

CLEAN WATER PROGRAM FUNDING SOURCES

STATE	PROGRAM REVENUE/FINANCIAL SUPPORT	OVERALL LEGAL BASIS FOR FEES	AUTOMATIC FEES ADJUSTMENTS
Missouri	Federal grants, general revenue, permit fees, SRF Admin fees, small amount from NRD and restitutions.	Statutes & Regulations	No indication of an automatic fee adjustment.
Arizona	State statute created the Water Quality Fee Fund for department expenses. Monies in the fund are collected from fees and are administered by the Director of Environmental Quality. The legislature gets an annual report and budget for the next year and appropriates the fund to the department each year.	Regulations Only	No indication of an automatic fee adjustment.
Arkansas	Department of Environmental Quality Fee Trust Fund on the books of the Treasurer of State, Auditor of State and Chief Fiscal Officer of the State, supported by interest earnings and fees collection.	Regulations Only	No indication of an automatic fee adjustment.
Colorado	Water Quality Control Fund, Animal Feeding Operation Fund, State Treasurer general fund appropriated by general assembly, Federal funding and fees.	Regulations Only	No indication of an automatic fee adjustment.
Florida	Water Resources Program is paid 99% from Trust Funds and 1% from general revenue. Monies in the trust funds come from general revenue, federal, funds and permit fees.	Statutes & Regulations	No indication of an automatic fee adjustment.
Illinois	The Illinois Environmental Protection Agency operating budget: 25% of funds are federal and 75% of funds are from state fees. Water Quality Program budget: 49% federal funds and 51% state funds.	Statutes & Regulations	No indication of an automatic fee adjustment.
Indiana	SRF funding, other federal grant money and fees.	Regulations Only	Fees assessed annually, however no specific indication of increase structure.
Iowa	State statute created National Pollutant Discharge Elimination System Fund for department expenses. Monies in the fund are appropriated from the state's general revenues, obtained from the federal government, and from fees charged for processing permit applications.	Statutes Only	No indication of an automatic fee adjustment.

CLEAN WATER PROGRAM FUNDING SOURCES

STATE	PROGRAM REVENUE/FINANCIAL SUPPORT	OVERALL LEGAL BASIS FOR FEES	AUTOMATIC FEES ADJUSTMENTS
Kansas	Federal Grant money through EPA in conjunction with a State match of 20% of the federal grant for a revolving fund, bond sales through the Kansas Development Finance Authority, fees, and interest payments on additional State loans provided to non-municipal facilities.	Statutes & Regulations	No indication of an automatic fee adjustment.
Kentucky	Permit program supported through general fund appropriations, federal grants and permit fees. The agency also gets an annual appropriation from the Road Fund (gasoline tax), which accounts for only 1 percent of the entire agency budget.	Regulations Only	No indication of an automatic fee adjustment.
Maryland	State statute created Maryland Clean Water Fund for department expenses. Monies in the fund come from application and annual permit fees, and any fines or penalties imposed by court.	Regulations Only	No indication of an automatic fee adjustment.
Montana	The primary source of funding is through fees with supplemental federal grants. The permit fee structure is complex, and allows rules for the diverse nature of all of the permit types including state permits. The fee rules went through a significant change and fee increase in 2009. The new fee rule is located at: http://deq.mt.gov/dir/legal/Chapters/Ch30-toc.mcp (click on Sub-Chapter 2 Water Quality Permit and Authorization Fees).	Regulations Only	No indication of an automatic fee adjustment.
Nebraska	Federal grants; State statute created cash fund for department expenses.	Regulations Only	No indication of an automatic fee adjustment.

CLEAN WATER PROGRAM FUNDING SOURCES

STATE	PROGRAM REVENUE/FINANCIAL SUPPORT	OVERALL LEGAL BASIS FOR FEES	AUTOMATIC FEES ADJUSTMENTS
Oklahoma	Fees are charged for permits and other services to cover department expenses. Monies from fees are expended only for the specific program from which the monies originate. Monies are also appropriated from the general revenues annually by the legislature.	Regulations Only	Automatic Consumer Price Index fee increases, unless waived by Department because other funding sources cover costs.
South Dakota	Stormwater permit work is supported through Federal grants. There is an established fund for costs associated with CAFO permitting. The subfund consists of moneys from public and private sources including legislative appropriations, federal grants, gifts, and some permit fees. Expenditures from and appropriations to the subfund are appropriated through legislative budget process.	Statutes Only	No indication of an automatic fee adjustment.
Tennessee	No specific details on Clean Water funding. The Department of Environment and Conservation operating budget is made of dedicated fees, state parks revenue, state general revenue and federal funds.	Regulations Only	No indication of an automatic fee adjustment.
Utah	Federal funds and fees.	Regulations Only	No indication of an automatic fee adjustment.
Washington	Permit fees, Federal Grants, State General Fund. Agency's strategic planning document notes that Washington is currently working to restructure their fee program and increase fees to more fully support their costs.	Regulations Only	Fees are authorized for two fiscal years. In most cases these fees are small increases in some (but not all) permit categories.
Wisconsin	No specific details on Clean Water funding. The Department of Natural Resources operating budget is funded through fees, federal grants, and general revenue.	Statutes & Regulations	Fees are adjusted based on the amount of loading per pollutant.

