**Monthly Air Pollution Control Program Summary Report**

For ALL REGIONS - 09/16/2015 to 10/15/2015

*Number of Concerns Received RE:*

<i>Asbestos</i>	5
<i>Burning</i>	27
<i>Fugitive Dust</i>	14
<i>Odors</i>	27
<i>Particulate</i>	2
<i>Toxics</i>	1
<i>Other</i>	13

*Of the above, 14 concerns involved multiple emissions.*

*Total of Concerns Received: 73*

*Number of Investigations of Concerns:*

<i>Received during report period.</i>	59
<i>Received prior to report period.</i>	10

*Total number of investigations completed: 69*

*Number of formal notices of violation issued: 5*

*Please note, the information provided in this report reflects all concerns received during the reporting period as well as all inspection activities that occurred during the reporting period regardless of the date in which the original concern was received.*

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2015-10-06	2015-09-04	Charlie Woods	Hopkins	Nodaway	Burning	DR	
<b>Concern No.</b>	23852	<b>Concern Info</b>	While off-duty, Andrea Smith observed a group of people watching a mobile home burn. She was in her personal vehicle and did not have her State ID with her, so she did not stop. However, a little while later she saw Deputy Randy Houston and advised him of the situation. She does not know if a deputy responded. She also stated smoke was still visible from the site an hour later.					
<b>Comments</b>	A letter of warning will be issued to Mr. and Mrs. Woods.							
KCRO	2015-09-17	2015-09-16	Carl Repp	Warrensburg	Johnson	Air Odors	SN	
<b>Concern No.</b>	24061	<b>Concern Info</b>	CP left voicemail: Quimby is operating again lately and odors have been bad from the morning until about 2:00 pm.					
<b>Comments</b>	No further actions required because no violations were found during the investigation.							
KCRO	2015-09-30	2015-09-21	Sharos Barnard	Amazonia	Andrew	Burning	SN	
<b>Concern No.</b>	24062	<b>Concern Info</b>	Neighbor burning shingles from a roofing company.					
<b>Comments</b>	A LOW will be issued for the probable disposal of prohibited items by open burning.							
KCRO	2015-09-30	2015-09-23	Foster Elevator	Foster	Bates	Fugitive Dust	CO	
<b>Concern No.</b>	24065	<b>Concern Info</b>	CP called and stated that the owners of the grain bin at the corner of State Route U and 6th Street in Foster, MO are unloading last years rotten grain and the dust is unbearable for anyone to be outside. CP also stated that odors can be bad. The owners of the elevator and storage bins on 6th Street are Bob Laughlin and his son Jon Laughlin. CP states this happens every year, and lasts a few days at a time. She expects they will be done before Monday 9/28.					
			On Bates County GIS, it lists Jon as the owner of the storage bin property and "Laughlin Farms, LLC" as the owner across the road where the elevators are.					
<b>Comments</b>	No fugitive emissions left the property boundary during my investigation. No violations observed.							
KCRO	2015-09-28	2015-09-24	Word of Life Evangical Christian	Sedalia	Pettis	Burning	SN	KC20150928
<b>Concern No.</b>	24392	<b>Concern Info</b>	Received a telephone call, email, and fax from the Pettis County Fire Department in regard to open burning on South Park in Sedalia, Missouri.					
<b>Comments</b>	An NOV will be issued for violations of the open burning regulation.							
KCRO	2015-09-30	2015-09-25	Sharla Barnard	Amazonia	Andrew	Burning	SN	
<b>Concern No.</b>	24364	<b>Concern Info</b>	Caller reports that Howard (aka Billy) works for a roofing company. He has been bringing shingles to his residence for a while now. Last week he tried to light the pile on fire. He also tried last night, and the pile is still smoldering today. The smell is awful and causes headaches.					
			Savanah Fire Dept. went out to the fire and said it was a "controlled fire." This happened on September 26, 2015.					
<b>Comments</b>	A LOW will be issued for the probable disposal of prohibited items by open burning.							

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2015-09-25	2015-09-25	Unknown	Blairstown	Henry	Air Odors	MC	
<b>Concern No.</b>	24365	<b>Concern Info</b>	At 1623 hours on 9/24/2015, Eric Nold with EPA Region 7 called the EER Spill Line to pass along a complaint he received on the EPA Spill Line. He reported that a private citizen called EPA Spill Line about a chemical odor in Blairstown. The private citizen had noticed the chemical odor, similar to ammonia or chlorine, a couple days before, but it had continued to get stronger. He mentioned that there was a duck pond south of Highway N that was filled last week with the water from Big Creek. He did not know if that could be the source of the odor. He also mentioned that this pond was leaking out of the north corner.					
<b>Comments</b>	No strong odors were detected. No further action required.							
KCRO	2015-10-13	2015-09-25	Unknown	LaMonte	Pettis	Fugitive Dust	DR	
<b>Concern No.</b>	24395	<b>Concern Info</b>	Concerned citizen from LaMonte, MO, called EPA's after-hours number to complain about the highway being re-paved and creating dust.					
<b>Comments</b>	No evidence of dust was observed.							
KCRO	2015-10-06	2015-09-25	Cameron Concrete	Cameron	Clinton	Fugitive Dust	SN	KC20151013
<b>Concern No.</b>	24396	<b>Concern Info</b>	The Cameron Concrete company is a small concrete operation that is located in the middle of a residential area. Recently, they have been releasing a white powdery substance, which fills the neighborhood. It looks like a dust cloud. It makes it difficult to breathe when the plant is in operation. It also settles on our home, outdoor furnishings, and vehicles. It will not come off with normal cleaning. It requires intense scrubbing to be removed. There is also a creek / drainage that runs through the property, which is also possibly affected. When I contacted the Cameron City Hall, they were not interested in dealing with the issue as the company has been there a long time.					
<b>Comments</b>	An NOV/ NOEE will be issued for violations of the fugitive dust regulation and not being in compliance with the special conditions on their construction permit.							
KCRO	2015-09-28	2015-09-28	Adesa Auto Auction	Belton	Cass	Air Odors	DR	
<b>Concern No.</b>	24370	<b>Concern Info</b>	Ms. Lacey Ridnour called about paint odors coming from Adesa Auto Auction in Belton. The facility address is 15511 Adesa Drive, Belton, MO. Ms. Ridnour told me that they repaint vehicles at the facility and the smell from the fumes are at times overwhelming. The time that the odors are the strongest are when the wind is out of the west. Her residence is directly behind the facility. She lives in military housing.					
<b>Comments</b>	There were no odors detected at the time of investigation.							
KCRO	2015-10-14	2015-09-28	Pizza Blends	North Kansas City	Clay	Fugitive Dust / Air Odors	CO	
<b>Concern No.</b>	24393	<b>Concern Info</b>	From EPA Concern: Company keeps emitting extremely high amounts of white powder substance into a cloud covering half our parking lot, creating a glue like substance on our vehicles. Clogging small water drains on our vehicles and sunroofs. One sunroof required repairs due to how bad the white substance coated and clogged the system. This large amount in the air can make it difficult to breath when walking to our vehicles from the building and vice versa. This glue-like substance it creates on our cars has to be scrubbed off. A power washer will not remove it. It also stinks like rotten something on the side of their building where the grass is dead. If this is doing damage to our cars, what is it doing to our lungs?					
<b>Comments</b>	No odor or dust violations observed during investigation.							

