RE: Class 1 Permit Modification without Prior Director's Approval  
Feed Prep #2 Conveyer Upgrade  
Green America Recycling, LLC, Hannibal, Missouri  
EPA ID# MOD054018288

Dear Mr. Nelson:

The Missouri Department of Natural Resources (Department) received Green America Recycling, LLC's (GAR) Class 1 Permit Modification notice, dated January 30, 2015. The notification was to upgrade the conveying system for the Solidification and Special Treatment Unit (SSTU) to the Hydropulper (Pulper) located in Feed Prep #2. The upgraded plunger conveyer will allow for better movement of material from the SSTU to the Pulper, reduce potential exposure to workers, and reduce potential for spills associated with digging out jams with the old auger conveyer.

The Department agrees with GAR that this is a Class 1 Permit Modification not requiring prior director approval, according to the Code of State Regulations 10 CSR 25-7.270(1), which incorporates and modifies the Code of Federal Regulations 40 CFR 270.42, Appendix I, A.3. GAR must send a notice of this modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, according to 10 CSR 25-7.270(1) and 10 CSR 25-7.270(2)(A)6, which incorporates and modifies 40 CFR 270.42(a)(1)(ii). GAR must send a copy of the notice to the Department.
