

MISSOURI DEPARTMENT OF NATURAL RESOURCES
SOLID WASTE MANAGEMENT PROGRAM
SOLID WASTE MANAGEMENT DISTRICT ANNUAL REPORT

1. SOLID WASTE MANAGEMENT DISTRICT

Region C Northeast Missouri SWMD

2. FISCAL YEAR PERIOD:

FROM JULY 1, 2,010. TO JUNE 30, 2,011

GOALS AND ACCOMPLISHMENTS

3 (a). What waste goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

Thru the funding of a grant with our largest population center we now have a permanent HHW collection facility which services our largest community and the surrounding county. The establishment of an HHW facility has long been a goal.

Two of the sub-grantees that we worked with this year conducted educational programs in their communities and schools.

3 (b). What waste goals does the district have for the upcoming fiscal period and what actions does the district plan to take to achieve these goals. Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

The district continues to encourage grant proposals from all entities seeking to reduce the amount of waste going into landfills. We are a minimally funded district and consider all grant proposals. We always notify all community/county governments, schools and recyclers in our six counties when a grant call is being advertised.

4 (a). What recycling goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

1. More drop off sites for recyclables is an ever present goal. A grant with the City of Canton has opened a collection facility that serves the community and surrounding county population.

2.

SWMP OPERATIONS

4 (b). What recycling goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

We still have two counties in our area that offer no recycling collection or drop off, we would like to see development of drop off sites in these two counties and will encourage grant proposals to that end.

5 (a). What resource recovery goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

We would have liked to see grants that would produce an end product from recycled materials but unfortunately we saw the exact opposite when Truman University ended its glass recycling program.

5 (b). What resource recovery goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

We will continue to encourage post consumer product grants in order to develop markets for recycled materials.

6. SUMMARIZE THE TYPES OF PROJECTS AND RESULTS DURING FISCAL YEAR (ATTACH ADDITIONAL SHEETS IF NEEDED.)

Name of Project Resulting in Tonnage Diversions from Landfills	Cost of Project	Number of Tons Diverted	Average Cost Per Ton Diverted
City of Memphis Chipper	27,000.00	158.00	171.00
City of Kirksville HHW	17,203.00	3.50	4,915.00
City of Canton Recycling Center	10,054.00	93.00	108.00

Measurable outcomes achieved

1. The City of Memphis is able to divert yard waste by creating a mulch that is offered back to the citizens for use.
2. Kirksville HHW project is diverting harmful chemicals from the environment. This is the only HHW service offered in the six counties of our district.
3. Canton's Recycling Center has added a much needed collection point for recyclables in an area where there has never been a service of this kind.

All of the project will continue to divert waste from the Landfill in the future.

SWMP OPERATIONS

7. SUMMARIZE PROJECTS NOT RESULTING IN TONNAGE DIVERSION

Projects not resulting in tonnage diversions from landfills	Cost of Project
City of Queen City Post Consumer Park Renovation	36,825.00
Kirksville R-III Early Childhood Development Outdoor Classroom	61,188.00

Measurable outcomes achieved for these projects.
 Both of these projects support market development for post-consumer products as well as contribute to the environmentally responsible education of our youth.

8. IDENTIFY SEPARATE STATISTICS FOR ITEMS BANNED FROM LANDFILLS

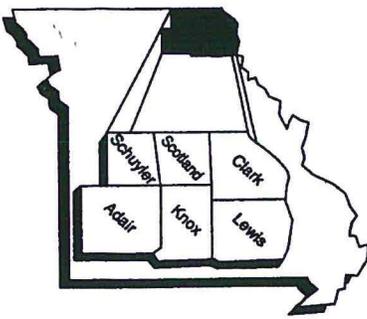

List projects resulting in tonnage diversions from landfills	List cost of project resulting in tonnage diversion	Number of tons diverted from project	Average cost per ton diverted project
City of Memphis Chipper	27,000.00	158.00	171.00
City of Kirksville HHW	17,203.00	3.50	4,915.00

9. IDENTIFY SEPARATE STATISTICS FOR ITEMS NOT BANNED FROM LANDFILLS

List projects resulting in tonnage diversions from landfills	List cost of project resulting in tonnage diversion	Number of tons diverted from project	Average cost per ton diverted project
City of Canton Recycling Center	10,054.00	93.00	108.00

10. Describe your district's grant proposal evaluation process.
 Grant applications are received in office and checked by staff for completeness. Applications are given to all Executive Board members for their review and ranking. A Board meeting is held and applications may be discussed at that time, then a vote is held for each application to approve or not. Any board member that is involved with any of the grant applicants abstains from voting.
