Department of
Natural Resources**

**Priority Points System & General SRF Regulation Stakeholders Meeting Summary
June 14, 2006**

Using the "Discussion Draft" priority point system, the group began a general discussion of items that should be considered for a revised priority point system. The following items and how they affect the rank of potential projects are to be discussed in further detail at the next meeting.

- Impaired waters
- Protection of high quality waters
- Health & Welfare
- Discourage artificially low rates
- Reward responsible system management and rates
- Income
- Distressed communities
- Old infrastructure
- New standards
- Combined sewer overflows & Sanitary sewer overflows
- Address non-compliance
- Reward for inflow/infiltration remediation program
- Water conservation
- Energy conservation
- Nonpoint Source – public > private
- Nonpoint source
- Watershed planning
- Regionalization/Consolidation
- Community size/population (Separate priority point systems for large and small communities)
- Compatibility with other programs (CDBG, USDA-RD)

Next meeting:

September 21, 2006
Lewis & Clark State Office Building
Gasconade Camp Conference Room
