ENVIRONMENTAL COVENANT

This Environmental Covenant is entered into by and between Missouri City Landfill, LLC, a Missouri limited liability company ("Owner"), and the Missouri Department of Natural Resources (the "Holder"), pursuant to the Missouri Environmental Covenants Act, Sections 260.1000 through 260.1039, RSMo.

RECITALS

WHEREAS,

Owner, whose mailing address is 8501 Stillhouse Road, Liberty, Missouri 64068, is the owner in fee simple of certain real property commonly known and numbered as 8501 Stillhouse Road, Liberty, Missouri 64068, and legally described as set forth on Exhibit A attached hereto (the "Property");

WHEREAS,

Certain wastes have been deposited on the Property, as described on Exhibit B attached hereto, and certain metals and organic compounds have been detected in groundwater at the Property at levels above applicable groundwater protection standards, as set forth on Table 1 attached hereto;

WHEREAS,

Owner desires to grant to the Holder, whose mailing address is 1730 E. Elm Street (Lower Level), Jefferson City, MO 65101, this Environmental Covenant for the purpose of subjecting the Property to certain activity and use limitations as provided in the Missouri Environmental Covenants Act;

WHEREAS,

By agreeing to the covenants set forth herein, Owner is fulfilling certain obligations set forth in the Hazardous Waste Management Facility Permit issued by the Holder for the Property (Permit No. MOD000624452) (the "Permit");

NOW THEREFORE, Owner and the Holder agree to the following:

1. Parties.

The Owner and the Holder are parties to this Environmental Covenant and may enforce it as provided for in Section 260.1030, RSMo.

2. Activity and Use Limitations.

In accordance with Special Permit Condition XIV set forth in the Permit, Owner hereby subjects the Property to, and agrees to comply with, the following activity and use limitations:

Nonresidential Use With Engineered Controls: The Property currently meets the Department's standards for restricted nonresidential or construction worker uses, and, based on reports on file at the Holder offices in Jefferson City, Missouri, the contaminants present pose no unacceptable present or future risk to human health or the environment based on restricted nonresidential or construction worker uses of the Property. The Department requires no further response action for the Property as long as the Property is not used for residential or other purposes constituting unrestricted use. The Property is protective for restricted commercial or industrial uses as long as the multi-component clay cap and the chain-link fence surrounding the waste area are maintained to prevent exposure. If any Owner desires in the future to use the Property for residential or other purposes constituting unrestricted use, the Department must be notified 120 days in advance and further analyses and, as necessary, response actions will be required prior to such use. The Property may not be used in a manner that conflicts with this restriction.

No Drilling or Use of Groundwater: The groundwater beneath the Property contains contaminants at concentrations exceeding applicable risk-based standards. The Owner of the Property shall prevent: use of and exposure to the groundwater; any artificial penetration of the groundwater-bearing unit(s) containing contaminants that could result in cross-contamination of clean groundwater-bearing units; installation of any new groundwater wells on the Property, except those used for investigative purposes; use of groundwater for drinking or other domestic purposes and the use of groundwater for purposes other than domestic purposes; release of groundwater to surface water bodies, whether such release is the result of human activities or is naturally occurring. Should a release of contaminated groundwater occur, the Owner must take action to contain and properly dispose of such groundwater.

No Disturbance of Soil: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the

Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, soil at the Property in such areas shall not be excavated or otherwise disturbed in any manner without the written permission of the Holder. Should the Owner desire to disturb soil at the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request approval to do so from the Holder at least 30 days before the soil disturbance activities are to begin, except, however, in the event of an emergency, in which case Owner shall give the Holder notice of excavation or disturbance that is reasonable under the circumstances. Based on the potential hazards associated with the soil disturbance activities, the Holder may deny the request to disturb the soils or may require specific protective or remedial actions before allowing such soil disturbance activities to occur. This requirement does not supersede other state and federal requirements, and may require other permits (e.g., water protection land disturbance).

Construction Restrictions: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, no buildings may be constructed on the Property in such areas except with the written approval of the Holder. Should the Owner desire to construct a building on the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request permission to do so from the Holder at least 30 days before construction is anticipated to begin. Based on the potential hazards associated with the construction activities, the Holder may deny the request to construct or may require specific protective or remedial actions before allowing such construction activities to occur.

3. Running with the Land.

This Environmental Covenant shall be binding upon Owner and his/her/its heirs, successors, assigns, and Transferees in interest, and shall run with the land, as provided in Section 260.1012, RSMo, subject to amendment or termination as set forth herein. The term "Transferee," as used in this Environmental Covenant, shall mean any future owner of any interest in

the Property or any portion thereof, including, but not limited to, owners of an interest in fee simple, mortgagees, easement holders, and/or lessees.

4. Location of File for the Environmental Response Project.

The file for the Property is located at the Missouri Department of Natural Resource's office at 1730 E. Elm Street (Lower Level), Jefferson City, Missouri 65101.

5. Enforcement.

Compliance with this Environmental Covenant may be enforced as provided in Section 260.1030, RSMo. Failure to timely enforce compliance with this Environmental Covenant or the activity and use limitations contained herein by any party shall not bar subsequent enforcement by such party and shall not be deemed a waiver of the party's right to take action to enforce any non-compliance. Nothing in this Environmental Covenant shall restrict any person from exercising any authority under any other applicable law.

6. Right of Access.

Owner hereby grants to the Holder and its respective agents, contractors, and employees, the right of access at all reasonable times to the Property for implementation, monitoring or enforcement of this Environmental Covenant. Nothing herein shall be deemed to limit or otherwise affect the Holder's rights of access and entry under federal or state law.

