Monthly Air Pollution Control Program Summary Report

For ALL REGIONS - 07/16/2016 to 08/15/2016

Number of Concerns Received RE:

<i>Asbestos</i>	8
<i>Burning</i>	23
<i>Fugitive Dust</i>	4
<i>Odors</i>	8
<i>Particulate</i>	1
<i>Toxics</i>	0
<i>Other</i>	7

Of the above, 5 concerns involved multiple emissions.

Total of Concerns Received:. 46

Number of Investigations of Concerns:

Received during report period. 33

Received prior to report period. 11

Total number of investigations completed: 44

Number of formal notices of violation issued: 1

Please note, the information provided in this report reflects all concerns received during the reporting period as well as all inspection activities that occurred during the reporting period regardless of the date in which the original concern was received.

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2016-07-25	2016-07-21	Hillside State Apartments	Smithville	Clay	Asbestos	DR	
Concern No.	28523	Concern Info	Voicemail left on the MoDNR concern line in Jefferson City regarding Hillside State Apartments in Smithville, MO. She explained that part of an apartment building near her residence burned down August 2015. For approximately the past two months, a crew of people have been demolishing the building. She is concerned that there is mold, they do not have the proper netting and other safety equipment installed, there is dust and particles everywhere, their license plates on all their equipment is expired and she is unsure they have taken proper precautions for permitting or other testing that is required for demolition work.					
Comments	A letter of warning for failure to notify of demolition on a commercial building will be issued to Mr. Coleman, owner of K-K Construction and MACO Management, owner of the apartment building.							
KCRO	2016-07-27	2016-07-21	Hilltop tree service	Turney	Clinton	Burning	SN	
Concern No.	28581	Concern Info	Concerned party states that when he returned home from vacation, the large pile of brush on Mr. Hill's property from his business has been burned. He also explained that there was ash everywhere on his property. He also states that materials other than vegetative waste have been burned, including a mattress and box springs, trash can, plastics, and railroad ties. Mr. Hill puts the railroad ties on the bottom, then covers them with vegetation. Mr. Hill also does a lot of his burning at night.					
Comments	<p>Mr. Hill has had several concerns about burning brush from his business in the past.</p> <p>A Notice of Violation will be issued for violations of the open burning regulation and the fugitive dust regulation.</p> <p>I arrived at Mr. Hill's property on July 27, 2016, around 10:30 a.m. and noticed two burn piles that were still smoldering. Mr. Hill runs a tree trimming operation, and it appeared that the burn piles were mostly vegetative waste. Mr. Hill has had previous NOV's for disposing of commercial waste by open burning.</p> <p>I then went over to Mr. Vest's property and talked with him about the situation. He told me that every day, Mr. Hill brings a load of vegetative waste to his property and stacks the waste in piles to be burned. He lit these piles when the Vests were out of town, and when they came back the piles were still smoldering and there was ash all over their property. I took pictures of two cars and a grill that had ash on them. Also, the roof has had a buildup of ash from the constant burning at Mr. Hill's residence.</p> <p>I talked with Mr. Hill on the phone on the same day while I was at his property. Mr. Hill admitted to burning the piles. At one point he told me it was all generated on his property and wasn't from his tree trimming business. At another point he blamed the department for the burning because he was stacking piles of vegetative wood waste from his tree trimming operation and we wouldn't give him an open burning permit. The piles got too big and he said he had to burn them. He is very emphatic that he will go out of business if he has to pay to dispose of the vegetative waste and that burning is the only way he can run his business.</p>							
KCRO	2016-07-22	2016-07-21	12 Wyandotte Plaza	Kansas City	Jackson	Air Odors	MC	
Concern No.	28584	Concern Info	Every Sunday at 2:00 PM, for approximately 20 minutes, exhaust is emitted from an 8 inch diameter pipe. This pipe is 6 feet high off the ground and points out parallel with the ground. The pipe is located on the US Bank building in the alley. The exhaust causes several symptoms to those within 2 blocks of it. These symptoms include nausea, watery eyes, headache, and difficulty breathing.					
Comments	This concern is located within Kansas City; therefore, it has been referred to Kansas City Air Quality for investigation.							
KCRO		2016-07-22	Lee's Summit Resource Recover	Lee's Summit	Jackson	Air Odors	CW	
Concern No.	28589	Concern Info	Voicemail left on KCRO main line on the evening of 7/21/16. Reporting odor in Newberry subdivision in Lee's Summit by the Resource Recovery Park. It's about 7:30. The odor has been bad all day, but it's especially bad right now. It's awful right now in our neighborhood.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2016-07-25	2016-07-25	Living Color Autoworks	Kansas City	Jackson	Fugitive Dust	SN	

Concern No. 28601

Concern Info I received an email from Mr. Gary Bertram of the EPA.

