Since no painting was occurring, no problems or violations of air pollution standards were observed.							
SLRO	2014-05-14	2014-05-06	UNKNOWN		St. Louis	Burning	LZ	
<b>Concern No.</b>	18686	<b>Concern Info</b>	Residents at 1176 Majestic Drive (unincorporated area) in Fenton burn wood, brushes, etc. creating smoke and at times bad smell. Ms. Sally residing at 1781 Smizer Mill Road indicated that the smoke is affecting her.					
<b>Comments</b>	The concern was resolved. No further investigation is required at this time.							
SLRO	2014-05-12	2014-05-06	N B WEST CONTRACTING PA	Pacific	Franklin	Air Odors	SH	
<b>Concern No.</b>	18719	<b>Concern Info</b>	From electronic concern form: Strong odors outdoors and even in our homes in evenings, mornings, and thru out the day on various dates, but most noticeably on the evening of 4-30-14. Our home is literally more than 3,500 ft. from the plant, and over a hill, and thru woods, and we still smell the strong asphalt odors on a recurring and random basis. We cannot even enjoy our yards or leave our windows open due to noxious odors in fear of what the asphalt-chemical odors can do to our health. We recently moved to the country for cleaner air & good health, however, now we are being exposed to possibly even greater air pollution and noxious chemical odors. We along with several neighbors are concerned as asphalts contain known carcinogens and even contain asbestos and other cancer causing agents over the years. Several homes in nearby subdivisions have newborns, infants and young families in close proximity to this plant. Nearby lakes, small streams adjacent to the plant property drain into the Meramec River. We want proof we can live free from repeated chemical exposures or injury, by eliminating the noxious odors and related air pollution. We ask that the plant take responsibility and be held accountable for any and all future health issues to all affected human, animal, land, and air in the surrounding community. Please help keep our community's environment healthy by keeping our air, water, and land clean and FREE of contaminants and odors.					
<b>Comments</b>	No odor violations were detected, so no further actions required at this time, but need to investigate any future complaints as we get them.							
SLRO	2014-05-15	2014-05-14	UNKNOWN	St. Louis	St. Louis City	Air Odors	KA	
<b>Concern No.</b>	18911	<b>Concern Info</b>	Representative of St. Louis City Housing Development reported observing a private residence, which appeared to have an automobile painting operation located in the garage. The garage had a black metal chimney (diameter 3 to 4 inches), which reportedly was emitting a black malodorous smoke.					
	No additional information was provided to indicate any painting malodor nor had visible emissions been reported.							
	Suggested, via e-mail, the Housing Development representative contact the St. Louis City Code Enforcement Office to also investigate the issue. The operation of a car repair business would also be a violation of city regulations if the business lacked appropriate city permits.							
<b>Comments</b>	Issue should be investigated by St. Louis City Code Enforcement (building inspections) as it appeared externally to be an unlawful operation and likely lacks city authorization to operate.							
	NFAN at this time.

SLRO	2014-05-15	2014-05-15	FRED WEBER ASPHALT	Maryland Heights	St. Louis	Air Odors	KA	
<b>Concern No.</b>	18783	<b>Concern Info</b>	Complainant resides near the Pattonville High School. Complainant indicated that she had noted a chemical type odor in the area. Champ SLF is nearby but the SLF odor is different from the odor she is noting. Complainant also indicated the Fred Weber Asphalt plant, next to the SLF, is also a source of odors, but again, the odor she is noting does not appear to be from the asphalt plant.					
<b>Comments</b>	Odors were being emitted from both facilities but neither odor appeared reminiscent of the complainant's odor description.							
	Complainant had indicated notifying the St. Louis County APCP on previous occasions. Complainant was asked to continue notifying the county agency when the odor becomes an issue as the county has jurisdiction over the SLF and asphalt operation.							
	NFAN at this time.							
SLRO	2014-05-15	2014-05-15	FRED WEBER ASPHALT	Maryland Heights	St. Louis	Air Odors	KA	
<b>Concern No.</b>	18788	<b>Concern Info</b>	Complainant resides near the Pattonville High School. Complainant indicated that she had noted a chemical type odor in the area. Champ SLF is nearby but the SLF odor is different from the odor she is noting. Complainant also indicated the Fred Weber Asphalt plant, next to the SLF, is also a source of odors, but again, the odor she is noting does not appear to be from the asphalt plant.					
