

4.7.4.2.5.7 Application and Review Process/Review of the Permit
Application/
Technical Review/Application for Permit Modification at Existing
Facility/
Other Permits/Municipal MS4 Permits

Applicability:

Application for a permit modification at an existing Municipal Separate Storm Sewer System (MS4) facility.

Content:

The three large or medium MS4s in the state may seek to modify their MS4 permit by submitting a new permit application, or if the change is not significant, by submitting a notice of the change (10 CSR 20-6.200(D)3). Permit modifications for the small MS4 general permits are limited to owner/address changes as the general permit template can only be modified for all facilities covered by the general permit at once, not an individual facility or permit.