Seth – I just got off the phone with a person wishing to file a complaint. Here are the details:

Complainant: Rick Toloso
Complainant Phone: 816-985-8302

Complaint Details: Mr. Toloso is concerned about activities conducted at Living Colors Autoworks, located at 11810 U.S. 71 Hwy, KCMO 64137. Mr. Toloso states that Living Colors is "blasting" (sand or other media) metal parts in the open behind their building. Mr. Toloso is concerned because his property is adjacent to Living Colors. I asked Mr. Toloso when the blasting activity typically occurs and he stated it is typically conducted before noon.

Additional Info: Mr. Toloso is willing to talk with the investigator.

Take Care,

Gary Bertram
U.S. EPA - Region 7
11201 Renner Blvd
Lenexa, KS 66219

913-551-7533

Comments This email has been forwarded on to Kansas City Air Quality to be investigated because it is in their jurisdiction.

KCRO	2016-08-03	2016-07-26	B&R Insulation\Unicorn Apartme	Ferrelview	Platte	Asbestos	SN	
------	------------	------------	--------------------------------	------------	--------	----------	----	--

Concern No. 28600

Concern Info I one day came home to my apartment complex, and all of a sudden there is an asbestos sign and a decontamination shower. There had been some water damage; the apartment had been flooded. All of a sudden, the asbestos sign is gone, but all of the equipment is there, they got it sealed off, and they have been blowing the air all through the building. I want to make sure that they are following proper procedures. I have seen breaks in their plastic

Comments No violations were noticed during the inspection.

An inspection was conducted on this asbestos project. Please refer to the inspection report for further details.

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2016-08-19	2016-08-05	Mike Kratzer	Holt	Clinton	Burning	DR	
Concern No.	28633	Concern Info	<p>The caller states that his neighbor to the north is bringing stuff in and burning it. It produces a thick black smoke and a noxious smell. He burned around 10am on July 15, last Friday (July 29) in the morning and this morning. He has observed his neighbor hauling stuff in trailers and trucks (possibly shingles and/or plastic caller did not know for certain) but the burning seems to occur when an old El Camino shows up. This morning it was like a fog from the smoke.</p> <p>Last week they spoke with the fire department. They visited the property last Friday but the fire was out and (according to the caller) they did not go on the property where the burning occurred. They have also spoken to the sheriff.</p>					
Comments	<p>Demolition/renovation waste consisting of vinyl flooring, dimensional lumber, fiberglass, siding, a ceiling fan, and other waste was disposed by open burning. Also, open burning was used as a means to salvage copper wiring. A letter of warning will be issued to Ms. Kratzer and her son, Mike.</p> <p>On August 16, 2016, I responded to the above concern. Upon arrival, I went to the concerned party's address to respond to his most recent call, which was on Monday, August 15, 2016. I spoke with the concerned party about the property owner next door. He said he had found out the owner's name and number and also the same of her son that was living on the property as well. He told me about the burning incident as well as a pile of brush and debris at the back of the property. He offered to take me into his field so I could look at the pile, but I thought the son would see me and not answer his door. Therefore, I declined and went to the property where the burning was taking place.</p> <p>Upon arrival to the responsible party, I went to the door and knocked several times, but there was no answer. I left the open burning regulation and other fact sheets along with my card.</p> <p>When I returned to the office, I received information on the property owner. I called the owner and told her about the concern and that I went out to the property to talk to her son, but didn't get an answer. I asked her if she was aware that what had happened was against Missouri state regulations. She was not aware of the regulation. I asked if I could meet her at the property to go and investigate the burning and the pile of debris. She agreed to meet me at the property.</p> <p>On August 19, 2016, I returned to the property and met Ms. Kratzer and her son, Mike. I saw the pile that contained vinyl flooring, dimensional lumber, fiberglass, siding, a ceiling fan, and other demolition waste. Ms. Kratzer told me that her house had termites and that she was fixing the inside where the infestation was. I told her that the demolition waste from her house in the brush pile had to be completely removed before the pile could be burned. She told me that she would be getting a roll off dumpster and the pile would be removed. I then went to the site where burning of the copper wire took place. It was in a small water trough, and the ash was approximately 1/4 inch in the trough. Her son told me that it was a one time deal and would not be doing that again.</p> <p>I explained that I left the burn regulation and other fact sheets on Tuesday at his door. He said that he was in the back of the house and didn't hear me knocking and that he did get the sheets I left. I told them that I needed a receipt from the dumpster and photos showing that the pile was cleaned up. They said that they would.</p>							