7. Notice upon Conveyance.

Each instrument hereafter conveying any interest in the Property or any portion of the Property shall contain a notice of the activity and use limitations set forth in this Environmental Covenant, and provide the recording reference for this Environmental Covenant. The notice shall be substantially in the following form:

THE INTEREST CONVEYED HEREBY IS SUBJECT TO AN ENVIRONMENTAL COVENANT, DATED _____, 20__, RECORDED IN THE OFFICE OF THE RECORDER OF DEEDS OF _____ COUNTY, _____, ON _____, 20__, AS DOCUMENT _____, BOOK____, PAGE.

Owner/Transferee shall notify the Holder within ten (10) days following each conveyance of an interest in any portion of the Property. The notice

shall include the name, address, and telephone number of the Transferee, and a copy of the deed or other documentation evidencing the conveyance.

8. Representations and Warranties.

Owner hereby represents and warrants to the Holder that Owner has the power and authority to enter into this Environmental Covenant, to grant the rights and interests herein provided and to carry out all of Owner's obligations hereunder; that Owner is the sole owner of the Property and holds fee simple title to the Property; and that this Environmental Covenant will not materially violate or contravene or constitute a material default under any other agreement, document or instrument to which Owner is a party or by which Owner may be bound or affected.

9. Amendment or Termination.

This Environmental Covenant may be amended or terminated by Owner/Transferee with consent signed by the Holder. Any signatories to this Environmental Covenant other than Owner/Transferee and the Holder hereby waive the right to consent to any amendment to, or termination of, this Environmental Covenant. Within thirty (30) days of signature by all requisite parties on any amendment or termination of this Environmental Covenant, Owner/Transferee shall file such instrument for recording with the office of the recorder of the county in which the Property is situated, and within thirty (30) days of the date of such recording, Owner/Transferee shall provide a file- and date-stamped copy of the recorded instrument to the Holder.

10. Severability.

If any provision of this Environmental Covenant is found to be unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired.

11. Governing Law.

This Environmental Covenant shall be governed by and interpreted in accordance with the laws of the State of Missouri.

12. Recordation.

Within thirty (30) days after the date of the final required signature upon this Environmental Covenant, Owner shall record this Environmental Covenant with the office of the recorder of the county in which the Property is situated.

13. Effective Date.

The effective date of this Environmental Covenant shall be the date upon which the fully executed Environmental Covenant has been recorded with the office of the recorder of the county in which the Property is situated.

14. Distribution of Environmental Covenant.

Within thirty (30) days following the recording of this Environmental Covenant, or any amendment or termination of this Environmental Covenant, Owner/Transferee shall, in accordance with Section 260.1018, RSMo, distribute a file- and date-stamped copy of the recorded Environmental Covenant to: (a) each signatory hereto; (b) each person holding a recorded interest in the Property; (c) each person in possession of the Property; (d) each municipality or other unit of local government in which the Property is located; and (e) any other person designated by the Holder.

15. Notice.

Any document or other item required by this Environmental Covenant to be given to another party hereto shall be sent to:

If to Owner:

Legal Description: See Exhibit A

ENVIRONMENTAL COVENANT

This Environmental Covenant is entered into by and between BFI Waste Systems of North America, LLC, a Delaware limited liability company, as successor-in-interest to Browning-Ferris Industries of Kansas City, Inc., a Missouri corporation (“Owner”), and the Missouri Department of Natural Resources (the “Holder”), pursuant to the Missouri Environmental Covenants Act, Sections 260.1000 through 260.1039, RSMo.

RECITALS

WHEREAS,

Owner, whose mailing address is 8501 Stillhouse Road, Liberty, Missouri 64068, is the owner in fee simple of certain real property commonly known and numbered as 8501 Stillhouse Road, Liberty, Missouri 64068, and legally described as set forth on Exhibit A attached hereto (the “Property”);

WHEREAS,

Certain metals and organic compounds have been detected in groundwater at the Property at levels above applicable groundwater protection standards, as set forth on Table 2 attached hereto;

WHEREAS,

Owner desires to grant to the Holder, whose mailing address is 1730 E. Elm Street (Lower Level), Jefferson City, MO 65101, this Environmental Covenant for the purpose of subjecting the Property to certain activity and use limitations as provided in the Missouri Environmental Covenants Act;

WHEREAS,

By agreeing to the covenants set forth herein, Owner is fulfilling certain obligations set forth in the Hazardous Waste Management Facility Permit issued by the Holder for the Property (Permit No. MOD000624452) (the “Permit”);

NOW THEREFORE, Owner and the Holder agree to the following:

1. Parties.

The Owner and the Holder are parties to this Environmental Covenant and may enforce it as provided for in Section 260.1030, RSMo.

2. Activity and Use Limitations.

In accordance with Special Permit Condition XIV set forth in the Permit, Owner hereby subjects the Property to, and agrees to comply with, the following activity and use limitations:

Nonresidential Use With Engineered Controls: The Property currently meets the Department's standards for restricted nonresidential or construction worker uses, and, based on reports on file at the Holder offices in Jefferson City, Missouri, the contaminants present pose no unacceptable present or future risk to human health or the environment based on restricted nonresidential or construction worker uses of the Property. The Department requires no further response action for the Property as long as the Property is not used for residential or other purposes constituting unrestricted use. The Property is protective for restricted commercial or industrial uses as long as the multi-component clay cap and the chain-link fence surrounding the waste area are maintained to prevent exposure. If any Owner desires in the future to use the Property for residential or other purposes constituting unrestricted use, the Department must be notified 120 days in advance and further analyses and, as necessary, response actions will be required prior to such use. The Property may not be used in a manner that conflicts with this restriction.

