MISSOURI DEPARTMENT OF NATURAL RESOURCES
MISSOURI AIR CONSERVATION COMMISSION

PERMIT TO CONSTRUCT

Under the authority of RSMo 643 and the Federal Clean Air Act the applicant is authorized to construct the air contaminant source(s) described below, in accordance with the laws, rules and conditions as set forth herein.

Permit Number: 07 2017 - 003   Project Number: 2017-03-110
Installation Number: 229-0033

Parent Company: MFA Incorporated
Parent Company Address: 201 Ray Young Drive, Columbia, MO 65201
Installation Name: MFA Agri Service- Mountain Grove Feed and Fertilizer
Installation Address: 8990 First Road, Mountain Grove, MO 65711
Location Information: Wright County, S7, T28N, R12W

Application for Authority to Construct was made for:
New mixer and installation wide de minimis limit for the fertilizer and feed facility. This review was conducted in accordance with Section (6), Missouri State Rule 10 CSR 10-6.060, Construction Permits Required.

☐ Standard Conditions (on reverse) are applicable to this permit.
☑️ Standard Conditions (on reverse) and Special Conditions are applicable to this permit.

Prepared by
Jordan Hull
New Source Review Unit

Director or Designee
Department of Natural Resources
JUL 06 2017
Effective Date
STANDARD CONDITIONS:

Permission to construct may be revoked if you fail to begin construction or modification within two years from the effective date of this permit. Permittee should notify the Enforcement and Compliance Section of the Air Pollution Control Program if construction or modification is not started within two years after the effective date of this permit, or if construction or modification is suspended for one year or more.

You will be in violation of 10 CSR 10-6.060 if you fail to adhere to the specifications and conditions listed in your application, this permit and the project review. In the event that there is a discrepancy between the permit application and this permit, the conditions of this permit shall take precedence. Specifically, all air contaminant control devices shall be operated and maintained as specified in the application, associated plans and specifications.

You must notify the Enforcement and Compliance Section of the Department’s Air Pollution Control Program of the anticipated date of start up of this (these) air contaminant source(s). The information must be made available within 30 days of actual startup. Also, you must notify the Department’s regional office responsible for the area within which you are located within 15 days after the actual start up of this (these) air contaminant source(s).

A copy of the permit application and this permit and permit review shall be kept at the installation address and shall be made available to Department’s personnel upon request.

You may appeal this permit or any of the listed special conditions to the Administrative Hearing Commission (AHC), P.O. Box 1557, Jefferson City, MO 65102, as provided in RSMo 643.075.6 and 621.250.3. If you choose to appeal, you must file a petition with the AHC within 30 days after the date this decision was mailed or the date it was delivered, whichever date was earlier. If any such petition is sent by registered mail or certified mail, it will be deemed filed on the date it is mailed. If it is sent by any method other than registered mail or certified mail, it will be deemed filed on the date it is received by the AHC.

If you choose not to appeal, this certificate, the project review and your application and associated correspondence constitutes your permit to construct. The permit allows you to construct and operate your air contaminant source(s), but in no way relieves you of your obligation to comply with all applicable provisions of the Missouri Air Conservation Law, regulations of the Missouri Department of Natural Resources and other applicable federal, state and local laws and ordinances.

The Air Pollution Control Program invites your questions regarding this air pollution permit. Please contact the Construction Permit Unit using the contact information below.

Contact Information:
Missouri Department of Natural Resources
Air Pollution Control Program
P.O. Box 176
Jefferson City, MO 65102-0176
(573) 751-4817

The regional office information can be found at the following website:
http://dnr.mo.gov/regions/
SPECIAL CONDITIONS:
The permittee is authorized to construct and operate subject to the following special conditions:

The special conditions listed in this permit were included based on the authority granted the Missouri Air Pollution Control Program by the Missouri Air Conservation Law (specifically 643.075) and by the Missouri Rules listed in Title 10, Division 10 of the Code of State Regulations (specifically 10 CSR 10-6.060). For specific details regarding conditions, see 10 CSR 10-6.060 paragraph (12)(A)10. "Conditions required by permitting authority."

MFA Agri Service- Mountain Grove Feed and Fertilizer
Wright County, S7, T28N, R12W

1. PM\textsubscript{10} Emission Limitation
   A. MFA Agri Service- Mountain Grove Feed and Fertilizer shall emit less than 15.0 tons of PM\textsubscript{10} in any consecutive 12-month period from the entire installation (see table 1).

SPECIAL CONDITIONS:
The permittee is authorized to construct and operate subject to the following special conditions:

B. Attachment A or equivalent forms, such as electronic forms, approved by the Air Pollution Control Program shall be used to demonstrate compliance with Special Conditions 1.A.

