RE: Class 1 Permit Modification with Prior Director's Approval
Buick Resource Recycling Facility, Boss, Missouri
EPA ID# MOD059200089

Dear Mr. Lanzafame:

This letter is to notify you that the Missouri Department of Natural Resources (Department) reviewed Buick Resource Recycling Facility's (BRRF) Class 1 Permit Modification request, dated August 18, 2010. The request was to modify the Covered Materials Storage Bins (CMSB). BRRF plans on extending the wall, which is currently in place between Bin 11 and Bin 12 of the CMSB, from the current height to the ceiling. This modification will provide a barrier between Bin 11 and Bin 12. BRRF is installing the wall to separate Bin 11 and Bin 12 with the intent of closing Bin 11 of the CMSB. BRRF began closure activities at Bin 11 on August 11, 2010. The Department agrees with BRRF that this is a Class 1 Permit Modification requiring prior director approval. We are approving the modification request with the following conditions:

1. BRRF shall notify Mr. George Fletcher of my staff at least 15 days prior to commencement of construction.
2. The closure of Bin 11 shall comply with BRRF's February 16, 2010 approved Class 2 Permit Modification.
3. BRRF shall ensure that during construction of the wall, steps are taken to ensure proper operation of the permitted CMSB.
4. BRRF shall implement this permit modification within 90 days of receipt of this approval.

BRRF must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this

BRRF shall submit photo documentation that the wall was modified as described in the modification request within 30 days of construction completion.
