

DO NOT USE

This equipment has been taken “Out of Service” by the Missouri Department of Natural Resources because of defects in the vapor recovery system. Use of this equipment prior to repair and re-inspection will result in fines and other penalties. Please refer to other side of this tag for details.

Any questions concerning the use or repair of this equipment should be directed to the St Louis Regional Office Vapor Recovery Unit at **314-416-2960**.

DO NOT USE

This equipment has been taken “Out of Service” by the Missouri Department of Natural Resources because of defects in the vapor recovery system.

TO GET THE EQUIPMENT BACK INTO SERVICE:

1. Complete repair of all defects cited during the inspection.
2. Contact the inspector at **314-416-2960** to request a re-inspection. If the inspector is not available, leave the facility name and address with the receptionist.

If all repairs are satisfactory, the inspector will remove the tags and the equipment put back into service. **ONLY THE INSPECTOR CAN PLACE THE EQUIPMENT BACK INTO SERVICE.** If it is necessary to remove the tag to make the repair, the maintenance person should put the tag back on the equipment and lock it down to prevent its use until re-inspection.

USING TAGGED OUT EQUIPMENT IS SUBJECT TO FINES AND OTHER PENALTIES.
