RE: Class 1 Permit Modification Without Prior Director's Approval  
Tank Mixer Removal  
Heritage Environmental Services, LLC, Kansas City, Missouri  
EPA ID# MOD981505555

Dear Mr. Ferrill:

The Missouri Department of Natural Resources (DNR) received Heritage Environmental Services, LLC's (Heritage) Class 1 Permit Modification notice, dated December 2, 2013. The notification was to remove the side-mounted mixers from Supplemental Fuel Tanks 1 and 2. The mixers were unnecessary for the operation of the tank system. The Class 1 Permit Modification also provided an updated Table 1 Parameters for Analytical Testing with current parameters and limitations of Heritage's City of Kansas City discharge permit.

The DNR agrees with Heritage that this is a Class 1 Permit Modification not requiring prior director approval per the Code of Federal Regulations (40 CFR 270.42(d)(2)(i)), incorporated by reference in Code of State Regulations (10 CSR 25-7.270(1)). The DNR notes that the changes do not substantially alter the permit conditions or reduce the capacity of the facility to protect human health and the environment. Heritage already sent a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, as outlined in Code of Federal Regulations (40 CFR 270.42(a)(1)(ii)), incorporated by reference in Code of State Regulations (10 CSR 25-7.270(1)). On December 9, 2013, the DNR received a copy of the notice, dated December 2, 2013.

The Department notes that the compact disk included in Enclosure 4 of the Permit Modification Request was empty. Please submit a new disk to the DNR. The DNR also notes that the replacement pages provided in Enclosure 1 apply to the Permit Application Volume IV., Section O, rather than Volume VII.

Recycled Paper
