RE: New Source Review Permit Amendment - Permit Number: 052019-007A
Project Number: 2019-09-009; Installation Number: 035-0004

Dear Mr. Crain:

As stated in an email dated August 28, 2019, Royal Oak requested to amend temporary permit, Permit No. 052019-007 (Project No. 2019-01-039) to remove the propane as a heat source for the afterburner and replace it with a cord wood firebox. This design change is due to the unit being manufactured and shipped with a firebox and not a propane burner. The firebox is the original design from the manufacturer and is used to preheat the chambers until pyrolysis gasses take over. It is equipped with a temperature control system that will indicate the afterburner temperature in order to maintain the required temperature of 1600°F as stated in Permit #052019-007 (Project No. 2019-01-039). Testing on this kiln will be conducted with the wood firebox operational.

If you were adversely affected by this permit decision, you may be entitled to pursue an appeal before the administrative hearing commission pursuant to Sections 621.250 and 643.075.6 RSMo. To appeal, you must file a petition with the administrative hearing commission within thirty days after the date this decision was mailed or the date it was delivered, whichever date was earlier. If any such petition is sent by registered mail or certified mail, it will be deemed filed on the date it is mailed; if it is sent by any method other than registered mail or certified mail, it will be deemed filed on the date it is received by the administrative hearing commission, whose contact information is: Administrative Hearing Commission, United States Post Office Building, 131 West High Street, Third Floor, P.O. Box 1557, Jefferson City, Missouri 65102, phone: 573-751-2422, fax: 573-751-5018, website: www.oe.mo.gov/ahc.
