STATE OF MISSOURI
DEPARTMENT OF NATURAL RESOURCES
MISSOURI AIR CONSERVATION COMMISSION

PERMIT TO CONSTRUCT

Under the authority of RSMo 643 and the Federal Clean Air Act the applicant is authorized to construct the air contaminant source(s) described below, in accordance with the laws, rules and conditions as set forth herein.

Permit Number: 102013-006 Project Number: 2013-08-004
Installation Number: 095-0046

Parent Company: US Department of Defense - Army
Parent Company Address: PO Box 1000, Independence, MO 64051

Installation Name: Alliant Techsystems Operations LLC. Small Caliber Systems - Lake City Ammunition Plant
Installation Address: Intersection of Missouri Highways 7 & 78 (25201 E 78 Hwy), Independence, MO 64051

Location Information: Jackson County, S31/32, T50N, R30W

Application for Authority to Construct was made for:
The installation of two new 16.736 MMBtu/hr natural gas burners on existing Boilers #5 and #6 (EP-44). This review was conducted in accordance with Section (5) of Missouri State Rule 10 CSR 10-6.060 Construction Permits Required.

☐ Standard Conditions (on reverse) are applicable to this permit.
☑ Standard Conditions (on reverse) and Special Conditions are applicable to this permit.

OCT 15 2013
DIRECTOR OR DESIGNEE
DEPARTMENT OF NATURAL RESOURCES
STANDARD CONDITIONS:

Permission to construct may be revoked if you fail to begin construction or modification within two years from the effective date of this permit. Permittee should notify the Air Pollution Control Program if construction or modification is not started within two years after the effective date of this permit, or if construction or modification is suspended for one year or more.

You will be in violation of 10 CSR 10-6.060 if you fail to adhere to the specifications and conditions listed in your application, this permit and the project review. In the event that there is a discrepancy between the permit application and this permit, the conditions of this permit shall take precedence. Specifically, all air contaminant control devices shall be operated and maintained as specified in the application, associated plans and specifications.

You must notify the Department’s Air Pollution Control Program of the anticipated date of start up of these air contaminant sources. The information must be made available within 30 days of actual startup. Also, you must notify the Department of Natural Resources Regional office responsible for the area within which you are located within 15 days after the actual start up of these air contaminant sources.

A copy of this permit and permit review shall be kept at the installation address and shall be made available to Department of Natural Resources’ personnel upon request.

You may appeal this permit or any of the listed special conditions to the Administrative Hearing Commission (AHC), P.O. Box 1557, Jefferson City, MO 65102, as provided in RSMo 643.075.6 and 621.250.3. If you choose to appeal, you must file a petition with the AHC within 30 days after the date this decision was mailed or the date it was delivered, whichever date was earlier. If any such petition is sent by registered mail or certified mail, it will be deemed filed on the date it is mailed. If it is sent by any method other than registered mail or certified mail, it will be deemed filed on the date it is received by the AHC.

If you choose not to appeal, this certificate, the project review and your application and associated correspondence constitutes your permit to construct. The permit allows you to construct and operate your air contaminant sources(s), but in no way relieves you of your obligation to comply with all applicable provisions of the Missouri Air Conservation Law, regulations of the Missouri Department of Natural Resources and other applicable federal, state and local laws and ordinances.

The Air Pollution Control Program invites your questions regarding this air pollution permit. Please contact the Construction Permit Unit at (573) 751-4817. If you prefer to write, please address your correspondence to the Missouri Department of Natural Resources, Air Pollution Control Program, P.O. Box 176, Jefferson City, MO 65102-0176, attention: Construction Permit Unit.
SPECIAL CONDITIONS:
The permittee is authorized to construct and operate subject to the following special conditions:

The special conditions listed in this permit were included based on the authority granted the Missouri Air Pollution Control Program by the Missouri Air Conservation Law (specifically 643.075) and by the Missouri Rules listed in Title 10, Division 10 of the Code of State Regulations (specifically 10 CSR 10-6.060). For specific details regarding conditions, see 10 CSR 10-6.060 paragraph (12)(A)10. “Conditions required by permitting authority.”

Lake City Ammunition Plant
Jackson County, S31/32, T50N, R30W

1. Operational Requirement
   Lake City Ammunition Plant shall exclusively combust natural gas in EP-44 Boilers #5 and #6.
REVIEW OF APPLICATION FOR AUTHORITY TO CONSTRUCT AND OPERATE
SECTION (5) REVIEW
Project Number: 2013-08-004
Installation ID Number: 095-0046
Permit Number:

Lake City Ammunition Plant Complete: August 26, 2013
25201 E 78 Hwy

REVIEW SUMMARY

- Alliant Techsystems Operations LLC. Small Caliber Systems - Lake City Ammunition Plant has applied for authority to installation two new 16.736 MMBtu/hr burners on their existing Boilers #5 and #6 (EP-44).

