RE: Class 1 Permit Modification Without Prior Director's Approval
Updates to Facility Contacts in Contingency Plan
Lake City Army Ammunition Plant, Independence, Missouri
EPA ID# MO4213820489

Dear Mr. Dudgeon:

The Missouri Department of Natural Resources (Department) received Lake City Army Ammunition Plant's (LCAAP) Class 1 Permit Modification notice, dated March 20, 2015. The notification was to update contact information for emergency coordinators and the explosive spill response team in the contingency plan, update the site contact person from Ms. Julia A Casey to Mr. Brian J. Dudgeon, and to update department codes to reflect corporate changes in coding.

The Department agrees with LCAAP that this is a Class 1 Permit Modification not requiring prior director approval, according to Code of State Regulations 10 CSR 25-7.270(1), which incorporates Code of Federal Regulations 40 CFR 270.42, Appendix I, A.1. and B.6.d. LCAAP sent a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, according to 10 CSR 25-7.270(1) and 10 CSR 25-7.270(2)(A)6, which incorporates and modifies 40 CFR 270.42(a)(1)(ii). On April 6, 2015, the Department received a copy of the notice, dated April 3, 2015.

If you have questions regarding this letter, please contact Mr. Cedric Cunigan, Project Manager, of my staff at the Missouri Department of Natural Resources, Hazardous Waste Program, P.O.