<b>Comments</b>	Odors were being emitted from both facilities but neither odor appeared reminiscent of the complainant's odor description.							
	Complainant had indicated notifying the St. Louis County APCP on previous occasions. Complainant was asked to continue notifying the county agency when the odor becomes an issue as the county has jurisdiction over the SLF and asphalt operation.							
	NFAN at this time.							
SLRO	2014-05-20	2014-05-19	CLOSED GENCORP-GDX AUT	New Haven	Franklin	Burning	SH	
<b>Concern No.</b>	18793	<b>Concern Info</b>	Someone burning trash and debris this past weekend (May 17-18) at the old Gencorp/GDX auto plant on Zero Road west of New Haven.					
<b>Comments</b>	No burning or evidence of burning was observed, so no violations of state open burning rules was occurring during the investigation. No further action required at this time.							
SLRO	2014-05-19	2014-05-19	ALEXANDERS ESTATES WWT	Washington	Franklin	Air Odors / Domestic Sewage, Small	SH	
<b>Concern No.</b>	18795	<b>Concern Info</b>	Strong odors suspected coming from the Alexander Estates treatment plant, Highway A & Alexander Estates Drive, south of Washington off Highway A.					
<b>Comments</b>	No odors were detected, so no violation of state odor rules occurred. However, the Alexander Estates WWTF, MO-0128554, should be added to the list of wastewater treatment facilities to be inspected in FY15.							

## Monthly Air Pollution Control Program Detail Report

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SLRO	2014-05-27	2014-05-19	ADM GRAIN	St. Louis	St. Louis City	Fugitive Dust	DB	
<b>Concern No.</b>	18807	<b>Concern Info</b>	Complainant alleged the grain elevator originally had working dust control equipment on the grain elevators and conveyor systems transporting grains to the barge loading area at the Mississippi River. Some time ago the equipment was removed. Most recently, dust from the conveyors has gotten very bad, with dust leaving the conveyors near the loading area and dust being vented out of the barges. The dust is coating the river surface and becoming airborne around the conveyors.					
<b>Comments</b>	This is a potential health concern since a city bike trail runs adjacent to this emissions point. During the visit, several bicyclists traveled by the barge. Had the wind been blowing towards the bicycle trail, the bicyclists would have been subjected to the dust. The rules regarding opacity and fugitive emissions was explained to ADM during the site visit and the SLRO will continue to monitor this issue.							
			Requested the complainant also contact the Coast Guard as the material is entering the river directly.					
SLRO	2014-05-22	2014-05-22	UNKNOWN	St. Clair	Franklin	Burning	SH	
<b>Concern No.</b>	18868	<b>Concern Info</b>	Complainant states that someone was burning trash this past Sunday, May 18th, along Highway WW, somewhere between Bird Song Lane and Dry Branch Road, southwest of St. Clair. Complainant also stated that burning has occurred before, always on the weekends.					
<b>Comments</b>	No burning, so no violations of state open burning rules was observed. No further action required at this time.							
SLRO	2014-05-29	2014-05-27	CARSTAR COLLISION SERVIC	Overland	St. Louis	Air Odors / Toxics	KA	
<b>Concern No.</b>	18913	<b>Concern Info</b>	Complainant has resided near the auto body shop for several years. Paint malodor and fumes have been emitted from the facility in concentrations requiring the complainant to close his home windows and stay indoors. Complainant has complained to the City of Overland repeatedly but the conditions remain.					
<b>Comments</b>	Complainant indicated the facility operates most days with the doors open, weather permitting.							
<b>Comments</b>	Facility appeared as incompliance with odor and visible emission regulations.							