### Monthly Air Pollution Control Program Detail Report

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Concern</i>	<i>INSP Initials</i>	<i>NOV</i>
KCRO		2015-09-29	Rich Hill Truck and Equipment	Rich Hill	Bates	Burning	CW	
<b>Concern No.</b>	24394	<b>Concern Info</b>	While traveling, DNR staff person observed open burning by business/industrial site near highway. The time was afternoon on Friday, September 25 and appeared to be a salvage yard or trucking business. Upon return to the office, I located the site on Google.					
<b>Comments</b>								
KCRO		2015-10-01	Unknown	Corder	Lafayette	Burning	DR	
<b>Concern No.</b>	24397	<b>Concern Info</b>	CP states that on September 22 an unknown individual burned the last house on the west side of Main Street in Corder. CP states that 3 or 4 years ago the house was victim to a house fire, and recently the home was knocked down. On his way home from work on 9/22, he noticed thick black smoke. He drove by the smoke because it was near his corn field, and noticed the demolished house was on fire, and unattended. There was a gas can near by. CP called the Corder FD and they were able to put most of the fire out in two trips, and they should have a report. He does not remember who he spoke with at the FD.					
CP would like DNR to speak with the City Hall and inform them of the burning regulation because he believes that the city does not care, and probably allowed this to happen.								
CP is worried about the health of the people around the home, and states that some neighbors were scared that their homes would burn from the heat. CP states that the postmaster lives across the street from the demolished home, and she would be willing to cooperate if needed. CP is a farmer, so is not always with his telephone, but will return a message. Owner information was obtained through GIS.								
<b>Comments</b>								
KCRO	2015-10-07	2015-10-01	E & S Rock	Holden	Johnson	Fugitive Dust	SN	
<b>Concern No.</b>	24398	<b>Concern Info</b>	Caller reports that the quarry blasted this morning and covered the whole neighborhood with dust. The dust was worse today than it has been for a while. It was so thick he could barely see his neighbor's house.					
<b>Comments</b>	No violations were noticed. No further action required.							

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2015-10-01	2015-10-01	Unknown	Kansas City	Jackson	Underground Storage Tanks / Air Odors		
<b>Concern No.</b>	24430	<b>Concern Info</b>	<p>Bob Kalkofen, manager at McGilley Midtown Chapel, is concerned about a petroleum odor they have noticed in the basement over the last 2 weeks. It seems to be coming from the sump. Mr. Kalkofen rates the strength of the odor on a 1 to 5 scale as a 2. Today it was strong enough that they called the city at 311. The hazmat team from the Fire Department was dispatched and they took air readings in the basement and down in the sump. The readings were not registering strong enough on their meter to warrant building evacuation.</p> <p>There is a former gas station site next door. The main underground tanks were removed back in the 80s or 90s. Mr. Kalkofen thinks there is a possibility that there could still be a diesel tank underground at the site. The site is now a used car lot, Conklin Fangman Cadillac. In order to reduce the odor, they are currently running water into the sump and letting the pump run. The basement area is used for file storage and the boiler room.</p> <p>Fire inspector: Tony Carillo Hazmat unit 31</p>					
<b>Comments</b>	<p>Roarke will investigate, will get findings from him after investigation.</p> <p>Roarke contacted the CP and advised he report the odor issue to the spill line. The source of the odor seems to be the sump, which is a bit concerning, and Roarke will try to investigate at the site on Friday October 2, 2015. Roarke also emailed staff from the tanks section to try to determine if there is a LUST site near by that could be the source. There were former gas stations at both corners of 3200 Main and Linwood (32nd street).</p> <p>This odor concern is not related to or located anywhere near, the Zill site.</p>							
KCRO	2015-10-06	2015-10-02	Project Connection	Plattsburg	Clinton	Burning		SN
<b>Concern No.</b>	24400	<b>Concern Info</b>	<p>Tyson Dezling is currently burning construction debris, a mattress, treated wood, painted wood and some other things. CP said it's a big plume of black smoke. Fire department is going out there and told CP to call the department.</p> <p>CP said property owner is Steve Tinnen is leasing this location to Tyson Dezling.</p> <p>Burning location is in rural area north of Trimble, MO; about 1 miles northeast from the intersection of Highway O and Shewey Road (39.506454, -94.540836).</p>					
<b>Comments</b>	<p>An LOW will be issued for violations of the open burning regulation.</p>							
KCRO		2015-10-02	Tyson Foods		Pettis	Air Odors		
<b>Concern No.</b>	24412	<b>Concern Info</b>	<p>The caller stated that Tyson had been smelling up his neighborhood all weekend long. This has been an ongoing issue for the concerned party. Sometimes the smell is going on overnight.</p>					
<b>Comments</b>								

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2015-10-05	2015-10-05	Sedalia Steel Supply, Inc.	Sedalia	Pettis	Burning	CW	
<b>Concern No.</b>	24413	<b>Concern Info</b>	Sedalia Steel Supply, Inc. demolished the second house recently and is burning C&D waste on the property. There was another house demoed earlier this year and C&D waste was burned at that time. This was occurring today. There is also concern that some of the waste is being taken to a property east of 27219 Florence Road, Smithton, MO.					
<b>Comments</b>								
KCRO	2015-10-06	2015-10-06	Ronald Hill	Turney	Clinton	Burning	SN	KCR2015090
<b>Concern No.</b>	24401	<b>Concern Info</b>	Caller reports that Mr. Hill is burning again. This time, he started the fire Saturday night (10/03/2015), and the fire is still smoldering. Driving by the property, it looks like he is burning fiberglass.					
<b>Comments</b> A NOV was issued for the same violation, burning of prohibited items, but had not been sent out yet. So this will be added to NOV KCR2015090814595394.								
KCRO	2015-10-06	2015-10-06	D & D Pallet	Gower	Clinton	Burning	SN	KC20151020
<b>Concern No.</b>	24418	<b>Concern Info</b>	I was driving through Gower, Missouri, on October 6, 2015, around 11 a.m. I noticed a lot of black smoke being generated to the northeast of town. I drove to the source of the smoke and found D & D Pallet to be responsible for the fire.					
<b>Comments</b> An NOV will be issued for violations of the open burning regulation.								
KCRO	2015-10-07	2015-10-07	Unknown	Kansas City	Jackson	Air Odors	MC	
<b>Concern No.</b>	24403	<b>Concern Info</b>	Darrel Combs, Construction Manager with Habitat for Humanity, called and reported that there is a foul odor at their location near Front Street and N Chouteau Trafficway, Kansas City, Missouri. He said that it is making several workers there feel ill and they are concerned about it.					
<b>Comments</b> Referred to the Kansas City Air Quality Program.								
KCRO	2015-10-08	2015-10-07	Ronald Hill	Turney	Clinton	Burning	SN	KCR2015090
<b>Concern No.</b>	24404	<b>Concern Info</b>	Caller reports that Mr. Hill burned three large fires last night (10/06/2015) at 9:30 p.m. He receives payment to take C&D waste, such as roofing materials. Once he burns the material, he will use a Bobcat to push material into the nearby creek or bury it on site.					
<b>Comments</b> This will be added on to the previous NOV, which has not been mailed yet, resulting in three different violations on 3 different days.								
KCRO		2015-10-13	Wes Stetnich	Oak Grove	Jackson	Open Dumps / Burning / Asbestos	JC	
<b>Concern No.</b>	24357	<b>Concern Info</b>	Burned house and trash being buried behind hill, trash can still be seen that hasn't been covered with dirt yet. No trespassing signs posted, property owner is staying in a camper on the property. CP says neighbors on either side will cooperate for access to their property for pictures of the dumping and burying. CP suggests calling Steve Chanel of Jackson County at 816-881-4515 for more information regarding the property owner and issues.					
<b>Comments</b> Burying started about three weeks ago. House was "accidentally" burned down.								
<b>Comments</b>								

