PERMIT TO CONSTRUCT

Under the authority of RSMo 643 and the Federal Clean Air Act the applicant is authorized to construct the air contaminant source(s) described below, in accordance with the laws, rules and conditions as set forth herein.

Permit Number: 032009-009 Project Number: 2008-12-041

Parent Company: MFA Incorporated

Parent Company Address: 201 Ray Young Drive, Columbia, MO 65201

Installation Name: MFA Agri Service B/P - West Plains

Installation Address: 1205 Bratton Ave. W, West Plains, MO 65775

Location Information: Howell County, S22, T24N, R8

Application for Authority to Construct was made for:

This project consists of the installation of a bulk dry fertilizer receiving system, dry fertilizer blender and loadout conveyor. This review was conducted in accordance with Section (5), Missouri State Rule 10 CSR 10-6.060, Construction Permits Required.

☐ Standard Conditions (on reverse) are applicable to this permit.

☑ Standard Conditions (on reverse) and Special Conditions are applicable to this permit.

MAR 13 2009

EFFECTIVE DATE

DIRECTOR OR DESIGNEE
DEPARTMENT OF NATURAL RESOURCES
STANDARD CONDITIONS:

Permission to construct may be revoked if you fail to begin construction or modification within two years from the effective date of this permit. Permittee should notify the Air Pollution Control Program if construction or modification is not started within two years after the effective date of this permit, or if construction or modification is suspended for one year or more.

You will be in violation of 10 CSR 10-6.060 if you fail to adhere to the specifications and conditions listed in your application, this permit and the project review. In the event that there is a discrepancy between the permit application and this permit, the conditions of this permit shall take precedence. Specifically, all air contaminant control devises shall be operated and maintained as specified in the application, associated plans and specifications.

You must notify the departments’ Air Pollution Control Program of the anticipated date of start up of this (these) air contaminant sources(s). The information must be made available not more than 60 days but at least 30 days in advance of this date. Also, you must notify the Department of Natural Resources Regional office responsible for the area within which you are located within 15 days after the actual start up of this (these) air contaminant source(s).

A copy of this permit and permit review shall be kept at the installation address and shall be made available to Department of Natural Resources’ personnel upon request.

You may appeal this permit or any of the listed special conditions to the Administrative Hearing Commission (AHC), P.O. Box 1557, Jefferson City, MO 65102, as provided in RSMo 643.075.6 and 621.250.3. If you choose to appeal, you must file a petition with the AHC within 30 days after the date this decision was mailed or the date it was delivered, whichever date was earlier. If any such petition is sent by registered mail or certified mail, it will be deemed filed on the date it is mailed. If it is sent by any method other than registered mail or certified mail, it will be deemed filed on the date it is received by the AHC.

If you choose not to appeal, this certificate, the project review and your application and associated correspondence constitutes your permit to construct. The permit allows you to construct and operate your air contaminant sources(s), but in no way relieves you of your obligation to comply with all applicable provisions of the Missouri Air Conservation Law, regulations of the Missouri Department of Natural Resources and other applicable federal, state and local laws and ordinances.

The Air Pollution Control Program invites your questions regarding this air pollution permit. Please contact the Construction Permit Unit at (573) 751-4817. If you prefer to write, please address your correspondence to the Missouri Department of Natural Resources, Air Pollution Control Program, P.O. Box 176, Jefferson City, MO 65102-0176, attention: Construction Permit Unit.
SPECIAL CONDITIONS:
The permittee is authorized to construct and operate subject to the following special conditions:

The special conditions listed in this permit were included based on the authority granted the Missouri Air Pollution Control Program by the Missouri Air Conservation Law (specifically 643.075) and by the Missouri Rules listed in Title 10, Division 10 of the Code of State Regulations (specifically 10 CSR 10-6.060). For specific details regarding conditions, see 10 CSR 10-6.060 paragraph (12)(A)10. “Conditions required by permitting authority.”