SLRO	2014-06-05	2014-05-28	CITY OF ST CHARLES PARKIN	St. Charles	St. Charles	Fugitive Dust / Asbestos	KA	
<b>Concern No.</b>	18952	<b>Concern Info</b>	Randall Whipple of the US EPA Region 7 office referred complainant to the SLRO. Complainant left a message on Shirley Wolverson's telephone/voicemail on Wednesday, May 28, 2014, at 3:25 pm and the call was returned on May 30, 2014. Complainant stated that a parking lot structure in the historic downtown area of St. Charles was being renovated and dust was flying everywhere and was also running into sewers. Some windows are covered with plastic but most are not. He stated that OSHA had been there and had told them to correct some things but they were still doing the same as before. He stated that Ray Preston (cell 314.619.1302, office 314.444.6357) of the KMOV Channel 4 St. Charles bureau had done a story on the renovation and the complainant's allegations. He is concerned that because of the age of the building (1970's) there may be asbestos present, however the general effect on people, businesses and the quality of life in this congested area of downtown/historic St. Charles is being negatively affected.					
<b>Comments</b>	NFAN at this time pending additional dust emission complaints.							
	Asbestos issue pending resolution.							

## Monthly Air Pollution Control Program Detail Report

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SLRO	2014-05-29	2014-05-29	SULLIVAN KOA/STUDIO 66	Sullivan	Franklin	Burning	SH	
<b>Concern No.</b>	18917	<b>Concern Info</b>	Someone illegally burning on or near the old Sullivan KOA campground (now Route 66 Studio) on East Springfield, Sullivan.					
<b>Comments</b>	There was no observed evidence that any burning had or is occurring on the Studio 66 property. However, there was burning occurring on private property somewhere along East Springfield, as evidenced by Mr. Wedding's comment about smelling something burning in the area Thursday morning. An inspection along East Springfield did not turn up any observed evidence of a burn pile or burn barrel that could be seen from the highway, so for now no violations of state open burning rules could be verified or confirmed. No further action required at this time.							
SLRO	2014-06-05	2014-05-30	KIRKWOOD MATERIAL	Kirkwood	St. Louis	Air Odors / Fugitive Dust	KA	
<b>Concern No.</b>	18948	<b>Concern Info</b>	Complainant lives near Kirkwood Material. The odors from the mulch piles at the facility are terrible. She is concerned about what she is breathing 7 days per week. The dust generated when trucks drive up and down the road to the facility is bad.					
			*(Complainant would like to be notified of the outcome.)					
<b>Comments</b>	The majority of the dust noted was from the public roadway and not the actual facility property. No visible emissions of dust could be noted directly from the facility property crossing the property line and onto adjoining private property.  The nuisance odor complaint issue would be difficult to document and show a valid ACP violation.							
SLRO		2014-05-30	THE WOOD DEN	Festus	Jefferson	Saw Dust / Air Odors / Particulate		
<b>Concern No.</b>	18949	<b>Concern Info</b>	Complainant stated that a property 100 yards from his residence was purchased recently and is now occupied by The Wood Den. Prior to moving in, the purchaser had reportedly claimed that work would be performed in a building and a paint spray booth would be installed and utilized. The Wood Den creates large wooden carvings out of trees and logs by chain sawing and by applying a protective coating (reportedly polyurethane). Complainant states that work is performed outside, no spray booth is used, and that clouds of sawdust or paint fumes cover the neighborhood. I suggested he also contact the City of Festus in case they were in violation of any city zoning or occupancy permits.					
<b>Comments</b>								
SLRO	2014-06-02	2014-05-30	THE WOOD DEN	Festus	Jefferson	Saw Dust / Air Odors / Particulate	DB	
<b>Concern No.</b>	18950	<b>Concern Info</b>	Complainant stated that a property 100 yards from his residence was purchased recently and is now occupied by The Wood Den. Prior to moving in, the purchaser had reportedly claimed that work would be performed in a building and a paint spray booth would be installed and utilized. The Wood Den creates large wooden carvings out of trees and logs by chain sawing and by applying a protective coating (reportedly polyurethane). Complainant states that work is performed outside, no spray booth is used, and that clouds of sawdust or paint fumes cover the neighborhood. I suggested he also contact the City of Festus in case they were in violation of any city zoning or occupancy permits.					
