RE: Class 1 Permit Modification with Prior Director's Approval
Proposed Opening Between the Industrial Battery and Battery Shredder Areas
The Doe Run Company - Buick Resource Recycling Facility, LLC, Boss, Missouri
EPA ID# MOD059200089

Dear Mr. Lanzafame:

The Missouri Department of Natural Resources (Department) hereby approves Buick Resource Recycling Facility, LLC's (BRRF) Class 1 Permit Modification request, dated November 4, 2013, with additional information submitted on December 17, 2013, without changes. The modification request was to create an opening between the industrial battery handling and the battery shredder areas that will be covered with a plastic strip door or a door of similar style and material to allow industrial batteries to pass through the wall on a conveyor system for shredding in preparation for complying with the revised Secondary Lead Maximum Achievable Control Technology (MACT) requirements.

We are approving the Class 1 Permit Modification request requiring prior director approval per the 40 CFR 270.42 (d)(2)(i), incorporated by reference in 10 CSR 25-7.270(1) with the following conditions.

1. The plastic strip door or a door of similar style and material should be inspected on a regular basis to verify compliance with the Secondary Lead MACT requirements.
2. The addition of the new conveyor system will likely cause a negligible increase in closure costs that should be covered by the current 15 percent contingency in the current closure cost estimate. However, BRRF should verify that any increase the closure costs of the additional equipment will be covered by the 15 percent contingency or submit a revised closure cost estimate for the increased amount, if necessary.

BRRF must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this letter, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1) and modified by 10 CSR 25-7.270(2)(A)6 and 10 CSR 25-7.270(2)(B)10. BRRF must send a copy of this notice to the Department.

If you have questions regarding this letter, please contact William Fanska, P.E., of my staff at the Missouri Department of Natural Resources, Hazardous Waste Program, P.O. Box 176, Jefferson City, MO 65102-0176, by telephone at (573) 751-3553 or 1-800-361-4827, or by e-mail at bill.fanska@dnr.mo.gov. Thank you.

Sincerely,

HAZARDOUS WASTE PROGRAM