### Monthly Air Pollution Control Program Detail Report

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Concern</i>	<i>INSP Initials</i>	<i>NOV</i>
KCRO		2015-10-15	Ford Motor Company	Claycomo	Clay	Air Odors	CO	
<b>Concern No.</b>	24414	<b>Concern Info</b>	<p>Caller reports a strong musty odor coming from the Ford Plant area. The odors sometimes smell like sewage. Odors are most noticeable in the early morning and evening hours. The Gracemor neighborhood is south of the plant where observations can be made.</p> <p>Ford Motor Company 047-0019</p>					
<b>Comments</b>								
NERO	2015-09-17	2015-08-24	Mid Mo Livestock and Equine	Marshall Junction	Saline	Air Odors	PM	
<b>Concern No.</b>	23683	<b>Concern Info</b>	<p>Caller reports that most days in the evenings around sundown there are significant odors from a truck wash lagoon 1 mile south of Marshall Junction on the east side of 65. Odors smell like sulfur. Odors are most intense in a low area by 110 road near the AW Smith billboard.</p> <p>Google Maps shows Lynch Livestock at this location. Sign advertising trailer washout. Talked to Joe - Pete did odor investigation here and found water pollution issues. Steve Moss did water investigation. Washing livestock trailers and tankers from Bunceton Better Bean. Significant water issues ongoing.</p>					
<b>Comments</b>	No violation of regulation 10 CSR 10-6.165, Restriction of Emission of Odors.							
NERO	2015-09-17	2015-09-10	Thompson Midwest LLC	Marshall	Saline	Fugitive Dust	PM	
<b>Concern No.</b>	23818	<b>Concern Info</b>	<p>The caller reports that Joe Thompson is watering a section of his driveway and parking lot today, but the dust is "flying." The caller states that not enough of the lot is being watered. The western side of the parking lot is dry and dust is created there when trucks drive through.</p>					
<b>Comments</b>	At the time of investigation, no violation found of regulation 10 CSR 10-6.170, "Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin."							
NERO	2015-09-17	2015-09-10	Women's Distribution Services, I	Marshall	Saline	Fugitive Dust	PM	
<b>Concern No.</b>	23822	<b>Concern Info</b>	<p>The caller reports that dust is coming off the property from semi-trailer traffic at the huge storage building located west of the Con-Agra storage lot and south of Highway 20. It is an issue when winds are out of the south. Caller is concerned with upper respiratory disorder in her horses, allegedly caused by dust.</p>					
<b>Comments</b>	At the time of the investigation, no violation found of the regulation 10 CSR 10-6.170, "Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin."							
NERO	2015-09-16	2015-09-11	Dennis Starns	Unionville	Putnam	Burning	DB	
<b>Concern No.</b>	23823	<b>Concern Info</b>	<p>Caller reports that the FD responded to a fire and found that demolition waste was being burned. Property owner Bill Fowler hired Dennis Barns to demo a house and haul to a landfill. Two dumpsters filled, Mr. Barns burned remaining demo waste that didn't fit. FD extinguished, still smoldering. FD and PD were on site, ticket issued for Open Burning, will have reports available later. Dumpsters and burn debris still on site. Burn pile could have filled a medium sized dumpster. Caller believes the waste may be buried later.</p>					
<b>Comments</b>	Violation of 10 CSR 10-6.045, "Open Burning Requirements." A Letter of Warning will be issued.							

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
NERO	2015-09-16	2015-09-14	Dean Pasbrig	Moberly	Randolph	Open Dumps	JE	
<b>Concern No.</b>	23846	<b>Concern Info</b>	<p>Caller states property owner has been burying hazardous waste on a daily basis with a skid loader since the rains ended this summer. Caller could not give specifics of what hazardous materials were being buried but states the owner is also burying shingles and other building materials. Caller states that owner was investigated by DNR a few years back.</p> <p>(addresses &amp; contact numbers below taken from ACE 13569)</p>					
<b>Comments</b>	<p>No violations of the Missouri Hazardous Waste Management Law were determined at the time of the investigation. Violations of the Missouri Air Conservation Commission Regulations have been referred to the Air Pollution Unit at the Northeast Regional Office and Mr. Pasbrig was informed on 10/2/15, that a Notice of Violation will be issued for the violations.</p>							
NERO	2015-09-24	2015-09-18	Bob Hall	Higbee	Randolph	Open Dumps / Burning	JH	
<b>Concern No.</b>	24014	<b>Concern Info</b>	<p>Caller reports that Bob Hall burned pink Styrofoam insulation, plastic siding, the back wall off a house, and brush on his property on August 8-10. A city worker, Rickie Switzer, informed Mr. Hall that the materials should not be burned, so Mr. Hall hired a company to demolish the rest of the house and buried the burn debris 8' down below the foundation. Some of the demolition waste was put in a dumpster. Caller has date stamped pictures available. Mr. Hall has recently purchased property on this block.</p>					
<b>Comments</b>	<p>No violations of the MSWML were observed at the time of the investigation.</p>							
NERO	2015-09-22	2015-09-22	Tom Gabbitas	Brashear	Adair	Burning	SB	
<b>Concern No.</b>	24039	<b>Concern Info</b>	<p>The caller says that a former resident of Brashear hauled in two trailer loads of trash last night and dumped it on the property where he formerly lived before his water and electricity was shut off about 2 months ago. The caller does not know whether he owns the property or not and does not know where he now lives. The trash consisted of carpet, vinyl, chairs and mattresses. It has been dumped on a burn pile and it appears that it will be burned. If set on fire, the Brashear Fire Department has said that they will come and put out the fire. A couple of photos will be taken of the dump and provided if needed. The caller called back later in the day to say that the waste was being burned.</p>					
<b>Comments</b>	<p>Illegal open burning of trade wastes in violation of the open burning regulation 10 CSR 10-6.045. Issue a letter of warning. Require a response letter and a clean-up of remaining burn debris within 30 days. Landfill receipts should be provided within 30 days.</p>							
NERO		2015-09-23	NGT Inc.	Columbia	Boone	Burning	SB	
<b>Concern No.</b>	24048	<b>Concern Info</b>	<p>Caller reports that a tree service has been burning their wood chips near Columbia. The property the burning takes place on is owned by NGT Inc. and is located at the northwest corner of the intersection (roundabout) of Vawter School Road, S. Brushwood Lake Rd., and S. Scott Blvd. (Southwest area of Columbia). Residential area, the county has received smoke complaints.</p>					
<b>Comments</b>								
NERO	2015-09-29	2015-09-24	Boone Quarries East	Columbia	Boone	Fugitive Dust	SB	
<b>Concern No.</b>	24049	<b>Concern Info</b>	<p>The caller reports that the dust is terrible on surfaces within 4 to 5 blocks in both directions from where trucks come out from Boone Quarries-East onto Creasy Springs Road. The caller filed a complaint with the City of Columbia last week and dust was better for a couple days. Now the dust is as bad as ever. The road is white with dust. The Columbia City Councilperson referred the caller to the Department for further action.</p>					
<b>Comments</b>	<p>No violation of the fugitive dust rule found at the time of the investigation. Follow-up with an informational letter.</p>