- HAP emissions are expected from the proposed equipment. HAPs are emitted from the combustion of natural gas. The primary HAP of concern is Hexane (110-54-3).

- 40 CFR Part 63, Subpart DDDDD – National Emission Standards for HAP for Major Sources: Industrial, Commercial, and Institutional Boilers and Process Heaters applies to Boilers #5 and #6 (EP-44). The new burners are replacement burners for the existing boilers. The replacement of the burners does not meet the definition of reconstruction at §63.2; therefore, the boilers will continue to be existing boilers under this regulation.

- No air pollution control equipment is being used in association with the new equipment.

- This review was conducted in accordance with Section (5) of Missouri State Rule 10 CSR 10-6.060 Construction Permits Required. Potential emissions of all pollutants are below de minimis levels.

- This installation is located in Jackson County, a maintenance area for ozone and an attainment area for all other criteria pollutants.
This installation is not on the List of Named Installations found in 10 CSR 10-6.020(3)(B), Table 2. The installation's major source level is 250 tons per year and fugitive emissions are not counted toward major source applicability.

Ambient air quality modeling was not performed since potential emissions of the application are below de minimis levels.

Emissions testing are not required for the new burners.

The permittee shall amend their Part 70 operating permit renewal application, project 2008-05-039, within one year of equipment startup to include the new burners.

Approval of this permit is recommended with special conditions.

INSTALLATION DESCRIPTION

Alliant Techsystems Operations LLC Small Caliber Systems operates a small arms ammunition manufacturing facility (Lake City Ammunition Plant) in Independence, MO. The installation is an existing major source under construction permits for SO\textsubscript{x}, NO\textsubscript{x}, VOC, and HAP. The installation is currently operating under Part 70 operating permit OP2003-042 which expired October 30, 2008 until a new operating permit is issued. The installation has submitted a Part 70 operating permit renewal application, project 2008-05-039, which is currently under technical review.

The following New Source Review permits have been issued to Alliant Techsystems Operations LLC Small Caliber Systems - Lake City Ammunition Plant from the Air Pollution Control Program:

PROJECT DESCRIPTION

The installation is proposing to replace the two existing 16.8 MMBtu/hr natural gas fired low NOx burners on Boilers #5 and #6 (EP-44) installed under NSR Permit 112000-007 with two new 16.736 MMBtu/hr natural gas fired burners. The new burners are not low NOx burners; therefore, an increase in NOx emissions required the issuance of this permit.

EMISSIONS/CONTROLS EVALUATION

The emission factors used in this analysis were obtained from the EPA document AP-42, Compilation of Air Pollutant Emission Factors, Fifth Edition, Section 1.4 “Natural Gas Combustion” (July 1998). GHG emissions were calculated using emission factors and global warming potentials contained with 40 CFR Part 98.

The following table provides an emissions summary for this project. Existing potential emissions were taken from NSR Permit 062013-007. Existing actual emissions were taken from the installation’s 2012 EIQ. Potential emissions of the application represent the potential of the new burners, assuming continuous operation (8,760 hours per year).

$^1$This value was obtained from EPA’s website and is based on the installation’s 2011 40 CFR Part 98 reported CO$_2$, CH$_4$, and N$_2$O emissions.

PERMIT RULE APPLICABILITY

This review was conducted in accordance with Section (5) of Missouri State Rule 10 CSR 10-6.060 Construction Permits Required. Potential emissions of all pollutants are below de minimis levels.
APPLICABLE REQUIREMENTS

Alliant Techsystems Operations LLC. Small Caliber Systems - Lake City Ammunition Plant shall comply with the following requirements applicable to the new burners. The Missouri Air Conservation Laws and Regulations should be consulted for specific record keeping, monitoring, and reporting requirements. Compliance with these emission standards, based on information submitted in the application, has been verified at the time this application was approved. For a complete list of applicable requirements for the entire installation, please consult your operating permit.

GENERAL REQUIREMENTS

- 10 CSR 10-6.065 Operating Permits
  - The installation is required to amend their Part 70 operating permit application, 2008-05-039, within one year of equipment startup to include the new burners.

