APPROVAL LETTER 2001-03C

Dear Mr. Riffle:

The Missouri Department of Natural Resources' Air Pollution Control Program reviewed past testing and evaluation of the Encore line of dispensers, as well as performed similar relevant field-testing, of the vapor recovery equipment contained within these new model "S" Encore dispenser models. These procedures were performed by this office, in response to your request to have the new Encore model "S" numbers, included in the Missouri Performance Evaluation Test Procedures (MOPETP) approval list. The testing and evaluation team has determined that these new Encore models S dispensers have extremely similar vapor recovery piping and therefore produce similar or better results, on Balance vapor recovery systems, than those dispensers, which were previously MOPEPT tested and approved. All new dispensers must have totalizers, and must have no more than one gasoline product hose (dispensers may have an additional diesel hose).

Please regard this APPROVAL LETTER 2001-3C as your MOPETP approval for your new model "S" (single hose/nozzle) dispenser series. The table below lists the specific dispenser models, which are approved by this letter.

MOPETP Approval #	Manufacturer	Model	Component	Backpressure ("WC)
2001-03C	Gilbarco	300S, 350S, 500S, and 550S series... NAO, NCO (1 grade, single hose), NG4, NG5 (2 grade, single hose), NGO, NG2 (3 grade, single hose) , NG1, NG3 (4 grade, single hose +1) NL#(=#0 thru 7)X+1 Blender NN#(=#0 thru 7)X+0 Blender	Dispenser	.03, .06, .10

Mr. Eric Riffle

The Air Pollution Control Program approves the equipment listed above subject to the terms and conditions listed in this approval as well as those general conditions listed on Executive Order APCP-0001-001-98 Balance Systems and the corresponding CARB EO.

Thank you for your cooperation in this matter. If you should have any questions about this approval, please contact Mr. Bud Pratt at the Air Pollution Control Program, P.O. Box 176, Jefferson City, MO 65102-0176, or by telephone at (573) 751-4817.

Sincerely

AIR POLLUTION CONTROL PROGRAM