<b>Comments</b>	I explained the fugitive emissions and odor rules to Mr. Meyer. Mr. Meyer stated that he will cease using a spray gun until he has a paint booth so that it will minimize odors and fugitives from using his paint gun. He also suggested cutting wood on the far end of the property when winds are calm. After the site visit I spoke with the Mr. Forshee, the concerned party, about my findings. Mr. Forshee stated that he would call the Department again if the issue is not resolved.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SLRO		2014-06-06	ATHENA SCHOOL	DeSoto	Jefferson	Asbestos		
<b>Concern No.</b>	19041	<b>Concern Info</b>	Sent an email to DNR and had received a response from Victoria Lovejoy recommending he call this office. He stated that the maintenance crew at Athena School in the De Soto School District was dry stripping 9" asbestos tiles. He said they were using scrubbing machines to remove wax from 9" floor tiles and that they were removing all the wax and grinding on the floor tiles and not using any liquid. He stated that the workers were using no PPE and not wetting the floor, and that summer school is in session. I asked for the name of a contact at the School District and he gave me the name of Dr. Clint Freeman, Assistant Superintendent in charge of maintenance.					
<b>Comments</b>	After speaking to the caller I was sent a copy of the complainant's email and further emails requesting SLRO investigate the matter.							
<b>Comments</b>	I left messages for the Principal (Ms. Mann?) of Athena School and for Dr. Freeman. Dr. Freeman called me back and we spoke while he was at the school investigating the complaint. He stated that the dry wax removal was only being done in certain areas where stripper would have lifted the tiles, and only to remove top layers of wax and not expose the surface of the tile prior to re-waxing. I told him someone may investigate on Monday.							
SLRO	2014-06-11	2014-06-09	MICHAEL GRADY	Vinita Park	St. Louis	Burning	KA	
<b>Concern No.</b>	19075	<b>Concern Info</b>	Complainant alleged a neighbor has been open burning vegetative waste and household trash. Burning takes place at any time of the day or evening hours. No particular pattern of burning has been noted. The activity is conducted at random times and days of the week.					
<b>Comments</b>	Open burning warning letter prepared 6-11-14 to be sent ASAP with copy of open burning technical bulletin.							
SLRO	2014-06-11	2014-06-09	JOHN HORTH	Vinita Park	St. Louis	Burning	KA	
<b>Concern No.</b>	19076	<b>Concern Info</b>	Complainant alleged a neighbor has been open burning vegetative wastes and household trash. Open burning occurs at random times of day and on any day of the week.					
<b>Comments</b>	Open burning warning letter prepared 6-11-14 to be sent ASAP. Copy of the open burning informational bulletin to be included.							
SLRO	2014-06-12	2014-06-11	LMC INDUSTRIES	Arnold	Jefferson	Industrial Site Specific / Particulate	KA	
<b>Concern No.</b>	19082	<b>Concern Info</b>	Complainant alleged, 6-10-14, the facility emits a tiny, black colored particulate matter from open back doors. No additional information provided.					
<b>Comments</b>	Unable to validate the complaint. NFAN.							
SLRO	2014-06-23	2014-06-13	COMPLETE AUTO BODY		St. Louis	Particulate	DB	
<b>Concern No.</b>	19188	<b>Concern Info</b>	The concerned party (William Elkins) stated that Complete Auto body (see below for address) is painting in a garage that does not have any filtration or exhaust. He stated that the company painted his RV in a garage in the back of the property (the garage on the left hand side) because the RV would not fit in their normal paint booth. Mr. Elkins believes that the body shop is in violation of EPA's air pollution regulations and he wants the Department to evaluate the business. Mr. Elkins also wants a call back when the investigation is complete.					
<b>Comments</b>	A compliance assistance visit was completed and will be mailed to the facility with directions on how to meet compliance with the hazardous waste rules. The facility is currently in compliance with all air regulations.

Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SWRO	2014-05-21	2014-04-21	A&E Construction	Phillipsburg	Laclede	Burning / Air Odors / Toxics	RB	
<b>Concern No.</b>	18504	<b>Concern Info</b>	(Concern submitted on line) Burning building materials and trash in a large hole underneath a large sign on 4-18-14. Complainant says it stinks and is concerned about asbestos, etc.					
<b>Comments</b>	They are burning residential trash. The remaining construction waste is being hauled to a permitted location one pick-up at a time.							
SWRO	2014-05-02	2014-04-22	Unknown	Ozark	Greene	Burning	CG	
<b>Concern No.</b>	18524	<b>Concern Info</b>	Burning of trash and construction material - Ongoing and excessive - within 200 yards of homes zoned residential area. 10 foot radius burning pit, with another 8 foot plus high pile observed today. No one attending fire.					
