

DRAFT **Data Sheet E – Results of Internal Review Committee**

Date of Review/Recommendation: January 29, 2009

Water Body Under Evaluation:

Water Body ID #: 0741
Name: Owl Creek (Class C)
Length of Segment: 2.0 miles
County(ies): Callaway

Use Attainability Analysis (UAA) Study:

UAA ID #: 0362
Submitter: MEC Water Resources
Date(s) Conducted: September 26, 2007
Date Received: December 1, 2007
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- 1-Natural Pollutant Sources.
- 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- 3-Non-Remedial, Human Caused Condition.
- 4-Hydrologic Modifications.
- 5-Natural Physical Features.
- 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? Yes No Unknown

Comments: The UAA survey was conducted in September 2007 and no WBCR was observed. No interviews were conducted during the survey. A stairway leading from the creek to an adjacent property, along with footprints, was observed during the survey – evidence of secondary contact.

Is the evaluated use attainable? Yes No

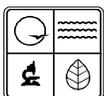

Comments: The stream did not meet the depth criteria at any of the 3 sites evaluated. Due to not meeting the depth criteria and no evidence of existing use, the committee recommends the WBCR use designation be removed. Due to evidence of secondary contact (stairway and footprints), the committee recommends Secondary Contact Recreation be assigned.

Committee Recommendation:

- Add Use Retain Use Remove Use
- Modify Use Inconclusive