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
KCRO	2016-08-18	2016-08-08	Mike Downing	Cross Timbers	Benton	Open Dumps / Burning	JC	
Concern No.	28655	Concern Info	There was a house at end of drive, it was bulldozed and burned this weekend, may be in pond where trees were also dozed just north of the old house site. There is a new 2-door garage/barn there, house was just southwest of that. Can see from google maps.					
Comments	No proven environmental concerns.							
<p>I investigated the site on 8/18/2016. When I drove to the site, no one appeared to be on the property. There was a locked gate, so I left my card on the lock. From the road, you could see where the house had been, but there was no debris around the area. The next day, I received a call from Mrs. Downing. She said she had been out of town during the fire, but said her husband called her and told her the old farm house had burnt down. When I asked her whether he had burnt it or if it had been accidental and she was not able to answer the question. She repeated she had been out of town. I informed Ms. Downing that they were not allowed to burn anything, but vegetative and household waste. I asked her what they did with the remains of the house. They said they removed metal items and scrapped them, but said there was absolutely nothing left of the house. I informed her that the concern stated she had buried the waste and she said that they would not do that. She said they worked very hard to clean out the creek on the property when they purchased it and would not do anything to mess it up again. I asked Mrs. Downing if her husband could call me and she said he would. I have not received a call from Mr. Downing.</p>								
KCRO		2016-08-10	Doyle Collins	Pleasant Hill	Cass	Burning / Open Dumps	CW	
Concern No.	28700	Concern Info	CP Called and reported that Doyle Collins at 320 Front St. in Pleasant Hill is hauling in regulated waste, such as R.R. ties, couches and other trash and piling it up on an empty lot and setting it on fire at night. He burns the pile about every other week. Once the waste is burned he brings more in and repeats the process. The property sits on a flood plain and it does flood. The CP said that the fire dept. has been out there to put out the fires on the past, and the police dept. has been contacted as well, but they told the CP that nothing can be done until he's actually caught lighting the fires. CP also said that the Katy Trail runs close by the property and he rides his quad runner through there and through farmers property and tears up the trail and farm fields.					
Comments								
KCRO		2016-08-11	butler rural estates	Butler	Cass	Domestic Sewage, Other		
Concern No.	28703	Concern Info	Several years ago CP grandmother lived in a senior housing unit at Butler Rural Estates and it had a smell to it. CP figured it was nothing of concern. CP's family member moved in about 2 months ago and there is a bad smell in the apartment. The sewer and creek run behind the apartment. Cp's family member has been very sick lately. CP will get light headed when they visit. The apartment complex was built in 1976 and CP knows that some of the cabinets are original so wonders if that could be a possibility as well. Some apartments are uphill and some are downhill by the sewer and the housing unit said they will allow sister to move uphill. CP had recently looked at another apartment there that had mold and the maintenance worker painted over it. Housing said they will not do anything about it until the family a resident is hospitalized. Several people that live there have said they have had health problems since moving there as well. CP has gone to the city and county, but they did not investigate. CP's family member is still in the old apartment as she packs and has not decided if she will move uphill or move out. The family member has been staying with the mother because the smell is so bad.					
Comments								
KCRO		2016-08-15	Day's Tree Service	Platte City	Platte	Burning	DR	
Concern No.	28734	Concern Info	Caller reports that he is still experiences issues with burning from Day's Tree Service. I explained that Mr. Day has received a burn permit and explained the permit conditions. The caller stated that when Mr. Day burns wood chips, the pile will smolder for days.					
Comments								