No Drilling or Use of Groundwater: The groundwater beneath the Property contains contaminants at concentrations exceeding applicable risk-based standards. The Owner of the Property shall prevent: use of and exposure to the groundwater; any artificial penetration of the groundwater-bearing unit(s) containing contaminants that could result in cross-contamination of clean groundwater-bearing units; installation of any new groundwater wells on the Property, except those used for investigative purposes; use of groundwater for drinking or other domestic purposes and the use of groundwater for purposes other than domestic purposes; release of groundwater to surface water bodies, whether such release is the result of human activities or is naturally occurring. Should a release of contaminated groundwater occur, the Owner must take action to contain and properly dispose of such groundwater.

No Disturbance of Soil: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the

Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, soil at the Property in such areas shall not be excavated or otherwise disturbed in any manner without the written permission of the Holder. Should the Owner desire to disturb soil at the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request approval to do so from the Holder at least 30 days before the soil disturbance activities are to begin, except, however, in the event of an emergency, in which case Owner shall give the Holder notice of excavation or disturbance that is reasonable under the circumstances. Based on the potential hazards associated with the soil disturbance activities, the Holder may deny the request to disturb the soils or may require specific protective or remedial actions before allowing such soil disturbance activities to occur. This requirement does not supersede other state and federal requirements, and may require other permits (e.g., water protection land disturbance).

Construction Restrictions: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, no buildings may be constructed on the Property in such areas except with the written approval of the Holder. Should the Owner desire to construct a building on the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request permission to do so from the Holder at least 30 days before construction is anticipated to begin. Based on the potential hazards associated with the construction activities, the Holder may deny the request to construct or may require specific protective or remedial actions before allowing such construction activities to occur.

3. Running with the Land.

This Environmental Covenant shall be binding upon Owner and his/her/its heirs, successors, assigns, and Transferees in interest, and shall run with the land, as provided in Section 260.1012, RSMo, subject to amendment or termination as set forth herein. The term "Transferee," as used in this Environmental Covenant, shall mean any future owner of any interest in

the Property or any portion thereof, including, but not limited to, owners of an interest in fee simple, mortgagees, easement holders, and/or lessees.

4. Location of File for the Environmental Response Project.

The file for the Property is located at the Missouri Department of Natural Resource's office at 1730 E. Elm Street (Lower Level), Jefferson City, Missouri 65101.

5. Enforcement.

Compliance with this Environmental Covenant may be enforced as provided in Section 260.1030, RSMo. Failure to timely enforce compliance with this Environmental Covenant or the activity and use limitations contained herein by any party shall not bar subsequent enforcement by such party and shall not be deemed a waiver of the party's right to take action to enforce any non-compliance. Nothing in this Environmental Covenant shall restrict any person from exercising any authority under any other applicable law.

6. Right of Access.

Owner hereby grants to the Holder and its respective agents, contractors, and employees, the right of access at all reasonable times to the Property for implementation, monitoring or enforcement of this Environmental Covenant. Nothing herein shall be deemed to limit or otherwise affect the Holder's rights of access and entry under federal or state law.

7. Notice upon Conveyance.

Each instrument hereafter conveying any interest in the Property or any portion of the Property shall contain a notice of the activity and use limitations set forth in this Environmental Covenant, and provide the recording reference for this Environmental Covenant. The notice shall be substantially in the following form:

THE INTEREST CONVEYED HEREBY IS SUBJECT TO AN ENVIRONMENTAL COVENANT, DATED _____, 20___, RECORDED IN THE OFFICE OF THE RECORDER OF DEEDS OF _____ COUNTY, _____, ON _____, 20___, AS DOCUMENT _____, BOOK____, PAGE.

Owner/Transferee shall notify the Holder within ten (10) days following each conveyance of an interest in any portion of the Property. The notice

shall include the name, address, and telephone number of the Transferee, and a copy of the deed or other documentation evidencing the conveyance.

8. Representations and Warranties.

Owner hereby represents and warrants to the Holder that Owner has the power and authority to enter into this Environmental Covenant, to grant the rights and interests herein provided and to carry out all of Owner's obligations hereunder; that Owner is the sole owner of the Property and holds fee simple title to the Property; and that this Environmental Covenant will not materially violate or contravene or constitute a material default under any other agreement, document or instrument to which Owner is a party or by which Owner may be bound or affected.

9. Amendment or Termination.

This Environmental Covenant may be amended or terminated by Owner/Transferee with consent signed by the Holder. Any signatories to this Environmental Covenant other than Owner/Transferee and the Holder hereby waive the right to consent to any amendment to, or termination of, this Environmental Covenant. Within thirty (30) days of signature by all requisite parties on any amendment or termination of this Environmental Covenant, Owner/Transferee shall file such instrument for recording with the office of the recorder of the county in which the Property is situated, and within thirty (30) days of the date of such recording, Owner/Transferee shall provide a file- and date-stamped copy of the recorded instrument to the Holder.

10. Severability.

If any provision of this Environmental Covenant is found to be unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired.

11. Governing Law.

This Environmental Covenant shall be governed by and interpreted in accordance with the laws of the State of Missouri.