<b>Comments</b>	No violations found at time of investigation. There was no open burning occurring and no evidence of burned material.							
SWRO	2014-05-02	2014-04-24	Unknown	Ozark	Christian	Fugitive Dust	CG	
<b>Concern No.</b>	18541	<b>Concern Info</b>	Fugitive dust on 4-23-14, at approximately 4:50 pm from either the concrete plant or quarry on Highway 65 between Evans Road and Highway CC - east side of Highway 65. See photos.					
<b>Comments</b>	No violations found during investigation. I inspected the concrete plant, the asphalt plant, and the quarry in the area described in the complaint.							
SWRO	2014-05-22	2014-04-25	3G Processing	Mountain Grove	Wright	Air Odors	RB	
<b>Concern No.</b>	18563	<b>Concern Info</b>	Odor from 3G Processing.					
<b>Comments</b>	No violation odor was onsite. Facility was recovering from a break down and a significant amount of feed stock was outside.							
SWRO	2014-05-05	2014-05-05	Fairview Mills LP	Anderson	McDonald	Fugitive Dust	CG	
<b>Concern No.</b>	18654	<b>Concern Info</b>	Fugitive dust coming from the old Simmons Feed Mill may be called Fairview Farms Mill.					
<b>Comments</b>	No violation found. There was dust coming out of the vent from the pelletizer at 30% opacity, but it was not leaving the property at the time of the investigation.							
SWRO		2014-05-07	Liz York	Viola	Barry	Burning		
<b>Concern No.</b>	18672	<b>Concern Info</b>	Bringing landscaping waste to property and burning.					
<b>Comments</b>								
SWRO		2014-05-07	MoDOT	Bolivar	Polk	Fugitive Dust		
<b>Concern No.</b>	18676	<b>Concern Info</b>	MODOT stripped the top soil off of property sitting to the south of their maintenance facility several months ago. Since that time there has been terrible wind erosion problem. Along with the erosion, the dust in the air when the wind blows out of the south is unbearable. There could also be a runoff issue. MODOT needs to cover the ground with rock, asphalt or vegetation to keep the dust levels down. date-observed: 5-6-2014

*Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SWRO	2014-05-13	2014-05-12	Gene Hoist, President, HOA	Osage Beach	Camden	Air Odors	CG	
<b>Concern No.</b>	18700	<b>Concern Info</b>	Per attached email: "Demolition dumpster close to buildings. Smells like rotten meat. Stinks and draws flies." Additional contact person is listed on attached email.					
<b>Comments</b>	No violation. Do not regulate the dumpsters distance to buildings. No regulation on trash going into demolition dumpsters. The vectors are not regulated by the department.							
SWRO	2014-05-16	2014-05-15	Kenneth Hamilton		Cedar	Burning / Open Dumps	CH	
<b>Concern No.</b>	18763	<b>Concern Info</b>	Burning tires by the truck load. Burning is happening mainly on holidays. Burning going on NOW.					
<b>Comments</b>	Scrap tires were observed near two brush piles. No evidence of tires being burned. Deputy with Cedar County interviewed a worker onsite and they stated no tires had been burned.							
SWRO	2014-05-21	2014-05-16	Bradley Willard	Sleeper	Laclede	Burning / Asbestos	RB	
<b>Concern No.</b>	18777	<b>Concern Info</b>	Burning shingles and torn down house in brush fire.					
<b>Comments</b>	No violation, evidence of burning was seen however it appeared to be vegetation.							
SWRO	2014-05-21	2014-05-16	Builders Screen and Aluminum	Sunrise Beach	Camden	Fugitive Dust	RB	
<b>Concern No.</b>	18778	<b>Concern Info</b>	Neighbor sandblasting causing silica dust to leave site.					
<b>Comments</b>	No violation, not sandblasting at the time of investigation. Apparently they plan to build a three sided structure for blasting.							