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
NERO	2016-07-21	2016-07-18	Kevin Hiatte	Holts Summit	Callaway	Open Dumps / Burning	JE	
Concern No.	28439	Concern Info	Email States: "Resident at 1661 cedar lane Holts Summit Mo is dumping computers and TV's in a residential area. They also are burning materials for copper scraps and metal."					
Comments	Violations of the Missouri Solid Waste Management Law were observed. A Letter of Warning is being issued to Mr. Kevin Hiatte requiring the removal and proper disposal of all regulated solid waste on the property.							
NERO	2016-07-20	2016-07-19	Eddie Hays	Louisiana	Pike	Burning	DB	
Concern No.	28445	Concern Info	The caller reports that last Friday Mr. Hays was burning a load of boards and waste dumped in a pond on he and his girl friend's property on Route NN near Louisiana, MO. Before that, a load of mattresses and box springs was brought to the property and burned. Other loads of boards and demolition waste have been brought in and burned. The waste may be coming from houses being demolished by Alan T. Lynn. A dump truck is being used to haul the waste to the property. The waste was being dumped into a pond next to the road, which has since been filled with water from the rain.					
Comments	Violation of 10 CSR 10-6.045 Open Burning Requirements. A Letter of Warning will be sent to Mr. Hays and Mr. Lynn.							
NERO	2016-07-21	2016-07-20	Jeff Power	Princeton	Mercer	Asbestos	SB	
Concern No.	28454	Concern Info	Caller reports that demolition was taking place, and possibly finished, of the former Jeff's Place building in Princeton. Jeff's Place had burned and also burned a building next door. Equipment with the name, "Ron Stark," was seen wrecking the building and the debris was then hauled to a farm. Also, demolition is taking place on the adjacent building. May or may not be the same contractor.					
Comments	Investigation was conducted a month or two after the clean-up from a fire had already taken place. Media photos from the time of the fire confirm that the building was demolished by fire. There was no violation of the asbestos rules. However, it was determined that Mr. Power conducted open burning of demolition waste in violation of the open burning rule. Issue a Letter of Warning to Mr. Power for conducting burning of regulated materials. Provide recommendations on asbestos requirements for commercial buildings. Send Mr. Stark a copy of the letter to make him aware of the requirements.							
NERO	2016-07-25	2016-07-21	Dawn Schachtele	Higbee	Randolph	Burning	DB	
Concern No.	28466	Concern Info	Caller reports that there are people burning something like rubber that puts off black smoke. They do this maybe 2 or 3 times per week and have been doing it for the last two days. This is on Route A south of Higbee 1/4 mile south of the Route B turnoff at the first farmhouse on the left (east). There is a sign saying something like 'Schmitt' out front. The burning is way in the back of the property.					
Comments	Violation of 10 CSR 10-6.045 Open Burning Requirements. A notice of Letter of Warning is being issued.							
NERO	2016-07-25	2016-07-25	Division of Employment Security	Jefferson City	Cole	Asbestos	DB	
Concern No.	28479	Concern Info	Caller states a heat register leaked about 8 months ago. Asbestos abatement took place on the heat register. Recently, 2 more heat registers leaked but no asbestos abatement has taken place. The caller is worried about asbestos being disturbed on the 2 heat registers. Additionally, the caller is concerned about mold and mildew in the offices where the heat registers are leaking. I stated the Department of Health and Senior Services would need to be contacted. Bureau of Environmental Epidemiology: 573-751-6102.					
Comments	No violation of the asbestos rule was found during the investigation. No actions needed.							