12. Recordation.

Within thirty (30) days after the date of the final required signature upon this Environmental Covenant, Owner shall record this Environmental Covenant with the office of the recorder of the county in which the Property is situated.

13. Effective Date.

The effective date of this Environmental Covenant shall be the date upon which the fully executed Environmental Covenant has been recorded with the office of the recorder of the county in which the Property is situated.

14. Distribution of Environmental Covenant.

Within thirty (30) days following the recording of this Environmental Covenant, or any amendment or termination of this Environmental Covenant, Owner/Transferee shall, in accordance with Section 260.1018, RSMo, distribute a file- and date-stamped copy of the recorded Environmental Covenant to: (a) each signatory hereto; (b) each person holding a recorded interest in the Property; (c) each person in possession of the Property; (d) each municipality or other unit of local government in which the Property is located; and (e) any other person designated by the Holder.

Legal Description: See Exhibit A

ENVIRONMENTAL COVENANT

This Environmental Covenant is entered into by and between BFI Waste Systems of North America, LLC, a Delaware limited liability company, as successor-in-interest to Browning-Ferris Industries of Kansas City, Inc., a Missouri corporation (“Owner”), and the Missouri Department of Natural Resources (the “Holder”), pursuant to the Missouri Environmental Covenants Act, Sections 260.1000 through 260.1039, RSMo.

RECITALS

WHEREAS,

Owner, whose mailing address is 8501 Stillhouse Road, Liberty, Missouri 64068, is the owner in fee simple of certain real property commonly known and numbered as 8501 Stillhouse Road, Liberty, Missouri 64068, and legally described as set forth on Exhibit A attached hereto (the “Property”);

WHEREAS,

Certain metals and organic compounds have been detected in groundwater at the Property at levels above applicable groundwater protection standards, as set forth on Table 3 attached hereto;

WHEREAS,

Owner desires to grant to the Holder, whose mailing address is 1730 E. Elm Street (Lower Level), Jefferson City, MO 65101, this Environmental Covenant for the purpose of subjecting the Property to certain activity and use limitations as provided in the Missouri Environmental Covenants Act;

WHEREAS,

By agreeing to the covenants set forth herein, Owner is fulfilling certain obligations set forth in the Hazardous Waste Management Facility Permit issued by the Holder for the Property (Permit No. MOD000624452) (the “Permit”);

NOW THEREFORE, Owner and the Holder agree to the following:

1. Parties.

The Owner and the Holder are parties to this Environmental Covenant and may enforce it as provided for in Section 260.1030, RSMo.

2. Activity and Use Limitations.

In accordance with Special Permit Condition XIV set forth in the Permit, Owner hereby subjects the Property to, and agrees to comply with, the following activity and use limitations:

Nonresidential Use or Construction Worker Use: The Property currently meets the Department's standards for restricted nonresidential or construction worker use, and, based on reports on file at the Holder offices in Jefferson City, Missouri, the contaminants present pose no unacceptable present or future risk to human health or the environment based on restricted use of the Property. No further response action for the Property is required by the Holder as long as the Property is not to be used for residential or other purposes constituting unrestricted use. Except as provided in this Section below, the Property shall not be used for purposes other than nonresidential or construction worker uses. If any Owner desires in the future to use the Property for residential or other purposes constituting unrestricted use, the Holder must be notified 120 days in advance and further analyses and, as necessary, response action(s) will be required prior to such use. The Property may not be used in a manner that conflicts with this restriction.

Notwithstanding any of the foregoing, the portion of the Property located within 250 feet of the western Property boundary (along Stillhouse Road), and the residential structure and any other structures located therein, expressly are permitted to be used for residential purposes, and such use shall not be a violation of this Environmental Covenant.

No Drilling or Use of Groundwater: The groundwater beneath the Property contains contaminants at concentrations exceeding applicable risk-based standards. The Owner of the Property shall prevent: use of and exposure to the groundwater; any artificial penetration of the groundwater-bearing unit(s) containing contaminants that could result in cross-contamination of clean groundwater-bearing units; installation of any new groundwater wells on the Property, except those used for investigative purposes; use of groundwater for drinking or other domestic purposes and the use of groundwater for purposes other than domestic purposes; release of groundwater to surface water bodies, whether such release is the result of human activities or is naturally occurring. Should a release of contaminated groundwater occur, the Owner

must take action to contain and properly dispose of such groundwater.

No Disturbance of Soil: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, soil at the Property in such areas shall not be excavated or otherwise disturbed in any manner without the written permission of the Holder. Should the Owner desire to disturb soil at the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request approval to do so from the Holder at least 30 days before the soil disturbance activities are to begin, except, however, in the event of an emergency, in which case Owner shall give the Holder notice of excavation or disturbance that is reasonable under the circumstances. Based on the potential hazards associated with the soil disturbance activities, the Holder may deny the request to disturb the soils or may require specific protective or remedial actions before allowing such soil disturbance activities to occur. This requirement does not supersede other state and federal requirements, and may require other permits (e.g., water protection land disturbance).

Construction Restrictions: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, no buildings may be constructed on the Property in such areas except with the written approval of the Holder. Should the Owner desire to construct a building on the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request permission to do so from the Holder at least 30 days before construction is anticipated to begin. Based on the potential hazards associated with the construction activities, the Holder may deny the request to construct or may require specific protective or remedial actions before allowing such construction activities to occur.

