Use Determination & Recommendation:

Has the use existed since November 28, 1975? Yes No Unknown

Comments: The UAA survey was conducted in October 2008 and no WBCR was observed. No interviews were conducted during the survey. However, many comments have been received that cite swimming and secondary contact recreation (SCR).

Is the evaluated use attainable? Yes No

Comments: The stream met the maximum depth criterion at 2 out 3 sites evaluated. Because the stream met the maximum depth criterion and there is evidence of existing use, the committee recommends that the WBCR use designation be retained. Due to SCR reported in comments, the committee recommends that the SCR use also be retained.

Committee Recommendation: Add Use Retain Use Remove Use