<b>Concern No.</b>	24058	<b>Concern Info</b>	<p>The report gives the following concerns about the Centralia school property: "Razing of Champion Academy on Middle School Playground with inadequate precautions for Students.</p> <ol style="list-style-type: none"> <li>1. Asbestos</li> <li>2. PCB caulk etc</li> <li>3. Safety Barriers</li> <li>4. UST. Benzene/PCb?etc</li> <li>5 Grain Elevator proximity.....Carbon TetraChloyde Accumulations</li> <li>6 Former 3 Story Stucco Foundation residuals...Lead, etc</li> </ol> <p>A repetitive pattern of reckless Environmental protection of a "Safe School Environment".....because of the inevitable disturbance of a Plethora of Potential toxins in a location so close to a 100 year old factory and downwind of a Grain elevator more than likely involved in CCC/USDA grain fumigation from 1946 the District needs to follow all safety guidelines because this building is virtually sitting on the school playground."</p> <p><b>Comments</b> Referred to Department of Health and Senior Services, Division of Environmental Epidemeiology.</p>					
NERO	2015-09-30	2015-09-28	Cargill	Marshall	Saline	Air Odors / Animal Waste	DB	
<b>Concern No.</b>	24072	<b>Concern Info</b>	<p>Caller reports that during the late evening and early morning for the last two weeks there has been a strong sewer odor coming from Cargill's Marshall facility. Most recently odors were strong while watching the lunar eclipse last night.</p> <p><b>Comments</b> No violation at the time of investigation. The Department will conduct another investigation at a later date when weather conditions are more similar to the time the complaint was made.</p>					
NERO	2015-09-29	2015-09-29	Danny Smithson	La Plata	Macon	Air Odors	DB	
<b>Concern No.</b>	24090	<b>Concern Info</b>	<p>MEERTS Incident Number: 1509281645BWH Call Date: 9/28/2015 Call Time: 4:45:00 PM</p> <p>"Caller is reporting a strong bad smell from a grain elevator. The cause of the smell is unknown but it is a problem for people living in the area."</p> <p><b>Comments</b> No violation of the odor rule. An informational letter will be sent.</p>					
NERO	2015-10-06	2015-09-29	Phyllis Ratkovich	Trenton	Grundy	Burning / Open Dumps	CB	
<b>Concern No.</b>	24100	<b>Concern Info</b>	<p>Caller states he was hired to clean out an old barn and a Quonset hut. The owner of the property dug a pit behind the house and directed him to dispose of the items in the pit. Items included 200 gallons of old, lead-based paint and approximately 10 tires. He threw the items in the pit and left. He stated the pit was set on fire in June. Caller is concerned the pit overflows during a rain event and flows into a pond and then creek.</p> <p><b>Comments</b> A Letter of Warning is being issued for violation of Missouri Solid Waste Management Law Section 260.210.1.(1) and the Missouri Air Conservation Commission Regulation 10 CSR 10-6.045(3).</p>					

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
NERO	2015-09-29	2015-09-29	Koncen Construction LLC	Columbia	Boone	Asbestos	SB	
<b>Concern No.</b>	24107	<b>Concern Info</b>	The caller reports witnessing workers removing floor tile that may contain asbestos at 10 p.m. on 8/28. Caller said he spoke to a worker removing the tile and the worker (possibly jokingly) said it contained asbestos. The caller stated he had worked on asbestos cleanup in the past, so was aware of the requirements of removal, such as negative air, personal protection, etc. The caller said the workers were placing the tiles into lined drums and that the work was being performed in the produce section of the grocery store.					
<b>Comments</b>	No violation of federal NESHAPs asbestos requirements. No violation of State of Missouri Asbestos requirements. Referred to Rebecca Hart-Schmidt of OSHA at Kansas City (816-483-9531) for possible violation of OSHA worker safety construction standards for asbestos.							
NERO		2015-09-30	Unknown		Cole	Air Odors	DB	
<b>Concern No.</b>	24109	<b>Concern Info</b>	The caller reports that for the last 4 or 5 days there has been a consistent unpleasant odor in her neighborhood and within a couple blocks of her neighborhood. It has been especially noticeable at night when windows have been open. Last night, it was noticed at the intersection of Grant and East McCarty. The caller would like someone to track down the origin of the odor. She said that it is not a sewer odor.					
<b>Comments</b>								
NERO	2015-10-07	2015-10-07	Jerry Weber	Westphalia	Osage	Air Odors	CB	
<b>Concern No.</b>	24144	<b>Concern Info</b>	Caller states Jerry Weber is spreading hog manure on his field next to the Maries River. The odor can be described as gagging, nauseating, horrendous. The caller states that Mr. Weber does not own a CAFO but rents the land he is spreading on. The caller states Mr. Weber is not knifing the manure into the ground but spraying it on the field.					
<b>Comments</b>	The Missouri Conservation Commission Odor Regulation does not apply to CAFO operations smaller than a Class 1A size. The facility where the manure is coming from is smaller than a Class IA size and is not subject to 10 CSR 10-6.165.							
NERO	2015-10-07	2015-10-07	Jerry Weber	Westphalia	Osage	Air Odors / Animal Waste	CB	
<b>Concern No.</b>	24146	<b>Concern Info</b>	Caller states Jerry Weber is spreading manure on a field next to Maries River and it is smelling up the town. The odor is terrible. Caller is unable to enjoy her property due to the smell. Caller is also concerned with manure entering the Maries River.					
<b>Comments</b>	The Missouri Conservation Commission Odor Regulation does not apply to CAFO operations smaller than a Class 1A size. The facility where the manure is coming from is not subject to 10 CSR 10-6.165.							
	Referred possible Water Pollution concerns to Michael Heaton, Water Pollution Unit, who called and discussed the concern with Ms. Morgan.