3. Running with the Land.

This Environmental Covenant shall be binding upon Owner and his/her/its heirs, successors, assigns, and Transferees in interest, and shall run with the land, as provided in Section 260.1012, RSMo, subject to amendment or termination as set forth herein. The term "Transferee," as used in this Environmental Covenant, shall mean any future owner of any interest in the Property or any portion thereof, including, but not limited to, owners of an interest in fee simple, mortgagees, easement holders, and/or lessees.

4. Location of File for the Environmental Response Project.

The file for the Property is located at the Missouri Department of Natural Resource's office at 1730 E. Elm Street (Lower Level), Jefferson City, Missouri 65101.

5. Enforcement.

Compliance with this Environmental Covenant may be enforced as provided in Section 260.1030, RSMo. Failure to timely enforce compliance with this Environmental Covenant or the activity and use limitations contained herein by any party shall not bar subsequent enforcement by such party and shall not be deemed a waiver of the party's right to take action to enforce any non-compliance. Nothing in this Environmental Covenant shall restrict any person from exercising any authority under any other applicable law.

6. Right of Access.

Owner hereby grants to the Holder and its respective agents, contractors, and employees, the right of access at all reasonable times to the Property for implementation, monitoring or enforcement of this Environmental Covenant. Nothing herein shall be deemed to limit or otherwise affect the Holder's rights of access and entry under federal or state law.

7. Notice upon Conveyance.

Each instrument hereafter conveying any interest in the Property or any portion of the Property shall contain a notice of the activity and use limitations set forth in this Environmental Covenant, and provide the recording reference for this Environmental Covenant. The notice shall be substantially in the following form:

THE INTEREST CONVEYED HEREBY IS SUBJECT TO AN ENVIRONMENTAL COVENANT, DATED _____, 20__.

RECORDED IN THE OFFICE OF THE RECORDER OF DEEDS OF _____ COUNTY, _____, ON _____, 20__, AS DOCUMENT ____, BOOK ____, PAGE.

Owner/Transferee shall notify the Holder within ten (10) days following each conveyance of an interest in any portion of the Property. The notice shall include the name, address, and telephone number of the Transferee, and a copy of the deed or other documentation evidencing the conveyance.

8. Representations and Warranties.

Owner hereby represents and warrants to the Holder that Owner has the power and authority to enter into this Environmental Covenant, to grant the rights and interests herein provided and to carry out all of Owner's obligations hereunder; that Owner is the sole owner of the Property and holds fee simple title to the Property; and that this Environmental Covenant will not materially violate or contravene or constitute a material default under any other agreement, document or instrument to which Owner is a party or by which Owner may be bound or affected.

9. Amendment or Termination.

This Environmental Covenant may be amended or terminated by Owner/Transferee with consent signed by the Holder. Any signatories to this Environmental Covenant other than Owner/Transferee and the Holder hereby waive the right to consent to any amendment to, or termination of, this Environmental Covenant. Within thirty (30) days of signature by all requisite parties on any amendment or termination of this Environmental Covenant, Owner/Transferee shall file such instrument for recording with the office of the recorder of the county in which the Property is situated, and within thirty (30) days of the date of such recording, Owner/Transferee shall provide a file- and date-stamped copy of the recorded instrument to the Holder.

10. Severability.

If any provision of this Environmental Covenant is found to be unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired.

11. Governing Law.

This Environmental Covenant shall be governed by and interpreted in accordance with the laws of the State of Missouri.

12. Recordation.

Within thirty (30) days after the date of the final required signature upon this Environmental Covenant, Owner shall record this Environmental Covenant with the office of the recorder of the county in which the Property is situated.

13. Effective Date.

The effective date of this Environmental Covenant shall be the date upon which the fully executed Environmental Covenant has been recorded with the office of the recorder of the county in which the Property is situated.

14. Distribution of Environmental Covenant.

Within thirty (30) days following the recording of this Environmental Covenant, or any amendment or termination of this Environmental Covenant, Owner/Transferee shall, in accordance with Section 260.1018, RSMo, distribute a file- and date-stamped copy of the recorded Environmental Covenant to: (a) each signatory hereto; (b) each person holding a recorded interest in the Property; (c) each person in possession of the Property; (d) each municipality or other unit of local government in which the Property is located; and (e) any other person designated by the Holder.

15. Notice.

Any document or other item required by this Environmental Covenant to be given to another party hereto shall be sent to:

Legal Description: See Exhibit A

ENVIRONMENTAL COVENANT

This Environmental Covenant is entered into by and between BFI Waste Systems of North America, LLC (“Owner”), and the Missouri Department of Natural Resources (the “Holder”), pursuant to the Missouri Environmental Covenants Act, Sections 260.1000 through 260.1039, RSMo.

RECITALS

WHEREAS,

Owner, whose mailing address is 8501 Stillhouse Road, Liberty, Missouri 64068, is the owner in fee simple of certain real property commonly known and numbered as 8501 Stillhouse Road, Liberty, Missouri 64068, and legally described as set forth on Exhibit A attached hereto (the “Property”);

WHEREAS,

Certain wastes have been deposited on the Property, as described on Exhibit B attached hereto, and certain metals and organic compounds have been detected in groundwater at the Property at levels above applicable groundwater protection standards, as set forth on Table 4 attached hereto;

WHEREAS,

Owner desires to grant to the Holder, whose mailing address is 1730 E. Elm Street (Lower Level), Jefferson City, MO 65101, this Environmental Covenant for the purpose of subjecting the Property to certain activity and use limitations as provided in the Missouri Environmental Covenants Act;

WHEREAS,

By agreeing to the covenants set forth herein, Owner is fulfilling certain obligations set forth in the Hazardous Waste Management Facility Permit issued by the Holder for the Property (Permit No. MOD000624452) (the “Permit”);

NOW THEREFORE, Owner and the Holder agree to the following:

1. Parties.

The Owner and the Holder are parties to this Environmental Covenant and may enforce it as provided for in Section 260.1030, RSMo.