- 10 CSR 10-6.110 Submission of Emission Data, Emission Fees and Process Information

- 10 CSR 10-6.165 Restriction of Emission of Odors

- 10 CSR 10-6.170 Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin

- 10 CSR 10-6.220 Restriction of Emission of Visible Air Contaminants

SPECIFIC REQUIREMENTS

- 10 CSR 10-6.070 New Source Performance Regulations
  - 40 CFR Part 60, Subpart Dc – Standards of Performance for Small Industrial-Commercial-Institutional Steam Generating Units
STAFF RECOMMENDATION

On the basis of this review conducted in accordance with Section (5) of Missouri State Rule 10 CSR 10-6.060 Construction Permits Required, I recommend this permit be granted with special conditions.

Alana L. Rugen, EIT
New Source Review Unit

PERMIT DOCUMENTS

The following documents are incorporated by reference into this permit:

- The Application for Authority to Construct form, dated July 26, 2013, received August 1, 2013, designating US Department of Defense - Army as the owner and operator of the installation.

APPENDIX A
Abbreviations and Acronyms

% ............ percent
°F ............ degrees Fahrenheit
acfm .......... actual cubic feet per minute
BACT .......... Best Available Control Technology
BMPs .......... Best Management Practices
Btu .......... British thermal unit
CAM .......... Compliance Assurance Monitoring
CAS .......... Chemical Abstracts Service
CEMS .......... Continuous Emission Monitor System
CFR .......... Code of Federal Regulations
CO .......... carbon monoxide
CO₂ .......... carbon dioxide
CO₂e .......... carbon dioxide equivalent
COMS .......... Continuous Opacity Monitoring System
CSR .......... Code of State Regulations
dscf .......... dry standard cubic feet
EIQ .......... Emission Inventory Questionnaire
EP .......... Emission Point
EPA .......... Environmental Protection Agency
EU .......... Emission Unit
fps .......... feet per second
ft .......... feet
GACT .......... Generally Available Control Technology
GHG .......... Greenhouse Gas
gpm .......... gallons per minute
gr .......... grains
GWP .......... Global Warming Potential
HAP .......... Hazardous Air Pollutant
hr .......... hour
hp .......... horsepower
lb .......... pound
lbs/hr .......... pounds per hour
MACT .......... Maximum Achievable Control Technology
µg/m³ .......... micrograms per cubic meter
m/s .......... meters per second
Mgal .......... 1,000 gallons
MW .......... megawatt
MHDR .......... maximum hourly design rate
MMBtu .......... Million British thermal units
MMCF .......... million cubic feet
MSDS .......... Material Safety Data Sheet
NAAQS .......... National Ambient Air Quality Standards
NESHAPs .......... National Emissions Standards for Hazardous Air Pollutants
NOₓ .......... nitrogen oxides
NSPS .......... New Source Performance Standards
NSR .......... New Source Review
PM .......... particulate matter
PM₁₀ .......... particulate matter less than 10 microns in aerodynamic diameter
PM₂.₅ .......... particulate matter less than 2.5 microns in aerodynamic diameter
ppm .......... parts per million
PSD .......... Prevention of Significant Deterioration
PTE .......... potential to emit
RACT .......... Reasonable Available Control Technology
RAL .......... Risk Assessment Level
SCC .......... Source Classification Code
scfm .......... standard cubic feet per minute
SIC .......... Standard Industrial Classification
SIP .......... State Implementation Plan
SMAL .......... Screening Model Action Levels
SOₓ .......... sulfur oxides
SO₂ .......... sulfur dioxide
tph .......... tons per hour
tpy .......... tons per year
VMT .......... vehicle miles traveled
VOC .......... Volatile Organic Compound

RE: New Source Review Permit - Project Number: 2013-08-004  

Dear Ms. Casey:  

Enclosed with this letter is your permit to construct. Please study it carefully and refer to Appendix A for a list of common abbreviations and acronyms used in the permit. Also, note the special conditions on the accompanying pages. The document entitled, "Review of Application for Authority to Construct," is part of the permit and should be kept with this permit in your files. Operation in accordance with these conditions, your new source review permit application, and with your amended operating permit is necessary for continued compliance. The reverse side of your permit certificate has important information concerning standard permit conditions and your rights and obligations under the laws and regulations of the State of Missouri.  

If you have any questions regarding this permit, please do not hesitate to contact Alana Rugen, at the Department of Natural Resources’ Air Pollution Control Program, P.O. Box 176, Jefferson City, MO 65102 or at (573) 751-4817. Thank you for your attention to this matter.  

Sincerely,  

AIR POLLUTION CONTROL PROGRAM  

Susan Heckenkamp
