Greensboro, NC 27420

## APPROVAL LETTER 2001-03B

Dear Mr. Riffle:

The Missouri Department of Natural Resources' Air Pollution Control Program reviewed the recommendations from the Technical Review Committee in regard to your request to have the MOPETP approval list include the new model numbers of your expanded line of Encore dispensers. This letter is to inform you of the department's approval of the 350 and 550 models to be added to the MOPETP approval list.

All issues, conditions, and data associated with the previous MOPETP approvals of the Encore dispenser line, 2001-03 and series, are still in effect. We thank you and appreciate your cooperation in this matter. For more information, please contact Bud Pratt of the Air Pollution Control Program, P.O. Box 176, Jefferson City, MO 65102-0176, or by telephone at (573) 751-4817.

Sincerely,

AIR POLLUTION CONTROL PROGRAM

Leanne Tippet Mosby  
Director