MFA Agri Service B/P - West Plains
Howell County, S22, T24N, R8

1. Emission Limitation
   A. MFA Agri Service B/P - West Plains shall emit less than 15.0 tons of particulate matter less than ten (10) microns in diameter (PM$_{10}$) in any consecutive 12 month period from the entire installation. For the purposes of this special condition, entire installation encompasses all equipment at the installation at the time this permit’s issuance.

   B. MFA Agri Service B/P - West Plains shall maintain an accurate record of PM$_{10}$ emitted into the atmosphere from the entire installation. Attachment A or an equivalent form shall be used for this purpose. MFA Agri Service B/P - West Plains shall maintain all records required by this permit for not less than five (5) years and shall make them available immediately to any Missouri Department of Natural Resources’ personnel upon request.

   C. MFA Agri Service B/P - West Plains shall report to the Air Pollution Control Program’s Enforcement Section, P.O. Box 176, Jefferson City, MO 65102, no later than ten (10) days after the end of the month during which the records from Special Condition 1B indicate that the source exceeds the limitation of Special Condition 1A.
REVIEW OF APPLICATION FOR AUTHORITY TO CONSTRUCT AND OPERATE
SECTION (5) REVIEW
Project Number: 2008-12-041

Howell County, S22, T24N, R8

REVIEW SUMMARY

- MFA Agri Service B/P - West Plains has applied for authority to install a bulk dry fertilizer receiving system, dry fertilizer blender and loadout conveyor.

- Hazardous Air Pollutant (HAP) emissions are not expected from the proposed equipment.

- None of the New Source Performance Standards (NSPS) apply to the proposed equipment.

- None of the National Emission Standards for Hazardous Air Pollutants (NESHAPs) or currently promulgated Maximum Achievable Control Technology (MACT) regulations apply to the proposed equipment.

- No air pollution control equipment is being used in association with the new equipment.

- This review was conducted in accordance with Section (5) of Missouri State Rule 10 CSR 10-6.060, Construction Permits Required. Potential emissions of PM_{10} are conditioned to below de minimis levels

- This installation is located in Howell County, an attainment area for all criteria air pollutants.

- This installation is not on the List of Named Installations [10 CSR 10-6.020(3)(B), Table 2].

- Ambient air quality modeling was not performed since potential emissions of the application are conditioned to below de minimis levels.
• Emissions testing is not required for the equipment.
• No Operating Permit is required for this installation.
• Approval of this permit is recommended with special conditions.

INSTALLATION/PROJECT DESCRIPTION

The installation will install a dry fertilizer truck receiving system, vertical mixer and loadout conveyor from the MFA Feed & Fertilizer facility in Mountain Grove at this facility.

MFA Feed & Fertilizer has voluntarily accepted a limit of less than 15 tons per year of PM$_{10}$. With this limitation, the installation will not be required to submit an operating permit application and will not need to perform an ambient air quality modeling.

The dry fertilizer product will be delivered by semi-truck and unloaded onto a belt conveyor which will then discharge into a bucket elevator and transfer into an overhead auger system in the building. The dry fertilizer will then be dropped into one of 12 storage bays. The dry fertilizer will then be transferred by bucket loader to a vertical mixer located outside the south door of the plant. The mixed product will then be transferred by belt conveyor to awaiting trucks and card spreaders.

Calculations were based on the assumption that the maximum Hourly Design Rate (MHDR) of the equipment associated with this installation is 45 tons of fertilizer due to the maximum hourly design rate of the mixer of 45 tons per hour.

The installation will be using electrical power for operating the equipment. No air pollution control equipment will be used in association with this new installation.

EMISSIONS/CONTROLS EVALUATION

PM$_{10}$ is the main air pollutant of concern for this project. PM$_{10}$ emissions will be emitted from the fertilizer handling, blending and load in and load out operations. Fugitive PM$_{10}$ emissions will also be emitted from vehicular traffic on the unpaved haul roads.

The emission factor 0.02 pounds per ton was used for the fertilizer handling, blending and load in and load out operations.