2. Activity and Use Limitations.

In accordance with Special Permit Condition XIV set forth in the Permit, Owner hereby subjects the Property to, and agrees to comply with, the following activity and use limitations:

Nonresidential Use With Engineered Controls: The Property currently meets the Department's standards for restricted nonresidential or construction worker uses, and, based on reports on file at the Holder offices in Jefferson City, Missouri, the contaminants present pose no unacceptable present or future risk to human health or the environment based on restricted nonresidential or construction worker uses of the Property. The Department requires no further response action for the Property as long as the Property is not used for residential or other purposes constituting unrestricted use. The Property is protective for restricted commercial or industrial uses as long as the multi-component clay cap and the chain-link fence surrounding the waste area are maintained to prevent exposure. If any Owner desires in the future to use the Property for residential or other purposes constituting unrestricted use, the Department must be notified 120 days in advance and further analyses and, as necessary, response actions will be required prior to such use. The Property may not be used in a manner that conflicts with this restriction.

No Drilling or Use of Groundwater: The groundwater beneath the Property contains contaminants at concentrations exceeding applicable risk-based standards. The Owner of the Property shall prevent: use of and exposure to the groundwater; any artificial penetration of the groundwater-bearing unit(s) containing contaminants that could result in cross-contamination of clean groundwater-bearing units; installation of any new groundwater wells on the Property, except those used for investigative purposes; use of groundwater for drinking or other domestic purposes and the use of groundwater for purposes other than domestic purposes; release of groundwater to surface water bodies, whether such release is the result of human activities or is naturally occurring. Should a release of contaminated groundwater occur, the Owner must take action to contain and properly dispose of such groundwater.

No Disturbance of Soil: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the

Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, soil at the Property in such areas shall not be excavated or otherwise disturbed in any manner without the written permission of the Holder. Should the Owner desire to disturb soil at the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request approval to do so from the Holder at least 30 days before the soil disturbance activities are to begin, except, however, in the event of an emergency, in which case Owner shall give the Holder notice of excavation or disturbance that is reasonable under the circumstances. Based on the potential hazards associated with the soil disturbance activities, the Holder may deny the request to disturb the soils or may require specific protective or remedial actions before allowing such soil disturbance activities to occur. This requirement does not supersede other state and federal requirements, and may require other permits (e.g., water protection land disturbance).

Construction Restrictions: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, no buildings may be constructed on the Property in such areas except with the written approval of the Holder. Should the Owner desire to construct a building on the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request permission to do so from the Holder at least 30 days before construction is anticipated to begin. Based on the potential hazards associated with the construction activities, the Holder may deny the request to construct or may require specific protective or remedial actions before allowing such construction activities to occur.

3. Running with the Land.

This Environmental Covenant shall be binding upon Owner and his/her/its heirs, successors, assigns, and Transferees in interest, and shall run with the land, as provided in Section 260.1012, RSMo, subject to amendment or termination as set forth herein. The term "Transferee," as used in this Environmental Covenant, shall mean any future owner of any interest in

the Property or any portion thereof, including, but not limited to, owners of an interest in fee simple, mortgagees, easement holders, and/or lessees.

4. Location of File for the Environmental Response Project.

The file for the Property is located at the Missouri Department of Natural Resource's office at 1730 E. Elm Street (Lower Level), Jefferson City, Missouri 65101.

5. Enforcement.

Compliance with this Environmental Covenant may be enforced as provided in Section 260.1030, RSMo. Failure to timely enforce compliance with this Environmental Covenant or the activity and use limitations contained herein by any party shall not bar subsequent enforcement by such party and shall not be deemed a waiver of the party's right to take action to enforce any non-compliance. Nothing in this Environmental Covenant shall restrict any person from exercising any authority under any other applicable law.

6. Right of Access.

Owner hereby grants to the Holder and its respective agents, contractors, and employees, the right of access at all reasonable times to the Property for implementation, monitoring or enforcement of this Environmental Covenant. Nothing herein shall be deemed to limit or otherwise affect the Holder's rights of access and entry under federal or state law.

7. Notice upon Conveyance.

Each instrument hereafter conveying any interest in the Property or any portion of the Property shall contain a notice of the activity and use limitations set forth in this Environmental Covenant, and provide the recording reference for this Environmental Covenant. The notice shall be substantially in the following form:

THE INTEREST CONVEYED HEREBY IS SUBJECT TO AN ENVIRONMENTAL COVENANT, DATED _____, 20__, RECORDED IN THE OFFICE OF THE RECORDER OF DEEDS OF _____ COUNTY, _____, ON _____, 20__, AS DOCUMENT ____, BOOK ____, PAGE.

Owner/Transferee shall notify the Holder within ten (10) days following each conveyance of an interest in any portion of the Property. The notice

shall include the name, address, and telephone number of the Transferee, and a copy of the deed or other documentation evidencing the conveyance.

8. Representations and Warranties.

Owner hereby represents and warrants to the Holder that Owner has the power and authority to enter into this Environmental Covenant, to grant the rights and interests herein provided and to carry out all of Owner's obligations hereunder; that Owner is the sole owner of the Property and holds fee simple title to the Property; and that this Environmental Covenant will not materially violate or contravene or constitute a material default under any other agreement, document or instrument to which Owner is a party or by which Owner may be bound or affected.

