

Missouri Hazardous Waste Rule Update May 10, 2007

Where are we now?

- As of Dec. 30, 2006, Missouri hazardous waste regulations incorporate by reference the July 1, 2004 edition of the Code of Federal Regulations.
- Significant federal rules included in this package:
 - Mixed Waste Rule
 - Hazardous Waste Identification Rule: Revisions to the Mixture and Derived-from Rules
 - Corrective Action Management Units
 - NESHAP: Surface Coating of Automobiles and light duty trucks
- Authorized by EPA for majority of federal rules adopted by July 2000

Where are we going?

- Currently working on package to incorporate federal rules through July 1, 2006 (most recent edition of Code of Federal Regulations)
- Included in this draft rule package:
 - Changes necessary to adopt Uniform Manifest Rule
 - Burden Reduction rule
 - EPA rule on mercury-containing equipment
 - EPA rule on management of Cathode Ray Tubes
- Authorization from EPA for federal rules through July 2004
