ANNUAL OPERATIONS STATUS REPORT – IN-STREAM SAND AND GRAVEL OPERATIONS

Operations removing sand and/or gravel from within a stream are asked to report where sand and/or gravel removal occurred during the past permit year.

Example – If your permit year runs from May 25 last year to May 24 this year, you would report all areas mined during that 12 month period.

These reports are due within 60 days of the date the current permit expiring or of the date the last permit was renewed.

Use the following table to report the site(s) where mining occurred along with the affected acreage at the site.

PLEASE COMPLETE THE FOLLOWING

NAME OF PERMIT HOLDER	PERMIT NUMBER	PERMIT YEAR
-----------------------	---------------	-------------

LIST ALL LOCATIONS WHERE SAND AND GRAVEL WERE REMOVED DURING THE PAST PERMIT YEAR