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
NERO	2016-07-25	2016-07-25	Karl Bartholomew	Macon	Macon	Burning	SB	
Concern No.	28480	Concern Info	We were contacted for assistance by Chief Ross Dutton with the Macon Fire Department. A property owner was tearing down a house trailer and salvaging the metal and lumber. He had burned some demolition waste and was told not to burn again. He put some concrete blocks up in a ring and then burned more demolition waste. Now he has piled the concrete blocks up in a ring again and it appears that he is preparing to burn again. The owner is involved with Meth and investigator should only go to the site accompanied by law enforcement.					
Comments	Issue a Letter of Warning for solid waste and open burning violations. Immediately stop burning all waste at the property. Take precautions to prevent waste from blowing off the property by immediately picking up the waste. Take the remaining waste to a permitted landfill, following Macon Code Enforcement office time frames (7 days from date of investigation). Provide landfill receipts as proof of proper disposal within 30 days. Return a response letter to the department within 30 days.							
NERO	2016-07-27	2016-07-27	Terra Renewal Services	Bevier	Macon	Air Odors	CB	
Concern No.	28500	Concern Info	Ray Preston called in concerned about odor issues with the land application of chicken guts on agricultural fields near the Love's Truck Stop in					
Comments	No violation of the Missouri Air Conservation Commission odor regulation at the time of the investigation.							
NERO	2016-08-05	2016-08-04	Walter Cline	Luray	Clark	Burning	DB	
Concern No.	28620	Concern Info	Caller reports that Walter Cline is burning again in Luray about a block away from where he had burned before. Caller stated that Mr. Cline had drug two trailer houses from other sites on Mr. Cline's property to near the ball field and set them on fire. Previous site is on 2nd Street about halfway between South St and franklin Street near the ball field.					
Comments	Mr. Cline was issued a Letter of Warning for burning nearby on June 9, 2016. ACE# 27587 He lives in a new house directly south of the ball field just east of 2nd Street and Hwy 136 intersection Violation of 10 CSR 10-6.045 Open Burning Requirements.							
NERO		2016-08-04	Unknown	Mexico	Adair	Asbestos	PM	
Concern No.	28622	Concern Info	Caller reports that a contractor is doing remodeling work at the United Credit Union in Mexico without having done an asbestos inspection first. Stated that a sewage backup had occurred and they had removed baseboards and drilled holes and were getting ready to cut into the drywall. Contractor may be Flowright or Brick City.					
Comments								
NERO	2016-08-09	2016-08-08	Kelly Bevill	Kahoka	Adair	Asbestos	SB	
Concern No.	28648	Concern Info	A demolition is ongoing at the West Potter Street Car Wash in Kirksville.					
Comments								
NERO	2016-08-23	2016-08-12	Unknown	Jefferson City	Cole	Burning	PM	
Concern No.	28689	Concern Info	Caller reports that a large pile of possibly railroad tires were burned Tuesday night at 7pm. The caller reports that the location of the burn was near the grain building by the railroad tracks.					
Comments	At the time of investigation, based on the information provided, no violation was found of Missouri Air Conservation Commission regulation 10 CSR 10-6.045, Open Burning Requirements.							

Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
NERO		2016-08-12	Unknown	Harris	Sullivan	Burning	BS	
Concern No.	28692	Concern Info	<p>Caller sent email to Scott Adams, P.E., Environmental Engineering Unit " While I was at the WP ro/co, I had messages left on my phone. Ronald Putnam, village chair for Harris, MO. 660-654-0823 cell , 660-794-2965 home , prput68@yahoo.com I called him back. He said that there was a neighbor that had stockpiled various kitchen trash, including aerosol cans, then lit them on fire a week ago. He said that the pile was about the size of a car, with loud popping explosions from the aerosol cans. He said the debris and smoke were blowing into his yard and around the village. The occupant of the home was Josh Smith, on the north side of Main St., northeast of its intersection with 3rd St. It is the lot with several junk cars with the guy living in the old grocery store. Mr. Putnam also said there was a woman on the north side of Harris (Darlene Rigger?, on the north side of College St. between 3rd and 139) who was stockpiling lots of household trash. He said she was not burning it. Further, Mr. Putnam said that they have several abandoned properties that were not being maintained." PMM - I spoke with Mr. Putnam by phone 8/12/2016 - In addition to the above comments Mr. Putnam said Mr. Smith is disabled and that Mr. Smith's burning is a nuisance. Please note that Mr. Putnam reports stockpiling and trash in his comment above.</p>					
Comments								
NERO		2016-08-12	Josh Smith	Harris	Sullivan	Burning	BS	
Concern No.	28707	Concern Info	<p>Caller stated that Josh Smith has stockpiled household waste, including aerosol cans, then lit them on fire a week ago. Caller stated that the pile was about the size of a car, with loud popping explosions from the aerosol cans. Caller also said the debris and smoke were blowing around the village.</p>					
Comments								
NERO		2016-08-12	Unknown	Columbia	Boone	Fugitive Dust	PM	
Concern No.	28745	Concern Info	<p>Caller stated that large land disturbance activity was taking place on Trimble Road between Hy-Vee and Houlihan's. A significant amount of track out was present on Trimble Road going east from the site, and it had been getting worse. The site did not have any BMPs and was in close proximity to Hinkson Creek. There was also a large amount of dust in the air around the site. Per D. Ruby/NERO - The site has a land disturbance permit. We're referring the concern to Columbia's MS4. Let me know if you need any more information.</p>

Concern No.	28442	Concern Info	<p>(SP #9186) RP is building screens too close to school.</p>					
Comments	<p>Heartland Materials is installing a new screening plant for rock production. The screening plant is being built within the allowed working area for this facility. The closest property boundary is Interstate 55 on the West side of the plant. At this time the setback distance is being met for the construction of the screening plant.</p>							
No violations observed, no further action.								

