

Appendix 1 – Organization Chart

Organizational chart showing lines of authority and reporting responsibilities.

Appendix 2 – Ambient Air Monitoring Network Site Information

Include site(s) location (latitude and longitude) along with site photographs of the proposed monitoring sites toward each cardinal direction. Include a topographical map of the area showing the location of the ambient air and meteorological monitoring stations. Include any background meteorological data if used for siting decisions.

Locations must meet EPA siting criteria, as appropriate. Reference 40 CFR 58 Appendix E.