CLEAN WATER FEES - COMPARISON SUMMARY**ANTIDegradation REVIEWS**

STATE	APPLICATION		MODIFICATION		BASIS
	MIN	MAX	MIN	MAX	
Missouri	Missouri does not require a fee for antidegradation reviews.				
Arizona	No indication of fees for antidegradation reviews.				
Arkansas	No indication of fees for antidegradation reviews.				
Colorado	\$1,000	\$19,700	\$500	\$2,800	Design Flow, Industry Type, Waste Type
Florida	\$1,200	\$5,000	N/A		Design Flow
Illinois	No indication of fees for antidegradation reviews.				
Indiana	No indication of fees for antidegradation reviews.				
Iowa	No indication of fees for antidegradation reviews.				
Kansas	No indication of fees for antidegradation reviews.				
Kentucky	No indication of fees for antidegradation reviews.				
Maryland	No indication of fees for antidegradation reviews.				
Montana	\$5,000 flat fee				
Nebraska	No indication of fees for antidegradation reviews.				
Oklahoma	No indication of fees for antidegradation reviews.				
South Dakota	No indication of fees for antidegradation reviews.				
Tennessee	No indication of fees for antidegradation reviews.				
Utah	Water Quality Cleanup Activities/Technical Review and Assistance is an hourly charge of \$90.00				
Washington	No indication of fees for antidegradation reviews.				
Wisconsin	No indication of fees for antidegradation reviews.				

CLEAN WATER FEES - COMPARISON SUMMARY

DOMESTIC WASTE PERMITS (INCLUDING POTWs)

STATE	APPLICATION		ANNUAL		MODIFICATION		BASIS
	MIN	MAX	MIN	MAX	MIN	MAX	
Missouri	\$100.00 - \$2,200.00 (application fee for new facilities is also construction permit fee and dependent on FT, DF, SS, MM, POTW vs. Private), <i>no fee required for operating permit renewal</i>		Domestics = \$100.00, POTW = \$0.80 per residential connection (for <1000 customers) or \$3.00 per commercial connection for 1 inch service line	Domestic = \$3,500, POTW = \$0.40 per residential connection (>35,000 customers) or \$25.00 per commercial connection on >4 inch service line (max \$700 for commercial connections)	\$200 for municipal; all others 25% of annual fee		Facility Type, Design Flow, Population Equivalent, Major vs. Minor; Modification for POTW is a flat fee
Arizona	\$15,000	\$50,000	\$250	\$4,000	\$12,500		Site Specific Permits: \$122 hourly rate for application and reviews; Flow for annual fee; Modification is a flat fee
	\$1,000	\$25,000	NA	NA	N/A		General Permits - # of facilities and type of construction
Arkansas	Major - \$5000; Minor - \$205.60	Major - \$30,000; Minor - \$15,000	Major - \$5000; Minor - \$205.60	Major - \$30,000; Minor - \$15,000	Major Mod - \$2,000; Minor Mod - \$1,000	Major Mod - \$5,000; Minor Mod - \$1,000	Facility Type, Major vs. Minor, Design Flow
Colorado	\$1,548	\$30,953	Major - \$3,170; Minor - \$455	Major - \$25,100; Minor - \$3,720	Major Mod - 50% of annual; Minor Mod - 25% of annual	Major Mod - \$5,950; Minor Mod - \$2,810	Facility Type, Major vs. Minor, Design Flow, new vs. expanded
Florida	\$1,000	\$7,500	\$200	\$7,000	\$100	\$500	Design Flow
Illinois	\$2,500		\$500	\$50,000	N/A		Design Flow
Indiana	\$50		Major - \$3,060; Minor - \$640	Major - \$35,800; Minor - \$6400	\$50	\$50	Annual Fee - Design Flow, Major vs. Minor, Facility Type; Application and Modification fees - flat fee
Iowa	\$85		\$210	\$1,275	\$85		Major vs. Minor (private)
Kansas	N/A		\$185	\$185 per year per MGD	N/A		Design Flow
Kentucky	\$440	\$740	\$2,200	\$3,700	N/A		Private facilities only based on design flow; No fees for publically owned facilities
Maryland	N/A		N/A		N/A		No fees for operating permits for domestic waste facilities
	\$125	\$2,000	N/A		N/A		These costs are for construction permits and are based on facility type

CLEAN WATER FEES - COMPARISON SUMMARY**DOMESTIC WASTE PERMITS (INCLUDING POTWs)**

STATE	APPLICATION		ANNUAL		MODIFICATION		BASIS
	MIN	MAX	MIN	MAX	MIN	MAX	
Montana	\$1,500	\$5,000	\$800	\$3,000	\$500	\$5,000	Site Specific Permits - Public vs. Private; Major vs. Minor
	\$800		\$850		\$500		General Permits - Flat Fee
Nebraska	No indication of fees.						
Oklahoma	\$500		No set minimum or maximum - based on points system		N/A		Annual Fee - \$42.57 * Points
South Dakota	N/A		\$37	\$100,000	N/A		Population Equivalent
Tennessee	\$250	\$1,500	\$350	\$10,300	\$50	\$300	Design Flow
Utah	N/A		\$350	\$8,000	N/A		Design Flow, # connections, plus \$90.00/hr.
Washington	\$250	20% of annual	\$1.32 per PE	\$1.89 per PE	N/A		Public - per Population Equivalent
	\$250	20% of annual	\$530	\$8,788	N/A		Private - Design Flow
Wisconsin	N/A		\$100	\$200	N/A		Permits that discharge to surface water pay \$100 and permits that generate sludge pay \$200 (annual fees). The loading calculations found in WI statutes may impose additional fees.