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2016-07-22	2016-07-22	Jeff Alford (R.L. Persons)	Poplar Bluff	Butler	Fugitive Dust	AB	
Concern No.	28467	Concern Info	(SP #9214) Caller is concerned about the dust being generated from the construction site and leaving the property. The caller wants to know if reasonable and appropriate action is being taken to control or keep down the dust. The caller reports that he is having to change his air conditioning filter more often than usual and that it is dirtier than usual. The caller states that his air conditioning unit outside is dirtier than usual and is going to have to be cleaned and serviced as well. The caller is concerned that his family's health is being affected. Mr. Lemons is leaving his telephone number, so that he can be called back with the investigation results ASAP. He also requests a copy of the report. Mr. Lemons stated that he is prepared to call Channel 12 if necessary.					
Comments	On July 22, 2016, Jan Chronister and I visited the construction site at Three River Community College. At the time of our investigation there was no heavy equipment or personnel on site. There were no visible emissions. While at the site we spoke with a Poplar Bluff Police Department Officer who routinely patrols the college campus. He stated that he has not observed any dust issues during the construction work. I contacted Mr. Jeff Alford of R. L. Persons Construction who informed me that all the heavy equipment has been gone for at least 2 weeks, but they did move some dirt out of the basement area last week. Mr. Alford stated that he was not aware of any dust issues and assured me that they have been using a water truck at the site. Truck watering is an acceptable method of dust control.							
No violations observed.								
SERO	2016-07-28	2016-07-28	Andy Fowler	Poplar Bluff	Butler	Burning	JD	
Concern No.	28513	Concern Info	(SP #9286) RP has a pile of old Carpet, vinyl windows, vinyl flooring, adhesive buckets and he says he is going to burn it. This pile is not even 50 feet from residential housing. CP and others in the area are allergic to the smoke from burning these items.					
Comments	Mr. Fowler is aware the debris will have to be removed and taken to a landfill. Mr. Fowler agreed not to open burn the debris.							
No violation observed.								
SERO	2016-08-01	2016-07-29	Corey Bolger	Farmington	St. Francois	Burning	AB	
Concern No.	28533	Concern Info	(SP #9287) There is a house on Electric Street that these people burn their trash. It lets off a lot of smoke and smells awful. The Farmington Police have been notified but do nothing. There is a burn barrel in their back yard and bricks they also burn on.					
Comments	State regulations do not prohibit the burning of residential household waste generated on site. Household waste burned in a burn barrel is allowed by state regulation. Local city ordinances may be stricter than the state.

