

## **RULE AND SIP AGENDA**

**September 26, 2019**  
**Springfield**

### ACTIONS FOR PUBLIC HEARING

None scheduled

### ACTIONS TO BE VOTED ON:

- \* 10 CSR 10-5.442 (amendment) Control of Emissions From Lithographic and Letterpress Printing Operations

This rulemaking updates incorporation by reference information, adds definitions specific to this rule, removes the unnecessary use of restrictive words, and makes administrative updates.

- \* 10 CSR 10-5.550 (amendment) Control of Volatile Organic Compound Emissions From Reactor Processes and Distillation Operations Processes in the Synthetic Organic Chemical Manufacturing Industry

This rulemaking updates incorporation by reference of information, clarifies rule applicability, and removes the unnecessary use of restrictive words.

- \* 10 CSR 10-6.050 (amendment) Start-Up, Shutdown, and Malfunction Conditions

This rulemaking complies with Executive Order 17-03 criteria, updates the notification process per U.S. Environmental Protection Agency comments received during the 2010 rulemaking, adds definitions specific to this rule, and removes any unnecessary restrictive words.

- \* 10 CSR 10-6.140 (amendment) Restriction of Emissions Credit for Reduced Pollutant Concentrations From the Use of Dispersion Techniques

This rulemaking complies with Executive Order 17-03 criteria by adding a reference in the applicability section, adds definitions specific to this rule, makes changes as a result of rule comment forms, and removes any unnecessary restrictive words.

### ACTIONS FOR PUBLIC HEARING

None scheduled

## ACTIONS TO BE VOTED ON:

- \* 10 CSR 10-5.570 (amendment) Control of Sulfur Emissions From Stationary Boilers

This rulemaking corrects references to other state and federal rules within this rule to address U.S. Environmental Protection Agency concerns so that it can be approved into the Missouri State Implementation Plan.

- \* 10 CSR 10-6.161 (amendment) Commercial and Industrial Solid Waste Incinerators

This rulemaking cleans-up the federal reference information in this rule to address the U.S. Environmental Protection Agency concerns.

- \* 10 CSR 10-6.200 (amendment) Hospital, Medical, Infectious Waste Incinerators

This rulemaking cleans-up the federal reference information in this rule to address the U.S. Environmental Protection Agency concerns.

- \* Maintenance Plan Revision for the St. Louis (Missouri) Maintenance Area Under the 1979, 1997, and 2008 Ozone Standards

This plan revision replaces the currently approved maintenance plan for the Missouri portion of the St. Louis maintenance area under the 2008 ozone standard. This standard is more stringent than the 1979 and 1997 ozone standards; therefore this revision also replaces the previous maintenance plans under those standards. The revision updates the maintenance demonstration showing that continued implementation of Missouri's vehicle inspection and maintenance program and federal reformulated gasoline requirements in the area are not necessary for the area to continue to maintain compliance with the 2008 ozone standard.

- \* Maintenance Plan Revision for the St. Louis (Missouri) Maintenance Area Under the 1997 Annual Fine Particulate Matter (PM<sub>2.5</sub>) Standard

This plan revision replaces the currently approved maintenance plan for the Missouri portion of the St. Louis maintenance area under the 1997 annual PM<sub>2.5</sub> standard. The revision updates the maintenance demonstration showing that continued implementation of Missouri's vehicle inspection and maintenance program and federal reformulated gasoline requirements in the area are not necessary for the area to continue to maintain compliance with this standard.

- \* Inspection and Maintenance Program for the St. Louis Area – 2019 Revision

This State Implementation Plan (SIP) revision updates Missouri's on-road motor vehicle emissions inspection and maintenance (I/M) program in the St. Louis area, also known as the Gateway Vehicle Inspection Program. The revision requests EPA approval to fully

remove the I/M program requirements in Franklin and Jefferson counties from Missouri's SIP. The revision does not remove the I/M program requirements in the City of St. Louis or the counties of St. Louis or St. Charles. The Missouri Department of Natural Resources' Air Pollution Control Program is evaluating the continued need for the program in these remaining counties with respect to the 2015 ozone standard, for which these counties are currently designated nonattainment. The revision also includes several updates to reflect current operations of the program.

#### ACTIONS FOR PUBLIC HEARING

- \* 10 CSR 10-6.330 (amendment) Restriction of Emissions from Batch-Type Charcoal Kilns

This rulemaking corrects an erroneous reference, updates and clarifies references to test methods, and makes other typographical corrections.

- \* 10 CSR 10-6.390 (amendment) Control of NO<sub>x</sub> Emissions From Large Stationary Internal Combustion Engines

This rulemaking corrects a reference to another state rule to address the U.S. Environmental Protection Agency concerns so that it can be approved into the State Implementation Plan.

- \* 10 CSR 10-6.060 (amendment) Construction Permits Required

This rulemaking removes erroneous references to incorporation by reference information and adds the appropriate incorporation by reference information, makes typographical corrections, and clarifies the definition of "portable equipment installation."

2010 1-Hour Standard - Statewide Area Boundary Recommendations, Round 4 (monitoring)					In Progress
<i>EPA Documentation</i> December 2020: Per the DRR, EPA is required to finalize designations for all areas that installed monitors to characterize their SO2 air quality. States may submit recommendations for nonattainment area boundaries for EPA to consider before they finalize the designations. Summer 2018: Magnitude 7 Metals (Formerly Noranda) restarted operations of a primary aluminum smelter in New Madrid County. Based on 2018 monitoring data, the air quality in the area will violate the 2010 SO2 NAAQS. 1/1/17 - For sources that elected to install new monitors, the monitors began operation 6/28/16 - Submitted to EPA for each DRR source whether the source would characterize air quality via modeling or monitoring or if they would take an enforceable emission limit to comply with the DRR. 8/21/15 - Final Data Requirements Rule (DRR) published [80 FR 51052]