SWRO	2014-05-23	2014-05-19	Ms Nelli Lee White	Springfield	Greene	Asbestos	RB	
<b>Concern No.</b>	18804	<b>Concern Info</b>	Multi media concern. Caller has several concerns about the property owned by Ms. Nelli Lee White. Property is at the intersection of West Chestnut Expressway & West Bypass. Land owner rents several mobile homes and apartments on the property. Caller states that the owner has remolded several of the mobile homes and apartments without the proper asbestos requirements. Possible asbestos tiles were dumped in the trash. In the apartment unit behind Hardees there is a large amount of old paint, solvents, oils, roofing materials and miscellaneous leaking containers in the basement. Containers are tossed in the trash. Leaking containers are causing fumes in the apartment. There is also a septic tank onsite that is pumped out onto the ground twice a week. A pump is placed in the tank and a garden hose is ran along the property line behind the strip mall.					
<b>Comments</b>	Inside city. Forward to City Springfield public information office (telephone 864-1012 fax 864-1114).							
SWRO		2014-05-19	Sensene Family	Exeter	Barry	Asbestos		
<b>Concern No.</b>	18822	<b>Concern Info</b>	Caller said an old house with asbestos is going to be burned as soon as the wind dies down. Caller said it has recently been knocked down by owners, there is asbestos in the house and she is told they are going to burn it with the asbestos. Caller said she talked to Randall Whipple from EPA and he referred her to SWRO.					
<b>Comments</b>								
SWRO		2014-05-19	Simmons Foods	Southwest City	McDonald	Air Odors		
<b>Concern No.</b>	18843	<b>Concern Info</b>	Caller states they were traveling in the area of Simmons over the past weekend and the odor was horrible.					
<b>Comments</b>

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SWRO		2014-05-21	Michael Reason	Rogersville	Christian	Scrap Tire Dump / Burning		
<b>Concern No.</b>	18845	<b>Concern Info</b>	Large amount of tires onsite in two locations on the property. Causing mosquito problem, could also be bringing in waste and burning it.					
<b>Comments</b>								
SWRO		2014-05-24	Tyson Foods	Noel	McDonald	Air Odors		
<b>Concern No.</b>	18919	<b>Concern Info</b>	Strong odors at night. Camper said they couldn't sleep because the odor was so strong and gross smelling.					
<b>Comments</b>								
SWRO		2014-06-04	Unknown	Southwest City	McDonald	Air Odors		
<b>Concern No.</b>	19003	<b>Concern Info</b>	Strong odors along Highway 43 approximately 3 miles north of Southwest City at 6:43 pm on June 3, 2014.					
<b>Comments</b>								
SWRO	2014-06-11	2014-06-09	Unknown	Republic	Christian	Burning / Asbestos	CH	
<b>Concern No.</b>	19062	<b>Concern Info</b>	Burning building. Demolishing mobile home and burning it. He is trying to burn in the rain and the smouldering smoke is choking out the neighbors. Christian County Assessor's map shows the property belongs to: Family Through Faith, 191 Ashley Road, Highlandville, MO. Easiest access is to enter the parking lot at Highway 60 Business Park (on north side of US Highway 60. The property where the burning is occurring shares the driveway with that business. It is just east of Bar-Nothing Acres but on the opposite side of Highway 60. Can be seen from US Highway 60. Pull in the parking lot at the Highway 60 Business Park and you will see the burn pile.					
<b>Comments</b>	Three burn piles around the site of a mobile home demolition. Metals, salvageable wood, and insulation separated into other piles. Burn piles consist mainly of household trash. Fire department had been out once when some tar paper had caught fire.							
SWRO		2014-06-10	Carefree MHP	Gravois Mills	Morgan	Air Odors		
<b>Concern No.</b>	19111	<b>Concern Info</b>	Owner of trailer park is refusing to have dumpster removed and it has been overflowing for days. Caller states it's a health hazard and they can't be outside because of the odors and the flies. They said they live near the dumpster and the odor is still coming in the house.					
<b>Comments</b>								
SWRO		2014-06-13	Tyson Foods	Monett	Barry	Air Odors		
<b>Concern No.</b>	19089	<b>Concern Info</b>	The concerned party said the Tyson Foods Monett facility was "stinking again."					
<b>Comments</b>								
SWRO		2014-06-13	Tyson Foods	Monett	Lawrence	Air Odors		
<b>Concern No.</b>	19090	<b>Concern Info</b>	"Rotten meat" odors coming from Tyson Foods plant.					
<b>Comments</b>
