Clean Water Rules Review

Statutory changes have been made to Chapter 536, Administrative Procedure and Review, based on House Bill 1135. All executive departments are now required to periodically review all agency rules.

The Department of Natural Resources' Water Protection Program is soliciting comments through Dec. 4, 2015 on all relevant rules. There will be a formal time for comment in 2016, but given the volume of clean water rules, this is an earlier opportunity to offer comments.

Rule Review Requirements pursuant to Section 536.175, RSMo:

- The department's rules contained in Title 10 of the Code begin the official review process no later than July 1, 2016. Action by the Joint Committee on Administrative Rules (JCAR) will produce the required Notification of Agency Review in the *Missouri Register* based on the titles in the Code of State Regulations to be reviewed. Anyone may submit comments within 60 days of publication of the notification.
- The department's review of rules will be filed electronically in a report to JCAR and the Missouri Small Business Regulatory Fairness Board, no later than June 30, 2017, and posted on the department's website. The Water Protection Program must publish a report containing the results of the review. An appendix of comments and responses will be attached to the report.
- Comments must include the rule and commenter and be directly associated with the rule. The notification in the *Register* will list the agency designee(s) assigned to receive comments.

Rule review and comment criteria are the following (Section 536.175.4):

1. Whether the rule continues to be necessary, taking into consideration the purpose, scope, and intent of the statute under which the rule was adopted,
2. Whether the rule is obsolete, taking into consideration the length of time since the rule was modified and the degree to which technology, economic conditions, or other relevant factors have changed in the subject area affected by the rule,
3. Whether the rule overlaps, duplicates, or conflicts with other state rules, and to the extent feasible, with federal and local governmental rules,
4. Whether a less restrictive, more narrowly tailored, or alternative rule could adequately protect the public or accomplish the same statutory purpose,
5. Whether the rule needs amendment or rescission to reduce regulatory burdens on individuals, businesses, or political subdivisions or eliminate unnecessary paperwork,
6. Whether the rule incorporates a text or other material by reference and, if so, whether the text or other material incorporated by reference meets the requirements of section 536.031, and
7. For rules that affect small business, the specific purpose or interest for adopting the rules and any other reasons to justify its continued existence.
