RE: Class 1 Permit Modification without Prior Director's Approval  
Piping Replacement and Shredder Relocation  
Green America Recycling, LLC, Hannibal, Missouri  
EPA ID# MOD054018288

Dear Mr. Woodward:

The Missouri Department of Natural Resources (Department) received Green America Recycling, LLC's (GAR) Class 1 Permit Modification notice dated June 27, 2014. The notification was to replace the piping between the hydropulper and tank farm with functionally equivalent components to allow for a backup route in case the line becomes plugged. The notification was also to relocate the shredder that had been approved on September 19, 2013 to be placed in Feed Prep #2 next to the Solidification and Special Treatment Unit (SSTU). This modification notifies the Department that a shredder will not be placed in Feed Prep #2 next to the SSTU. The shredder will instead be placed back in Feed Prep #1, where it previously resided.

The Department agrees with GAR that this is a Class 1 Permit Modification not requiring prior director approval. GAR must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, as outlined in Code of State Regulations 10 CSR 25-7.270(1) which incorporates and modifies Code of Federal Regulations 40 CFR 270.42(a)(1)(ii). GAR must send a copy of the notice to the Department.

If you have questions regarding this letter, please contact Mr. Dustin Thoenen, Project Manager, of my staff at the Missouri Department of Natural Resources, Hazardous Waste

Recycled Paper
