

Implementing an NPDES Phase II Program

Neosho Municipal Auditorium, Neosho, Missouri

Wednesday, May 10, 2006
9 a.m. - 4 p.m.

Phase II Program Overview

Background and the required six minimum control measures to promote pollutant load reduction.

Public Education and Outreach

How to distribute educational materials and perform outreach to inform citizens of reasons to control storm water runoff.

Public Participation and Involvement

How to provide opportunities for citizens to participate in storm water program development and implementation.

Illicit Discharge Detection and Elimination

How to develop and implement an IDDE program to stop and prevent illicit discharges to the storm water system.

Lunch (on your own)

Construction Site Runoff Control

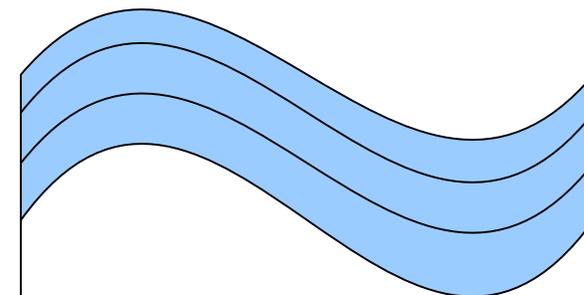

How to develop, implement and enforce a sediment and erosion control program for construction activities.

Post Construction Site Runoff Control

How to develop, implement and enforce a program to address discharges of post-construction runoff and how to provide appropriate storm water treatment practices.

Pollution Prevention and Good Housekeeping

How to develop and implement a program with the goal of preventing or reducing pollutant runoff from municipal operations.

This workshop is presented by Neosho Public Works and the Missouri Department of Natural Resources.

Funding is provided in part by a Clean Water Act Section 319 grant from the U.S. Environmental Protection Agency through the Department of Natural Resources.