<b>Concern No.</b> 24176			<b>Concern Info</b> Via MEERTS Incident 1510121520WMH Discovery Date: 9/30/2015 Incident Date: 9/28/2015 Incident Location: 23089 Potter Trail Incident City/State: Kirksville MO Latitude: 40.21258 Longitude: -92.60869  Report Origin: Private - Citizen Additional Information: Caller reports that his personal vehicle suffered paint damage when calcium hydroxide dust settled on it. He said the City of Kirksville, sometime around 9/28/2015, overfilled their holding tank by 1.5 tons during a transfer. He reports that vehicles at Kirksville Auto Auction also sustained paint damage. He also reports meeting with an insurance adjuster working for the City of Kirksville, and that the adjuster denied his claim.					
<b>Comments</b> Based on observations made during the investigation, the Kirksville Water Plant and Beelman Trucking Company caused or allowed particulate matter to leave the property in violation of Missouri Air Conservation Commission Regulation 10 CSR 10-6.170 (1)(A) and (B), Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin. Notice of Excess Emission #NE150008 is being issued to the Kirksville Water Plant and Notice of Excess Emission #NE150009 is being issued to Beelman Trucking Company.								
SERO	2015-09-25	2015-08-24	Unknown	Rolla	Phelps	Burning	SBV	
<b>Concern No.</b> 23695			<b>Concern Info</b> (SP #6142) Rolla Rural Fire Department reports that a house that was to be demolished has caught on fire. The fire department will fax the incident report to Rolla Satellite Office. Location of burnt house is 13700 County Road 7000. Owner lives at 13735 County Road 7000, Rolla, MO.					
<b>Comments</b> On August 25, 2015, I received a call from the Rolla Rural Fire Department (RRFD) of the house fire. Sgt. Bill Lewis stated that he would forward the incident report to the Rolla Satellite Office. On September 15, 2015, I contacted the RRFD and requested a copy of the incident report again. I received the fire department's incident report on September 15, 2015. See attached. It stated that the homeowner had been burning brush next to the structure around 17:00 that evening and then returned to his adjacent residence. At 20:25 DRFPD advised central dispatch of a fully involved house fire. The homeowner was on scene but did not make a 911 call.  I drove by the site on September 25, 2015, to observe the property. The site has been cleaned of all debris and has been sewn with grass. Straw was covering the cleared ground and was being watered. See attached photos.

SERO	2015-09-17	2015-09-16	Jadwin Sawmill	Salem	Dent	Fugitive Dust	JD	
<b>Concern No.</b>	23864	<b>Concern Info</b>	(SP #6365) Thank you for stopping by the other day. Too bad you weren't a couple days earlier. I beg you to come tomorrow or Thursday. The south wind is blowing, and the last two days have been really bad. The mum breeder from the Netherlands is here, and today the mum trial coordinator from Chicago was here, also. They had trouble doing their evaluations because of the sawdust in their eyes. If you come when it is this bad, and tell me that the amount of sawdust is acceptable, I will not bother you again. I am afraid I am going to lose the mum trial because of all the sawdust. That would be a loss of around \$25,000 a year. Yes I am begging you to come Wednesday or Thursday. Seeing is believing. This is the show me state. Tim					
<b>Comments</b>	Fugitive emissions was crossing the property boundary. Sawdust and fines were covering the mum crop, the employees and the mum inspector on site. Mum inspector was counting points off the mums for the amount of sawdust on the plants. Last rain was September 10, 2015.  During the investigation the wind was 11 mph from the South Southwest.  The state vehicle was parked in front of the "store." When I returned to my vehicle my windshield was covered in sawdust. The property boundary is over 1200 feet from the front of the store.  NOEE 09152015JD01 SE was issued for Restriction of Particulate Matter in the Ambient Air Beyond the Premises of Origin.							
SERO	2015-09-18	2015-09-17	Flickerwood	Fruitland	Cape Girardeau	Other	JD	
<b>Concern No.</b>	23996	<b>Concern Info</b>	(SP #6391) Covering us in smoke.					
<b>Comments</b>	Upon arrival I observed normal smoke from the cyclone. This investigation was an unannounced investigation. I proceeded to observe and decided to complete a Method 9 observation. I observed starting at 11:22 AM and finished at 11:38 AM. Smoke ranged from 5 % to 15%. 15 minute average was 8.59 %. There were not any reading above 15 % so I did not continue to read for 1 hour. Flickerwood Farms, LLC is maintaining the production records as required.  No violation observed.							
SERO	2015-10-27	2015-09-18	Save It Recycling	Farmington	St. Francois	Fugitive Dust	JD	
<b>Concern No.</b>	24011	<b>Concern Info</b>	(SP #6392) Caller did not want to make a specific complaint but was concerned in general about a recycling business that is grinding shingles, wood and plywood. Caller said that when they grind, especially when they grind the wood & plywood, that there is dust. Caller wanted to know what could be done and whether the facility had all the necessary permits. Caller would like DNR to visit the grinder and let them know what the regulations regarding dust are. Also, worried for children playing outside at the Mother Goose Day Care, located just down the street.					
<b>Comments</b>	Save it Recycling is storing used shingles at their property. There was not any activity on site. The gate was closed and no trespassing signs were posted. Photographs were taken from the road right of way.  No violations observed, no further action

SERO	2015-09-29	2015-09-23	Noranda	New Madrid	New Madrid	Particulate	TR	
<b>Concern No.</b>	24043	<b>Concern Info</b>	(SP #6435) RP has gases that go in the air especially at night. CP is concerned that it is hazardous.					
<b>Comments</b>	This facility receives annual air inspections and has been recently regularly receiving environmental concern investigations from this office. The Noranda Aluminum is a major source for criteria air pollutants and is required to report monthly stack tests results of pot line air pollution emissions and annual plant wide air pollution emissions to the Air Pollution Control Program. They are also required to report pollution releases to the Toxics Release Inventory maintained by the United States Environmental Protection Agency. While the facility does have hazardous air pollution emissions, it has multiple air construction and air operating permit that allow it to operate subject to various conditions. Noranda Aluminum operates 24 hours per day 7 days per week in 12 hour shifts. Some of the facility operations are continuous others occur at various limited times during the day. The most recent observations of this facility were on September 10, 2015, from 10:44 a.m. to 12:09 p.m. and no violation was noted.							
No violation is known to have occurred.								
SERO	2015-09-23	2015-09-25	Levi Battles	Dexter	Stoddard	Burning	JD	
<b>Concern No.</b>	24054	<b>Concern Info</b>	(SP #6455) Burned a house on Wednesday and buried it on Thursday.					
<b>Comments</b>	I observed open burning of demolition debris occurring on September 23, 2015, at 1:00 PM. I stopped and discussed the open burning with the employees of Levi Battles about open burning requirements and advised them it would be best to stop open burning. The employees said they would put the fire out. Mr. Levi Battles made contact and ask for clarification to the open burning requirements. After a thorough discussion on open burning, Mr. Battles stated that he would not open burn again without following the requirements. Mr. Battles stated the City of Dexter Fire Chief Don Seymore had been by to also discuss the open burning requirements for Dexter.							
The next day Amy Baker, Environmental Supervisor, Unit Chief of the Air Pollution and Hazardous Waste Unit received a complaint stating that Mr. Battles had open burned and buried a building. We had already investigated the complaint the day before.								
Mr. Battles received a citation from the City of Dexter. After the discussion with Mr. Battles and he expressed his willingness to comply in the future, I did not take further action.								
SERO	2015-10-02	2015-09-28	Parma Head Start	Parma	New Madrid	Asbestos	TR	
<b>Concern No.</b>	24068	<b>Concern Info</b>	(SP #6476) The caller is concerned that the proper procedures for asbestos were not followed when the demolition of the Parma Head Start gymnasium was completed during the summer of 2014.					
<b>Comments</b>	This demolition project was actually investigated back in the fall of 2011, on September 29, 2011. At that time, a notice of violation was issued for failure to notify of the demolition to the City of Parma. Paperwork submitted suggested that all asbestos had been removed prior to the demolition. I informed the concerned party that if he is concerned that asbestos was improperly handled in 2011 and that the Parma Head Start's heating ventilation and air conditioning system remains contaminated, the indoor air quality could be checked by an state-certified air sampling professional and that dust samples from the ductwork could also be taken and sent to a testing laboratory for analysis for the presence of asbestos. I e-mailed the internet address for the list of air sampling professionals and I asked that the concerned caller please let us know if there are more recent or future environmental developments in Parma.							
No new violation is believed to have occurred.								