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SERO	2016-08-17	2016-08-08	Washington Co. Recycling	Cadet	Washington	Burning	SBV	
Concern No.	28643	Concern Info	(SP #9375) I was in Cadet/Washington County area last week & when driving by Washington County Recycling I noticed they were burning. I took a couple pictures & thought I would send to you for investigation/response. It smelled like furniture and/or mattresses burning. This would have been around 3 or so on the 2nd of August.					
Comments	I investigated this concern on 8/17/16 and met with Mr. Tim Smith, the owner of Washington County Recycling. He informed me that they had been burning recently to clean up a pile of skids and cardboard boxes. He stated that everyone burns around the area and he had decided to burn a pile of misc. to dispose of some waste. I told Mr. Smith that cardboard can be recycled and that the open burning of trade waste is illegal in Missouri for business owners. I emailed Mr. Smith PUB02047, "Facts on Open Burning under Missouri Regulations." No further investigation required on this concern at this time.							
SERO		2016-08-11	Federal Compress Building	Portageville	New Madrid	Burning		
Concern No.	28680	Concern Info	(SP #9408) Tearing down the old Federal Compress building and burning it. It was a huge building and is creating a lot of black smoke.					
Comments								
SWRO	2016-07-27	2016-07-18	Travis Blackstone	Mansfield	Wright	Burning	MU	
Concern No.	28432	Concern Info	Mansfield city cop continues to burn after he has been told to stopped. The burning takes place near city hall in Mansfield. The smoke is so bad and black that you cannot breath outside. Former chief of police made him stop now that this chief is gone he has resumed to burn. Mr. Blackstone has been warned before and when he is investigated the pile is cleaned up. Across the road from Kay Dennis car lot in city of Mansfield.					
Comments	No Violations.							
SWRO	2016-07-26	2016-07-19	Affordable Heights Tree Service	Springfield	Greene	Burning	MU	
Concern No.	28481	Concern Info	Caller stated that a tree trimming business hauls in brush and vegetation, and burns it on the property. Caller also said that she has a medical condition that is exacerbated by smoke. The property has no business registered, however Affordable Heights Tree is taking their brush here and burning it.					
Comments	provided him with information on the regulations of tree trimming operations, No violations							
SWRO	2016-07-21	2016-07-21	Unknown	Joplin	Newton	Air Odors	CG	
Concern No.	28485	Concern Info	Caller states that there she smelled odor on I-44 right before the flying J exit. She was heading west from Sarcoxie. She said it was really bad, and had a wet dog food smell, but spoiled. She said she had been smelling it a lot in the mornings but wasn't sure who to call until she talked to a neighbor of hers that calls in complaints on another company.					
Comments	No violations. Nothing additional, no violations.

SWRO	2016-07-27	2016-07-21	Norwood Express Truck Wash	Norwood	Wright	Burning	MU	
Concern No.	28487	Concern Info	Meerts incident, Caller reported business burning tires. A dark plume of smoke was visible. Workers had been observed rolling tires out to the fire. The Norwood Fire Chief was contacted and looked at the situation. he could not readily observe tires burning, but described business waste being burned the and on occasions at the facility. He observed a mattress being burned today. This place is near the Norwood Truck Stop.					
Comments								
SWRO		2016-07-22	Unknown	Springfield	Greene	Burning	MU	
Concern No.	28486	Concern Info	Burn pile with brush also contains regulated materials...baby pool and other larger plastic items.					
Comments visually observed a small potential burn pile with mostly vegetative waste. Among the pile, there appeared to be a blue tarp, or some kind of pool as well as other plastic materials. Also among the pile were remains of a previous burn. Among the remains were aerosol cans, broken glass, Letter of unsatisfactory findings issued,								
SWRO	2016-08-02	2016-07-22	Protein Solutions	Joplin	Jasper	Air Odors	CG	
Concern No.	28489	Concern Info	Caller is concerned with the recent increase in odors from Protein Solutions. The odors get worse in late afternoon and early evening according to the caller. Caller asked to be notified of findings.					
Comments No violations found. Caller reported having researched odor concerns and was aware of the 7:1 ratio. No violations, nothing additional at this time.								
SWRO		2016-07-26	Ryan Foster	Stockton	Cedar	Burning	MU	SW16344
Concern No.	28518	Concern Info	Caller states that the landowner, Mr. Ryan Foster is burning a trailer house, a dwelling on a foundation and several vegetative waste piles.					
Comments Both of the structures were being burned at the same time, with at least two smaller burn piles scattered throughout the property. The entirety of the structure had been burned by the time the investigation started, where little was left standing except the remains of the brick chimney that is visible.								
SWRO	2016-08-18	2016-07-28	Hutchins Construction	Cassville	Barry	Burning	MU	
Concern No.	28527	Concern Info	Hutchens Construction is building homes at Meadows Estates just outside of Cassville on FR 2206 (across the road from 14212) and digging a large pit at each home - they dump all the scraps carpet and all then burn it and cover up the remains. they are burning right now and the caller was advised to call the local authorities to have them make a report.					
Comments No violations								
SWRO	2016-08-05	2016-08-03	Ozark Hardwoods	Seymour	Webster	Particulate / Storm Water	TT	
Concern No.	28604	Concern Info	OHPS is piling many truck loads of sawdust from within their building on outside against their north wall of the building and in doing so there clouds of dust crossing onto my property. I hope that this is not going to by an ongoing problem. THANKS					
Comments see Memorandum in the file We observed some migration of the sawdust to the neighboring property to the north Enforcement staff will follow-up with Mr. Papa.

