

MISSOURI AIR CONSERVATION COMMISSION

**RESOLUTION CONCERNING REPEAL OF SECTION 393.135 OF THE
MISSOURI REVISED STATUTES TO ALLOW COST RECOVERY DURING
CONSTRUCTION OF NUCLEAR POWER PLANTS**

WHEREAS, our nation’s rapidly growing energy demand will require a balanced portfolio of energy sources that includes nuclear power plants;

WHEREAS, nuclear power plants promote clean air by providing continuous power with no greenhouse gas or traditional air pollutant emissions; and

WHEREAS, section 393.135 has proven to be an intractable roadblock for financing and construction of new nuclear power plants in Missouri;

THEREFORE, BE IT RESOLVED that pursuant to section 643.050.3 (Powers and Duties of the Commission) the Commission, for the advancement of clean air and a secure energy future for Missouri, respectfully calls on the Missouri Legislature to repeal or replace section 393.135 in order to allow cost recovery during the construction of nuclear power plants.
