November 9, 2009

Comment	Response	Consider During a Future Review	Changed for this Review
Change the order of pollutants to put the PM's together.	Suggestion noted, but it would require programming changes that were not possible during this review. Future discussions may look at organizing pollutants into chargeable/non-chargeable, alphabetical order, or other options.	Yes	No Change
Additional definitions and instructions to aid facilities in determining if they are required to itemize PM emissions	Glossary and instructions will be updated with PM issues, and additional handouts will be available as needed.	NA	No Change