2. Control Device Requirements – Cyclone Dust Collector
   A. MFA Agri Service- Mountain Grove Feed and Fertilizer shall control emissions from the grain mixer and bagger from the ingredient grain handling (EP-3) and the mixer from the commodity grain handling (EP-14) using a cyclone dust collector.
   B. The cyclone dust collector shall be operated and maintained in accordance with the manufacturer’s specifications.
   C. MFA Agri Service- Mountain Grove Feed and Fertilizer shall maintain an operating and maintenance log for the cyclone dust collector which shall include the following:
      1) Incidents of malfunctions, with impacts on emissions, duration of events, probable causes, and corrective actions; and
      2) Maintenance activities, with inspection schedules, repair actions, and replacements, etc.

3. Record Keeping and Reporting Requirements
   A. MFA Agri Service- Mountain Grove Feed and Fertilizer shall maintain all records required by this permit for not less than five years and shall make them available immediately to any Missouri Department of Natural Resources’ personnel upon request.
   B. MFA Agri Service- Mountain Grove Feed and Fertilizer shall report to the Air Pollution Control Program’s Compliance/Enforcement Section, P.O. Box 176, Jefferson City, MO 65102, no later than 10 days after the end of the month during which any record required by this permit shows an exceedance of a limitation imposed by this permit.
REVIEW OF APPLICATION FOR AUTHORITY TO CONSTRUCT AND OPERATE
SECTION (6) REVIEW
Project Number: 2017-03-110
Installation ID Number: 229-0033
Permit Number: 072017-003

Installation Address:
MFA Agri Service- Mountain Grove Feed and Fertilizer
8990 First Road
Mountain Grove, MO 65711
Wright County, S7, T28N, R12W

Parent Company:
MFA Incorporated
201 Ray Young Drive
Columbia, MO 65201

REVIEW SUMMARY

• MFA Agri Service- Mountain Grove Feed and Fertilizer has applied for authority to construct a new fertilizer mixer and set an installation wide de minimis limit for the fertilizer and feed facility

• The application was deemed complete on April 5, 2017.

• HAP emissions are not expected from the proposed equipment.

• None of the New Source Performance Standards (NSPS) apply to the installation.

• None of the NESHAPs apply to this installation. None of the currently promulgated MACT regulations apply to the proposed equipment.

• A Cyclone Dust Collector is being used to control the PM, PM10, PM2.5 emissions from the equipment in this permit.

• This review was conducted in accordance with Section (5) of Missouri State Rule 10 CSR 10-6.060, Construction Permits Required. Potential emissions of PM10 are conditioned below de minimis levels.

• This installation is located in Wright County, an attainment area for all criteria pollutants.

• This installation is not on the List of Named Installations found in 10 CSR 10-6.020(3)(B), Table 2. The installation’s major source level is 250 tons per year and fugitive emissions are not counted toward major source applicability.

• Ambient air quality modeling was not performed since potential emissions of the application are below de minimis levels.
• Emissions testing is not required for the equipment as a part of this permit. Testing may be required as part of other state, federal or applicable rules.
• No Operating Permit is required for this installation.
• Approval of this permit is recommended with special conditions.

INSTALLATION DESCRIPTION

MFA Agri Service- Mountain Grove Feed and Fertilizer operates a grind and mix feed operation as well as a fertilizer operation on 8990 First Road in Mountain Grove, Missouri, Wright County. This facility stores corn, feed supplements, and mixed feeds. It operates a prepared feed operation, a mixed ingredient operation, a commodity feed operation, and a fertilizer operation.

The following New Source Review permits have been issued to MFA Agri Service- Mountain Grove Feed and Fertilizer from the Air Pollution Control Program.

PROJECT DESCRIPTION

This project was submitted in order for the facility to install an additional fertilizer mixer and associated conveyor to be able to mix herbicide with the fertilizer. The facility also consists of a feed grinding operation that was previously permitted. The fertilizer operation was a grandfathered operation. It was requested that this permit set an installation-wide PM10 limit of less than de minimis levels. The feed operation is broken down into three types of feed processes; Ingredient (16 tph), Prepared (25 tph), and Commodity (8 tph). Each process has different equipment and MHDRs. The fertilizer plant is operated at 96tph and is the only operation affected by the addition of the new mixer.

EMISSIONS/CONTROLS EVALUATION

The grain emission factors used in this analysis were obtained from the Environmental Protection Agency (EPA) document AP-42, *Compilation of Air Pollutant Emission Factors*, Fifth Edition, Section 9.9.1 *Grain Elevators and Processes* May 2003 and Section 13.2.2 *Unpaved Roads* November 2006. The grain receiving calculations were performed with a 50/50 split between hopper trucks and straight trucks.
The fertilizer emission factors used in this analysis were obtained from the EPA's WebFIRE database (SCC 3-01-027-09, Ammonium Nitrate Production Bulk Loading), (SCC 3-01-040-07, Urea Production Bulk Loading). All emission were considered uncontrolled.

