

3.3.2.2 Overview of the Permit/General Permits/Facility-Specific Information/ Facility Description

Applicability:

This section applies to staff issuing general permits under an established statewide template.

Content:

The facility description, like the rest of the text in the general permit template, is not to be altered when a general permit is issued to a permit holder. If it seems that alterations need to be made, then use of a different general permit or a site specific permit should be evaluated.
