RE: Class 1 Permit Modification with Prior Director's Approval to Eliminate the September Semiannual Groundwater Corrective Action Report, Eaton Hydraulics, LLC  
Joplin, Missouri, EPA ID# MOD007155781

Dear Mr. Rapp:

The Missouri Department of Natural Resources (Department) hereby approves Eaton Hydraulics, LLC's (Eaton) Class 1 Permit Modification with Prior Director's Approval request, dated May 10, 2013. The request was to eliminate the September Semiannual Groundwater Corrective Action Report, which was required under Special Permit Condition IV. F. of the Missouri Hazardous Waste Management Facility (MHWMF) Part I Permit.

The U. S. Environmental Protection Agency, *Resource Conservation and Recovery Act*, Burden Reduction Final Rule became effective in Missouri on June 30, 2009, and allows annual reporting as opposed to semiannual reporting as had been required by the MHWMF Part I Permit due to the requirements at the time that the permit was originally issued.

Eaton must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days of receipt of this letter, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1) and modified by 10 CSR 25-7.270(2)(A)6 and 10 CSR 25-7.270(2)(B)10. Eaton must send a copy of the notice to the Department.

Recycled Paper
