RE: Approval of the Class 2 Permit Modification Request Dated August 7, 2007
The Doe Run Company, Buick Resource Recycling Facility, Boss, Missouri
EPA ID# MOD059200089

Dear Mr. Lanzafame:

This letter is to notify you that the Missouri Department of Natural Resources received The Doe Run Company's Class 2 permit modification request dated August 7, 2007. This modification request was submitted for the addition of a Soda Slag Storage Bunker adjacent to the currently permitted Reverberatory Furnace Feed Bunker, which is housed within the designated and permitted Reverberatory Furnace Feed Bunker Containment Building. Upon receipt of this approval letter, the soda slag bunker will be constructed of a walled area within the existing containment building adjacent to the reverberatory feed bunker, in accordance with the design specifications in the August 7, 2007, modification request. The department hereby approves the modification request.

Prior to the receipt of waste in the new storage unit, Doe Run shall modify its financial assurance instrument to reflect the closure costs associated with closing the Soda Slag Storage Bunker as described in the August 7, 2007, permit modification request. It is the department's understanding that Doe Run has already contacted the program regarding financial assurance arrangements.

Mr. James M. Lanzafame

Public participation requirements for a Class 2 permit modification were followed in accordance with 40 CFR 270.42(b). No comments were received.

If you have any questions regarding this letter, please contact Mr. Richard Hock at the Missouri Department of Natural Resources, Hazardous Waste Program, P.O. Box 176, Jefferson City, MO 65102-0176, or by phone at (573) 751-3553 or 1-800-361-4827, or by e-mail at richard.hock@dnr.mo.gov. Hearing- and speech-impaired persons may reach Mr. Hock through Relay Missouri at 1-800-735-2966.

Sincerely,

DIVISION OF ENVIRONMENTAL QUALITY