SWRO	2016-08-04	2016-08-03	Jasper Foods (Jasper Products)	Jasper	Jasper	Air Odors	CG	
Concern No.	28605	Concern Info	Odor smells like sewer. The odor is happening when the air is still. Concerned party is close to Jasper Foods. There another plant in the area that the smell may be originating from. Odor has been strong all day. In the past, the afternoons were worse. Caller states that the smell ranks 5 or above, with 5 being the worst. Worst location in Jasper Foods parking lot. Area around 32nd street also strong. Odor has been consistent for the past two weeks.					
Comments	Nothing additional at this time, no violations.							
SWRO	2016-08-05	2016-08-03	American Tripoli	Seneca	Newton	Fugitive Dust	CG	
Concern No.	28612	Concern Info	Gary Burtrom with EPA called to pass along two anonymous voice mail messages he had from this morning. Anonymous callers stated that American Tripoli was discharging "toxic dust clouds". No other information was provided on the messages.					
Comments	No violations found. No violations observed, nothing additional at this time.							
SWRO	2016-08-22	2016-08-04	Rapid Roberts	Aurora	Lawrence	Asbestos	MU	
Concern No.	28659	Concern Info	Caller says that Rapid Roberts has just purchased the old Bluebird Motel and China Village property that is just south of one of their Rapid Roberts stores. She said she heard that they are going to be demolishing the building soon and that she is concerned about all of the asbestos in those buildings not being disposed of properly.					
Comments	No violations. I contacted Rapid Roberts and got ahold of Mr. Rob Wilson. He stated that demolition had not yet started on the building, and that the company has contracted with Environmental Works to conduct the asbestos testing. I conducted a site visit of the area with permission from Mr. Wilson. The buildings had evidence of being emptied out in preparation of demolition, such as the removal of furniture, and door being taken off hinges. The structures had yet to be demolished, and remained standing. Mr. Wilson stated that tests were scheduled for August 24th, and the company would proceed from there. No further actions at this time.							
SWRO		2016-08-06	Unknown	Verona	Barry	CAFO, Class IA / Air Odors		
Concern No.	28663	Concern Info	The caller reports that she was woken from her sleep by a terrible ammonia like odor coming from a nearby chicken farm. The odor persisted all night to the point where she left her house at 0700-hrs to stay with family. She couldn't remember the name of the farm but stated it was on Barry County Line Road between FR 1170 and FR 1160.					
Comments								
SWRO		2016-08-08	Unknown	Mansfield	Douglas	Asbestos	MU	
Concern No.	28770	Concern Info	Caller states an old church located in Fairview Cemetery was burned down over the weekend (August 6/7) and he believes it had asbestos siding.					
Comments								

Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Monthly Air Pollution Control Program Detail Report

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Concern	INSP Initials	NOV
SWRO	2016-08-12	2016-08-12	Tyson Foods, Inc.	Noel	McDonald	Air Odors	CG	
Concern No.	28782	Concern Info	<p>Caller lives about a mile from the Tyson plant and says that it smells very strongly of ammonia. Trucks are constantly going in and out of the plant. Caller said her daughter lives 10 miles out of town and they can smell it at their house.</p> <p>Caller said that the same thing happened last Friday, but it's considerably worse today. She can barely breathe and was coughing on the phone. She said she can even taste it in her mouth because the odor is so bad. She said it's not a chicken plant litter smell, but more of a chemical smell.</p> <p>She said she tried calling Tyson earlier and they hung up on her.</p>					
Comments	<p>No violations found. There was odor present in Noel and around the city limits. There was a large area of land application northeast of Noel, on Elk Springs Road on the north side of Trestle Park Bridge. This was being conducted by Nebo Solutions, and they were spreading waste from Simmons Foods in Southwest City, Missouri. The odor was very strong, but they were meeting all their setback distance from the property line, and well over the minimum 300 feet from the river.</p> <p>The odor around Tyson's was not strong enough for a detection at 7:1 with the Nasal Ranger, yet was very strong to my nose without the device. Because the air was heavy and still, it was hard to determine if the odor around the plant was coming from Tyson's or the Noel waste water plant or a combination of the two, since they sit next to each other.</p>							

Please note, the information provided in this report reflects all concerns received during the reporting period as well as all inspection activities that occurred during the reporting period regardless of the date in which the original concern was received.
