9) Summary and next steps	3:15 – 4:00

The Missouri Department of Natural Resources has identified Chapter 6 as a potential rulemaking amendment. These workgroup has been convened for the purpose of informal and voluntary public participation and discussions regarding the development of this rule prior to initiating formal rulemaking.

Under Governor Greitens' leadership, all state agencies are working to reduce regulations and other government processes that unnecessarily burden individuals and businesses while doing little to protect or improve public health, safety, and our natural resources. The Missouri Department of Natural Resources is committed to limiting regulation to what is necessary to protect Missouri's environment, implementing statutory mandates, and maintaining state control of programs. Any further proposed changes to rules discussed on this page are being developed with these goals in mind. We welcome your comments to help ensure that our regulations provide required protections but do not add unnecessary costs.

For more information regarding Chapter 6 Permits, please contact Leasue Meyers at leasue.meyers@dnr.mo.gov (specific to 10 CSR 20-6.010) or Michael Abbott at michael.abbott@dnr.mo.gov.