9. Amendment or Termination.

This Environmental Covenant may be amended or terminated by Owner/Transferee with consent signed by the Holder. Any signatories to this Environmental Covenant other than Owner/Transferee and the Holder hereby waive the right to consent to any amendment to, or termination of, this Environmental Covenant. Within thirty (30) days of signature by all requisite parties on any amendment or termination of this Environmental Covenant, Owner/Transferee shall file such instrument for recording with the office of the recorder of the county in which the Property is situated, and within thirty (30) days of the date of such recording, Owner/Transferee shall provide a file- and date-stamped copy of the recorded instrument to the Holder.

10. Severability.

If any provision of this Environmental Covenant is found to be unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired.

11. Governing Law.

This Environmental Covenant shall be governed by and interpreted in accordance with the laws of the State of Missouri.

12. Recordation.

Within thirty (30) days after the date of the final required signature upon this Environmental Covenant, Owner shall record this Environmental Covenant with the office of the recorder of the county in which the Property is situated.

13. Effective Date.

The effective date of this Environmental Covenant shall be the date upon which the fully executed Environmental Covenant has been recorded with the office of the recorder of the county in which the Property is situated.

14. Distribution of Environmental Covenant.

Within thirty (30) days following the recording of this Environmental Covenant, or any amendment or termination of this Environmental Covenant, Owner/Transferee shall, in accordance with Section 260.1018, RSMo, distribute a file- and date-stamped copy of the recorded Environmental Covenant to: (a) each signatory hereto; (b) each person holding a recorded interest in the Property; (c) each person in possession of the Property; (d) each municipality or other unit of local government in which the Property is located; and (e) any other person designated by the Holder.

Legal Description: See Exhibit A

ENVIRONMENTAL COVENANT

This Environmental Covenant is entered into by and between BFI Waste Systems of North America, LLC, a Delaware limited liability company, as successor-in-interest to Browning-Ferris Industries of Kansas City, Inc., a Missouri corporation (“Owner”), and the Missouri Department of Natural Resources (the “Holder”), pursuant to the Missouri Environmental Covenants Act, Sections 260.1000 through 260.1039, RSMo.

RECITALS

WHEREAS,

Owner, whose mailing address is 8501 Stillhouse Road, Liberty, Missouri 64068, is the owner in fee simple of certain real property commonly known and numbered as 8501 Stillhouse Road, Liberty, Missouri 64068, and legally described as set forth on Exhibit A attached hereto (the “Property”);

WHEREAS,

Certain metals and organic compounds have been detected in groundwater at the Property at levels above applicable groundwater protection standards, as set forth on Table 5 attached hereto;

WHEREAS,

Owner desires to grant to the Holder, whose mailing address is 1730 E. Elm Street (Lower Level), Jefferson City, MO 65101, this Environmental Covenant for the purpose of subjecting the Property to certain activity and use limitations as provided in the Missouri Environmental Covenants Act;

WHEREAS,

By agreeing to the covenants set forth herein, Owner is fulfilling certain obligations set forth in the Hazardous Waste Management Facility Permit issued by the Department for the Property (Permit No. MOD000624452) (the “Permit”);

NOW THEREFORE, Owner and the Holder agree to the following:

1. Parties.

The Owner and the Holder are parties to this Environmental Covenant and may enforce it as provided for in Section 260.1030, RSMo.

2. **Activity and Use Limitations.**

In accordance with Special Permit Condition XIV set forth in the Permit, Owner hereby subjects the Property to, and agrees to comply with, the following activity and use limitations:

Nonresidential Use or Construction Worker Use: The Property currently meets the Department's standards for restricted nonresidential or construction worker use, and, based on reports on file at the Holder offices in Jefferson City, Missouri, the contaminants present pose no unacceptable present or future risk to human health or the environment based on restricted use of the Property. No further response action for the Property is required by the Holder as long as the Property is not to be used for residential or other purposes constituting unrestricted use. Except as provided in this Section below, the Property shall not be used for purposes other than nonresidential or construction worker uses. If any Owner desires in the future to use the Property for residential or other purposes constituting unrestricted use, the Holder must be notified 120 days in advance and further analyses and, as necessary, response action(s) will be required prior to such use. The Property may not be used in a manner that conflicts with this restriction.

No Drilling or Use of Groundwater: The groundwater beneath the Property contains contaminants at concentrations exceeding applicable risk-based standards. The Owner of the Property shall prevent: use of and exposure to the groundwater; any artificial penetration of the groundwater-bearing unit(s) containing contaminants that could result in cross-contamination of clean groundwater-bearing units; installation of any new groundwater wells on the Property, except those used for investigative purposes; use of groundwater for drinking or other domestic purposes and the use of groundwater for purposes other than domestic purposes; release of groundwater to surface water bodies, whether such release is the result of human activities or is naturally occurring. Should a release of contaminated groundwater occur, the Owner must take action to contain and properly dispose of such groundwater.

No Disturbance of Soil: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the Department's risk-based standards for nonresidential or

construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, soil at the Property in such areas shall not be excavated or otherwise disturbed in any manner without the written permission of the Holder. Should the Owner desire to disturb soil at the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request approval to do so from the Holder at least 30 days before the soil disturbance activities are to begin, except, however, in the event of an emergency, in which case Owner shall give the Holder notice of excavation or disturbance that is reasonable under the circumstances. Based on the potential hazards associated with the soil disturbance activities, the Holder may deny the request to disturb the soils or may require specific protective or remedial actions before allowing such soil disturbance activities to occur. This requirement does not supersede other state and federal requirements, and may require other permits (e.g., water protection land disturbance).

