RE: New Source Review Permit Amendment - Permit Number: 082010-010A
Project Number: 2020-02-046; Installation Number: 203-0029

Dear Karen Woolsey:

On February 25, 2020, Air Pollution Control Program received your request to amend Permit #082010-010 by changing Special Condition 2 from a National Ambient Air Quality Standards (NAAQS) Limitation for particulate matter less than ten microns in diameter (PM₁₀) to a daily throughput limitation.

The ambient impact from Permit #082010-010 is being converted to daily production limits. This change reflects the Air Pollution Control Program's updated construction industry policy "Ceasing the Use of Nomographs" dated May 1, 2016.

Crider Brothers Lime Co. is permitted to operate with other plants located at the site as long as the following scenarios are maintained. These scenarios are also summarized in the table below.

Table 1: Summary of Daily Production Limits at Crider Brothers Lime Co. at Site ID 203-0029

Type of Operation	Daily Production Limit (tons per day)
^a Solitary and ^b Same	2,613
^c Separate	2,152

^a Operation without other plants

^b Operation with plants that are owned Crider Brothers Lime Co.

^c Operation with plants not owned by Crider Brothers Lime Co.
