

Goals of TALU Technical Subcommittee

*as defined at the Water Classification Workgroup meeting of 6/28/12

- 1) Look at current aquatic life uses and develop more appropriate uses.
- 2) Look at definitions and what these mean – highlight critical terms.
- 3) Establish data quality objectives.
- 4) Review other states' protocol.
- 5) Develop decision tree.
- 6) Define/develop aquatic life subcategories – pilot project.
- 7) Establish decision guidelines/metrics.
