RE: Class 2 Permit Modification Addition of Waste Codes and Storage Container Area
Expansion, Lone Star Industries (LSI) - Buzzi Unicem USA, Cape Girardeau, Missouri
EPA ID# MOD981127319

Dear Mr. Meyr:

The Missouri Department of Natural Resources' Hazardous Waste Program (HWP) has reviewed the December 6, 2005, submittal and all supporting documentation requesting a Class 2 permit modification to LSI's Missouri Hazardous Waste Management Facility Permit. The modifications requested were regarding the changes in the waste codes and additional surface area to the current existing drum storage area. The HWP acknowledges LSI's classification as a Class 2 permit modification. The following modifications add new waste codes in the Part A application and changes the Facility Drawing of the drum storage area in the Part B section of the original permit application.

The HWP hereby approves the modification request in accordance with the procedures for a Class 2 permit modification described in 40 CFR 270.42 (b), as incorporated in 10 CSR 25-7.270, contingent upon the following conditions:

Within 30 days from the approval of the modifications:

- LSI must submit to the department specifications and "as-built" construction drawings for Container Storage Area and the associated secondary containment.
- LSI must update any increase in closure costs/financial assurance that may occur with the additional storage area.

Mr. Bradley Meyr

Public participation requirements for a Class 2 permit modification were followed in accordance with 40 CFR 270.42(b); the public meeting was held on December 13, 2005. One comment from the public was received and the response to this comment is enclosed.

If you have any questions regarding this letter, please contact Robert Clay, P.E., Environmental Engineer, at the Missouri Department of Natural Resources, HWP, P.O. Box 176, Jefferson City, MO 65102-0176, or by phone at (573) 751-3553.

Sincerely,

HAZARDOUS WASTE PROGRAM
