**Small Borrower Loan Request - City of Grandin**

**Issue:** The city of Grandin submitted a request for a small borrower loan. The city requests \$95,670 to fund the costs to upgrade the existing wastewater treatment system.

**Background:** The city of Grandin's existing wastewater treatment system currently consists of approximately 52 manholes, one duplex lift station, a force main and over three miles of gravity flow collection line. The wastewater treatment facility consist of a three cell, sludge retained lagoon. Installation of an ultraviolet unit will include installing the unit itself and some minor piping that will allow the use of the existing parshall flume.

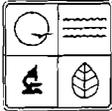

The city intends to furnish and install an ultraviolet unit, modify the current discharge structure, and provide electricity to power the ultraviolet unit. Total project costs are estimated to be \$95,670. The small borrower loan will complete the cost of construction.

**Recommend Action:** The Department recommends that the Commission approve the proposed small borrower loan to the city of Grandin for \$95,670.

**Suggested Motion Language:** "I move to approve the small borrower loan of \$95,670 for the city of Grandin."

**Attachment:** Copy of Grandin's application for funding.