Haul road emissions were calculated using the predictive equation found in AP-42 Section 13.2.2 Unpaved Roads (November 2006).

The following table provides an emissions summary for this project. Existing potential emissions were taken from Permit number 0294-017 which did not include the grandfathered fertilizer plant. Existing actual emissions were taken from the installation’s 2016 EIQ. Potential emissions of the installation represent the potential of the entire facility-wide emissions, assuming continuous operation (8760 hours per year). Potential emissions of new equipment are the addition of the new herbicide mixer and associated conveyors. The new installation conditioned potential represents the subsequent potential emissions of the entire facility after taking into account applicable special condition limitations.

N/A = Not Applicable; N/D = Not Determined

*PM will be indirectly limited below major source level based on PM₁₀ emissions

**PM₂.₅ will be indirectly conditioned below 10.0 tpy (de minimis level)

PERMIT RULE APPLICABILITY

This review was conducted in accordance with Section (6) of Missouri State Rule 10 CSR 10-6.060, Construction Permits Required. Potential emissions of PM₁₀ are conditioned below de minimis levels. Potential emissions of PM are above de minimis but below major source levels. There are no modeling requirements for PM.
APPLICABLE REQUIREMENTS

MFA Agri Service- Mountain Grove Feed and Fertilizer shall comply with the following applicable requirements. The Missouri Air Conservation Laws and Regulations should be consulted for specific record keeping, monitoring, and reporting requirements. Compliance with these emission standards, based on information submitted in the application, has been verified at the time this application was approved.

GENERAL REQUIREMENTS

• Submission of Emission Data, Emission Fees and Process Information, 10 CSR 10-6.110
  - Per 10 CSR 10-6.110(4)(B)2.B(II) and (4)(B)2.C(II) a full EIQ is required for the first full calendar year the equipment (or modifications) approved by this permit are in operation.

• Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin, 10 CSR 10-6.170

• Restriction of Emission of Visible Air Contaminants, 10 CSR 10-6.220

• Restriction of Emission of Odors, 10 CSR 10-6.165

SPECIFIC REQUIREMENTS

• Restriction of Emission of Particulate Matter From Industrial Processes, 10 CSR 10-6.400

STAFF RECOMMENDATION

On the basis of this review conducted in accordance with Section (6), Missouri State Rule 10 CSR 10-6.060, Construction Permits Required, it is recommended that this permit be granted with special conditions.

PERMIT DOCUMENTS

The following documents are incorporated by reference into this permit:

• The Application for Authority to Construct form, dated March 27, 2017, received March 28, 2017, designating MFA Incorporated as the owner and operator of the installation.

RE: New Source Review Permit - Project Number: 2017-03-110

Dear Mr. Thessen:

Enclosed with this letter is your permit to construct. Please study it carefully and refer to Appendix A for a list of common abbreviations and acronyms used in the permit. Also, note the special conditions, on the accompanying pages. The document entitled, "Review of Application for Authority to Construct," is part of the permit and should be kept with this permit in your files. Operation in accordance with these conditions, your new source review permit application and with your operating permit is necessary for continued compliance. The reverse side of your permit certificate has important information concerning standard permit conditions and your rights and obligations under the laws and regulations of the State of Missouri.

This permit may include requirements with which you may not be familiar. If you would like the department to meet with you to discuss how to understand and satisfy the requirements contained in this permit, an appointment referred to as a Compliance Assistance Visit (CAV) can be set up with you. To request a CAV, please contact your local regional office or fill out an online request. The regional office contact information can be found at the following website: http://dnr.mo.gov/regions/. The online CAV request can be found at http://dnr.mo.gov/cav/compliance.htm.

If you were adversely affected by this permit decision, you may be entitled to pursue an appeal before the administrative hearing commission pursuant to Sections 621.250 and 643.075.6 RSMo. To appeal, you must file a petition with the administrative hearing commission within thirty days after the date this decision was mailed or the date it was delivered, whichever date was earlier. If any such petition is sent by registered mail or certified mail, it will be deemed filed on the date it is mailed; if it is sent by any method other than registered mail or certified mail, it will be deemed filed on the date it is received by the administrative hearing commission, whose contact information is: Administrative Hearing Commission, United States Post Office Building, 131 West High Street, Third Floor, P.O. Box 1557, Jefferson City, Missouri 65102, phone: 573-751-2422, fax: 573-751-5018, website: www.oa.mo.gov/ahc.
If you have any questions regarding this permit, please do not hesitate to contact Jordan Hull, at the Department of Natural Resources' Air Pollution Control Program, P.O. Box 176, Jefferson City, MO 65102 or at (573) 751-4817. Thank you for your attention to this matter.

Sincerely,

AIR POLLUTION CONTROL PROGRAM

Susan Heckenkamp
New Source Review Unit Chief