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2015-10-02	2015-10-02	Howardville Community Betterment	Howardville	New Madrid	Burning	TR	
<b>Concern No.</b>	24128	<b>Concern Info</b>	(SP #6564) Caller reports that some furniture from a school in Howardville may be open burned. Caller states that several people are going to remove asbestos and he/she believes that they have removed furniture from the school as part of the clean up project.					
<b>Comments</b>	On October 2, 2015, I telephoned Ms. Vannessa Frazier, Executive Director for Howardville Community Betterment, and she stated that an amount of old school furniture had been removed from storage and open burned on an eleven acre site near Howardville. This furniture disposal was done as preparation for the Howardville School voluntary clean up project. A Letter of Warning (LOW) was issued on October 8, 2015, to address and document this action, which is a violation of 10 Code of State Regulations 10-6.045 Open Burning Requirements.							
	LOW was issued to Howardville Community Betterment.							
SERO	2015-10-09	2015-10-08	Lead Belt Materials Inc.	Desloge	St. Francois	Air Odors	TR	
<b>Concern No.</b>	24148	<b>Concern Info</b>	(SP #6600) Caller reports that Lead Belt Materials Quarry II's asphalt plant is releasing bad odors. The caller has some health problems and is very bothered by the odor level and cannot be outside. The smell is about to choke them. Caller reports that the odor problem has lasted three or four days and is a combination of a strong chemical smell and smoke.					
<b>Comments</b>	I first began odor surveillance on October 9, 2015, at 1:06 p.m. to 1:18 pm. No visible emissions were noted in the area. It appeared that the Lead Belt Materials Company asphalt plant was not in operation, the weather was cloudy and there was some intermittent drizzle. I returned on October 14, 2015, for additional surveillances in the area from 11:27 a.m. to 12:01 p.m. and then from 1:00 p.m. to 2:02 p.m. It did not appear that the Lead Belt Materials Company asphalt plant was in operation. The weather was sunny and warm. I surveyed additional sources in the area including Valley Minerals and the asphalt plant at Base Rock Minerals (Mineral Area Asphalt); but no odor problems were noted. I contacted Mr. Anthony Wallace with Lead Belt Materials Company and he stated that the asphalt plant operations were routine during and before the date that the concern was received. There were no malfunctions or unusual operations at the asphalt plant.							
	No violation was observed.							
SERO	2015-10-13	2015-10-13	Capital Sand	Jackson	Cape Girardeau	Fugitive Dust	AB	
<b>Concern No.</b>	24165	<b>Concern Info</b>	(SP #6612) Capital Sand has opened a frack sand quarry on county road 347 in Cape Girardeau County. The concern is the increased dust levels on county roads 346 & 347 caused by the semi truck and trailer traffic. Our quality of life has decreased because of the dust levels in our neighborhood. This is causing sinus problems for my wife and I. The dust covers everything outside, vehicles, patio furniture, windows, roof, brick, front porch etc..... Makes mowing the yard terrible because of all the dust on the front lawn. I have noticed increased dust inside our house and my shop. When there isn't any breeze the dust hangs in the air and cause's a driving hazard. Come on out and see for yourself before it rains. It is dry and DUSTY now! I would rather Capital Sand not get my name, but the DNR can contact me if needed. Several other neighbors are complaining. Thank You					
	I also contacted Cape Girardeau County Commissioner Paul Koeper (573) 243-1051. The county is dragging their feet on getting the road paved. They won't start on the road work until they get grant money and 100% easements from land owners. They could pave sections now to reduce dust levels in front of people's houses.							
<b>Comments</b>	The Department of Natural Resources does not regulate unpaved public roads.							

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2015-10-13	2015-10-13	Unknown	Poplar Bluff	Butler	Burning	AB	
<b>Concern No.</b>	24166	<b>Concern Info</b>	(SP #6613) The Farmers are burning pick fields creating air pollution, hazards to people with asthma and other breathing problems. At this time of year its hard to be outside.					
<b>Comments</b>	The Department of Natural Resources' open burning regulations specifically exempt agricultural burning.							
SERO	2015-10-20	2015-10-14	Capital Sand	Jackson	Cape Girardeau	Fugitive Dust	TR	
<b>Concern No.</b>	24174	<b>Concern Info</b>	(SP #6628) Capital Sand has opened a frack sand quarry on county road 347 in Cape Girardeau County. The increased dust levels on county roads 346 & 347 caused by the semi truck and trailer traffic is unbearable. Can anything be done.					
<b>Comments</b>	The state regulation that could apply to this situation is at 10 CSR 10-6.170, "Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin." However, there is an exception or exemption at (3) "Section (1) shall not apply to the following (A) Those Portions of unpaved public roads that are not designated as nonattainment areas for particulate matter;" Therefore, the rule does not apply in this instance, since only Cape Girardeau County Roads are involved. I referred Mr. Mike Allman to his County Commissioners' Office.  No violation occurred.							
SERO	2015-10-13	2015-10-14	Timber Ridge Landfill	Richwoods	Washington	Air Odors	SBV	
<b>Concern No.</b>	24175	<b>Concern Info</b>	(SP #6629) There is landfill odor at his property, east of the landfill. He stated that the odor is not detected all of the time and is usually detected in the early morning and late evening.					
<b>Comments</b>	On October 13, 2015, I contacted the concerned party and then drove to his residence to discuss further and investigate the odor. When I arrived he approached the state vehicle and didn't want me to get out as he had people interested in the property. There was no odor detected at the time of arrival. I told him that I could come back another day and get there earlier in the morning and hopefully detect some of the odor. I did not stop in at the landfill at this time, but have been informed in the past that as of October 9, 2015, there had not been any operational changes at the landfill. Mr. Horton, the concerned party did inform me that he has lived at the property for ten years and the first time he detected any odors was last July, around the time the landfill was installing the additional gas wells.  On October 19, 2015, I again stopped at the concerned party's residence and spoke with the couple about the odors. There was no odor at the time of investigation. They claim that the landfill releases the odor at certain times either late at night or early in the morning when houses would more likely have their windows closed. I then stopped in at Timber Ridge and spoke with the managers of the facility. They were unaware of any nuisance odors that would have caused several calls last week. They did state that they are budgeted to install a larger flare and around five additional gas wells in the first quarter of 2016. The current flare is up to capacity and the larger flare is much needed and should aid in the odor concerns.  Timber Ridge also performs weekly checks on the gas wells. The managers are also alerted via phone if the flare goes out. The last incident of this was on 10/7/15. However, he stated that the flare was only down for 40 minutes from the time he received the alarm. This has only occurred 2-3 times for the year.							

### Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2015-10-23	2015-10-14	C.B. Asphalt, Inc. Plant #9	Scotsdale	Scott	Other	TR	
<b>Concern No.</b>	24181	<b>Concern Info</b>	(SP #6634) Chester Bros is bringing in an asphalt plant to operate at Seminole Ag Lime. Caller is concerned about the exhaust height and believes is at a height that will cause the fumes to settle in his neighborhood. Caller would like to know if they have a permit. Caller would like someone to explain what emissions come from an asphalt plant.					
<b>Comments</b>	I began investigation in the area during the morning of October 19, 2015. I was told by quarry personnel that the asphalt plant was operating nights. The state project involved work on I-55. I returned on October 21, 2015, and continued my investigation. I was in the area checking for odors beginning in the afternoon at 4:30 p.m. and continuing until 8:10 p.m. in the evening. I did not encounter odors of a regulated concentration from any source in the area. During my observations work on the northbound lane of I-55 was taking place. I surveyed areas around the quarry on a route that gave me a clear view of the quarry and asphalt plant as well as a view of I-55, so that I could confirm that the plant was in operation, since no odors were detected from the asphalt plant during this investigation. Moreover, this plant received a level II state source air inspection at this location on August 12, 2015, and was found, based upon the information reviewed and the processes observed during the inspection, to be in compliance with the applicable air laws and regulations.							
No violation was observed.								
SERO		2015-10-15	Nicole Hancock	Vichy	Maries	Other		
<b>Concern No.</b>	24186	<b>Concern Info</b>	SP # 6646 Anonymous complainant states that RP has dug up their lagoon and placed the material 30 feet from his drinking water well.					
<b>Comments</b>								
SLRO	2015-09-16	2015-09-08	Ken Bowman	Troy	Lincoln	Open Dumps / Burning / Other	PM	
<b>Concern No.</b>	24297	<b>Concern Info</b>	In June of 2015, Mr. Ken Bowman was paid \$3,000 to demo a home by the same people that own Cuivre River Ranch across from 7 Cabin River Rd, in Troy, Missouri.  Mr. Bowman then demolished the building by burning it, had the metal removed from the ash and debris, loaded the remaining ash and debris into his dump truck and dumped it into the creek on one of his neighbor's property without that property owner's knowledge.					
<b>Comments</b>	I could not find a dump site from the directions given. I did not find any demolition dump around Davis nor could I see anything from the Davis Cuivre bridge. I left a message to call with better directions. On October 2nd, the DNR received an online concern of dumping in the Cuivre River near Davis. From the directions in the second concern I found an area on the banks of North Fork of the Cuivre River that demolished concrete had been dumped. No other trash or demolition waste was observed. However, Davis was completely inundated with flood waters in June, so any floatables and light weight material would have been washed away.							
SLRO	2015-09-18	2015-09-15	Cost Cutter Snow Plow Equipme	Pevely	Jefferson	Fugitive Dust	DB	
<b>Concern No.</b>	24283	<b>Concern Info</b>	Concerned party states an individual is sandblasting large items such as automobile frames in their yard generating dust which is blowing beyond the person's property line. Sandblasting activity has been going on for the past 2 or 3 weeks and usually occurs in the morning hours before noon.  Concerned party states the best location to observe sandblasting activity if from the back parking lot of Victory Church. Victory Church is located on Highway Z approximately 3 miles west of Interstate 55 in Pevely, Missouri.					
<b>Comments</b>	The facility is a snow plow equipment dealer. Mr. Lorinc stated that he had contracted out some sandblasting work to an individual that operated a portable sandblasting unit. The work is complete. Also according to Mr. Lorinc, the sandblasting was down with a wet unit that emitted almost no dust.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SLRO	2015-09-21	2015-09-18	Carstar	Overland	St. Louis	Air Odors	DK	
<b>Concern No.</b>	24284	<b>Concern Info</b>	Anonymous phone message to EPA region 7 stating Carstar at 9425 Midland Blvd. in Overland, MO, was allegedly opening the bay door and the smell of solvent was escaping.					
<b>Comments</b>	Mr. Bonnarens does not understand how the concerned party could have smelled solvent escaping when opening a bay door.							
	Mr. Bonnarens stated all surface coating takes place inside the facility SPICO down draft spray booth. Outside air if filtered, heated and circulated through the booth then filtered again before it is vented through a roof vent. Surface coating is never performed in the 4 assembly bays.							
	Mr. Bonnarens also stated Carstar does not perform entire auto body re-sprays. Most panel replacement surface coating is accomplished using small 5 to 6 ounce batches of paint.							
	No solvent odor was detected during the investigation.							
SLRO	2015-09-25	2015-09-18	Unknown Roofer	St. Louis	St. Louis City	Fugitive Dust / Asbestos	SW	
<b>Concern No.</b>	24289	<b>Concern Info</b>	Email of a concern received by MDNR on the "Report an Environmental Concern" web site form #407." Date of Incident or Date First Noticed Monday, August 3, 2015.					
	Please describe your request. If you are reporting an environmental concern, describe location of concern from nearest town and road intersection. I'm concerned about the construction project occurring in my neighborhood. They do not seem to be following the same methods I see in other areas and materials are often thrown off the roof and left in the yard. I know that asbestos and lead are a concern for any renovation happening in the city and I'm worried about the pollutants occurring here. "							
<b>Comments</b>	I arrived at the property at 1:45 pm on Friday, 9/25/2015. Nobody was working on the building exterior at the time. Two workers who were not involved in the roofing project stated that the roofers had left the property earlier and the roof replacement had been completed and the two unoccupied top floor apartments (3969A & 3971A) were being renovated by new owners and they thought the first floor units were owner occupied. Since this is a residential structure of 4-families or less it is not regulated under the asbestos NESHAP or under the State fugitive dust rules. There was some roofing debris on the ground at the rear of the property. The roofing company's unmarked dumpster was on the sidewalk on the west side of the building but was not accessible.							
SLRO	2015-09-25	2015-09-22	Unknown	St. Louis	St. Louis City	Air Odors	SW	
<b>Concern No.</b>	24286	<b>Concern Info</b>	Concerned party states toxic odors are coming from several factories located on South Broadway. Odor occurs 4 to 5 times per month during early morning and mid evening hours.					
	Concerned party also states they can taste the odor in their drinking water.							
<b>Comments</b>	There are numerous facilities in the neighborhood of Upton and South Broadway that may be the source of odors, including Blue Knight Energy Partners (BKEP) and Cash's Iron & Steel (PSC Metals) on East Nagel, to the NE. These two have been the subject of past complaints. The normal southerly wind direction would seem to eliminate these as candidates. I drove Broadway from south of Upton St. to north of Nagel St. and also Pennsylvania St. There were no noticeable emissions or odors from BKEP or PSC or other facilities in the immediate area. Koeln St., one block south of Upton St., had recently been paved with asphalt from Broadway to Grand. There was still an asphalt odor on the blocks near S. Broadway.