The unpaved haul road emission factor was calculated from information obtained from the EPA document AP-42, *Compilation of Air Pollutant Emission Factors, fifth Edition, 13.2.2, Unpaved Roads* (9/98).

Potential emissions of the application represent the potential of the new equipment, assuming continuous operation (8,760 hours per year.) The following table provides an emissions summary for this project.
Table 1: Emissions Summary (tons per year)

PERMIT RULE APPLICABILITY

This review was conducted in accordance with Section (5) of Missouri State Rule 10 CSR 10-6.060, Construction Permits Required. Potential emissions of PM$_{10}$ were limited by the conditions of this permit to below de minimis levels.

APPLICABLE REQUIREMENTS

MFA Agri Service B/P - West Plains shall comply with the following applicable requirements. The Missouri Air Conservation Laws and Regulations should be consulted for specific record keeping, monitoring, and reporting requirements. Compliance with these emission standards, based on information submitted in the application, has been verified at the time this application was approved.

GENERAL REQUIREMENTS

- Submission of Emission Data, Emission Fees and Process Information, 10 CSR 10-6.110
  The emission fee is the amount established by the Missouri Air Conservation Commission annually under Missouri Air Law 643.079(1). Submission of an Emissions Inventory Questionnaire (EIQ) is required June 1 for the previous year's emissions.

- Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin, 10 CSR 10-6.170

- Restriction of Emission of Visible Air Contaminants, 10 CSR 10-6.220

- Restriction of Emission of Odors, 10 CSR 10-3.090
SPECIFIC REQUIREMENTS

- *Restriction of Emission of Particulate Matter From Industrial Processes, 10 CSR 10-6.400*

AMBIENT AIR QUALITY IMPACT ANALYSIS

Ambient air quality modeling was not performed since potential emissions of the application were limited to below de minimis levels.

STAFF RECOMMENDATION

On the basis of this review conducted in accordance with Section (5), Missouri State Rule 10 CSR 10-6.060, *Construction Permits Required*, I recommend this permit be granted with special conditions.

PERMIT DOCUMENTS

The following documents are incorporated by reference into this permit:

- The Application for Authority to Construct form, dated December 15, 2008, received December 16, 2008, designating MFA Incorporated as the owner and operator of the installation.
- Southeast Regional Office Regional Office Site Survey, dated January 8, 2009.
## Attachment A - PM$_{10}$ Compliance Worksheet

MFA Agri Service B/P - West Plains  
Howell County, S22, T24N, R8  
Project Number: 2008-12-041  
Installation ID Number: 091-0008  
Permit Number: 

This sheet covers the period from _________ to _________.

<table>
<thead>
<tr>
<th>Month</th>
<th>Monthly Amount of Fertilizer (tons)</th>
<th>Composite PM$_{10}$ Emission Factor (lbs/ton)</th>
<th>¹Monthly PM$_{10}$ Emissions (lbs)</th>
<th>²Monthly PM$_{10}$ Emissions (tons)</th>
<th>³12-Month PM$_{10}$ Emissions (tons/year)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Example</td>
<td>5000</td>
<td>0.1503</td>
<td>751.5</td>
<td>0.37575</td>
<td>0.37575</td>
</tr>
<tr>
<td>Example</td>
<td>6000</td>
<td>0.1503</td>
<td>901.8</td>
<td>0.4509</td>
<td>0.82665</td>
</tr>
</tbody>
</table>

Note 1: The Monthly Emissions (lbs) are calculated by multiplying the Monthly Production (tons) by the Composite Emission Factor (lbs/ton).

Note 2: The Monthly Emissions (tons) are calculated by dividing the Monthly Emissions (lbs) by 2,000.

Note 3: The 12-Month Emissions (tons/year) are a rolling total calculated by adding the Month’s Emissions (tons) to the Monthly Emissions (tons) of the previous eleven (11) months. A total of less than 15 tons in any consecutive 12-month period indicates compliance.