Construction Restrictions: Soil at the Property contains contaminants, as identified in reports on file at the Holder offices in Jefferson City, Missouri, at concentrations exceeding the Department's risk-based standards for nonresidential or construction worker use in any areas of the Property that are covered by the multi-component clay cap. Therefore, no buildings may be constructed on the Property in such areas except with the written approval of the Holder. Should the Owner desire to construct a building on the Property in one or more of the areas covered by the multi-component clay cap, the Owner shall request permission to do so from the Holder at least 30 days before construction is anticipated to begin. Based on the potential hazards associated with the construction activities, the Holder may deny the request to construct or may require specific protective or remedial actions before allowing such construction activities to occur.

3. Running with the Land.

This Environmental Covenant shall be binding upon Owner and his/her/its heirs, successors, assigns, and Transferees in interest, and shall run with the land, as provided in Section 260.1012, RSMo, subject to amendment or termination as set forth herein. The term "Transferee," as used in this Environmental Covenant, shall mean any future owner of any interest in the Property or any portion thereof, including, but not limited to, owners of an interest in fee simple, mortgagees, easement holders, and/or lessees.

4. Location of File for the Environmental Response Project.

The file for the Property is located at the Missouri Department of Natural Resource's office at 1730 E. Elm Street (Lower Level), Jefferson City, Missouri 65101.

5. Enforcement.

Compliance with this Environmental Covenant may be enforced as provided in Section 260.1030, RSMo. Failure to timely enforce compliance with this Environmental Covenant or the activity and use limitations contained herein by any party shall not bar subsequent enforcement by such party and shall not be deemed a waiver of the party's right to take action to enforce any non-compliance. Nothing in this Environmental Covenant shall restrict any person from exercising any authority under any other applicable law.

6. Right of Access.

Owner hereby grants to the Holder and its respective agents, contractors, and employees, the right of access at all reasonable times to the Property for implementation, monitoring or enforcement of this Environmental Covenant. Nothing herein shall be deemed to limit or otherwise affect the Holder's rights of access and entry under federal or state law.

7. Notice upon Conveyance.

Each instrument hereafter conveying any interest in the Property or any portion of the Property shall contain a notice of the activity and use limitations set forth in this Environmental Covenant, and provide the recording reference for this Environmental Covenant. The notice shall be substantially in the following form:

THE INTEREST CONVEYED HEREBY IS SUBJECT TO AN ENVIRONMENTAL COVENANT, DATED _____, 20___, RECORDED IN THE OFFICE OF THE RECORDER OF DEEDS OF _____ COUNTY, _____, ON _____, 20___, AS DOCUMENT ____, BOOK ____, PAGE.

Owner/Transferee shall notify the Holder within ten (10) days following each conveyance of an interest in any portion of the Property. The notice shall include the name, address, and telephone number of the Transferee, and a copy of the deed or other documentation evidencing the conveyance.

8. Representations and Warranties.

Owner hereby represents and warrants to the Holder that Owner has the power and authority to enter into this Environmental Covenant, to grant the rights and interests herein provided and to carry out all of Owner's obligations hereunder; that Owner is the sole owner of the Property and holds fee simple title to the Property; and that this Environmental Covenant will not materially violate or contravene or constitute a material default under any other agreement, document or instrument to which Owner is a party or by which Owner may be bound or affected.

9. Amendment or Termination.

This Environmental Covenant may be amended or terminated by Owner/Transferee with consent signed by the Holder. Any signatories to this Environmental Covenant other than Owner/Transferee and the Holder hereby waive the right to consent to any amendment to, or termination of, this Environmental Covenant. Within thirty (30) days of signature by all requisite parties on any amendment or termination of this Environmental Covenant, Owner/Transferee shall file such instrument for recording with the office of the recorder of the county in which the Property is situated, and within thirty (30) days of the date of such recording, Owner/Transferee shall provide a file- and date-stamped copy of the recorded instrument to the Holder.

10. Severability.

If any provision of this Environmental Covenant is found to be unenforceable in any respect, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired.

11. Governing Law.

This Environmental Covenant shall be governed by and interpreted in accordance with the laws of the State of Missouri.

12. Recordation.

Within thirty (30) days after the date of the final required signature upon this Environmental Covenant, Owner shall record this Environmental Covenant with the office of the recorder of the county in which the Property is situated.

13. Effective Date.

The effective date of this Environmental Covenant shall be the date upon which the fully executed Environmental Covenant has been recorded with the office of the recorder of the county in which the Property is situated.

14. Distribution of Environmental Covenant.

Within thirty (30) days following the recording of this Environmental Covenant, or any amendment or termination of this Environmental Covenant, Owner/Transferee shall, in accordance with Section 260.1018, RSMo, distribute a file- and date-stamped copy of the recorded Environmental Covenant to: (a) each signatory hereto; (b) each person holding a recorded interest in the Property; (c) each person in possession of the Property; (d) each municipality or other unit of local government in which the Property is located; and (e) any other person designated by the Holder.

15. Notice.

Any document or other item required by this Environmental Covenant to be given to another party hereto shall be sent to:

If to Owner:

BFI Waste Systems of North America, LLC
8501 Stillhouse Road
Liberty, MO 64068

With a copy to:

Allied Waste Industries, Inc.