CLEAN WATER FEES - COMPARISON SUMMARY

INDUSTRIAL WASTEWATER

STATE	APPLICATION		ANNUAL		MODIFICATION		BASIS
	MIN	MAX	MIN	MAX	MIN	MAX	
Missouri	Non-Categorical - \$750	Categorical - \$2,200	\$1,500	\$5,000	25% of annual fee		Categorical industry vs. Non-Categorical industry Application fees are for new construction permits; no fee for renewal
Arizona	N/A	\$30,000	\$500	\$2,500	N/A	\$12,500	\$122 hourly rate for application and reviews; Annual Fee - Major vs. Minor

Oklahoma	N/A		\$750		N/A		Flat Fee
South Dakota	Stormwater permits exempt from fees.						
Tennessee	N/A		\$3,460	\$10,380	N/A		Annual fee based on population
Utah	N/A		\$500	\$3,000	N/A		Population
Washington	\$250	20% of annual fee	\$117	\$2,929	N/A		Annual fee based on annual operating budget
Wisconsin	No indication of fees for MS4's.						

CLEAN WATER FEES - COMPARISON SUMMARY**ADDITIONAL FEE INFORMATION**

STATE	COMMENTS
Missouri	Permit Variances - \$250
Arizona	\$122 hourly rate for application and reviews; Arizona has aquifer protection permits
Arkansas	Flat Fee for land application of wastewater
Colorado	Wastewater Reuse Authorization fee is based on design flow
Florida	Application Fee recovers a portion of the Department's costs of processing applications; Preliminary Design Report reviews for new domestic wastewater facilities is charged in addition to the application processing fee Annual Fee based on population to cover the cost of surveillance and the regulatory program; All new or expanding facilities are charged a plan review fee; General Permits are grouped and charged fees accordingly
Illinois	\$2,500 to \$5,000 - annual fee for activities under a permit authorizing land application of sludge for a sludge generator or sludge user
Indiana	Delinquency Charge (penalty) - if annual fee is not paid, 10% of annual fee or 10% of installment
Iowa	'\$100 fee for any construction permit submittal; \$170 annual fee for no-discharge permit; No wastewater fees for drinking water facility.
Kansas	Annual Fee - truck washing for animal waste - \$320
	Annual Fee - surface disposal of cooling water discharge - \$60
	Annual fee - surface disposal of treated cooling water discharge - \$120 per MGD
	Annual Fee - Dewatering discharge - \$60
	Annual Fee - other General Permits - \$60

CLEAN WATER FEES - COMPARISON SUMMARY**ADDITIONAL FEE INFORMATION**

STATE	COMMENTS
Kentucky	Publicly owned facilities are exempt from all fees. Nonprofits receive discounted fee. Application fees are 20% of permit fee. Permit fees are prorated if < 5 years. Fee schedule is in rule and authorization to charge fees is in statute.
Maryland	Additional \$5,000 for industrial permits for each review of studies or petitions
Montana	A 25% discount is applied to annual permit fees if the facility is compliant during the previous year; An additional \$500 processing fee may be applied if the Permittee makes substantial changes or alterations; Fee schedule is in rule and authorization to charge fees is in statute
Nebraska	Onsite wastewater treatment system construction permit. Also an additional \$450 for inspection if lot is <3 acres. Also a \$140 registration fee. Fee schedule is in rule and authorization to charge fees is in statute.
Oklahoma	Consumer Price Index Fee increases; Points for domestic: Complexity, Major/minor, Flow, Amount of pollutant, No. of outfalls, pretreatment; Points for industrial: Major/minor, Complexity, Beneficial uses, toxic pollutants, Conventional pollutants, Other studies/reports.
South Dakota	Stormwater discharges and construction activities seem to be exempt from fees . There is an established fund for costs associated with CAFO permitting. Fee schedule is specified in state statute.
Tennessee	Plan Review Fees shall apply to new facilities as well as the expansion or modification of existing facilities. New facilities that require plan reviews are Industrial wastewater facilities, Pumping stations, (fee based on design flow), Mining operations, stormwater facilities (fee based on area exposed to stormwater).
Utah	Water Quality Loan Fee - 1%
Washington	Facilities operating < 18 months receive a 25% discount; Reduced fees for small businesses If a facility has more than one permit type, they pay only one fee Fee schedule is in rule and the authorization to charge fees is in statute
Wisconsin	No fees for Plan Review
