RE: New Source Review Permit Amendment – Permit Number: 082007-003B
Project Number: 2017-05-052; Installation Number: PORT-0591

Dear Mr. Steeby:

On May 18, 2017, Air Pollution Control Program received your request to amend Permit #082007-003 by changing site specific special condition 2 from a National Ambient Air Quality Standards (NAAQS) limitation for particulate matter less than ten microns in diameter (PM₁₀) to a daily throughput limitation. This change reflects the Air Pollution Control Program's updated construction industry policy "Ceasing the Use of Nomographs" dated May 1, 2016.

Norris Quarries Plant #83 PORT-0591 is permitted to operate with other plants located at the site as long as the following scenarios are maintained. These scenarios are also summarized in the table below.

Table 1: Summary of Daily Production Limits for PORT-0591

Type of Operation	Daily Production Limit (tons)
^a Solitary	7,809
^b Concurrent	6,922

^a Operation without other plants

^b Operation with other plants.