SLRO	2015-09-28	2015-09-24	Bonacker Farms, Inc.	House Springs	Jefferson	Burning	DB	
<b>Concern No.</b>	24287	<b>Concern Info</b>	Farm in House Springs is burning and it smells horrible, like animal waste. Complainant can smell it from his property nearby. It has been burning for at least the past 3 days.					
<b>Comments</b>	Mr. Miederhoff stated that a fire was accidentally set to a large brush pile. Mr. Miederhoff stated that he wasn't sure how the fire began. The House Springs Fire Department responded and allowed farm personnel to extinguish the fire. At the time of the site visit, the fire was out.							
SLRO		2015-09-24	Aberi Still LLC	Marthasville	Warren	Toxics / Air Odors / Particulate	LZ	
<b>Concern No.</b>	24300	<b>Concern Info</b>	The caller stated that Aberi Still LLC is spraying on metal parts outside with no paint booth. The company is a steel piping company. The street it is on is Commercial Drive in Marthasville, MO 63357 across the street from 16003 Town Branch Road where the caller resides. The caller's phone number is 636 433 2373.					
<b>Comments</b>	The process includes cutting metal parts to size, grinding, sawing, welding and painting. Paints are sprayed on metal parts outside at the south side of the building. No paint booth on-site at the time of the visit. No documentation available to demonstrate compliance. "New Source Review is required" letter is sent to the facility. For further information, see the letter.							
SLRO	2015-09-28	2015-09-25	Unknown	Canaan	Gasconade	Air Odors / Burning	DK	
<b>Concern No.</b>	24288	<b>Concern Info</b>	Caller thinks the odor is coming from Elite Auto on Highway 28 in between Canaan and Bland, MO. Very bad odor, smells like burning plastic. Made caller and her son cough when they went outside this morning between 6 and 7 am. Saw white smoke from facility.					
<b>Comments</b>	<p>In doing a Google search, the only Elite Auto close to that area is at 610 Highway 28, Owensville, MO 65066.</p> <p>No evidence of open burning was observed during a 15 minute site surveillance which was conducted prior the entering the facility.</p> <p>Two employees of Elite Auto, Linda and Eric, provided a walk through of the entire facility. No evidence of burning or burnt plastic was observed.</p> <p>Advised Linda and Eric that burning certain plastics can release deadly chlorine gas.</p>							
SLRO	2015-10-01	2015-09-29	Unknown	Cottleville	St. Charles	Industrial Site Specific	DK	
<b>Concern No.</b>	24301	<b>Concern Info</b>	Anonymous phone message to EPA Region 7 stating there is a company that is releasing Freon into the atmosphere.					
<b>Comments</b>	EPA regulates Freon							
SLRO	2015-10-07	2015-10-05	Residence	Hillsboro	Jefferson	Burning	DB	
<b>Concern No.</b>	24304	<b>Concern Info</b>	Complainant stated that debris (unspecified) from the burned down residence at 8005 Shelle Estates Court, Hillsboro was piled (approximately 10 X 10 foot) and then set on fire on Saturday (10-3-15) and again today (10-5-15) by the owners, Patrick and Kathleen Pesek. The owners left the site without first extinguishing the fire on both days. Recommended to the complainant that the fire department be called (911) to have the fire extinguished for her concern about the unattended fire possibly spreading.					
<b>Comments</b>	The site is an empty lot with what appears to be a trailer pad. I observed the likely area where the burning occurred from the road which was a semi-circle of ash. The burn area was surrounded by lawn chairs. It is unclear what was burned at the site. There was no burnable trash left around the site and very little vegetative waste on the site. The concerned party stated that the fire department extinguished the fire on 10/5/2015, because it was left unattended.

<b>Concern No.</b>	23678	<b>Concern Info</b>	Oily, horrendous odor coming from tree service recycling center.					
<b>Comments</b>	Observed no odor at the time of the investigation.							
SWRO		2015-09-16	Armor	Nevada	Barton	Air Odors		
<b>Concern No.</b>	23920	<b>Concern Info</b>	Person called EPA and Gary Bertram at EPA Region VII referred this call to you. His number is (913) 551-7533					
<b>Comments</b>	Concerned party says every year Armor (sp?) applies waste on the fields and it smells bad.							
SWRO	2015-10-07	2015-09-18	Unknown	Nixa	Christian	Fugitive Dust / Land Disturbance	RB	
<b>Concern No.</b>	24022	<b>Concern Info</b>	Caller states that the dust blowing off the site of a new subdivision is horrible. He has asked the foreman several times about controlling the dust, and the man just tells him he's trying to get a water truck from somewhere. Caller states that at the end of the day, it looks like it's snowed because his deck, patio furniture, house and vehicles have a thick layer of dust. The caller has to power wash everything down for the weekend use, but does have a lot of photos of the dust problem.					
<b>Comments</b>	No dust was seen off site at the time of investigation, however the potential was very high.							
SWRO	2015-09-22	2015-09-18	Jasper Products Corp	Joplin	Jasper	Air Odors	CG	
<b>Concern No.</b>	24024	<b>Concern Info</b>	Caller said she thought this morning she was smelling Protein Solutions along Duquesne Street, but after talking to other people, they believe it is coming from Jasper Products.					
<b>Comments</b>	No violations found.							
SWRO	2015-09-18	2015-09-18	Unknown	Anderson	McDonald	Air Odors	CG	
<b>Concern No.</b>	24025	<b>Concern Info</b>	Caller states that the odor is starting to build up again in Anderson. She said it has just started but does this at first and then gets stronger and stronger until no one can go outside.					
<b>Comments</b>	No odors detected, no violations.							
SWRO		2015-09-18	unknown	Hollister	Taney	Fugitive Dust	RB	
<b>Concern No.</b>	24026	<b>Concern Info</b>	Caller states that sandblasting of water tower is causing paint shavings and dust to get in her yard. The company used a vacuum one day, and it limited the dust, but they have gone back to no controls. Caller said it looked like little metal shavings and she is worried there is lead in the paint because it's so old. Also, the dust was so bad over the weekend that they couldn't go out and mow.

SWRO		2015-09-23	Unknown	Roach	Camden	Burning	RB	
<b>Concern No.</b>	24077	<b>Concern Info</b>	COMMENTS_OF_REQUESTOR I own a home at the Lake of the Ozarks. Our zip code is 65787, Roach, MO. There is a resident in our cove who burns all types of building trash materials including treated lumber in an outdoor log furnace. The smoke from this burn is so intense you can't step outside. I have COPD and for me this burn is harmful to my breathing and others as well. Residents can not go outside during this time. Is there any ordinance against this kind of burn in accordance to epa standards? I can provide a picture of tonight's burn if necessary. Also, neighbors have reported this to the local sheriff and the resident has been warned but he chooses to ignore any warnings. Hope to hear from you soon. <b>Concern No.</b>	24095	<b>Concern Info</b>	Land application odors and possible water violations associated with land application of turkey manure.					
<b>Comments</b>	Odors from land application of manure are not regulated unless the land application is taking place at the Class IA CAFO the manure was generated from. There were no piles of manure observed in any field along FR 54. I drove west along FR 54 until it came to a 'T' and only observed one field with land application equipment in the distance that did not appear to be moving. No other field showed signs of piles or current land application. No violations observed during the investigation.
